Liberty Mutual 401(k) Plan

Financial Statements, Supplemental Schedules
and Independent Auditors' Report
December 31, 2024 and 2023

DANIEL DENNIS & Co
Certified Public Accountants

Independent Auditors' Report

To the Retirement and Administrative Committees of
Liberty Mutual 401(k) Plan

Opinion

We have audited the accompanying financial statements of Liberty Mutual 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Liberty Mutual 401(k) Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Liberty Mutual 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Liberty Mutual 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Liberty Mutual 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Liberty Mutual 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, Schedule H, Line 4a, Schedule of Delinquent Participant Contributions for the year ended December 31, 2024 and Schedule H Line 4i, Schedule of Assets (held at year end) as of December 31, 2024 are presented for purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Liberty Mutual 401(k) Plan
Notes to Financial Statements
December 31, 2024 and 2023

1. Description of Plan

The following description of the Liberty Mutual 401(k) Plan, (the “Plan”) is provided for general information purposes only. Participants should refer to the plan document for more detailed information.

General

The Plan is a defined contribution retirement plan sponsored by Liberty Mutual Group Inc. (the “Company”). The Plan offers participation to employees of “Participating Employers,” which includes the Company and any affiliated employers that have adopted the Plan with Company approval. All employees are immediately eligible to participate, with the exception of employees in the following job titles: internship/co-op, internship/co-op graduate, law clerk, INROADS student, or non-degree student. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Liberty Mutual Retirement Committee is responsible for oversight of the Plan, determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Employee Contributions

Employees are permitted to contribute up to 50% of each payroll period base compensation on a combined before-tax and after-tax basis and up to 100% of eligible annual short-term incentive compensation, subject to limitations imposed by the Economic Growth and Tax Relief Reconciliation Act (“EGTRRA”). During 2024 and 2023, “Highly compensated” employees were permitted to contribute up to 20% and 21%, respectively, of compensation (excluding short-term incentive plan bonus), with no more than 16% and 17%, respectively, of such compensation on either a before-tax or Roth after-tax basis, and up to 40% of eligible annual short-term incentive compensation. Rollover and catch-up contributions for employees who are age 50 or older are also permitted under the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. During 2024 and 2023, automatically enrolled participants have their deferral rate set at 8% of eligible compensation.

Participants’ Accounts

Participants’ accounts (before-tax and after-tax) are credited with participant contributions, employer contributions, and an allocation of earnings from the investment fund or funds selected by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account.

Investment allocation and contribution rates are determined by the participant and may be changed or discontinued at such time and in such manner as prescribed by the plan administrator. Participants are provided with the option to allocate their contributions into any of the different investment options through the Plan’s trustee, Fidelity Management Trust Company (“FMTC”), a party-in-interest.

1. Description of Plan - Continued

Employer Contributions

During 2024 and 2023, the Company made a matching contribution each pay period equal to 50% of the participant's contribution up to 8% of eligible compensation as defined in the Plan. Company matching contributions are allocated first to before-tax contributions. Rollover contributions and catch-up contributions are not eligible for a Company matching contribution.

Vesting

Employees are 100% vested in their contributions to the Plan, as well as related investment earnings. Employees become 50% vested in the Company matching contributions and applicable investment gains and losses after completing one year of vesting service and 100% vested after completing two years of vesting service.

Notes Receivable from Participants

Loans may be made to participants from the Plan through the record keeper upon electronic signature of the participant. Each loan shall bear interest at the prime rate published in the Wall Street Journal and shall be fixed for the duration of the loan. The total amount a participant may borrow is limited to 50% of the participant's vested account balance up to a maximum of \$50,000. The \$50,000 limit is reduced by the highest outstanding loan balance in the prior twelve month period. The minimum loan amount is \$500. Loans are repayable over a period of up to five years unless used for the purchase of a principal residence, in which case they may be repaid over a period of up to 15 years. The interest rates on loans issued were 7.75% to 8.50% in 2024 and 7.50% to 8.50% in 2023.

Payment of Benefits/Withdrawals

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum payment, monthly installments, quarterly installments, or annual installments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Participants may withdraw all or part of the balance in their after-tax and rollover accounts, as well as make financial hardship withdrawals from their before-tax accounts, while still employed, subject to limitations and conditions as defined in the plan document.

