Independent Auditors' Report

To the Plan Administrator of
Schneider Electric Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Schneider Electric Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 (in Liquidation) and 2023 (Ongoing), and the related statements of changes in net assets available for benefits for the years ended December 31, 2024 (in Liquidation) and December 31, 2023 (Ongoing) and the statement of accumulated plan benefits as of December 31, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Schneider Electric Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Schneider Electric Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter - Plan Termination and Liquidation Basis of Accounting

As discussed in Notes 1 and 2 to the financial statements, the Schneider Electric Benefits Committee adopted a resolution to terminate the Plan effective July 31, 2024, and determined liquidation is imminent. As a result, the Plan changed its basis of accounting from the ongoing basis of accounting used in presenting the 2023 financial statements to the liquidation basis of accounting used in presenting the 2024 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Schneider Electric Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Schneider Electric Pension Plan

Notes to Financial Statements

December 31, 2024 (In Liquidation) and 2023 (Ongoing)

1. Description of Plan

The following description of the Schneider Electric Pension Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan established effective March 11, 1989, as restated January 1, 2019. The Plan's sponsor is Schneider Electric Holdings, Inc. (the Company or Employer). The Plan covers substantially all hourly employees of Sensus Technologies, Inc., the BTR Valve Sealants, Inc. Retirement Plan for Hourly-Rated Employees, the McCanna, Inc. Retirement Plan for Hourly-Rated Employees, the Marpac, Inc. UAW Local #794 Pension and Disability Plan, the Smith Blair, Inc. Pension Plan for Hourly Employees, and the Schneider Electric USA, Inc. Pension Plan (SE Salaried Plan) spun off salaried and hourly participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Schneider Electric Investment Committee (Investment Committee) and the Schneider Electric Benefits Committee (Benefits Committee) are responsible for oversight of the Plan.

Effective December 17, 2003, for all legacy participants of the Plan, the Plan was amended to: (a) freeze all benefit accruals, except with respect to scheduled future rate increases applicable to pre-closing date service pursuant to any collective bargaining agreements covering participants of the Plan that were in effect prior to the closing date and (b) continue to recognize service only for vesting purposes and eligibility for early retirement entitlements. Benefit accruals for participants transferred in from the SE Salaried Plan were frozen, effective December 31, 2009. All SE Salaried Plan participants who were active employees as of December 31, 2009 became fully vested.

Plan Termination

The Benefits Committee approved a resolution on April 19, 2024, to terminate the Plan effective July 31, 2024. In conjunction with the termination of the Plan, a Plan Termination Committee was established as the fiduciary to oversee the termination and liquidation of the Plan. As a result of the Plan termination, management estimated and recorded an additional \$2,032,000 in accrued expenses and income of \$950,000 through the anticipated liquidation date.

The Plan offered a one-time lump-sum retirement window to participants who were not yet receiving payments under the Plan. Participants meeting the criteria had from August 26, 2024 through October 11, 2024 to make such election under the one-time lump-sum window. Benefits paid under the lump-sum window totaled \$106,052,565 in 2024 and \$31,451,388 in 2025.

The Plan purchased buy-in annuity contracts on June 14, 2024, from Banner Life Insurance Company and RGA Reinsurance Company covering essentially all in-pay participants and participants who did not take the one-time lump sum payment and will receive monthly annuity payments in the future. Accordingly, associated assets in the form of cash and in-kind fixed income securities were transferred to Banner Life Insurance Company and RGA Reinsurance Company in the amount of \$572,236,000. On December 2, 2024, the Plan paid additional premiums of \$15,873,942 to Banner Life Insurance Company and \$14,334,083 to RGA Reinsurance Company related to the true-up provisions of the buy-out contracts. As of March 31, 2025, the Plan received \$36,037,327 of reimbursements for participant payments from the annuity providers related to the provisions of the buy-out contracts.

In January 2025, the Plan Termination Committee elected to effect conversion of the buy-in annuity contracts to buy-out annuity contracts effective April 9, 2025, with the annuity providers assuming complete administrative responsibilities on May 1, 2025.

December 31, 2024 (In Liquidation) and 2023 (Ongoing)

Master Trust

The Plan's investments are held in the Schneider Electric Holdings, Inc. DB Master Trust (the Master Trust), which was established for the investment of assets of the Plan, the Schneider Electric USA, Inc. Coordinated Bargaining Employees' Pension Plan (Union Plan), and the Invensys Pension Plan (Invensys Plan). Each participating retirement plan has a divided interest in the Master Trust. The assets of the Master Trust are held by The Bank of New York Mellon (Trustee).

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The minimum funding requirements of ERISA were met in 2024.

