Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

Plan Administrator and Administrative Committee
Sanoh America, Inc. Salaried Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Sanoh America, Inc. Salaried Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Sanoh America, Inc. Salaried Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note E to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

INDEPENDENT AUDITORS' REPORT (continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Sanoh America, Inc. Salaried Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Sanoh America, Inc. Salaried Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

INDEPENDENT AUDITORS' REPORT (continued)

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Sanoh America, Inc. Salaried Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Sanoh America, Inc. Salaried Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

SANOH AMERICA, INC. SALARIED RETIREMENT PLAN
Notes to the Financial Statements
December 31, 2024 and 2023

A - DESCRIPTION OF PLAN

The following description of the Sanoh America, Inc. Salaried Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General: The Plan, effective on January 1, 2003, is a defined benefit pension plan sponsored by Sanoh America, Inc. (the "Company" or "Plan Sponsor"). All Sanoh America, Inc. salaried employees are eligible to participate upon the later of age 21 or upon completion of one year of continuous service. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* ("ERISA"). Fidelity Management Trust Company ("Fidelity") is the custodian, recordkeeper, and actuary. All of the assets of the Plan are in the Sanoh America, Inc. Pension Plan Master Trust. The Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Funding Policy: The Company has agreed to voluntarily contribute such additional amounts that are necessary to provide assets sufficient to meet the benefits to be paid to Plan members. The Company's funding policy is to make contributions to the Plan in amounts as determined by the Plan's independent actuary. The Plan has met the minimum funding requirements established by the federal government.

Pension Benefits: Participants are eligible for monthly benefit payments upon reaching age 65. The normal monthly benefit payments are determined by .75% of average compensation, reduced by social security benefits and multiplied by the total number of years of credited service, not to exceed 40 years. A participant is 100% vested after five years of service. Prior to that time, the participant is not vested.

Employees are eligible to receive early retirement benefits between the ages of 55 and 65 upon the completion of 10 years of continuous service or may qualify for special early retirement benefits upon reaching age 55 and completing 15 years of continuous service. Early retirement benefits are computed in a manner similar to normal retirement at age 65, except that they are reduced by certain factors, as outlined in the Plan document, for each month that the early retirement date precedes the normal retirement date. Accrued benefits are payable as an annuity over the participant's lifetime or as a qualified joint and one-half survivor annuity.

Pre-retirement Death Benefit: Pre-retirement death benefit is available to a qualified married participant who is vested in an accrued benefit. If the participant was eligible for early retirement, the benefit is payable immediately. Otherwise, the benefit is payable when the participant would have been eligible for early retirement. The amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated on his date of death, elected the 50% Joint and Survivor annuity on his earliest retirement date, and died the next day.

A - DESCRIPTION OF PLAN (continued)

Disability: An employee who becomes totally and permanently disabled will continue to accrue benefit service for the period the eligible employee is entitled to a disability benefit under the Company's long-term disability plan.

Vesting: Upon completion of five years of vesting service but prior to becoming eligible for a normal retirement benefit, a participant is entitled to a deferred vested termination benefit equal to a percentage of their accrued retirement benefit. Eligible employees are fully vested upon completion of five years of vesting service.

B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities at the date of the financial statements, and the actuarial present value of accumulated plan benefits at the benefit information dates. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisers and custodians. See Note F for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

Administrative Expenses: The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent events: The Plan has evaluated all subsequent events through September 26, 2025, the date the financial statements were available to be issued.

C - ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years preceding the valuation date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuary report of the present value of accumulated plan benefits and the change in the present value of accumulated plan benefits as of January 1, 2024 and 2023 and the years then ended were prepared by the Fidelity Workplace Investing LLC. Actuarial valuation assumptions and methods used as of January 1, 2024 and 2023, are updated each year for assumption and method changes as prescribed by law such as changes in the maximum compensation and benefit limits and the prescribed mortality table.

