**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

### Report on the Audit of the Financial Statements

#### **Scope and Nature of the ERISA Section 103(a)(3)(C) Audit**

We have performed audits of the accompanying financial statements of Comau LLC Employees' Retirement Income Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Comau LLC Employees' Retirement Income Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

#### **Opinion**

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Comau LLC Employees' Retirement Income Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Comau LLC Employees' Retirement Income Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

***Auditors' Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Plan Administrator  
Comau LLC Employees' Retirement Income Plan

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Comau LLC Employees' Retirement Income Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Comau LLC Employees' Retirement Income Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

***Other Matter — Supplemental Schedule Required by ERISA***

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**COMAU LLC EMPLOYEES' RETIREMENT INCOME PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 1 DESCRIPTION OF THE PLAN**

The following description of Comau LLC (the Company) Employees' Retirement Income Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

**General**

The Plan is a defined benefit pension plan established October 1, 1964. The Plan was amended and restated throughout the years to comply with tax legislation and most recently amended effective January 1, 2024.

The Plan was amended effective January 1, 2024 to increase the mandatory cash out limit to \$7,000.

The Plan was amended effective January 1, 2023 to allow participants who are members of the Novi Industries Employees Association Bargaining Unit currently eligible to earn additional credited service to make a one-time irrevocable election to waive the right to any additional accruals under the Plan effective after June 30, 2023 in exchange for eligibility for employer and matching contributions under the Comau LLC 401(k) Plan.

The Plan was amended effective December 1, 2023 to allow participants who are members of the Comau Employees Association Bargaining Unit currently eligible to earn additional credited service to make a one-time irrevocable election to waive the right to any additional accruals under the Plan effective after March 31, 2024 in exchange for eligibility for employer and matching contributions under the Comau LLC 401(k) Plan.

The Plan is administered by the Company, and the Company has overall responsibility for the operation and administration of the Plan. The Company has delegated investment fiduciary responsibility to the Pension Investment Committee of the FCA US LLC Board, and that Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Company.

The Plan covers substantially all employees of the Company who were hired prior to June 3, 2010 or rehired prior to January 1, 2013. The Plan is currently frozen to new participants and excludes both union and non-union employees hired prior to varying dates noted in the collective bargaining agreements and plan document, respectively. The current collective bargaining agreements no longer allow for new participation in the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

**COMAU LLC EMPLOYEES' RETIREMENT INCOME PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)**

**Pension Benefits**

The Plan is comprised of both non-union and union employees, as noted above, each of which have varying terms and formulas. Benefit accruals have been frozen for non-union employees effective April 1, 2013.

Participants become fully vested in the Plan upon attaining normal retirement age or a participant's early retirement date, death, total disability, or upon the completion of five years of vesting service. Normal retirement age is defined as the older of age 65 or the age of the participant on the date five years after the first day of the Plan year in which his plan entry date occurred. A participant's early retirement date is the first day of the month on which the participant ceases to be an employee and has attained age 55 and completed ten years of vesting service.

**Death and Disability Benefits**

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age.

**Funding Policy**

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2024 and 2023, the Company made no contributions. The Company's contributions for 2024 and 2023 met the minimum funding requirements of ERISA.

Although it has not expressed an intention to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to provisions set form in ERISA.

**COMAU LLC EMPLOYEES' RETIREMENT INCOME PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 2 SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Accounting**

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

**Investment Valuation and Income Recognition**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustees. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Payment of Benefits**

Benefits are recorded when paid.

**Administrative Expenses**

The Plan's expenses are paid either by the Plan or the Company as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

**Subsequent Events**

The Plan has evaluated subsequent events through October 3, 2025, the date the financial statements were available to be issued.

**COMAU LLC EMPLOYEES' RETIREMENT INCOME PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- a) retired or terminated employees or their beneficiaries,
- b) beneficiaries of employees who have died, and
- c) present employees or their beneficiaries.

