BP RETIREMENT ACCUMULATION PLAN

Financial Statements as of and for the Years Ended December 31, 2024 and 2023,
Supplemental Schedules as of and for the Year Ended December 31, 2024,
and Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

To BP Retirement Accumulation Plan

Opinion

We have audited the financial statements of BP Retirement Accumulation Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

BP RETIREMENT ACCUMULATION PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the BP Retirement Accumulation Plan (RAP) is provided for general information purposes only. Participants should refer to the Plan documents for more complete information. The Plan is subject to and complies with the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). BP Corporation North America Inc. (the Company) is the Plan Sponsor, and the Plan Administrator is the Company's Head of Pensions and Benefits, Americas. The Company is an indirect wholly owned subsidiary of BP p.l.c. The trustee of the Master Trust is JPMorgan Chase Bank (the Trustee). The recordkeeper for the Plan is Fidelity Workplace Services LLC (the Recordkeeper).

RAP, established October 1, 1932, is a noncontributory cash balance defined benefit plan for eligible employees of the Company and affiliated companies. Accrued benefits are reported to participants in the form of notional individual account balances. Account balances are increased each month by a percentage of the employee's compensation plus an interest credit determined monthly. Certain participants, as defined in the Plan document, are eligible for a grandfather provision. Under this provision, the participant receives a retirement benefit that is based on the greater of the benefit accrued under the cash balance formula or the benefit under the final average pay formula of a prior pension plan.

RAP assets are held in the BP Master Trust for Employee Pension Plans, in daily amount on deposit with Fidelity Investments, in guaranteed deposit accounts with AXA Equitable Life Insurance Company and Empower Annuity Insurance Company, and in a short-term pooled separate account with Empower Annuity Insurance Company.

RAP includes a health and welfare feature, which would allow it to fund a portion of post-retirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code (the Code). To the extent RAP's assets are used to fund a 401(h) account, they may not be used for, or diverted to, any purpose other than providing health and welfare benefits for retirees and participants. No qualified transfers or contributions have been made into this account, and therefore there are no 401(h) assets held in the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The financial statements of the Plan are prepared under the accrual method of accounting in accordance with U.S. generally accepted accounting principles (U.S. GAAP).

Use of Estimates. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Payment of Benefits. Benefits are recorded when paid.

Amount on Deposit. Amount on deposit are deposits with Fidelity Workplace Services LLC, the Plan's recordkeeper, for benefit payments to be distributed on January 1, 2025 and 2024 amounting to \$19,745,590 and \$17,490,930 respectively.

Valuation of Investments and Income Recognition. The net investment in the Master Trust is based on the participating Plan's interest in the fair value of the Master Trust on December 31, 2024 and 2023 (Note 8).

All investment assets held by the Plan and the Master Trust are stated at fair value. Further information regarding the valuation techniques used to measure the fair value of investment assets is included in Fair Value Measurements (Note 9).

Security transactions are accounted for on the trade date, which is the date the order to buy or sell is executed. The fair values of investments in non-U.S. securities are translated into U.S. dollars at the applicable exchange rates on

the valuation date. Dividend income is recognized on the ex-dividend date. Interest income is accounted for on the accrual basis. Net appreciation (depreciation) includes the Master Trust's and the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits. Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on benefit formulas, as defined in the plan document, depending upon the date of retirement, death, or termination of employment. The accumulated plan benefits for active employees are based on current formulas as defined in the plan document.

Administrative Expenses. Administrative expenses related to the Plan, if not paid by the Company, may be paid by the Plan. Expenses associated with ongoing plan administration, such as Pension Benefit Guaranty Corporation (PBGC) premiums, recordkeeping, benefit determination, benefit disbursements, actuarial services, and plan communications are typically paid by the Plan. Expenses that are not directly attributable to the Plan, such as fund management expenses, are netted against investment gain or loss. Fees and expenses are accounted for on the accrual basis.

Subsequent Events. Management evaluated subsequent events for the Plans through September 25, 2025, the date the financial statements are available to be issued.

3. FUNDING POLICY

The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Plan has met the ERISA minimum funding requirements for 2024 and 2023.

4. PLAN TERMINATION

Although the Company has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

In the event RAP terminates, each participant shall become fully vested to the extent funded, and the net assets of RAP will be allocated, as prescribed by ERISA and its related regulations, generally in the order indicated:

1. Benefits attributable to participants' contributions
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under RAP
3. Other vested benefits insured by the PBGC up to the applicable statutory limitations
4. All other vested benefits (that is, vested benefits not insured by the PBGC)
5. All nonvested benefits

If at some future time the Plan should terminate, the payment of participant benefits will depend upon the sufficiency, at that time, of the Plan's net assets to provide those benefits and the level of benefits guaranteed by the PBGC.

NOTES TO FINANCIAL STATEMENTS

5. FEDERAL INCOME TAX STATUS

RAP has received a determination letter from the Internal Revenue Service (IRS) dated October 9, 2020, stating that the Plan is qualified under Section 401(a) of the Code. The Plan has been amended since receiving its determination letter, management believes the Plan is still in compliance. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status.

While the Plan and the related Master Trust are tax-exempt, certain investments held by the Master Trust and the Plan generate unrelated business income under Code Section 512. Any tax liability disclosed in the Master Trust statements of net assets reflects the estimated 2024 and 2023 state and federal taxes accrued in 2024 and 2023 related to this unrelated business income.

6. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the employees' contributions, compensation, and services employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries and (2) present employees or their beneficiaries. Benefits payable as a result of retirement, death, disability or termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits is presented using a beginning of year benefit information date. The actuarial present value of accumulated plan benefits below is presented as of December 31, 2023, which is a proxy for January 1, 2024. Had the valuation been performed as of December 31, 2023 there would be no material differences.

The accumulated plan benefits information as of December 31, 2023, is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants and beneficiaries currently receiving payments	\$ 881,660,717
Other participants with deferred benefits	3,108,766,113
Total vested benefits	3,990,426,830
Nonvested benefits	17,197,444
Total actuarial present value of accumulated plan benefits	\$ 4,007,624,274

BP RETIREMENT ACCUMULATION PLAN

NOTES TO FINANCIAL STATEMENTS

The changes in accumulated plan benefits for the year ended December 31, 2023, are as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 3,845,058,701
Increase / (decrease) during the year attributable to:	
Benefits accumulated and actuarial (gains) / losses	122,858,045
Increase for interest due to decrease in discount period	215,159,747
Benefit payments	(250,104,870)
Change in actuarial assumptions ⁽¹⁾	74,652,651
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 4,007,624,274</u>

(1) Increase due to change in actuarial assumptions which is primarily attributable to change in assumed rate of return (increase of approximately \$71 million)

Significant assumptions underlying the actuarial computations for the year ended December 31, 2023, are as follows:

Mortality	Employees: Pri-2012 Employee Mortality Table with no collar adjustments for healthy males and females, projecting forward using the MP-2021 projection scale
	Retirees: Pri-2012 Retiree Mortality Table with no collar adjustments for healthy males and white collar adjustments for healthy females, projecting forward using the MP-2021 projection scale
Retirement	Age range of 50 to 70
Assumed rate of return	5.6%
Cash balance credit rate	The Company sets the regular interest crediting rate to be the largest of 5.00% (2.00% for participants hired on or after January 2016) or 30-year treasury rate assumption. The supplemental interest crediting rate is determined at one-and-a-half times the regular interest crediting rate.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

7. RISKS AND UNCERTAINTIES

The Plan and the Master Trust invest in various investment securities. These securities are exposed to various risks, including but not limited to interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Employer contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

8. MASTER TRUST

Certain assets of the Plan are held and administered in the BP Master Trust for Employee Pension Plans. At December 31, 2024 and 2023, RAP's interest in the net assets of the Master Trust was 100 percent.

BP RETIREMENT ACCUMULATION PLAN

NOTES TO FINANCIAL STATEMENTS

The Master Trust's investment income, expenses, gain or loss on securities sold, and the change in unrealized appreciation or depreciation are allocated to the Plan in proportion to the Plan's interest in the Master Trust assets. The fair value of cash or assets transferred into or out of the Master Trust is attributable to and on behalf of the Plan.

At December 31, 2024 and 2023, the Master Trust had outstanding commitments totaling \$138 million and \$160 million, respectively, to invest funds in various limited partnerships, private placements, and other private equity funds. Generally, the commitments are called during a four- to six-year period, with limitations on the amount for each year. The Master Trust must be notified 5 to 10 days before a commitment is called.

Exchange-traded and over-the-counter derivative instruments are utilized by investment managers on behalf of the Master Trust for the purpose of asset allocation, as a substitute for physical investing and management of foreign currency, interest rate, and other market risks. These derivative instruments are considered held for trading purposes; however, the Master Trust does not engage in dealing or market-making.

