## INDEPENDENT AUDITOR'S REPORT

To the Benefits Committee and participants of the  
Dorsett Industries Employee Stock Ownership Plan

### **Scope and Nature of the ERISA Section 103(a)(3)(C) Audit**

We have performed audits of the financial statements of the Dorsett Industries Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements (the financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements is complete and accurate.

### **Opinion**

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of the report,

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current Plan instrument, including all Plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

#### **Other Matter – Supplemental Schedule Required by ERISA**

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) for the year ended December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or

is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion,

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

#### General

Dorsett Industries, Inc. (the Company and Sponsor) established the Plan effective as of January 1, 2016. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Benefits Committee appointed by the Board of Directors of the Company. An independent third-party entity is the Plan's trustee (Trustee) and assets are held in a trust.

On January 1, 2016, the Plan purchased 2,000,000 shares of Company voting common stock in exchange for an internal note from the ESOP to the Company in the amount of \$2,000,000 and holds the stock in a trust established under the Plan. The note payable is to be repaid by Company contributions to the trust. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to employees' accounts in accordance with the applicable regulations under the IRC. The borrowings are collateralized by the unallocated shares held by the Plan. The Company does not have any interest or rights in such shares once they are allocated to participant accounts under the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to vested and non-vested shares not yet allocated (unallocated) to employees.

#### Eligibility

All employees of the Company who are at least 21 years of age and who have completed 1,000 hours of service during 12 consecutive months, and are not independent contractors, leased employees or subject to a collective bargaining agreement are eligible to participate in the Plan. Participants may enter the Plan on the first day of January or the first day of July immediately following the date eligibility requirements are satisfied. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last day of the Plan year, unless due to death, disability, or retirement, are not eligible for an allocation of Company contributions for such year.

#### **Contributions**

The Company may contribute to the Plan an amount determined by its Board of Directors, paid in cash or in shares of Company stock. The Company is obligated to make contributions to the Plan, which, when aggregated, equals the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its notes payable (see Note 6). Participants are not permitted to make contributions to the Plan. Contributions are subject to certain limitations.

#### **Participant Accounts**

A separate account is maintained for each participant and each participant's account consists of a "Company Stock Account" and an "Other Investments Account." The accounts are credited with an allocation of Company contributions, Plan earnings and losses and charged with an allocation of expenses, if any. Only those participants who are eligible employees of the Company as of the last day of the Plan year receive the allocation of contributions. Fifty percent of Company contributions are allocated in proportion to each participant's compensation compared with the total compensation of all participants, as defined in the Plan document, and fifty percent of Company contributions are allocated in proportion to each participant's years of service compared with the total years of service of all participants as define in the Plan document. Plan investment income and losses and expenses are allocated to each participant's account based on the ratio of each participant's account balance as it bears to total participant account balances as of the last day of each Plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

#### **Voting Rights**

Except as described in the next sentence, the Trustee votes all Company stock held by it as part of the Plan assets at such time and in such manner as directed by the Benefits Committee. Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account with regard to a merger or consolidation, recapitalization, reclassification, liquidation, dissolution or sale of substantially all of the assets of the Company. In accordance with instructions from the Plan's Benefits Committee, the Trustee shall vote any unallocated shares held by the ESOP Trust, as well as any allocated shares for which a participant has failed to give timely voting direction.

#### **Put Option**

In accordance with U.S. federal income tax regulations, the Company stock that is held by the Plan and its participants includes a put option. The put option is the right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company may pay for

the purchase by issuing a collateralized, interest bearing promissory note with a term of not more than five years and which requires annual payments. The purpose of the put option is to ensure that a participant has the ability to ultimately obtain cash.

#### **Vesting**

A participant's vesting in their accounts, plus earnings and losses thereon, is based on years of service which are earned under the Plan. If employment ends on or after normal retirement or because of death or disability, participants will be fully vested in their accounts. Otherwise, participants are fully vested after six years of service, beginning with 20% after two years of service and 20% each year thereafter.

#### **Forfeited Accounts**

Accounts of nonvested participants are forfeited as of the earlier of the last day of the Plan year following distribution of a participant's vested account or the last day of the Plan year in which the participant incurs five consecutive breaks in service. Forfeited balances of terminated nonvested participants can be allocated in the same manner as regular contributions to participants eligible to receive such a contribution or pay eligible Plan expenses. Forfeitures totaling \$15,803 were reallocated to Plan participants during 2024.

#### **Payment of Benefits**

Upon termination of service due to death, disability or retirement, participants are entitled to receive payment of the vested balance of their stock account beginning in the Plan year following the event. For termination of service due to other reasons, with certain exceptions, the earliest distribution date shall be in the sixth Plan year following the participant's termination of employment or the end of the Plan year in which the participant attains normal retirement age, dies, or incurs total and permanent disability. Exceptions for the five-year delay in distributions are made for participants whose vested balance does not exceed \$5,000. If the participant's vested account exceeds \$1,000 but does not exceed \$5,000, and the participant does not return the distribution election form within 30 days, the vested account balance will be automatically distributed to an IRA for the benefit of the participant. Vested account balances that exceed \$5,000 will be paid in a series of annual payments over a period of five years.

#### **Diversification**

Diversification is offered to participants close to retirement so that they may have the opportunity to convert part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 and have completed at least 10 years of participation in the Plan may elect to diversify a portion of their account into an investment outside of the Company stock. Diversification is offered to each eligible participant

over a six-year period, which begins at the start of the Plan year in which the participant becomes eligible. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent.