Benefits under the Plan are accumulated based on the employees' credited years multiplied by the respective benefit rate or rates applicable to each plan year. Benefits payable under all circumstances - retirement, death, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided through annuity contracts are excluded from plan assets and are also excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

**COMAU LLC EMPLOYEES' RETIREMENT INCOME PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)**

The significant actuarial assumptions used in the valuation as of December 31, 2023 were:

*Interest Rate:* Investment return, net of expenses, on Plan assets was at the rate of 5.08% per year.

*Retirement Age:* Employees are assumed to retire at varying ages from 55 to 70.

*Mortality Basis:* Pri-2012 base mortality tables with no collar adjustment, projected using the MSS-2023 projection scale.

*Turnover:* Actuarial assumptions include provisions for employees who terminate their employment for reasons other than death, disability, or retirement using predetermined annual rates which vary by age.

*Form of Payment:* 100% of single participants are assumed to elect a single life annuity and married participants have split assumptions between electing a single life annuity and joint & 55% survivor annuity, depending upon their status.

*Percentage Married:* 80% of active male members are assumed to be married and to be three years older than their spouse. 70% of active female participants are assumed to be married and to be 3 years younger than their spouse.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2024. Had the valuation been performed as of December 31, 2023, there would be no material differences.

**NOTE 5 INTEREST IN MASTER TRUST**

For the period January 1, 2023 through December 17, 2024, the Plan's investments were in the FCA US LLC Master Retirement Trust (Master Trust), which was established for the investment of the assets of the Plan and other retirement plans sponsored by FCA US LLC. The assets of the Master Trust are held by the qualified institution.

Effective December 18, 2024, the Plan's assets were transferred out of the Master Trust, and as of December 31, 2024, the Plan did not have an interest in the Master Trust.

The Plan had a divided interest in the Master Trust, and this interest was allocated its respective share of commingled assets based on the number of units owned by the respective plan. The value of the Plan's interest in the master trust was based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. The qualified institution is not responsible for investment-making decisions.

**NOTE 6 FAIR VALUE OF INVESTMENTS**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

*Level 1* – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

*Level 2* – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

*Level 3* – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The use of different market assumptions and/or different valuation techniques may have a material effect on the fair value amounts. Accordingly, the fair values presented herein may not be indicative of the amounts that could be realized in a current market exchange.

**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 6 FAIR VALUE OF INVESTMENTS (CONTINUED)**

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023.

*Money Market Fund:* Valued at \$1 cost, which is the value at which the fund is traded and approximates fair value based on the fair value of the fund's underlying investments.

*103-12 Investment Entities, Common Collective Trusts, Pooled Separate Accounts, Private Equity Funds, Real Estate Funds, and Hedge Funds:* Valued at the net asset value (NAV) of shares held by the Plan at year-end. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

*Fixed Income Securities and Collateral Received for Securities Lending* (these categories include government bonds, government assets and mortgage back securities, government agency securities, corporate fixed income, state and local bonds, and other fixed income investments): Pricing for investments categorized in Level 1 was obtained from unadjusted quoted prices in actively traded markets. Level 2 investment pricing is based on unadjusted quotations from brokers or pricing services engaged by the qualified institution that utilize prices for similar assets and matrix pricing models. Certain fixed income securities for which there are unobservable inputs are categorized as Level 3.

*Derivatives, except Financial Futures Traded on an Exchange, and Forward Foreign Exchange Contracts* (these categories include interest rate swaps, credit default swaps, total return swaps, and written options): Valued using a mid-evaluation, or the average of the estimated price at which a dealer would sell a security and the estimated price at which a deal would pay for a security (typically in an institutional round lot). Oftentimes, these evaluations are based on proprietary models which pricing vendors establish for these purposes.

*Cash Equivalents:* Securities categorized as Level 1 are invested in short-term, high-quality government treasury securities whose fair value was based on unadjusted quoted prices in active markets for identical bonds. Short-term investments in Level 2 primarily represent repurchase agreements that are market priced by the fund manager using quoted prices for similar agreements in active markets.