Derivative instruments utilized by investment managers on behalf of the Master Trust include futures contracts (used to achieve a desired asset allocation and as a substitute for physical investing), currency forwards (used to manage foreign currency risk), interest rate swaps (used to manage interest rate risk), and other derivative (exchange and non-exchange traded) instruments as the investment managers deem appropriate.

BP RETIREMENT ACCUMULATION PLAN

NOTES TO FINANCIAL STATEMENTS

Derivative instruments are carried at fair value (marked-to-market) in the statement of net assets. Unrealized gains and losses on derivative instruments held at the end of the year and realized gains and losses on derivative instruments disposed of during the year are reflected in the statement of changes in net assets. Changes in the fair value of futures contracts are settled daily.

To the extent derivative instruments are related to other investments held during the period, gains and losses on the derivative instruments represent only a portion of the total results of an investment strategy.

Where the investment manager, on behalf of the Master Trust, utilizes derivative instruments to achieve or maintain a desired asset allocation, the gains and losses on the derivative instruments are substantially equivalent to the gains and losses that would be incurred if the Master Trust held the underlying assets. Where derivative instruments are used to minimize the impact of currency fluctuation on investment returns, the gains or losses on the derivative instruments are offset, to some extent, by the decrease or increase in the returns on non-U.S. dollar investments.

Most derivative instruments entered into by investment managers, on behalf of the Master Trust, are exchange-traded. Credit risk on such transactions is limited to the failure of the regulated exchange. For non-exchange-traded derivative instruments, the investment manager, on behalf of the Master Trust, transacts only with major, credit-worthy financial institutions and monitors the amount held with any one counterparty.

The fair value of futures includes cumulative appreciation or depreciation of futures contracts, but only the variation margin receivable or payable as of December 31, 2024 and 2023, is reported in the statements of net assets available for benefits. The fair value of interest rate swaps is equal to the unrealized losses for the year. The fair value of options on swaps is measured using standard option pricing models.

Notional values of derivative instruments held by the Master Trust at December 31, 2024 and 2023 were \$71 million and \$128 million, respectively. The fair market value of derivative instruments at December 31, 2024 and 2023 were \$534 thousand and \$(59) thousand, respectively, as presented in the fair value hierarchy tables in Note 9.

9. FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Inputs broadly refer to the assumptions that market participants use to make pricing decisions, including assumptions about risk. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 inputs are observable inputs that reflect unadjusted quoted prices for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 inputs are observable market-based inputs or unobservable inputs that are corroborated by market data. These are inputs other than quoted prices in active markets included within Level 1, which are either directly or indirectly observable at the reporting date.

Level 3 inputs are unobservable inputs that are not corroborated by market data and may be used with internally developed methodologies that result in management's best estimate of fair value.

In measuring fair value, the Plan and the Master Trust use valuation techniques that maximize the use of observable inputs. The valuation techniques used by the Plan or Master Trust are summarized as follows:

Short-term funds and pooled separate accounts. Pooled separate accounts are valued at cost that approximates fair value. Short-term funds are valued using the net asset value (NAV) provided by the administrator of the fund.

BP RETIREMENT ACCUMULATION PLAN

NOTES TO FINANCIAL STATEMENTS

The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding.

Common stock and preferred stock. Common stock and preferred stock are valued at the quoted closing price reported on the active market on which the individual securities are traded.

Mutual funds. Mutual funds are valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and transact at that price. The mutual funds held by the Master Trust are deemed to be actively traded.

Government securities, corporate bonds, and mortgage and asset-backed securities. Government securities, corporate bonds, and mortgage and asset-backed securities are valued using a combination of the quoted closing price reported on the active market on which the individual securities are traded and an evaluation of the expected yield relative to similar securities or, in the absence of an active market, a broker quote.

Investment funds. Investment funds are valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. This NAV is used as a practical expedient to estimate fair value.

Limited partnerships, private placements, and other private equity funds. Limited partnerships, private placements, and other private equity funds are valued based on the Master Trust's interest in the partnership, which is reflected on the capital account statements provided by the general partner and reviewed by the Plans' investment fiduciary. These funds are valued using the NAV provided by the administrator of the fund as a practical expedient.

Insurance company general accounts. Insurance company general accounts are valued by the administrator of the fund based on the combination of cash flows into and out of the fund with the performance of the invested assets of the account. Interest is credited to the account using rates announced in advance. The rate is set by the administrator based on an estimate of the investment experience for the year. The account is invested primarily in investment-grade publicly traded and privately placed debt securities and mortgage loans.

Derivative instruments. Information regarding the valuation techniques used to measure the fair value of derivative instruments is included in Note 8.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments carried at fair value are classified in their entirety based on the lowest priority level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the placement of assets and liabilities within the levels of the fair value hierarchy.

- (a) These investments are measured at fair value using the NAV per share (or its equivalent as a practical expedient). The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Master Trust net assets.
- (b) This class includes funds that are usually focused on technology investments in various stages of development. The strategy of this class is to obtain higher rates of return than publicly traded equity and investment diversification. Investments in venture capital funds are made through limited partnership agreements. The limited partnership investments are not redeemable, although a limited secondary market may exist. The limited partnership agreements usually have terms of 10 years, with provisions to extend the partnerships an additional 2 to 3 years, if needed. At December 31, 2024 and 2023, the Master Trust had unfunded commitments totaling \$24 million and \$28 million, respectively, to invest additional capital in these funds in this asset class.
- (c) This class includes buyout funds that acquire control of a company's assets through the purchase of a controlling equity interest in the company. The strategy of this class is to obtain higher rates of return than publicly traded equity and investment diversification. Investments in buyout funds are made through limited partnership agreements. The limited partnership investments are not redeemable, although a limited secondary market may exist. The limited partnership agreements usually have terms of 10 years, with provisions to extend the partnerships an additional 2 to 3 years, if needed. At December 31, 2024 and 2023, the Master Trust had unfunded commitments totaling \$85 million and \$94 million, respectively, to invest additional capital in these funds in this asset class.
- (d) This class comprises investments in private fixed income, credit opportunity, distressed debt, and mezzanine funds. The strategy of this class is to obtain higher rates of return and investment diversification. These investments are not redeemable and usually have terms of 5 to 10 years, with provisions to extend the partnerships an additional 2 to 3 years, if needed. At December 31, 2024 and 2023, the Master Trust had unfunded commitments totaling \$29 million and \$38 million, respectively, to invest in funds in this class.

10. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain of the Plans' assets are invested in funds managed by the Trustee and the Recordkeeper of the Plans. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA. Fees paid during the year for administrative services rendered by parties-in-interest were based on customary and reasonable rates for such services.

In each cell in the chart, the top number is the count of active participants for each age/service combination. The middle number is the average unlimited compensation for the active participants in the group, which is based on the projected earnings for 2024. The bottom number is the average cash balance of the active participants in the group.

Average unlimited compensation and cash balance is shown for each cell with 20 or more participants.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial assumptions for January 1, 2024 funding valuation**

Discount rate sponsor elections			
• Segment rates or full yield curve	Segment		
• Look-back months	4		
	Stabilized	Nonstabilized	
• First 5 years	4.75%	3.62%	
• Next 15 years	4.87%	4.46%	
• Over 20 years	5.59%	4.52%	
<i>Rationale:</i> Given the segment rate and look-back elections made by BP Corporation North America, Inc., the stabilized and nonstabilized rates are those prescribed by IRS Section 430 and relevant regulations. The stabilized rates reflect the election to recognize American Rescue Plan Act of 2021 (Pension Relief).			
Mortality sponsor elections	Section 430(h)(3) prescribed generational annuitant and non-annuitant mortality tables for the 2024 plan year funding valuations. These tables are based on the Pri-2012 mortality tables projected with the IRS-modified MP-2021 mortality improvement scale, in accordance with the IRS regulation 1.40(h)(3)-1.		
	<i>Rationale:</i> Given BP Corporation North America, Inc.’s election to use generational tables, the mortality rates are prescribed by IRS Section 430 and relevant regulations.		
417(e) lump sums	When 417(e) applies, liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) interest rates and current year 417(e) unisex mortality. For 2024, the interest rates are the stabilized (for minimum funding) and nonstabilized (for PBGC and maximum funding) rates shown above, and the mortality is the 417(e) mortality table in 2024.		
	<i>Rationale:</i> This assumption is prescribed by IRS Section 430 and relevant regulations.		
Non-417(e) lump sums			
• Interest rate	For Heritage Amoco, Arco, Castrol and Toledo employees who were active as of June 1, 2011, the lump sum conversion rate was locked in at 4.8%, providing employees with the greater of the benefit calculated using the 417(e) rates described above or 4.8%.		
417(e) rates for whipsaw calculation, actuarial equivalence, and late retirement factors	Segment 1 (0-5 yrs)	Segment 2 (5-20 yrs)	Segment 3 (20+ yrs)
	30-Year Treasury Rate assumption	3.30%	3.30%
	Historical Spread	-0.70%	1.80%
	417(e) Assumption	2.60%	5.10%
<i>Rationale:</i> Rates are derived based on the historical spread between the corporate bond rates and long-term treasury rates to the assumed 30-year treasury rate. The assumed 30-year Treasury rate is based on			

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

a long-term expectation of 30-year Treasury rates (rationale noted on next page).