C - ACCUMULATED PLAN BENEFITS (continued)

The actuarial present value of accumulated plan benefits as of January 1, 2024 and 2023 is as follows:

	2024	2023
Vested Benefits:		
Participants in pay status	\$ 1,533,158	\$ 1,193,238
Inactive participants	2,191,005	1,853,491
Active participants	<u>2,167,827</u>	<u>2,158,866</u>
Total vested benefits	5,891,990	5,205,595
Nonvested benefits - Active participants	<u>572,617</u>	<u>547,981</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 6,464,607</u>	<u>\$ 5,753,576</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the years ended January 1, 2024 and 2023, are as follows:

	2024	2023
Actuarial present value of accumulated plan benefits at January 1, 2023 and 2022	\$ 5,753,576	\$ 6,161,107
Increase (decrease) during the year attributable to:		
Interest due to the decrease in the discount period	465,575	427,230
Benefits paid	(154,721)	(117,637)
Benefits accumulated and plan experience	400,177	344,678
Change in assumptions	<u>-</u>	<u>(1,061,802)</u>
Actuarial present value of accumulated plan benefits at January 1, 2024 and 2023	<u>\$ 6,464,607</u>	<u>\$ 5,753,576</u>

The significant actuarial assumptions used in the January 1, 2024 and 2023 valuation were:

Rate of return

on investments: 8.20% and 8.20% per annum at January 1, 2024 and 2023, respectively

Mortality:

For 2024, Amount-weighted Pri-2012 Total Mortality Tables projected generationally with MP-2021 Mortality Improvement Scale with separate tables for Employees, Disabled Members, Annuities, and Contingent Annuitants
For 2023, Amount-weighted Pri-2012 Total Mortality Tables projected generationally with MP-2021 Mortality Improvement Scale with separate tables for Employees, Disabled Members, Annuities, and Contingent Annuitants

Expenses:

Sanoh pays the administrative expenses directly instead of paying for them out of the Master Trust

SANOH AMERICA, INC. SALARIED RETIREMENT PLAN
Notes to the Financial Statements
December 31, 2024 and 2023

C - ACCUMULATED PLAN BENEFITS (continued)

Retirement age: Age 65 is normal retirement age as defined in Plan provisions

Asset valuation: Asset valuation method, which allows for smoothing of gains/losses over multiple years

Discount rate: 5.30% and 5.55% per annum at January 1, 2024 and 2023, respectively

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

D - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below.
3. Vested benefits not insured by the PBGC.
4. All nonvested benefits.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

SANOH AMERICA, INC. SALARIED RETIREMENT PLAN
Notes to the Financial Statements
December 31, 2024 and 2023

D - PLAN TERMINATION (continued)

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefits obligations and may depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

E - INFORMATION CERTIFIED BY THE CUSTODIAN

Investments as certified by Fidelity as of December 31, 2024 and 2023, and net investment income for the years then ended are as follows:

	2024	2023
Investments:		
Plan Interest in Sanoh America, Inc. Pension Plan Master Trust	\$ 8,838,456	\$ 7,887,098
Net investment income (loss):		
Change in plan interest in Sanoh America, Inc. Pension Plan Master Trust	\$ 717,173	\$ 993,944

F - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2** Inputs to the valuation methodology include
 - quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market correlation or other means.
 If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

SANOH AMERICA, INC. SALARIED RETIREMENT PLAN
Notes to the Financial Statements
December 31, 2024 and 2023

F - FAIR VALUE MEASUREMENTS (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits. There have been no significant changes in the valuation methodologies used at December 31, 2024 and 2023 . The Plan has no liabilities measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and are classified within Level 1 of the valuation hierarchy.

All of the Plan's investments as of December 31, 2024 and 2023 were held in the Sanoh America, Inc. Pension Plan Master Trust, see Note G.

G - INTEREST IN SANOH AMERICA, INC. PENSION PLAN MASTER TRUST

All of the Plan's investments are in the Sanoh America, Inc. Pension Plan Master Trust, which was established for the investment of assets of the Plan and one other Sanoh America, Inc. sponsored retirement plan. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Sanoh America, Inc. Pension Plan Master Trust are held by Fidelity Management Trust Company.