*Equity Securities, Registered Investment Companies, and Certain Derivative Securities:* Valued using the official close (for NASDAQ only), last trade, bid, or the ask offer price reported on the active market on which the individual securities are traded. Certain preferred stock securities whose value is based upon observable market prices for similar securities are categorized in Level 2. Certain international and domestic equity securities for which there are unobservable inputs are categorized as Level 3.

*Insurance Contracts:* Investments in guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The following is a description of the nature and risks of the classes of assets by major security type that are valued using NAV:

Commingled funds are several accounts that are blended together in order to reduce trading costs, improve diversification, and receive professional money management.

The Plan has investments in a number of commingled funds which fall into the category of 103-12 investment entities, common collective trusts, pooled separate accounts, private equity funds, real estate funds, and hedge funds that are valued at NAV. These funds provide exposure to a number of different asset classes and investment strategies to help the Plan achieve its target asset allocation and risk and return objectives.

The following table is a summary of the Plan's investments valued at NAV at December 31, 2024, including information for each fund's value asset class category, withdrawal schedule, and disclosure of unfunded commitments:

<u>Investment Description</u>	<u>Primary Investment Holdings</u>	<u>Dollar Value of Interest</u>	<u>Withdrawal Schedule</u>	<u>Unfunded Commitments</u>

Private equity funds seek to generate capital appreciation through strategic acquisitions and management of their holdings.

Real estate funds are managed to generate an income stream and drive long-term capital appreciation.

Equity securities are managed to achieve income and appreciation in their primary investment holding categories.

**NOTE 7 SECURITIES LENDING**

The Master Trust participated in a securities lending arrangement with Citibank N.A. (the Bank) for the period January 1, 2023 through December 8, 2023. The securities lending arrangement authorized the Bank to lend securities held in the Master Trust to pre-approved borrowers. The Bank must obtain cash or acceptable securities as collateral. All loans were initially collateralized at 102% of loaned securities (105% of non-U.S. equity securities). On a daily basis, both the collateral and the securities loaned were marked-to-market to maintain proper collateralization levels.

Effective December 8, 2023, the securities lending arrangement was terminated.

In the event that the loaned securities were not returned by the borrower, the Bank would, at its own expense, either replace the loaned securities or, if unable to purchase those securities on the open market, credit the Master Trust's accounts with the cash equal to the fair value of the loaned securities. The Master Trust was indemnified against the risk of loss from unfavorable changes in fair value of the invested collateral. Investment income reported for the Master Trust for the period ended December 8, 2023 includes \$436,420 in conjunction with the securities lending program.

The Master Trust's securities lending activities were collateralized and the bank provided full indemnity against borrower default as described above. The terms of the securities lending agreement with the bank required compliance with government rules and regulations related to the lending of securities held by ERISA plans.

**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 8 DERIVATIVES**

The Plan's derivative contracts consisted of various futures contracts, foreign currency contracts, options contracts, and interest rate, total return, and credit default swaps. Since all derivative instruments were held within the Master Trust, all were included at fair value in the Plan's interest in Master Trust as presented in the statement of net assets available for benefits as of December 31, 2023. Changes in the fair value (i.e., gains or losses) of the derivatives were recorded in the Plan's interest in net Master Trust investment income in the accompanying statements of changes in net assets available for benefits.

**Financial Futures Contracts**

The Master Trust investment managers entered into such contracts to manage market risk, with maturities generally within six months.

**Forward Foreign Exchange Contracts**

During the period January 1, 2024 through December 17, 2024 and the year ended December 31, 2023, foreign exchange transactions were processed by the Master Trust as part of the overall portfolio strategy. Forward foreign exchange contracts are valued at the spot market foreign exchange rate of the underlying currencies as of the year-end date.

**Written Options and Purchased Options**

The Master Trust investment managers entered into such contracts to manage market risk, with maturities generally within six months.

**Swaps**

The Master Trust investment managers used interest rate swaps to both mitigate risk from changes in interest rates and in place of physical securities when it is more cost effective and/or efficient, with maturities greater than one year. The Master Trust investment managers also entered into credit default swaps to manage market exposure or to reduce exposure to defaults of corporate and sovereign issuers.