Forfeited Accounts

At December 31, 2024 and 2023, forfeited non-vested accounts totaled \$135,548 and \$155,442, respectively. These accounts will be used to reduce future employer contributions. During 2024 and 2023, employer contributions were reduced by \$3,229,853 and \$3,739,256, respectively, from forfeited non-vested accounts.

Party-in-Interest Transactions

Plan investments consist of certain funds managed by the FMTC, the trustee as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. During 2024 and 2023, the Plan paid FMTC administrative fees of \$1,770,954 and \$1,555,062, respectively.

2. *Summary of Accounting Policies*

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Other Receivables

Other receivables include auto settlement transactions that populate when buy transactions are made by participants and the funds are in transit.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses are paid by the Company to the extent not paid by the Plan.

Reclassifications

Certain 2023 amounts have been reclassified to conform to the 2024 financial statement presentation.

Liberty Mutual 401(k) Plan
Notes to Financial Statements - *Continued*
December 31, 2024 and 2023

3. *Federal Income Taxes*

The Internal Revenue Service (“IRS”) has determined and informed the Company by a letter dated June 30, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

4. *Expense Accruals*

The Plan pays certain investment manager and service provider fees from trust investment income expense accruals. The investment income reported in the Statements of Changes in Net Assets Available for Benefits is net of expenses paid of \$12,342,556 in 2024 and \$10,678,741 in 2023.

5. *Fair Value Measurement*

FASB *Accounting Standards Codification* (“ASC”) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Liberty Mutual 401(k) Plan
Notes to Financial Statements - *Continued*
December 31, 2024 and 2023

5. *Fair Value Measurement - Continued*

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Company is responsible for the determination of fair value and the supporting assumptions and methodologies. The Company gains assurance on the overall reasonableness and consistent application of valuation methodologies and inputs and compliance with accounting standards through the execution of various processes and controls designed to ensure that the Plan's investments are appropriately valued. For fair values received from third parties or internally estimated, the Company's processes are designed to determine that the valuation methodologies and inputs are appropriate and consistently applied, the assumptions are reasonable and consistent with the objective of determining fair value, and the fair values are accurately recorded. For example, on a continuing basis, the Company assesses the reasonableness of individual fair values that have stale security prices or that exceed certain thresholds as compared to previous fair values received from valuation service providers or brokers or derived from internal models. The Company performs procedures to understand and assess the methodologies, processes and controls of valuation service providers. In addition, the Company may validate the reasonableness of fair values by comparing information obtained from valuation service providers or brokers to other third party valuation sources for selected securities.

In determining fair value, the Plan uses the market approach and/or income approach valuation techniques where appropriate to maximize the use of observable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Registered Investment Companies

These investments are valued at the quoted market prices and net asset values of shares held by the Plan at year end and transactions at that price. The investments held by the Plan are deemed to be actively traded.

Liberty Mutual 401(k) Plan
Notes to Financial Statements - *Continued*
December 31, 2024 and 2023

5. Fair Value Measurement - Continued

Separate Accounts

The Plan's separate account investments are in equity securities and fixed income investments. The U.S. equity securities valued at quoted market prices on the active market on which the individual securities are traded are classified within Level 1 of the fair value hierarchy. The foreign equity securities valued at corroborated prices on established exchanges are generally classified within Level 1. The other fixed income investments (corporate debt, asset backed securities, bank deposits and government bonds) are valued using pricing models maximizing the use of observable inputs and multiple pricing sources and are generally classified within Level 2.

Collective Trust Funds

These investments are valued at fair value as determined and reported by the investment entities and represent the Plan's proportionate share of the estimated fair value of the underlying net assets of the investment entity.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and 2023:

6. *Risk and Uncertainties*

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

7. *Plan Termination*

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue or to reduce the amount of its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, affected participants will become 100% vested in their accounts.

8. *Subsequent Events*

The Plan has evaluated subsequent events through September 22, 2025, which is the date the financial statements were available to be issued. No material subsequent events have occurred since December 31, 2024, that requires recognition or disclosure in these financial statements.