The value of the Plan's interest in the Sanoh America, Inc. Pension Plan Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2024 and 2023, the Plan's interest in the net assets of the Sanoh America, Inc. Pension Plan Master Trust was approximately 42 percent and 41 percent, respectively. Total investment income (including net appreciation (depreciation) in the fair value of investments) of the Sanoh America, Inc. Pension Plan Master Trust is allocated to the individual plans based upon the amount of the time the Plan's assets were invested in the master trust.

H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Plan's financial statements.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

I - PARTY-IN-INTEREST TRANSACTIONS

At December 31, 2024 and 2023, Plan investments were held in the Sanoh America, Inc. Pension Plan Master Trust by Fidelity. Administrative expenses paid amounted to \$0 for both 2024 and 2023. Certain administrative functions are performed by officers and employees of the Company (who may also be a participant in the Plan) at no cost to the Plan.

These transactions are not deemed prohibited party-in-interest transactions because they are covered by the statutory administrative exemptions from the Internal Revenue Code's and ERISA's rules on prohibited transactions.

SANOH AMERICA, INC. SALARIED RETIREMENT PLAN
Notes to the Financial Statements
December 31, 2024 and 2023

J - FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Plan most recently by letter dated January 27, 2016, that the Plan's Regulations and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Subsequent to receiving the determination letter, several amendments to the Regulations have been approved that will not impact the Plan's tax-qualified status. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan is subject to routine audits by taxing jurisdictions. The 2013 Form 5500 was examined during 2015 by the IRS. In a letter dated August 18, 2015, the IRS stated that no change is necessary in the information reported and have accepted the return as filed. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2021.

K - REGULATORY ENVIRONMENT

The Plan will implement certain requirements by the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act) and the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act), laws which change the Plan to, among others, allow certain eligible individuals to suspend required minimum distributions for 2020 and delay the commencement date for required minimum distributions to age 72. Certain optional features within these acts have been assessed and have been implemented to date. Written amendments to the Plan electing these operational changes will be adopted by the end of 2025.

Congress enhanced the Secure Act with the passage of Secure Act 2.0 in late December 2022. Of the provisions, just a fraction apply to defined benefit plans. Some changes include an end to inflation indexing for PBGC variable rate premiums, new disclosures for lump-sum windows, improved clarification on cash balance pension plan crediting rate rules, higher involuntary cash out limits, increased age for required minimum distributions, among other items. Secure Act 2.0 amendments must be adopted by December 31, 2025.

In addition, the Plan elected the provisions of the American Rescue Plan Act of 2021 (ARPA) that provides funding relief for defined benefit plans retroactively for years beginning in 2019. The ARPA extended the segment rate collars by another six years, eliminated all existing shortfall bases & charges, and extended future amortization periods for amortizing shortfall amounts from 7 years to 15 years. In addition, under ARPA, the segment rates now reflect a 5% floor on the 25-year average rates before application of the corridor.

SANOH AMERICA, INC. SALARIED RETIREMENT PLAN
Notes to the Financial Statements
December 31, 2024 and 2023

K - REGULATORY ENVIRONMENT (continued)

On November 15, 2021, additional interest rate smoothing was signed into law via the “Infrastructure Investment & Jobs Act” (“IIJA”). In brief "stabilized interest rates" must now be within 5% of the 25-year average of corporate bond rates through 2030, gradually widening the segment rate collar to 30% for plan years beginning after 2034. ARPA is the third law and IIJA is the fourth law which extended the segment rate collars for the valuation of the pension plan's funding liability as well as the determination of the plan's minimum contribution requirement and the adjusted funding target attainment percentage that was originally enacted as part of the "Moving Ahead for Progress in the 21st Century Act" (MAP-21) in 2012.

Salary Scale: 3.50% (previously, 3.50%). Provided by the company based on anticipated future experience.