Mortality is 417(e) mortality table for 2024.

Cash balance plans

- Interest accumulation rate 5.10% (Regular Interest Crediting rate for participants hired or rehired before January 1, 2016),
3.30% (Regular Interest Crediting rate for participants hired or rehired on or after January 1, 2016)
7.65% (Supplemental Interest Crediting rate applies to the Opening Account Balances only while participant is active) defined in the plan document as 150% of the Regular Interest Crediting rate

Interest crediting rate rationale: Defined in the plan document, the plan's Regular Interest Crediting rate is the yield on the 30-year Treasury four months prior to commencement, but cannot be below a 5.00% floor for participants hired or rehired before January 1, 2016 (2.00% floor for participants hired or rehired on or after January 1, 2016). The assumption includes an allowance for the likelihood that the 30-year Treasury rate will exceed the floor in some years and cannot be less than the long-term 30-year Treasury rate assumption. The assumed 30-year Treasury rate is based on a long-term expectation of 30-year Treasury rate (rationale noted below).

- Whipsaw calculations Yes, for participants hired prior to January 1, 2014
- Annuity conversion
 - Mortality table 2024 IRC Section 417(e) unisex mortality
 - Interest rate basis Rates based on the funding segment rates

Other economic assumptions

- 30-year Treasury
 - 3.30% per year
Rationale: Assumption set after reviewing the most recent January 1 Mercer's Investment Consulting *Capital Markets Outlook (CMO)* for the long term expected yield related to the 30-year Treasury rate.
- Inflation
 - 2.20% per year
Rationale: Assumption set after reviewing long term expected inflation rate from Mercer's Investment Consulting *Capital Markets Outlook*.
- Social Security Wage Base
 - 3.20% per year
Rationale: Developed using a "building block approach" starting with Inflation and adjusted 100 basis points for productivity.
- Salary increases
 - 4.30% base pay increase per year
Rationale:
Developed using a "building block" approach that includes underlying assumptions for Inflation and Social Security Wage Base plus merit / promotion building block (assumed to be 110 basis points).
Merit / promotion building block assumption is based on an experience study completed in 2021 covering the period January 1, 2018 to December 31, 2020, adjusted to reflect Inflation and Social Security Wage Base and management's expectation that wages will increase in the future.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- Assumed bonus to be included in future pay
 - 125% of target bonus based on the employee's salary grade
 - For Traders participants whose bonus is capped at \$50K, the expected bonus will be \$50K
 - For Traders participants whose bonus is capped at \$150K and who are in salary grade E and F, assumed bonus is 200% of target bonus
 - For Traders participants whose bonus is capped at \$150K and who are in salary grade G and H, assumed bonus is 165% of target bonus

Target Bonus as provided by BP Corporation North America, Inc. and available upon request. Sample of Bonus Assumption calculation:

Target bonus	Increase assumption	Bonus assumption (prior to reflecting fixed dollar caps)
15%	125%	18.75%
7%	125%	8.75%
5%	125%	6.25%

Rationale: Assumption is based on an experience study completed in 2021 covering the period January 1, 2016 through December 31, 2020. The assumption remains at 125% of this new target for Salary Grade A participants.

The plan sponsor has reported that the relevant periods are representative of anticipated future experience.

- Expected investment return
 - 4.10% per year for year 2022
 - 6.00% per year for year 2023
 - 5.70% per year for year 2024

Rationale: The expected rate of return on plan assets is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's current asset mix, net of an adjustment of 7 bps for investment expenses assumed to be paid from plan assets. The rate is rounded to nearest 10 basis points.

BP Corporation North America, Inc.'s current asset mix:

Master trust asset class	% allocation
• Domestic equity	
— Private Equity	18.53%
• International equity	
— Global Equity – Non-US	1.98%
• Fixed income	
— Fixed Income – Long Government	26.62%
— Fixed Income – Long Credit	51.19%
• Cash	1.68%

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Expenses	\$9,000,000 added to current year normal cost, assumed to be paid at the beginning of the year Rationale: Assumption is based on prior year experience, adjusted (if material for the purpose) for expected changes in the upcoming year. The prior year administrative expenses are net of tax refunds and will exclude tax refunds going forward.
	2024 administrative expense load: = (2023 administrative expenses excluding PBGC premiums) x (1+Inflation) + (estimated 2024 PBGC flat rate and variable rate premiums) The net result will be rounded to the nearest \$1 million.

Demographic assumptions

Withdrawal	See table of sample rates. <i>Rationale:</i> Withdrawal rates were developed based on an experience study undertaken in 2017 using data from 2012 through 2016. The assumption was most recently reviewed during an experience study undertaken in 2021 using data from 2016 through 2020 and no material differences were observed between expected experience and actual experience. The plan sponsor has reported that this period is representative of anticipated future experience.																																																							
Disability incidence	Heritage Amoco, Heritage Castrol, Carborundum, Hitco, Purina: See table of sample rates. The disability incidence table is based on the Conference of Consulting Actuaries 1985 Pension Disability Study Class 1 unisex rates. 100% of these participants becoming disabled are assumed to be eligible for Social Security disability benefits. All others: No disability benefits were valued. Disability incidence is included with the withdrawal decrements for these groups. <i>Rationale:</i> The table used for this assumption is an established and commonly used table. This assumption was set as class 1 employees were considered the best representation of the participant data.

Rationale: Retirement rates were developed based on an experience study undertaken in 2017 using data from 2012 through 2016. The assumption was most recently reviewed during an experience study undertaken in 2021 using data from 2016 through 2020 and no material differences were observed between expected experience and actual experience.

The plan sponsor has reported that this period is representative of anticipated future experience.

• Form of payment and Commencement Age – Active

Of the Amoco participants that are retirement eligible, 90% are assumed to elect payment in the form of an immediate lump sum, and 10% are assumed to elect payment in the form of an immediate annuity. Of the non-Amoco participants that are retirement eligible, 85% are assumed to elect payment in the form of an immediate lump sum, and 15% are assumed to elect payment in the form of an immediate annuity.

For the participants that are not retirement eligible in a Cash Balance Heritage, 40% are assumed to elect payment in the form of an immediate lump sum upon termination, 39% are assumed to elect payment in the form of a lump sum at age 59, and 21% are assumed to elect payment in the form of an annuity at age 65.

For the participants that are not retirement eligible in a Grandfathered final average pay Heritage (Amoco, ARCO, Castrol, and Toledo), 55% are assumed to elect payment in the form of an immediate lump sum upon termination, 29.25% are assumed to elect payment in the form of a lump sum at age 59, and 15.75% are assumed to elect payment in the form of an annuity at age 65.

Rationale: The Form of Payment assumptions for active participants, including both election percentages and commencement ages, were reviewed during an experience study undertaken in 2021 using data from 2016 through 2020 and updated to better align with actual experience.

The plan sponsor has reported that this period is representative of anticipated future experience.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- Form of Payment and Commencement Age – Inactive

Form of Payment:

Deferred vested participants who are eligible to take a lump sum are assumed to elect a benefit based on a combination of age and years since termination. These rates are defined in the table below:

Attained age	Lump sum	Single Normal Form of Payment
<50	100%	0%
50	94%	6%
54	85%	15%

70	72%	28%

Deferred vested participants who are *not* eligible to take a lump sum are assumed to elect payment in the single normal form of payment.

Commencement Age:

Deferred vested participants who are eligible to commence their benefit are assumed to commence payment based on the following select and ultimate rates:

During the first two years after termination, if a participant is eligible to commence their benefit immediately, commencement is assumed to occur at the following rates:

Cash Balance heritage groups (RAPNH, GBS Americas, BPX Energy, Retail Salary and Retail Hourly)

Years after termination	Commencement rate
1	12%
2	5%

Grandfathered final average pay Heritage (Amoco, ARCO, Castrol, and Toledo):

Years after termination	Commencement rate

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods for funding

Asset methods – effective January 1, 2009

We used financial data submitted by the trustee and BP Corporation North America, Inc. as of January 1, 2024 without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

For purposes of determining the actuarial value of assets, benefit payments and expenses were based on unaudited monthly trustee statements.

