Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: SINGERLEWAK

(2) EIN: 95-2302617

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X

INDEPENDENT AUDITOR'S REPORT

Retirement Committee
CoorsTek, Inc. Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of CoorsTek, Inc. Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for plan benefits and of accumulated plan benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for plan benefits and in accumulated plan benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedules H, Line 4j – Schedules of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

COORSTEK, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the CoorsTek, Inc. Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General and Eligibility

The Plan is a non-contributory defined-benefit pension plan providing retirement, disability, and death benefits to all eligible employees. The Plan sponsor is CoorsTek, Inc. (the “Company” or the “Plan Sponsor”) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (IRC). The Plan includes employees of participating employers, as defined by the Plan document, that met the eligibility requirements of the Plan prior to the Plan being frozen.

In May 2001, the Plan was modified whereby the benefits to be received by participants were frozen as of December 31, 2001. However, service after this date continues to count toward vesting and for determining eligibility to receive benefits. In addition, participants who were age 50 or over and had 10 years of benefit service by December 31, 2001 received an enhanced benefit effective June 30, 2001 by adding five years of age and five years of service (“5+5 enhanced benefit”) to each participant’s earned benefit.

Administration

The Retirement Committee is responsible for the oversight of the Plan. The Retirement Committee is a committee comprised of the Chief Financial Officer of CoorsTek, Inc., the Vice President of HR Operations and Total Rewards of CoorsTek, Inc., the Treasurer of CoorsTek, Inc., and the Vice President of Accounting and Finance of CoorsTek, LLC. The Retirement Committee determines the appropriateness of the Plan’s investments and monitors investment performance. The Retirement Committee has appointed a Plan Administrator to manage the operation and administration of the Plan. The Retirement Committee has contracted with SEI Private Trust Company to act as the trustee and custodian affiliated with the Plan to process and maintain the records of the Plan. Expenses incurred for administering the Plan, if not paid by the Company, are paid by the Plan.

Funding Policy

In general, the Plan’s funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. For the years ended December 31, 2024 and 2023, the Company made no contributions to the Plan; the ERISA minimum funding requirements for the years ended December 31, 2024 and 2023 were \$1,836,262 and \$2,090,820, respectively, prior to the application of any funding policies.

COORSTEK, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Pension Benefits, Including Death and Disability Benefits

Eligible employees are entitled to normal retirement benefits beginning at the earlier of age 65 or when their age and years of vesting service total 90, but not before the age of 60. Retirement benefits are based upon years of service and average compensation as defined in the Plan. The benefit payable is calculated based on the highest 36 months of compensation in the last 120 months. The Plan permits early retirement benefits for qualified participants. For early retirement, the benefit payable monthly is reduced by .58333% for each month that benefits commencement precedes age 60 and .25% for each month by which participant's 60th birthday precedes the earlier of the participant's 65th birthday or the date for which the participant would have satisfied the Rule of 90. Vesting is based upon hours of service as defined in the Plan. A participant who terminates employment with fewer than 10 years of service is not eligible for early retirement benefits.

The maximum annual benefit for any participant may not exceed the lesser of: (a) \$275,000 for 2024 or (b) 100% of the participant's average annual compensation (not exceeding \$345,000 for 2024) for the participant's three consecutive calendar years of highest compensation.

Employees may elect to receive the value of their accumulated plan benefits (normal, early or postponed) as qualified joint and survivor annuities (50%, 66 2/3%, 75% or 100%), single life annuities, ten-year certain and life option annuity, level income payments or as a lump sum if elected timely. Annuity payments are payable monthly at the beginning of the month. Effective January 1, 2013, employees may also elect to receive the value of their accumulated plan benefits in immediate lump sum or annuity distribution options.