Increase in Consumer Price Index (CPI): 2.00% increase per year. We believe this assumption to be reasonable.

Increase in Social Security Taxable Wage Base: 3.00%. Real wage growth combined with inflation assumption indicates an economic assumption of social security national wage growth in pension plan valuations. Based on historic real growth in National Average Wages (from 1951) and Social Security estimate of around 1%, our best estimate places this assumption in the range of 0.75% to 1.25% above inflation.

Administrative Expenses included in Target Normal Cost:

ERISA: \$0 for 2024 (previously \$0 in 2023). Estimated based on expected non-investment related administrative expenses paid from the Trust

Mortality:

ERISA: IRS 2024 Small Plan Combined Static Mortality Table using separate tables for annuitants and non-annuitants as prescribed by IRC Section 430. These tables include future mortality improvement of eight years for males and nine years for females with the following adjustments: For ages below 80, the projection period is increased by one year for each year below age 80. For ages above 80, the projection period is reduced (but not below zero) by 1/3 year for each year above 80. Previously: IRS 2023 Small Plan Combined Static Mortality Table as prescribed by IRC Section 430. These tables include future mortality improvement of 8 years for males and 9 years for females with the following adjustments: For ages below 80, the projection period is increased by 1 year for each year below age 80. For ages above 80, the projection period is reduced (but not below zero) by 1/3 year for each year above 80.

Retirement Rates: Active participants are assumed to retire at the point in time in which they reach age 62 and 10 years of service (or Normal Retirement Age, if sooner).

Inactive participants are assumed to retire at Normal Retirement Age.

This assumption is based on the prior actuary's experience analysis and anticipated future experience.

Termination: 2003 Society of Actuaries Small Plan Age Table, multiplied by 1.00. This plan does not have a large enough population to deviate from the standard tables. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. This assumption was developed based on an experience analysis completed by the prior actuary. Sample rates are shown below:

<u>Age</u>	<u>Rate of Withdrawal</u>	<u>Age</u>	<u>Rate of Withdrawal</u>
20	24.30%	40	9.40%
25	19.50%	45	7.30%
30	15.50%	50	5.60%
35	12.10%	55	4.20%

Marital Status: 75% of males and females are assumed married, with females 3 years younger than males. This assumption does not have material impact on the results of this report and has been selected based the prior actuary’s assumption.

Maximum Benefit: \$275,000 for 2024.

Maximum Salary: \$345,000 for 2024.

Form of Payment: It has been assumed benefits will be paid in the normal annuity form applicable to the particular benefit. To the extent optional forms of payment are elected and conversions are determined under an actuarial basis, which differs from the basis funded in the valuation, gains or losses will occur. These gains or losses will be recognized through the routine application of the actuarial cost method. Other optional forms are roughly actuarially equivalent on the valuation basis, so no significant gains or losses are anticipated.

Actuarial Assumptions and Methods (continued)

Actuarial Value of Plan Assets for Funding Purposes:

The actuarial value of assets is equal to:

- a) the market value of assets, including discounted receivables, on the valuation date, less
- b) the following percentages of prior years' investment gains (losses):
 - i) 67% of the prior year, and
 - ii) 33% of the second prior year,

Investment gains and losses are defined as the excess or deficiency of the expected return on the market value (not to exceed the third segment rate for that year) over the actual return on the market value of assets, including discounted receivables, for any given year.

- c) The actuarial value of assets can be neither less than 90% nor greater than 110% of the market value of assets, including discounted receivables.

Actuarial Assumptions and Methods (continued)

Shortfall Amortization Charge for ERISA Funding Purposes: Per IRC Section 430(c), the shortfall amortization charge for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to any shortfall amortization base which has not been fully amortized. The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 15-year period beginning with such plan year.

Actuarial Cost Method: The unit credit cost method is used for ERISA funding target (FT) purposes. Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits (PVAB) for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.