The asset valuation method is an average of the adjusted market value for each quarter during the last 8 quarters preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods – Effective January 1, 2008

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break-in-service on the valuation date are treated as terminated participants.
- **Transferred participants:** The liabilities for employees who have transferred into another business unit of the plan sponsor have been included with the liabilities for terminated vested participants; liabilities for employees who have transferred from another business unit of the plan sponsor have been included with the liabilities for active participants, with credited service from date of transfer.
- **Disabled participants:** The liabilities for participants on long-term disability have been included with the liabilities for terminated vested participants.
- **Insurance contracts:** The plan does have insurance contracts. Dorr Oliver Hourly and Dorr Oliver Salary are included in the valuation data and the assets.

Minimum funding methods – Effective January 1, 2008

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.
- **Changes since prior valuation:** None

Schedule SB, Part V — Summary of Plan Provisions

The following is a summary of what we understand to be the most relevant plan provisions for purposes of actuarial valuations. This summary should not be used for purposes of determining benefits under the plan.

Summary of major plan provisions for: Heritage BP and new nonretail participants after 1988

Effective Date and Plan Year	The original effective date of the plan was October 1, 1932. The BP America Inc. Retirement Plan (the "Prior Plan") was amended and restated effective January 1, 1989 as a "cash balance" retirement plan. It was restated effective January 1, 2008 and restated again effective January 1, 2019. The plan year is the calendar year. Most recent plan amendment was effective January 1, 2024.
Type of Plan and Administration	Defined benefit pension plan administered by the employer.
Employer	BP Corporation North America, Inc.
Employees Included	Any employee employed by BP Corporation North America, Inc. or one of the participating employers who is paid in U.S. currency who is not part of an excluded group. Excluded groups include employees covered by certain collective bargaining agreements, nonresident aliens who receive no U.S. sourced income, employed pursuant to agreements providing that they are not eligible to participate, not contemporaneously classified as employees for purpose of payroll systems, independent contractors, some retail operations employees, employees who are eligible for a tax-qualified defined benefit pension plan sponsored by an affiliate, hourly employees of Air BP Into Plane Fueling or Fuels Systems Operations (other than those located at Cleveland, Hopkins Airport), employees based in Puerto Rico, and employees associated with the bp Pulse sub-entity.
Vesting Service	The sum of (a), (b), (c) and (d): (a) Calendar months prior to July 1, 1971 during which required employee contributions were made. (b) Calendar months after June 30, 1971 and prior to January 1, 1976 in active employment or on paid leave. (c) After January 1, 1976 and prior to June 30, 2000 employees who first became employees prior to July 1, 1971 receive a year of service for each year in which an employee has at least 501 hours of service. Employees who first became employees on or after July 1, 1971 receive a year of service for each year of employment. (d) After June 30, 2000 service is measured in months and rounded up to nearest whole month.

Schedule SB, Part V — Summary of Plan Provisions

Eligible Compensation	Effective July 1, 2000, basic salary, wages and commissions, including forms of base pay delivered in alternate manners, annual incentive bonuses made prior to termination of employment other than payments made under the BP p.l.c. Deferred Annual Bonus Plan 2005 and the BP p.l.c. Medium Term Performance Plan 2005, performance awards, pay in lieu of vacation, Alaska worksite pay premiums paid prior to May 1, 2002, fire brigade payments to certain union employees at the Carson California Refinery and including salary reduction contributions made on behalf of a participant to a plan maintained under Sections 125, 129 and 401(k) of the Code. Excludes: sign on, retention or ratification payments, severance or separation payments, spot and recognition awards, moving and educational expenses, worksite premiums except Alaska paid prior to May 1, 2002 and any income under equity based plans. Prior to July 1, 2000, compensation excluded unscheduled overtime, premiums, bonuses and living or other allowances, forms of base pay delivered in alternate manners. Compensation is limited by law to the Code Section 401(a)(17) annual compensation limit.				
Accounts and Credits to Accounts	Opening Account For all participants who were active as of January 1, 1989, an opening account balance was established equal to the present value of the benefit accrued to December 31, 1988 under the provisions of the prior plan. Current Account A Current Account is established for each participant as of the later of (i) January 1, 1989 or (ii) the date the participant first becomes eligible for the Plan. At the end of each calendar month beginning on or after January 1, 1989, Pay Credits based on the participant's Eligible Compensation for the month will be added to the Current Account of all active participants.				
a. Pay Credits.					
	Age (at beginning of month)	or	Full Years of Vesting Service (at beginning of month)	% of Eligible Compensation up to and Including 1/48 of the Social Security Wage Base	% of Eligible Compensation above 1/48 of the Social Security Wage Base
Tier I:	less than 40		less than 10	4%	7%
Tier II:	40, less than 50		10, less than 20	5%	9%
Tier III:	50 or more		20 or more	6%	11%
A Participant's "full years of service" shall be determined by aggregating all of the Participant's months of Service from his first employment commencement date.					
b. Pay Credit Cap. In no event will the sum of (i) years and months for which a Participant has received Pay Credits and (ii) years and months for which a Participant has received credit for benefit calculation purposes under the Prior Plan or any other plan maintained by the Company, or any other member of the Group, exceed 37 years. Effective January 1, 2007, the Pay Credit Cap was removed for active employees.					

Schedule SB, Part V — Summary of Plan Provisions

- c. **Regular Interest Credits for participants hired/rehired prior to January 1, 2016.** Regular interest credits will be added to all accounts at the end of each calendar month. The regular interest credit shall be determined as the monthly equivalent to an annual calendar year rate equal to the greater of (a) 5.0% or (b) the interest rate on 30-year Treasury Securities as specified by the Board of Governors of the Federal Reserve System in effect 4 months prior to the crediting month.

Regular Interest Credits for participants hired / rehired (future accrual only) on or after January 1, 2016. Regular interest credits will be added to all accounts at the end of each calendar month. The regular interest credit shall be determined as the monthly equivalent to an annual calendar year rate equal to the greater of (a) 2.0% or (b) the interest rate on 30-year Treasury Securities as specified by the Board of Governors of the Federal Reserve System in effect 4 months prior to the crediting month.

- d. **Supplemental Interest Credits.** An additional supplemental interest credit equal to one-half of the annual Regular Interest rate will apply during employment on the Opening Account at the end of each calendar month.

Whipsaw	For participants hired prior to January 1, 2014, the plan applies the three segment rates as forward rates for whipsaw calculation on the cash balance. The cash balance benefits are projected to age 65 using the interest crediting rate and discounted back to current age based on the three segment rates.
Grandfathering Provisions	Employees who were participants in the plan as of January 1, 1989 and who were at least 50 years old as of that date and who are vested at the time of their termination of employment are entitled to the dynamic grandfather provisions. Their benefit will not be less than the actuarial equivalent of a single life annuity under the Prior Plan provisions. Such provisions shall be modified effective January 1, 1989, subject to any changes required by applicable law and regulations thereunder.
Normal Retirement	Termination of employment upon attainment of age 65. The monthly pension payable on a single life annuity basis, which is equal to the actuarial equivalent of the Current Account and Opening Account.
Deferred Vested Termination/ Early Retirement	Termination of employment at any age, after completion of three or more years of service. The Current Account and Opening Account at termination or the monthly pension, payable at age 65 on a single life annuity basis, which is equal to the actuarial equivalent of the Current Account and Opening Account.
Death Benefit	A participant who has completed at least three years of service and who is not receiving monthly retirement benefits is eligible for a preretirement death benefit. The preretirement death benefit payable upon death of the participant is equal to the full value of the basic retirement benefit that would have been payable had the participant retired on such payment date.
Automatic Forms of Payment	If married, the participant's retirement income shall be adjusted actuarially and paid under the 50% Joint and Survivor Option unless the participant has elected otherwise. The normal form of retirement income payable to an unmarried participant shall be a single life annuity.
Optional Forms of Retirement Benefits	Lump Sum, Single Life, Joint Annuity with 100%, 75%, or 50% payable to beneficiary.

Schedule SB, Part V — Summary of Plan Provisions

Annuity Placement	Recognized in the 2019 plan year, an annuity placement agreement for the RAP plan was signed on June 27, 2019 and assets were transferred to the selected insurer. The annuity placement covered the participant, beneficiary, alternate payee or similar person who as of June 2, 2019 received their entire accrued benefit as an annuity and the annuity was less than \$400 per month. Recognized in the 2020 plan year, an annuity placement agreement for the RAP and Enstar plans was signed on July 28, 2020 and assets transferred to the selected insurer on August 4, 2020. The annuity placement covered the participant, beneficiary, alternate payee or similar person who as of June 28, 2020 received their entire accrued benefit as an annuity and the annuity was less than \$1,000 per month.
Maximum Benefit	Maximum (\$200,000 at age 62; 100% age comp) (adjusted) reduced by 10% for each year before 10 years of participation in the plan.
Other Plan Provisions	The above outline of the basic benefit structure of the Plan is not intended to provide sufficient information to determine individual benefits. The outline should be used simply as an overview of the benefit structure and an aid in understanding and interpreting the remaining sections of this report. In addition, there are numerous plan provisions relating to all aspects of plan administration which are not included above.