If an active employee dies while employed and while otherwise eligible for deferred, vested, early, normal or postponed retirement benefits, with a surviving spouse, the death benefits equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Active employees who become totally and permanently disabled on or after completing one year of vesting service receive annual disability benefits equivalent to the monthly pension benefit payable at age 65, based upon average monthly compensation at the date of disability and benefit service assuming accrual of benefit service without interruption to the earlier of December 31, 2001 and age 65.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

COORSTEK, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated Plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated Plan benefits reported in the accompanying financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Committee determines the Plan's valuation policies utilizing information provided by its investment advisors and custodians. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investment bought and sold as well as held during the year.

Management fees charged to the Plan for investments are based on assets invested and are deducted on a daily basis. Management fees are reflected as a reduction of investment return for such investments.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for plan benefits. In addition, certain investment-related expenses are included in net depreciation of fair value of investments presented in the accompanying statement of changes in net assets available for plan benefits.

Income Taxes

The Plan is an individually designed plan. The Plan obtained its latest determination letter on November 7, 2016, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan administrator believes the Plan is designed, and is being operated, in compliance with the applicable provisions of the IRC.

COORSTEK, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Uncertain Tax Positions

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or the DOL. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2024 and 2023, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or asset, or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 3 – CERTIFIED INFORMATION

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2024 and 2023, and net depreciation in fair value of investments and interest and dividends for the year ended December 31, 2024, were obtained by management and agreed to or derived from information certified as complete and accurate by SEI Private Trust Company (the trustee and custodian of the Plan).

NOTE 4 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on years of credited service and the applicable benefit rate. The accumulated Plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated Plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

COORSTEK, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 4 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The significant actuarial assumptions used in the valuation of accumulated Plan benefits as of December 31, 2024 and 2023 were as follows:

Discount rate for benefit obligations	5.00% for 2024 and 2023.
Anticipated administrative expenses associated with providing benefits	\$812,000 for 2024 and \$766,000 for 2023.
Retirement age	Rates varying by age, average age of 63 for 2024. Participants will retire upon becoming eligible for normal retirement for 2023.
Mortality rate	Healthy: Separate rates for non-annuitants (based on Pri-2012 “Employees” table without collar or amount adjustments and then projected forward with generational projection using adjusted Scale MP-2021) and annuitants (based on Pri-2012 “Healthy Annuitants” table (participants and beneficiaries combined) without collar or amount adjustments, projected forward with generational projection using adjusted Scale MP-2021). The rate of future mortality improvement at any age for any year beginning on or after the valuation date is capped at 0.78%. Disabled: Alternative disabled life mortality tables as defined under Revenue Ruling 96-7.
Termination rate	Rates varying by age.
Disability rate	Rates varying by age.
Compensation increases	Not Applicable. Plan frozen.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.00% in the prior year, and 5.00% in the second prior year (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

COORSTEK, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 4 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025 and 2024. Had the valuations been performed as of December 31st, there would be no material differences.

NOTE 5 – FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1), and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs, other than quoted prices, that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

COORSTEK, INC. RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 5 – FAIR VALUE MEASUREMENT (Continued)

Registered investment companies (equity and fixed income mutual funds):

Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

U.S. government securities:

Valued using pricing models maximizing the use of observable inputs for similar securities with similar interest rates and maturities.

Money market funds:

Valued at the carrying value, which approximates fair value due to the short-term nature of such instruments.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Assets at Fair Value as of December 31, 2024

COORSTEK, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 6 – RELATED-PARTY AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by SEI Private Trust Company. SEI Private Trust Company is the trustee and custodian as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are presented as a reduction to investment income, as they are paid through revenue sharing rather than a direct payment. The Plan sponsor pays directly any other fees related to the Plan's operations. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 7 – PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- A. Benefits attributable to employee contributions, taking into account those paid out before termination.
- B. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- C. Other vested benefits insured by the Pension Benefit Guarantee Corporation (PBGC) (a U.S. government agency) up the applicable limitations.
- D. All other vested benefits (that is, vested benefits not insured by the PBGC).
- E. All non-vested benefits.