The projected unit credit method is used for IRS maximum deductible limit cushion amount purposes. Under this method, accrued pension benefits are determined for all eligible active participants reflecting service to date and anticipated salary and negotiated benefit increases to the assumed retirement age. This liability for active participants is then added to the present value of all benefits for inactive participants to determine the total liability under this method.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings and negotiated benefit increases projected to assumed retirement age in both cases. The total normal cost is based upon the sum of the individual normal costs.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Provisions

Name of Plan: Sanoh America, Inc. Salaried Retirement Plan

Employer Identification Number / Plan Number: 38-2694169 / 001

Effective Date: Plan most recently restated on December 19, 2014.

Covered Employees: Salaried employees who are not consultants, non-resident aliens, in a bargaining class, leased employees, independent contractors, or covered by the Sanoh America, Inc. Pension Plan for Hourly Employees.

Entry Date: An eligible employee enters the plan on the first day of the month following the date which he reaches age 21 with one year of service.

Definitions:

Accrual Service: The period of service measured from employment date to the most recent severance date, expressed as years and fractional parts of a year. Service accrued prior to January 1, 2003 is excluded.

Vesting Service: The period of service measured from employment date to the most recent severance date, expressed as years and fractional parts of a year.

Average Compensation: The highest monthly average of total pay received for the five years out of the most recent ten years of service. Compensation excludes bonuses, incentive pay, separation pay, and the cost of any public or private employee benefit plan, including this plan.

Social Security Benefit: The annual old age or disability insurance benefit determined under Title II of the Federal Social Security Act as determined by the plan administrator under reasonable rules of uniformity.

Accrued Benefit: Monthly benefit equal to the difference between (a) and (b):
(a) 0.75% of Average Compensation times Accrual Service (up to 40 years)
(b) 0.75% of Social Security Benefit times Accrual Service (up to 40 years).

Normal Retirement Date (NRD): The participant's 65th birthday.

Monthly Benefits Paid Upon the Following Events:

Normal retirement: Accrued Benefit determined as of NRD.

Early retirement: The Accrued Benefit payable at NRD reduced by 1/4th of 1% for each month that the benefit commencement precedes NRD. No Social Security offset applies if the participant commences before age 62.

Special Early Retirement: The Accrued Benefit payable at NRD reduced for each month that payments commence prior to age 62. The reduction is 5/12^{ths} of 1% for months 1-48; 4/12^{ths} of 1% for months 49-60; and 3/12^{ths} of 1% for months 61-84 that precede age 62. No Social Security offset applies if the participant commences before age 62.

Postponed retirement: The greater of the Accrued Benefit determined as of actual retirement date or the Accrued Benefit as of NRD actuarially increased to the late retirement date.

Termination with deferred vested benefit: Accrued Benefit on the date of the termination multiplied by the vesting percentage payable at NRD. Participants are 100% vested after earning five years of vesting service.

Death with pre-retirement spouse benefit: If the participant was eligible for early retirement, the benefit is payable immediately. Otherwise, the benefit is payable when the participant would have been eligible for early retirement. The amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated on his date of death, elected the 50% Joint and Survivor annuity on his earliest retirement date, and died the next day.

Disability: The expected benefit at NRD. Accrual Service continues to accrue for the period that the participant is entitled to a disability benefit under the plan sponsor's long term disability plan.

Forms of Payment:

Normal form (single participants): Single life annuity.

Normal form (married participants): Actuarially reduced 50% joint and survivor annuity with spouse as beneficiary.

Optional forms: Participants who retire under the plan may elect a single life annuity, a ten-year certain and life annuity, a joint and survivor annuity with survivorship percentages of 50%, 75%, or 100%, an 80/80 Spouse's Annuity, or a 90/50 Spouse's Annuity.

Optional form conversion factors: Applicable optional forms are determined with conversion basis of 7.00% interest and the RP-2000 mortality table with a 50% male/female mix projected forward to 2005.

Maximum on Benefits and Pay: All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes: No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.