Summary of major plan provisions for: Global Business Service group (GBS)

Provisions are the same as Heritage BP unless otherwise stated below.

Effective Date and Plan Year	The BP Retirement Accumulation Plan (the "Plan") was amended on March 30, 2010 to include Supplement XXVI, "Special Provisions Applicable to Employees in the Americas Business Service Center," to the Plan. This amendment is effective April 1, 2010. The plan year is the calendar year.
Eligible Employee	An individual who is employed in the Americas Business Service Center who is not part of an excluded group as described in the summary of Heritage BP provisions.
Accounts and Credits to Accounts	Opening Account The Opening Account of a Supplement XXVI employee who became eligible to participate in the Plan prior to April 1, 2010 is the participant's Opening Account under the Plan on March 31, 2010. The Opening Account of a Supplement XXVI employee who becomes a participant on or after April 1, 2010 would only be established pursuant to Appendix B of the Plan. Current Account As of the date that an employee becomes a Supplement XXVI participant, a "Supplement XXVI Account" shall be established for such a participant as a subaccount of the Current Account. Pay Credits. As of the last day of each calendar month as a Supplement XXVI employee beginning on or after April 1, 2010, 3% of Eligible Compensation shall be credited to the Supplement XXVI Account.

Schedule SB, Part V — Summary of Plan Provisions

	Regular Interest Credits for participants hired/rehired prior to January 1, 2016. Regular interest credits will be added to all accounts at the end of each calendar month. The regular interest credit shall be determined as the monthly equivalent to an annual calendar year rate equal to the greater of (a) 5.0% or (b) the interest rate on 30-year Treasury Securities as specified by the Board of Governors of the Federal Reserve System in effect 4 months prior to the crediting month. Regular Interest Credits for participants hired / rehired (future accrual only) on or after January 1, 2016. Regular interest credits will be added to all accounts at the end of each calendar month. The regular interest credit shall be determined as the monthly equivalent to an annual calendar year rate equal to the greater of (a) 2.0% or (b) the interest rate on 30-year Treasury Securities as specified by the Board of Governors of the Federal Reserve System in effect 4 months prior to the crediting month. Supplemental Interest Credit. Except for employees transferring from employment other than as Supplement XIV, "BP America Retirement Resource Account," employees to employment as Supplement XXVI Employees, there shall be no Supplemental Interest Credit made on behalf of employees.
Treatment of Grandfathered Participants	Grandfathering of any heritage pension benefit ends when an employee becomes a Supplement XXVI employee. However, BP Corporation North America, Inc. service continues to count toward early retirement eligibility and any temporary annuity, if applicable, under a grandfathered benefit.
Whipsaw	For participants hired prior to January 1, 2014, the plan applies the three segment rates as forward rates for whipsaw calculation on the cash balance. The cash balance benefits are projected to age 65 using the interest crediting rate and discounted back to current age based on the three segment rates.
Other Plan Provisions	The above outline of the basic benefit structure of the Plan is not intended to provide sufficient information to determine individual benefits. The outline should be used simply as an overview of the benefit structure and an aid in understanding and interpreting the remaining sections of this report. In addition, there are numerous plan provisions relating to all aspects of plan administration which are not included above.

Summary of major plan provisions for: Heritage Amoco

Provisions are the same as Heritage BP unless otherwise stated below.

Effective Date and Plan Year	The plan was originally established effective January 1, 1939 and merged into this plan effective July 1, 2000. This plan was restated on January 1, 2008 and most recently amended on July 1, 2011. The plan year is the calendar year.
Heritage Amoco Employee	A participant who was an eligible employee participating in the Amoco Heritage Plan on June 30, 2000. The term Amoco Heritage Participant shall also include any participant who was not an employee on June 30, 2000 but who returns to active employment as an eligible employee on or after July 1, 2000 but prior to incurring a one-year break in service. A "one-year break in service" for this purpose means a period of time beginning on the participant's severance date and ending on the reemployment date, if the duration of such period exceeds 12 months.

Schedule SB, Part V — Summary of Plan Provisions

Accrued Benefit	The annual amount of benefit, payable as a single life annuity for the life of the Participant, commencing at age 65. Effective July 1, 2011, the accrued benefit is the greater of: (a) the sum of the benefit determined from the Opening and the Current Account, or (b) the sum of the benefit determined from Prior Amoco Plan Formula and Part B Account.
Service	To determine eligibility for benefits, benefit service, and to determine the amount of benefits, sum of (a) and (b): (a) Vesting and Benefit Service under Amoco Heritage Plan as of April 1, 1993. (b) After April 1, 1993, service is measured in months beginning on Employee's service commencement date and ending on severance date rounded up to nearest whole month.
Benefit Service	To determine the amount of the benefit under the Amoco Plan Formula. Benefit Service under Amoco Heritage Plan as of December 31, 2001 plus Service after June 30, 2001 measured in months, rounded up to the nearest whole month.
Earnings	Prior Amoco Plan Formula Basic salary, wages and commissions, including forms of base pay delivered in alternate manners, payments under current and various discontinued incentive plans, Alaska worksite pay premiums prior to May 1, 2002, pay in lieu of vacation, for purposes of the career average formula, and including salary reduction contributions made on behalf of a participant to a plan maintained under Sections 125, 129 and 401(k) of the Code. Excludes: sign on, retention or ratification payments, severance or separation payments, spot awards and recognition payments, moving and educational expenses, worksite premiums except Alaska worksite pay premium prior to May 1, 2002, and tax reimbursements. Compensation is limited by law to the Code Section 401(a)(17) annual compensation limit.
Final Average Earnings	The greater of an employee's average earnings, excluding bonuses for the last 36 consecutive months or three consecutive years of benefit service out of the last ten years of benefit service (or all plan years, if fewer than three) in which the participant received the highest total amount of earnings, plus the highest average annual bonuses for the three consecutive calendar years out of the last ten consecutive calendar years of benefit service.
PIA	For early and normal retirement, PIA commencing at age 62 or current age if later assuming no earnings after termination.

Schedule SB, Part V — Summary of Plan Provisions

Accounts and Credits to Account

Opening Account
For all participants who were active as of July 1, 2000, an opening account balance was established equal to the following:

- For Participants eligible for early retirement as of July 1, 2000, the opening account balance is equal to the present value of the Participant's early retirement benefit, excluding, if applicable, the pre-Social Security temporary annuity.
- For Participants not eligible for early retirement as of July 1, 2000, the opening account balance is equal to the present value of the Participant's benefit at his earliest possible retirement date, discounted to July 1, 2000 using a 6.50% interest rate.

The present values mentioned above were determined using the 1983 Group Annuity Mortality Table (50% Male, 50% Female) and an interest rate of 6.50%.

Current Account
A Current Account is established for each participant as of the later of (i) July 1, 2000 or (ii) the date the participant first becomes eligible for the Plan. At the end of each calendar month beginning on or after July 1, 2000, Pay Credits based on the participant's Eligible Compensation for the month will be added to the Current Account of all active participants.

a. **Pay Credits.**

	Age (at beginning of month) or	Full Years of Vesting Service (at beginning of month)	% of Eligible Compensation up to and Including 1/48 of the Social Security Wage Base	% of Eligible Compensation above 1/48 of the Social Security Wage Base
Tier I:	less than 40	less than 10	4%	7%
Tier II:	40, less	10, less than	5%	9%
Tier	than 50	20	6%	11%
III:	50 or more	20 or more		

A Participant's "full years of service" shall be determined by aggregating all of the Participant's months of Service from his first employment commencement date.

b. **Pay Credit Cap.** In no event will the sum of (i) years and months for which a Participant has received Pay Credits and (ii) years and months for which a Participant has received credit for benefit calculation purposes under the Prior Plan or any other plan maintained by the Company, or any other member of the Group, exceed 37 years. Effective 1/1/2007, the Pay Credit Cap was removed for active employees.