For the period January 1, 2024 through December 17, 2024, futures contracts, written options, and swap contracts experienced losses of \$168,689,354 and forward foreign exchange contracts experienced gains of \$37,171,378.

Derivative securities of the Master Trust activity as of and for the year ended December 31, 2023 are summarized as follows:

Type	Notional Amount	Assets	Liabilities	Gain (Loss)
Futures Contracts	\$ 822,100,000	\$ 33,564,407	\$ 9,435,503	\$ 52,652,983

**NOTE 9 PLAN TERMINATION**

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

**NOTE 10 PLAN TAX STATUS**

The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code (IRC). Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 11 RISKS AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**NOTE 12 PARTY-IN-INTEREST TRANSACTIONS**

The plan investments are held by State Street Bank and Trust Company. State Street Bank and Trust Company is the qualified institution as defined by the Plan and, therefore, the investment transactions, managed by an affiliate of State Street Bank and Trust Company, qualify as party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers and a related party. These transactions qualify as party in interest transactions, which are exempt from the prohibited transaction rules of ERISA.

**Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**

**Actuarial assumptions for January 1, 2024 funding valuation**

Discount rate sponsor elections		
• Segment rates or full yield curve	Segment	
• Look-back months	4	
	Stabilized	Nonstabilized
• First 5 years	4.75%	3.62%
• Next 15 years	4.87%	4.46%
• Over 20 years	5.59%	4.52%
Mortality sponsor elections		
• Healthy and disabled participants	Section 430(h)(3) prescribed generational annuitant and non-annuitant mortality tables for 2024 plan years funding valuation. These tables are based on the Pri-2012 mortality tables projected with the IRS modified MP-2021 mortality improvement scale, in accordance with IRS regulation 1.430(h)(3)-1.	
Other economic assumptions		
• Salary increases	N/A	
• Flat-dollar benefit increases	N/A	
• Social Security taxable wage base increases	N/A	
• Inflation	N/A	
• Expected investment return	5.08% for 2024, 5.42% for 2023 and 3.26% for 2022	
• Expenses	\$40,000 added to current year normal cost	

**Rationale for economic assumptions**

- Discount rate – Prescribed by IRS and method elected by Comau LLC.
- Expected investment return – The expected investment return is based on the median simulated investment return using forward looking capital market assumptions published in Mercer Investment Consulting’s Capital Markets Outlook for the plan’s asset allocation. The return assumption is net of an adjustment of 12 basis points for investment expenses and trustee fees assumed to be paid from plan assets.

Demographic assumptions		
• Withdrawal	See table of sample rates.	
• Disability incidence	30% of the Disability Incidence under the 1972-1976 OASDI Study. See table of sample rates.	
• Retirement age	See table of sample rates.	
• Benefit commencement age for

55-63	5.50%
64	15.0%
65	30.0%
66-69	20.0%
70+	100.0%

**Rationale for demographic assumptions**

- Mortality – Prescribed by IRS Section 430 and relevant regulations
- Withdrawal – Termination rates are based on the results of the 2017 experience study.
- Disability incidence – Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions. The table rates have been loaded to level set the assumption to the plan's historical experience.
- Retirement age – Retirement rates are based on the results of the 2017 experience study.
- Benefit commencement age – Deferred vested participants' assumed commencement age is based on the results of the 2017 experience study.

**Actuarial methods for funding****Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as required by IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

**Participant methods**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break-in-service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

**Schedule SB, Part V — Statement of Actuarial Assumptions/Methods****Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

## Schedule SB, Part V — Summary of Plan Provisions

### Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through Amendment #7, are included in this valuation:

- **Most recent plan amendments included:** Amendment #7, executed December 31, 2023
- **Plan amendments excluded:** None
- **Late retirement increases:**
  - *Active participants:* Current active participants over normal retirement age are valued including the late retirement actuarial increase.
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

## Plan provisions specific to funding

### Additional benefits included or excluded

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
  - *Plan amendments:* See above.
  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

*Schedule SB, Part V — Summary of Plan Provisions*
