**Schedule SB, Part V - Statement of Actuarial Assumptions/Methods**  
**EIN/PN: 36-4148388/003**

<b>Valuation Date</b>	December 31, 2024
<b>Actuarial Cost Method</b>	
<i>Funding Target Liability</i>	The Funding Target Liability is determined using the Unit Credit Actuarial Cost Method. Under this method, an accrued benefit is determined for each individual based upon service and compensation / benefit components as of the beginning of the plan year; a present value of this amount is then determined based upon each individual's anticipated future date(s) of decrement (allowing for anticipated future eligibility for benefits).
<i>Target Normal Cost</i>	Target Normal Cost is determined as the increase in a participant's accrued benefit (inherent in the determination of the Target Liability) for an additional year of service earned during the plan year. Target Normal Cost also includes the assumed value of any administrative expenses payable from the plan trust for the plan year.
<b>Actuarial Value of Assets Method</b>	Fair value of assets, including the discounted value of any receivable contributions and excluding the accumulated value of any advance contributions.
<b>Excess Assets</b>	The excess of the Plan's Actuarial Value of Assets (reduced for any Carryover Balance / Prefunding Balance) over the Plan's Funding Target Liability, if any.
<b>Funding Shortfall</b>	The excess of the Plan's Funding Target Liability over the Plan's Actuarial Value of Assets (reduced for any Carryover Balance / Prefunding Balance), if any.
<b>Amortization of Funding Shortfall</b>	<p>The Plan's Funding Shortfall is amortized using a 15-year closed amortization method.</p> <p>Under this method, the Plan's Funding Shortfall is determined each year and a new shortfall amortization charge is established (if applicable). The new shortfall amortization charge is determined as the amortization of the difference in the Funding Shortfall and the present value of all remaining shortfall amortizations. Once established, a shortfall amortization is maintained and amortized over a 15-year period (unless and until the Plan no longer has a Funding Shortfall).</p> <p>A new shortfall amortization charge is not established for a plan year if the Funding Shortfall (determined without reduction for any Carryover Balance) is less than zero.</p>

<b>Minimum Required Contribution</b>	<p>Equal to the Target Normal Cost plus any Shortfall Amortization Charges, less the value of any Excess Assets.</p> <p>Certain assumptions used for the purposes of determining the Minimum Required Contribution are prescribed by law and subject to sponsor elections.</p>
<b>Maximum Deductible Contribution</b>	<p>Equal to the Funding Target Liability, plus Target Normal Cost, plus a Cushion Amount (50% of the Funding Target Liability*), plus an adjustment to the Funding Target Liability* for assumed salary increases (if applicable), less the value of the Actuarial Value of Assets.</p> <p>Certain assumptions used for the purposes of determining the Maximum Deductible Contribution are prescribed by law and subject to sponsor elections.</p>
<b>Determination of Vested Funding Target Liability</b>	<p>Determined under the same methodology as the Funding Target Liability but based upon the vested amount of a participant's accrued benefit considering the participant's age and service as of the valuation date. At each future decrement age, only benefits for which a participant is fully or partially vested as of the valuation date are valued.</p> <p>For these purposes, pre-retirement death benefits are considered vested based upon a participant's age and service as of the valuation date.</p>
<b>Roll-Forward Methodology</b>	<p>The current methodology is to prepare a robust valuation every year, based on census information as of the Valuation Date. There is no roll-forward methodology used.</p>
<b>Inclusion Date</b>	<p>Employees are included in the valuation upon attaining eligibility to participate in the Plan; no future or re-hired employees or participants are anticipated as of the valuation date, and former non-vested participants are excluded from the valuation as provided under Treasury Regulation §1.430(d)-1(e)(2).</p>
<b>Compensation</b>	<p>Current year plan compensation is provided by Midwest Physicians Alliance, Inc. and is used directly to prepare the Funding Target Liability and Target Normal Cost as of the valuation date.</p>

\* For these purposes, the value of benefit increases for highly compensated employees (within the last two years) are excluded.

**American Rescue Plan Act  
(ARPA) of 2021**

The results have been prepared reflecting the provisions of the American Rescue Plan Act (ARPA) of 2021. This includes the changes to the provisions of IRC Section 430(h)(2)(C)(iv) regarding the stabilized interest rates required to be used for the actuarial valuation.

This also includes the provisions of IRC §430(c)(8) regarding the reset of all prior shortfall amortizations and the extension of the amortization period to 15 years for all subsequent shortfall amortizations.

The results have been prepared based upon our understanding of the provisions of ARPA, and represent a good faith effort to adhere to the provisions of the law. Future guidance provided by the Internal Revenue Service may conflict with this understanding; ultimate results will conform to all guidance provided regarding the act.