Schedule SB, Part V — Summary of Plan Provisions

	c. Regular Interest Credits for participants hired/rehired prior to January 1, 2016. Regular interest credits will be added to all accounts at the end of each calendar month. The regular interest credit shall be determined as the monthly equivalent to an annual calendar year rate equal to the greater of (a) 5.0% or (b) the interest rate on 30-year Treasury Securities as specified by the Board of Governors of the Federal Reserve System in effect 4 months prior to the crediting month. <u>Regular Interest Credits for participants hired / rehired (future accrual only) on or after January 1, 2016.</u> Regular interest credits will be added to all accounts at the end of each calendar month. The regular interest credit shall be determined as the monthly equivalent to an annual calendar year rate equal to the greater of (a) 2.0% or (b) the interest rate on 30-year Treasury Securities as specified by the Board of Governors of the Federal Reserve System in effect 4 months prior to the crediting month.
	d. Supplemental Interest Credits. An additional annual supplemental interest credit equal to one-half of the annual Regular Interest rate will apply during employment on the Opening Account at the end of each calendar month.
Whipsaw	For participants hired prior to January 1, 2014, the plan applies the three segment rates as forward rates for whipsaw calculation on the cash balance. The cash balance benefits are projected to age 65 using the interest crediting rate and discounted back to current age based on the three segment rates.
Grandfathering Provisions	In the case of an Amoco Heritage Employee, the benefit payable shall not be less than what would have been payable under the Prior Amoco Plan Formula in existence on June 30, 2000 with Earnings and benefit accrual service not being recognized after December 31, 2012. In no event shall the Accrued Benefit of an Amoco Heritage Participant on or after July 1, 2011 be less than the Amoco Heritage Participant's Accrued Benefit under this Plan as of June 30, 2011.
Normal Retirement	Termination of employment upon attainment of age 65. Effective July 1, 2011, the monthly pension payable on a single life annuity basis, which is equal to the greater of the sum of the actuarial equivalent of the Current Account and Opening Account, or the sum of the Prior Amoco Plan Formula and the actuarial equivalent of the Part B Account.
Deferred Vested Termination/ Early Retirement	Termination of employment at any age, after completion of three or more years of service. The monthly pension, payable at age 65 on a single life annuity basis, which is equal to the greater of the sum of the actuarial equivalent of the Current Account and Opening Account, or the sum of the Prior Amoco Plan Formula and the actuarial equivalent of the Part B Account. The Prior Amoco Plan Formula monthly benefit is actuarially reduced if the monthly pension commences prior to age 65, unless the early retirement provisions under the Prior Amoco Plan Formula apply.
Death Benefit	A participant who is not receiving monthly retirement benefits is eligible for a preretirement death benefit. The preretirement death benefit payable upon death of the participant is equal to the full value of the participant's accrued benefit (the Prior Amoco Plan Formula pre-Social Security temporary annuity is not included).
Optional Forms of Retirement Benefits	Any participant may elect to receive a reduced pension in the form of a level income pension, (if a participant is in the Plan prior to January 1, 1999), general joint and survivor pensions, a lump-sum or a single life. All forms of payment are converted using the plan's definition of Actuarial Equivalence.

Schedule SB, Part V — Summary of Plan Provisions

Actuarial Equivalence	Effective January 1, 2008, BP Corporation North America, Inc. elected to provide the larger benefit based on the pre-PPA and PPA conversion methodology for active retirements. BP Corporation North America, Inc. elected to defer the PPA phase-in methodology until 2010 for active retirements. Beginning January 1, 2010, the lump sum conversion rate was based on a 20% annual phase-in of the 30-year Treasury rate with the segmented high-quality corporate-bond yield curve for the fourth month preceding the benefit commencement date. As of January 1, 2014, the phase-in is complete and the lump sum rate is based solely on the segmented yield curve as described in Code Section 417(e)(3). For all retirements effective July 1, 2011, the lump sum conversion interest rate will be based on 4.8% or the interest rate methodology described above, whichever provides the greater benefit.
Prior Amoco Plan Formula	Normal Retirement The monthly amount payable on a single life annuity basis equal to the greater of 1., 2. or 3.: 1. a. 1-2/3% of Final Average Earnings multiplied by Benefit Service (not more than 60% of Final Average Earnings), offset by b. 1-1/2% of the participant's PIA multiplied by Benefit Service (not more than 50% of the Social Security Allowance). 2. For each year of employment a. plus b. a. 1-1/2% of the participant's eligible compensation not in excess of the Social Security Wage Base. b. 2% of the participant's eligible compensation in excess of the Social Security Wage Base. 3. \$144 multiplied by years of benefit service. For certain employees who were participants in the Union Carbide Corporation Retirement Plan, the accrued benefit under the Employee Retirement Plan of Amoco Corporation will be offset by the accrued benefit under the Union Carbide plan. Further, certain "Carbide" employees are entitled to minimum benefits calculated under the "Carbide" formulas. Early Retirement Termination of employment after attainment of age 50 and completion of 15 or more years of service ("50 and 15 Status"). Participants in the plan as of August 1, 1989 may retire after age 55 and after the sum of age plus years of service equals or exceeds 75 ("75-Point Status"). The monthly pension payable at age 65 on a single life annuity basis is equal to the participant's accrued benefit. If payments begin before age 60, the participant's benefit as described in 1. a. above is reduced according to the following schedule before application of the offset in 1. b., above:

Part B Account	Effective January 1, 2013, a Part B Account shall be created for Amoco Heritage Participant. Part B Account shall have an initial balance of zero. Thereafter, the Part B Account shall be credited with Pay Credits and Regular Interest Credits. The Pay Credits and Regular Interest Credits shall be calculated in the same manner as calculated for the Current Account.		
Pre-Social Security Temporary Annuity	The participant eligible for early retirement will receive a pre-Social Security Temporary Annuity equal to the amount calculated under Prior Amoco Plan Formula 1.b. listed above using the age 62 primary insurance amount assuming zero future wages. This Temporary Annuity is payable until the participant attains age 62. This amount will not increase after December 31, 2012.		
Other Plan Provisions	The above outline of the basic benefit structure of the Plan is not intended to provide sufficient information to determine individual benefits. The outline should be used simply as an overview of the benefit structure and an aid in understanding and interpreting the remaining sections of this report. In addition, there are numerous plan provisions relating to all aspects of plan administration which are not included above.		

Summary of major plan provisions for: Heritage ARCO

Provisions are the same as Heritage BP unless otherwise stated below.

Effective Date and Plan Year	The plan was originally established effective January 1, 1970 (combined Atlantic Richfield Retirement Plan A and Atlantic Richfield Retirement Plan B). Amended and restated effective July 1, 1976. The Atlantic Richfield Retirement Plan "ARCO Heritage Plan") and CH-Twenty, Inc. Retirement Plan ("CH-Twenty Heritage Plan") merged into this plan effective January 1, 2002. This plan was most recently restated on January 1, 2008 and most recently amended on July 1, 2011. The plan year is the calendar year.
Heritage ARCO Employee	A participant who was an eligible employee participating in the ARCO Heritage Plan or CH-Twenty Heritage Plan on December 31, 2001. The term ARCO Heritage Participant shall also include any participant who was not an employee on December 31, 2001 but who returns to active employment as an eligible employee on or after December 31, 2001 but prior to incurring a one-year break in service. A "one-year break in service" for this purpose means a period of time beginning on the participant's severance date and ending on the reemployment date, if the duration of such period exceeds 12 months.

Schedule SB, Part V — Summary of Plan Provisions

Accrued Benefit	The annual amount of benefit, payable as the single normal form of payment for the life of the Participant, commencing at age 65. Effective July 1, 2011, the accrued benefit is the greater of: (a) the sum of the benefit determined from the Opening and the Current Account, or (b) the sum of the benefit determined from Prior ARCO Plan Formula and Part B Account.
Service	To determine eligibility for benefits and vesting the sum of (a) and (b): (a) sum of vesting service under ARCO Heritage Plan and CH-Twenty Heritage Plan as of December 31, 2001 (b) After December 31, 2001, service is measured in months beginning on Employee's service commencement date and ending on severance date rounded up to nearest whole month.
Membership Service	To determine the amount of benefits under the ARCO Plan Formula, Membership service under ARCO Heritage Plan and CH-Twenty Heritage Plan as of December 31, 2001 plus Service after December 31, 2001 measured in months, rounded up to the nearest whole month.
Base Pay	Prior ARCO Plan Formula Base salary or wages by the Company for a participant's personal service, excluding all extra pay such as overtime, premiums, bonuses, and other allowances. Compensation is limited by law to the Code Section 401(a)(17) annual compensation limit.
Average Final Base Pay	The employee's average annual eligible compensation for three consecutive plan years (or all plan years if less than three) in which the participant received the highest total amount of compensation after December 31, 1978.
Social Security Integration Level (SSIL)	SSIL for prior plan year multiplied by (the All Urban CPI Index as of June 30 of prior plan year divided by the All Urban CPI Index as of June 30 of the next preceding plan year) rounded to the nearest hundredth. The SSIL shall not increase after December 31, 2013.
Accounts and Credits to Account	Opening Account For all participants who were active as of January 1, 2002, an opening account balance was established equal to the following: - For Participants eligible for early retirement as of January 1, 2002, the opening account balance is equal to the present value of the Participant's early retirement benefit, excluding, if applicable, any temporary annuities. - For Participants not eligible for early retirement as of January 1, 2002, the opening account balance is equal to the present value of the Participant's benefit at his earliest possible retirement date, discounted to January 1, 2002 using a 6.00% interest rate. The present values mentioned above were determined using the 1983 Group Annuity Mortality Table (50% Male, 50% Female) and an interest rate of 6.00%. Current Account A Current Account is established for each participant as of the later of (i) January 1, 2002 or (ii) the date the participant first becomes eligible for the Plan. At the end of each calendar month beginning on or after January 1, 2002, Pay Credits based on the participant's Eligible Compensation for the month will be added to the Current Account of all active participants.