Benefits to be provided by the allocations required by ERISA §4044 shall be fully vested and nonforfeitable.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

COORSTEK, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 7 – PLAN TERMINATION (Continued)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

NOTE 9 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 6, 2025, the date the financial statements were available to be issued.

Interest rates	Reflecting Corridors	Not Reflecting Corridors
----------------	-------------------------	-----------------------------

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees It was assumed there will be no new or rehired employees.

Mortality

- **Healthy** Separate rates for non-annuitants (based on Pri-2012 "Employees" table without collar or amount adjustments and then projected forward with generational projection using adjusted Scale MP-2021) and annuitants (based on Pri-2012 "Healthy Annuitants" table (participants and beneficiaries combined) without collar or amount adjustments, projected forward with generational projection using adjusted Scale MP-2021). The rate of future mortality improvement at any age for any year beginning on or after the valuation date is capped at 0.78%.

- **Disabled** Alternative disabled life mortality tables as defined under Revenue Ruling 96-7.

Termination Rates varying by age.

55	0.40%
60	0.84%

Retirement

Rates varying by age, average age 64.

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants are assumed to retire by age are shown below:

Percentage retiring during the year	
Age	Percentage
55 - 58	4.50%
59 - 61	15.00%
62	25.00%
63 - 64	15.00%
65	30.00%
66 - 69	25.00%
70 and over	100.00%

Benefit commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55 and 10 years of service, or age 65
- Deferred vested benefit Age 65 or current age if later. For current deferred vested participants, 75% of participants between the ages of 66 and 70, 50% of participants between the ages of 71 and 75, and no participants greater than age 75 are assumed to claim their benefit.
- Disability benefit Upon disablement
- Retirement benefit Upon termination of employment

Form of payment	50% of all participants are assumed to elect a lump sum; remaining single participants are assumed to elect a life annuity and remaining married participants are assumed to elect a reduced 50% joint and survivor annuity.
Percent married	85% of all participants are assumed married. This assumption is used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement
Spouse age	Wife three years younger than husband.
Covered pay	N/A
At-risk assumptions	N/A
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements, the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.00% in the prior year, and 3.40% in the second prior year (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with the plan sponsor regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$1,000) in a single lump sum payment. Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

CoorsTek, Inc. furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust), rounded up to the next \$1,000.
Assumed return for asset smoothing	The assumed return of 5.00% for the 2023 plan year and 3.40% for the 2022 plan year used for asset smoothing is the expected return on assets assumption chosen by WTW and was informed by WTW’s Expected Return Estimator model and the Plan’s asset allocation.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2020, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Disability	Disability rates were based on a published table for pension participants due to the lack of credible disability experience for plan participants.

Retirement	Retirement rates were based on an experience study conducted in 2020, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Benefit commencement date for deferred benefits:	
<ul style="list-style-type: none">• Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
<ul style="list-style-type: none">• Deferred vested benefit	Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant. For current deferred vested participants, 75% of participants between the ages of 66 and 70, 50% of participants between the ages of 71 and 75, and no participants greater than age 75 are assumed to claim their benefit. The percentage of terminated vested participants over the age of 65 that are assumed to claim their benefits is based on plan sponsor experience and expectations for the future.
Form of payment	The percentage of retiring participants assumed to take lump sums is based on observed experience from 2015 through 2020.
Percent married	The assumed percentage married is based on plan sponsor expectations for the future.
Spouse age	The assumed age difference for spouses is based on plan sponsor expectations for the future.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.
- The mortality tables used to calculate the funding target and target normal cost were changed as required under final IRS regulations to update the mortality tables and improvement scales under IRC §430, issued in 2023, and IRS Notice 2023-73, which updated the IRC §417(e)(3) mortality table.
- For the 2023 plan year, the Plan’s enrolled actuary updated the expected rate of return on plan assets used for asset smoothing to reflect market conditions and asset allocations as of January 1, 2023.

Change in methods since prior valuation

None.