#### **Administration of Plan Assets**

The Plan's assets, which consist principally of the Company common stock, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the notes payable, which is funded to the Plan through contributions as determined by the Company. The Company does not expect reimbursement from the Plan for payment of these administrative expenses.

#### **Restricted Net Assets**

The investment in unallocated common stock of the Company is restricted to the extent that it is security for the notes payable. Shares of unallocated common stock become available for benefits to participants based on the ratio of principal and interest paid in the Plan year to the total principal and interest to be paid on the notes payable.

#### **Administrative Expenses**

Expenses of the Plan, including expenses incurred by the Benefits Committee, may be paid in whole or in part by the Company, and any expenses not paid by the Company are paid by the Plan. For the years ending December 31, 2024 and 2023, the Company paid all administrative expenses related to the Plan. The Company does not expect reimbursement for any expenses paid on behalf of the Plan.

## **2. Summary of Significant Accounting Policies**

#### **Basis of Accounting**

The financial statements of the Plan are prepared using the accrual method of accounting.

#### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

### Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to the accounts of employees with rights in allocated stock (allocated) and stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

### Valuation of Investments

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. The net change in fair value of common stock includes realized and unrealized gains and losses on those investments.

### Payment of Benefits

Benefits are recorded when paid.

### Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 6, 2025, which is the date the financial statements were available to be issued.

### 3. Information Certified by the Qualified Institution

All information in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2024 and 2023, and the net change in fair value of investments for the year ended December 31, 2024, was obtained or derived from information supplied to the Plan's administrator and certified as complete and accurate by Argent Trust Company, the Plan's qualified institution.

### 4. Investments

The Plan's investment in Dorsett Industries, Inc. common stock is as follows at December 31, 2024 and 2023:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	360,000	1,640,000	320,000	1,680,000
Cost	\$ 360,000	\$ 1,640,000	\$ 320,000	\$ 1,680,000
Fair value	\$ 4,982,400	\$ 22,697,600	\$ 3,830,400	\$ 20,109,600

As of December 31, 2024 and 2023, the Plan held 2,000,000 shares, of Dorsett Industries, Inc. common stock. Transactions in the Company's common stock are considered party-in-interest transactions.

The Plan's investments are exposed to various risks, such as market, currency, interest rate, and credit risks. Market risks include U.S. and global events which could impact the value of Plan investments. Such events would include public healthcare emergencies such as a pandemic, as well as international conflicts, cybersecurity attacks, supply chain disruptions, global monetary policy decisions, inflation, significant economic influences, and other adverse credit and market events and conditions. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

### 5. Fair Value Measurements

The Financial Accounting Standards Board established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities, and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 – other significant observable inputs, including quoted prices in active markets for similar securities

Level 3 – unobservable inputs

# Dorsett Industries

## Employee Stock Ownership Plan

### Notes to Financial Statements

#### December 31, 2024 and 2023

---

Observable inputs are those based on market data obtained from sources independent of the Plan, and unobservable inputs reflect the Plan's own assumptions based on the best information available. The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level but rather the degree of judgment used in determining those values.

Following is a description of the valuation methodologies used for assets measured at fair value.

The estimated fair value of common stock of the Company as of December 31, 2024 and 2023 was \$13.84 and \$11.97 per share, respectively. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023. The Company stock is valued at estimated fair value as determined by an independent appraisal (Level 3). The appraisal was based upon an income valuation technique (discounted cash flow) and market comparables. The appraiser considered historical and projected cash flow and net income, EBITDA, weighted average cost of capital, discount rate, and discount for lack of marketability.

The valuation process involves the selection of an independent appraiser. Plan management accumulates the data for the appraiser from historical and projected financial statements of the Company. The appraiser prepares a preliminary report which is discussed with Plan management and the Trustee, and the Trustee then approves.

The preceding methods described involve several estimates and may produce a fair value estimate that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the Plan's investments based on the inputs used to determine their values as of December 31, 2024 and 2023:

	Level 3	
	2024	2023
Company stock	\$ 27,680,000	\$ 23,940,000

#### 6. Notes Payable (Including Related Party)

On January 1, 2016, the Plan purchased 2,000,000 shares of Company voting common stock in exchange for an internal note from the ESOP to the Company in the amount of \$2,000,000. The internal note is to be repaid over fifty years in equal annual installments of \$72,645, bearing interest of 2.65%, to be fully repaid on December 31, 2065. Prepayments may be made at any time without premium or penalty with any remaining principal amount outstanding due and payable in equal installments over the remaining term of the note. On December 27, 2024, the Company contributed \$72,645, to the Plan which was used as a payment on the note resulting in the release of 40,000 shares.

Future scheduled payments of principal on the note payable as of December 31, 2024 are as follows:

Year	Amount
2025	\$ 24,859
2026	25,518
2027	26,194
2028	26,889
2029	27,601
Thereafter	1,672,125
<b>Total</b>	<b>\$ 1,803,186</b>

---

#### 7. Income Tax Status

The Plan has not received a determination letter, in which the IRS would state whether the Plan is in compliance with the applicable requirements of the Internal Revenue Code (IRC). However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. The Plan's income tax returns for the past three years are subject to examination by taxing authorities and may change upon examination.

### **8. Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA, except the Company cannot discontinue contributions unless and until the notes are paid. In the event of Plan termination or partial termination, all expenses and debts of the Plan are to be satisfied out of assets of the Plan, and all remaining assets are to be vested in the participants' accounts (affected participants in the case of a partial termination) and distributed to them. Such distribution shall be made as directed by the Benefits Committee. Plan assets previously segregated due to retirement or other termination shall continue to be held by the Trustee and distributed as provided under the terms of the Plan.