Schedule SB, Part V — Summary of Plan Provisions**a. Pay Credits.**

	Age (at beginning of month)	or	Full Years of Vesting Service (at beginning of month)	% of Eligible Compensation up to and Including 1/48 of the Social Security Wage Base	% of Eligible Compensation above 1/48 of the Social Security Wage Base
Tier I:	less than 40		less than 10	4%	7%
Tier II:	40, less than 50		10, less than 20	5%	9%
Tier III:	50 or more		20 or more	6%	11%

A Participant's "full years of service" shall be determined by aggregating all of the Participant's months of Service from his first employment commencement date.

- b. **Pay Credit Cap.** In no event will the sum of (i) years and months for which a Participant has received Pay Credits and (ii) years and months for which a Participant has received credit for benefit calculation purposes under the Prior Plan or any other plan maintained by the Company, or any other member of the Group, exceed 37 years. Effective January 1, 2007, the Pay Credit Cap was removed for active employees.

- c. **Regular Interest Credits for participants hired/rehired prior to January 1, 2016.** Regular interest credits will be added to all accounts at the end of each calendar month. The regular interest credit shall be determined the monthly equivalent to an annual calendar year rate equal to the greater of (a) 5.0% or (b) the interest rate on 30-year Treasury Securities as specified by the Board of Governors of the Federal Reserve System in effect 4 months prior to the crediting month.

Regular Interest Credits participants hired / rehired (future accrual only) on or after January 1, 2016. Regular interest credits will be added to all accounts at the end of each calendar month. The regular interest credit shall be determined the monthly equivalent to an annual calendar year rate equal to the greater of (a) 2.0% or (b) the interest rate on 30-year Treasury Securities as specified by the Board of Governors of the Federal Reserve System in effect 4 months prior to the crediting month.

- d. **Supplemental Interest Credits.** An additional annual supplemental interest credit equal to one-half of the annual Regular Interest rate will apply during employment on the Opening Account at the end of each calendar month.

Whipsaw

For participants hired prior to January 1, 2014, the plan applies the three segment rates as forward rates for whipsaw calculation on the cash balance. The cash balance benefits are projected to age 65 using the interest crediting rate and discounted back to current age based on the three segment rates.

Grandfathering Provisions

In the case of a Heritage ARCO Employee the benefit payable shall not be less than what would have been payable under the Prior ARCO Plan Formula in existence on December 31, 2001 with Base Pay and benefit accrual service not being recognized after December 31, 2013.

In no event shall the Accrued Benefit of an ARCO Heritage Participant on or after July 1, 2011 be less than the ARCO Heritage Participant's Accrued Benefit under this Plan as of June 30, 2011.

Schedule SB, Part V — Summary of Plan Provisions

Normal Retirement	Termination of employment upon attainment of age 65. Effective July 1, 2011, the monthly pension payable on the single normal form of payment basis is equal to the greater of the sum of the actuarial equivalent of the Current Account and Opening Account or the sum of the Prior ARCO Plan Formula and the actuarial equivalent of the Part B Account. Termination of employment upon attainment of age 60 for Flight Crew under Prior ARCO Plan Formula								
Deferred Vested Termination/ Early Retirement	Termination of employment at any age, after completion of three or more years of service. The monthly pension, payable at age 65 on the single normal form of payment basis, which is equal to the greater of the sum of the actuarial equivalent of the Current Account and Opening Account, or the sum of the Prior ARCO Plan Formula and the actuarial equivalent of the Part B Account. The Prior ARCO Plan formula monthly benefit is reduced if the monthly pension commences prior to age 65, unless the early retirement provisions under Prior ARCO Plan Formula apply.								
Death Benefit	A participant who is not receiving monthly retirement benefits is eligible for a preretirement death benefit. The preretirement death benefit, payable upon death of the participant is equal to the full value of the participant's accrued benefit.								
Automatic Forms of Payment	If married, the participant's retirement income shall be adjusted actuarially and paid under the 50% Joint and Survivor Option unless the participant has elected otherwise. The normal form of retirement income payable to an unmarried participant is a single life annuity.								
Actuarial Equivalence	Effective January 1, 2008, BP Corporation North America, Inc. elected to provide the larger benefit based on the pre-PPA and PPA conversion methodology for active retirements. BP Corporation North America, Inc. elected to defer the PPA phase-in methodology until 2010 for active retirements. Beginning January 1, 2010, the lump sum conversion rate was based on a 20% annual phase-in of the 30-year Treasury rate with the segmented high-quality corporate-bond yield curve for the fourth month preceding the benefit commencement date. As of January 1, 2014, the phase-in is complete and the lump sum rate is based solely on the segmented yield curve as described in Code Section 417(e)(3). For all retirements effective July 1, 2011, the lump sum conversion interest rate will be based on 4.8% or the interest rate methodology described above, whichever provides the greater benefit.								
Prior ARCO Plan Formula	Normal Retirement The monthly amount payable at or after age 65 on a five year certain and life annuity basis equal to the greater of 1. or 2.: 1. a. 1.18% of average final base pay not exceeding SSIL, plus 1.54% of average final base pay in excess of SSIL, all multiplied by Membership Service up to 35 years; plus b. 1.45% of average final base pay times Membership Service over 35 years 2. \$13 per month multiplied by Membership Service. Early Retirement Termination of employment after attainment of age 55 and completion of 10 or more years of Membership Service. Part B Account	Effective January 1, 2014, a Part B Account shall be created for Amoco Heritage Participant. Part B Account shall have an initial balance of zero. Thereafter, the Part B Account shall be credited with Pay Credits and Regular Interest Credits. The Pay Credits and Regular Interest Credits shall be calculated in the same manner as calculated for the Current Account.	
Prior Plan Disability Retirement Benefit	Participants under age 65 who become disabled after December 31, 1989 are eligible for a disability retirement benefit from this plan. Participants who retired on account of total and permanent disability with 10 or more years of Membership Service. (Membership Service is waived if disability results from an accident while in performance of duty for the Company). A participant's disabled retirement benefit is the accrued normal retirement benefit at his or her date of disability retirement. The minimum disability benefit a participant can receive is \$13.00 per year of membership service, or the smaller of: 20% Average Final Base Pay or the amount the participant would have received as a normal retirement allowance at age 65 based on Average Final Base Pay at the time of disability retirement.	
Prior Plan Deferred Vested Termination	After two years of Vesting Service accrued normal retirement benefit at date of termination, payable at age 65. Payable at employment termination. If the participant had 10 years of service at termination, the age 65 benefit is reduced to age 55 using the subsidized early retirement factors and from 55 to benefit commencement date, if earlier, using actuarial equivalence. If less than 10 years of service, benefit is actuarially reduced for early commencement.	
Death Benefit	An immediate payment equal to 60 times the normal monthly retirement benefit (without optional section), less any payments already made to the participant and any beneficiaries, except for any option providing for more than a minimum of 60 monthly payments.	
Vesting on Termination	The annual benefit is a participant's accrued normal retirement benefit at his or her date of termination, payable at age 65. Payable in a reduced amount (using same reduction as for early retirement) from age 55 with 15 years of Membership Service, or from age 60 with 10 years of Membership Service.	
Employee Contributions	None required after June 24, 1974.	
Prior Plan Normal Form of Annuity Payment	For married members, it is the actuarial equivalent 50% joint and survivor annuity. For other members, it is a life annuity with a 60-payment guarantee.	
Optional Forms of Payment	The participant can elect to receive a single life annuity, a joint and survivor annuity (100%, 75%, 50% or 25%), 120 or 240 month certain and life annuity, Social Security leveling option or a lump sum. Under the joint and survivor annuity option, if the joint annuitant dies before the member and within one year after the allowance becomes effective, payments are increased to the amount that would have been payable had the option not been elected. If the joint annuitant dies before the member and during the second year the allowance is effective, payments are increased by one-half of the difference between the amount payable had the option not been elected and the reduced allowance. If the joint annuitant dies before the member and during the third year the allowance is effective, payments are increased by one-third of the difference between the amount payable had the option not been elected and the reduced allowance. All optional forms of payment are converted using the plan's definition of Actuarial Equivalence.