The actuarial assumptions that are not mandated by IRC §430 and regulations represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Benefit commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55 and 10 years of service, or age 65
- Deferred vested benefit Age 65 or current age if later. For current deferred vested participants, 75% of participants between the ages of 66 and 70, 50% of participants between the ages of 71 and 75, and no participants greater than age 75 are assumed to claim their benefit.
- Disability benefit Upon disablement
- Retirement benefit Upon termination of employment

Form of payment	50% of all participants are assumed to elect a lump sum; remaining single participants are assumed to elect a life annuity and remaining married participants are assumed to elect a reduced 50% joint and survivor annuity.
Percent married	85% of all participants are assumed married. This assumption is used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement
Spouse age	Wife three years younger than husband.
Covered pay	N/A
At-risk assumptions	N/A
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements, the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.00% in the prior year, and 3.40% in the second prior year (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with the plan sponsor regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$1,000) in a single lump sum payment. Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

CoorsTek, Inc. furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust), rounded up to the next \$1,000.
Assumed return for asset smoothing	The assumed return of 5.00% for the 2023 plan year and 3.40% for the 2022 plan year used for asset smoothing is the expected return on assets assumption chosen by WTW and was informed by WTW’s Expected Return Estimator model and the Plan’s asset allocation.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2020, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Disability	Disability rates were based on a published table for pension participants due to the lack of credible disability experience for plan participants.

Retirement	Retirement rates were based on an experience study conducted in 2020, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Benefit commencement date for deferred benefits:	
<ul style="list-style-type: none">• Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
<ul style="list-style-type: none">• Deferred vested benefit	Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant. For current deferred vested participants, 75% of participants between the ages of 66 and 70, 50% of participants between the ages of 71 and 75, and no participants greater than age 75 are assumed to claim their benefit. The percentage of terminated vested participants over the age of 65 that are assumed to claim their benefits is based on plan sponsor experience and expectations for the future.
Form of payment	The percentage of retiring participants assumed to take lump sums is based on observed experience from 2015 through 2020.
Percent married	The assumed percentage married is based on plan sponsor expectations for the future.
Spouse age	The assumed age difference for spouses is based on plan sponsor expectations for the future.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.
- The mortality tables used to calculate the funding target and target normal cost were changed as required under final IRS regulations to update the mortality tables and improvement scales under IRC §430, issued in 2023, and IRS Notice 2023-73, which updated the IRC §417(e)(3) mortality table.
- For the 2023 plan year, the Plan’s enrolled actuary updated the expected rate of return on plan assets used for asset smoothing to reflect market conditions and asset allocations as of January 1, 2023.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions took effect December 17, 2020.

Covered employees All employees of the employer who were hired before January 1, 2002, including part-time employees scheduled to work less than 32 hours per week, are covered under the plan. Participation commences the first of month after completion of one year of Participation Service, or, if later, the date of becoming a Covered Employee.

Participation date Date of becoming a covered employee.

Definitions

Vesting service The total period of employment, plus any period of severance after the employee quits, is discharged, or retires if he returns to employment within 12 months, plus the first 12 months of any leave of absence. For employees of Coors Ceramics on August 31, 1999, vesting service includes vesting service as of August 31, 1999, under the ACX Technologies, Inc. Retirement Plan.

Pension service *Full-time employees:* The employee's total period of employment plus the first 12 months of any leave of absence. For employees of Coors Ceramics on August 31, 1999, benefit service includes benefit service as of August 31, 1999, under the ACX Technologies, Inc. Retirement Plan. Effective December 31, 2001, benefit service used to determine plan benefits for full-time and part-time employees was frozen.

Part-time employees: Hours of service worked, divided by 2080. If hours worked is greater than 1,664, a full year of service will be credited. Effective December 31, 2001, benefit service used to determine plan benefits for full-time and part-time employees was frozen.

Pensionable pay Base pay plus overtime, but excluding cash bonuses and profit sharing pay. Effective December 31, 2001, pay used to determine plan benefits was frozen.