Schedule SB, Part V — Summary of Plan Provisions

	A Participant's "full years of service" shall be determined by aggregating all of the Participant's months of Service from his first employment commencement date.
	b. Pay Credit Cap. In no event will the sum of (i) years and months for which a Participant has received Pay Credits and (ii) years and months for which a Participant has received credit for benefit calculation purposes under the Prior Plan or any other plan maintained by the Company, or any other member of the Group, exceed 37 years. Effective January 1, 2007, the Pay Credit Cap was removed for active employees.
	c. Regular Interest Credits for participants hired/rehired prior to January 1, 2016. Regular interest credits will be added to all accounts at the end of each calendar month. The regular interest credit shall be determined as the monthly equivalent to an annual calendar year rate equal to the greater of (a) 5.0% or (b) the interest rate on 30-year Treasury Securities as specified by the Board of Governors of the Federal Reserve System in effect 4 months prior to the crediting month. <u>Regular Interest Credits for participants hired / rehired (future accrual only) on or after January 1, 2016.</u> Regular interest credits will be added to all accounts at the end of each calendar month. The regular interest credit shall be determined as the monthly equivalent to an annual calendar year rate equal to the greater of (a) 2.0% or (b) the interest rate on 30-year Treasury Securities as specified by the Board of Governors of the Federal Reserve System in effect 4 months prior to the crediting month.
	d. Supplemental Interest Credits. An additional annual supplemental interest credit equal to one-half of the annual Regular Interest rate will apply monthly during employment on the Opening Account.
Whipsaw	For participants hired prior to January 1, 2014, the plan applies the three segment rates as forward rates for whipsaw calculation on the cash balance. The cash balance benefits are projected to age 65 using the interest crediting rate and discounted back to current age based on the three segment rates.
Grandfathering Provisions	In the case of a Heritage Toledo Employee, the benefit payable shall not be less than what would have been payable under the Heritage Toledo Plan Formula in existence on December 31, 2002 with Normal Basic Earnings and benefit accrual service not being recognized after December 31, 2013. In no event shall the Accrued Benefit of a Heritage Toledo Participant on or after July 1, 2011 be less than the Heritage Toledo Participant's Accrued Benefit under this Plan as of June 30, 2011.
Normal Retirement	Termination of employment after attainment of age 65 and satisfaction of participating group's service requirements. Effective July 1, 2011, the monthly pension payable on a single life annuity basis is equal to the greater of the sum of the actuarial equivalent of the Current Account and Opening Account, or the sum of the Heritage Toledo Plan Formula and the actuarial equivalent of the Part B Account.
Deferred Vested Termination/Early Retirement	Termination of employment at any age, after completion of three or more years of service. The monthly pension, payable at age 65 on a single life annuity basis is equal to the greater of the sum of the actuarial equivalent of the Current Account and Opening Account, or the sum of the Prior Toledo Plan formula and the actuarial equivalent of the Part B Account. The Prior Toledo Plan formula monthly benefit is actuarially reduced if the monthly pension commences prior to age 65, unless the early retirement provisions under the Heritage Toledo Plan Formula apply.
Death Benefit	A participant who is not receiving monthly retirement benefits is eligible. The preretirement death benefit, payable upon death of the participant is equal to the full value of the participant's accrued benefit.

Schedule SB, Part V — Summary of Plan Provisions

Automatic Forms of Payment	If married, the participant's retirement income shall be adjusted actuarially and paid under the 50% Joint and Survivor Option unless the participant has elected otherwise. The normal form of retirement income payable to an unmarried participant shall be an annuity paid for the participant's lifetime.
Optional Payment Forms	Contingent Annuities (25%, 50%, 75%, 100%), 120 months Certain Annuities, Social Security Level Income Option, Joint & Survivor Annuities (25%, 50%, 100%), Lump Sums.
Actuarial Equivalence	Effective January 1, 2008, BP Corporation North America, Inc. elected to provide the larger benefit based on the pre-PPA and PPA conversion methodology for active retirements. BP Corporation North America, Inc. elected to defer the PPA phase-in methodology until 2010 for active retirements. Beginning January 1, 2010, the lump sum conversion rate was based on a 20% annual phase-in of the 30-year Treasury rate with the segmented high-quality corporate-bond yield curve for the fourth month preceding the benefit commencement date. As of January 1, 2014, the phase-in is complete and the lump sum rate is based solely on the segmented yield curve as described in Code Section 417(e)(3). For all retirements effective July 1, 2011, the lump sum conversion interest rate will be based on 4.8% or the interest rate methodology described above, whichever provides the greater benefit.
Prior Toledo Plan Formula	The monthly amount payable on a single life annuity basis equal to greater of 1. or 2.: 1. Sum of (a), (b), and (c), offset by (d): a. Past service benefit for service before July 1, 1969, b. 1.3% Average Monthly Compensation multiplied by Benefit Service from 7/1/69 to 12/31/70, c. 1.6% Average Monthly Compensation multiplied by Benefit Service after 12/31/70, d. 50% of the participant's primary insurance amount which the participant is entitled to receive under the Social Security Act based upon age 65 termination prorated for Credited Service less than 35 years. 2. \$12 multiplied by Credited Service from last hire date.
Early Retirement	Termination of employment after attainment of age 55. The accrued benefit is reduced 5/12% for each month retirement precedes age 60.
Part B Account	Effective January 1, 2014, a Part B Account shall be created for Amoco Heritage Participant. A Part B Account shall have an initial balance of zero. Thereafter, the Part B Account shall be credited with Pay Credits and Regular Interest Credits. The Pay Credits and Regular Interest Credits shall be calculated in the same manner as calculated for the Current Account.
Disability Benefit	Eligibility: Age – none. Benefit: Employee continues to accrue benefits to age 65 based on the last NBE as long as entitled to Long-Term Disability (LTD) benefits.
Death Benefit	Eligibility: Death after 3 years of Vesting Service. Benefit: Beneficiary receives 50% of the normal retirement benefit reduced for early commencement and for the joint and survivor form of payment.
Other Plan Provisions	The above outline of the basic benefit structure of the Plan is not intended to provide sufficient information to determine individual benefits. The outline should be used simply as an overview of the benefit structure and an aid in understanding and interpreting the remaining sections of this report. In addition, there are numerous plan provisions relating to all aspects of plan administration which are not included above.

Pay Credits. As of the last day of each calendar month, there shall be credited to the Supplement IV Account for such month Pay Credits in an amount equal to three percent (3%) of the Participant's Eligible Compensation for the month.
	Regular Interest Credits for participants hired/rehired prior to January 1, 2016. Regular interest credits will be added to all accounts at the end of each calendar month. The regular interest credit shall be determined as the monthly equivalent to an annual calendar year rate equal to the greater of (a) 5.0% or (b) the interest rate on 30-year Treasury Securities as specified by the Board of Governors of the Federal Reserve System in effect 4 months prior to the crediting month. Regular Interest Credits for participants hired / rehired (future accrual only) on or after January 1, 2016. Regular interest credits will be added to all accounts at the end of each calendar month. The regular interest credit shall be determined as the monthly equivalent to an annual calendar year rate equal to the greater of (a) 2.0% or (b) the interest rate on 30-year Treasury Securities as specified by the Board of Governors of the Federal Reserve System in effect 4 months prior to the crediting month. Supplemental Interest Credit. Except for employees transferring from employment other than as Supplement XIV, "BP America Retirement Resource Account," employees to employment as Supplement IV Employees, there shall be no Supplemental Interest Credit made on behalf of employees.
Whipsaw	For participants hired prior to January 1, 2014, the plan applies the three segment rates as forward rates for whipsaw calculation on the cash balance. The cash balance benefits are projected to age 65 using the interest crediting rate and discounted back to current age based on the three segment rates.
Other Plan Provisions	The above outline of the basic benefit structure of the Plan is not intended to provide sufficient information to determine individual benefits. The outline should be used simply as an overview of the benefit structure and an aid in understanding and interpreting the remaining sections of this report. In addition, there are numerous plan provisions relating to all aspects of plan administration which are not included above.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended as of January 1, 2019 through the Tenth Amendment, are included in this valuation.

- **Most recent plan amendments included:** Amendments #8 and 9 Part One (Cash Balance) and #9 and 10 Part two (Heritage) are included in the valuation because they were adopted by the valuation date and are effective by the end of the plan year.
- **Plan amendments excluded:** None.

Schedule SB, Part V — Summary of Plan Provisions

- **Late retirement increases:**

- *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½.
- *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.

- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.

- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding

Additional benefits included or excluded

- **IRC Section 436 benefit restrictions:**

- *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior funding and ASC 960 valuation

The plan changes made in Part I Amendments 8 and 9 and Part II Amendments 9 and 10 were reflected to value the Special Provisions Applicable to Employees in Select Benefits.

Maximum compensation and maximum benefit amounts under IRS rules were updated from 2023 to 2024.