Pension Benefits

Plan participants are entitled to their plan benefits after terminating employment with vested rights. Participants become vested in the Plan upon completion of at least five years or attainment of the normal retirement age (65), although the Plan does allow for early retirement at the age of 55. If employees terminate before rendering the required years of service, they forfeit the right to receive their accumulated plan benefits. Pension benefits are provided to participants under several retirement options based upon years of continuous service and age. Pension payments are normally paid in the form of a monthly annuity payable for their lifetime or, if married, in the form of a qualified joint or survivor annuity.

2. Summary of Accounting Policies

Basis of Accounting

As a result of the resolution to terminate the Plan effective July 31, 2024, the Plan considers liquidation to be imminent and, therefore, the financial statements of the Plan as of and for the year ended December 31, 2024, are presented on the liquidation basis of accounting. The financial statements of the Plan as of and for the year ended December 31, 2023, are prepared on the ongoing basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Schneider Electric Pension Plan

Notes to Financial Statements

December 31, 2024 (In Liquidation) and 2023 (Ongoing)

Investment Valuation and Income Recognition

Investments held in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan interest in Master Trust investment income (loss), in the accompanying Statement of Changes in Net Assets Available for Benefits includes the Plan's allocation of interest, dividends, realized gains or losses from the sale of investments, and unrealized appreciation or depreciation in the fair value of investments held by the Master Trust, and fees charged to the Master Trust, which are netted against or included with net appreciation (depreciation) in fair value of investments. These fees represent charges by the Trustee for services provided in connection with recordkeeping and investment management. Net unrealized appreciation (depreciation) in fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investments as of the beginning of the period or the cost of the investment if purchased during the year.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits.

Recent Accounting Standards

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the year ended December 31, 2024, and continues to evaluate the impact of the adoption and implementation of this legislation on the Plan. The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements.

Subsequent Events

Subsequent events were evaluated through October 7, 2025, the date the financial statements were available to be issued.

In February 2025, as part of the special one-time lump sum window, benefits were paid to participants totaling \$31,451,388.

On September 22, 2025, the Plan received a favorable determination letter from the IRS stating that the Plan is qualified under applicable sections of the Internal Revenue Code (IRC) and the Plan's termination has not impacted the Plan's tax exempt status.

Schneider Electric Pension Plan

Notes to Financial Statements

December 31, 2024 (In Liquidation) and 2023 (Ongoing)

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' years of credited service and other various plan document defined factors. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death, disability, and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuation been performed as of December 31, 2023 there would be no material differences. The significant actuarial assumptions used in the valuation were:

Assumption

Interest rate	6.20% as of December 31, 2023 and 5.80% as of December 31, 2022
Retirement ages	From 5% at age 55 to 100% at age 65
Mortality	Pri-2021 mortality tables projected with the IRS-modified mortality improvement scale MP-2021

The foregoing actuarial assumptions were based on the presumption the Plan would continue. As discussed in Note 1, on April 19, 2024, the Benefits Committee made the decision to terminate the Plan effective July 31, 2024, and began liquidation procedures. When a Plan terminates, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The impact on the actuarial present value of accumulated plan benefits, taking into consideration the impact of the termination decision, have not been determined at this time.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Schneider Electric Pension Plan

Notes to Financial Statements

December 31, 2024 (In Liquidation) and 2023 (Ongoing)

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Cash equivalents and short-term investment funds: These investments are stated at cost, which approximates fair value.

Corporate debt securities and U.S. government and agencies securities: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

Common collective trusts: Consisting of common-collective trusts, valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Private equity investment funds: Valued at the NAV provided by the investment fund managers. The NAV is calculated using valuation models developed by the investment fund managers and independent third-party appraisals, and is used as the practical expedient to estimate fair value.

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the Interest in Master Trust table.

(b) Includes a common collective trust that is designed to provide an investment return that approximates as closely as practicable, before expenses, the performance of the S&P 500 Index over the long term while providing participants the ability to purchase and redeem units on an "as of" basis.

(c) Includes a common collective trust that is designed to approximate as closely as practicable, before expenses, the performance of the Bloomberg Barclays Capital U.S. Long Government Bond Index over the long term. The fund may attempt to invest in the securities comprising the index, in the same proportions as they are represented in the index. However, due to the diverse composition of securities in the index and the fact that many of the securities comprising the index may be unavailable for purchase, it may not be possible for the fund to purchase some of the securities comprising the index. In such a case, the investment manager of the fund will select securities for the fund comprising a portfolio that the investment manager expects will provide a return comparable to that of the index. The per unit NAV of the fund is determined each business day. Issuances and redemptions of the fund units may be made on such days, based upon the closing market value on the valuation date of the investments bought or sold and the transaction price per unit of the fund as of the fund's valuation date last preceding the date on which such order to contribute or withdraw assets is received.

(d) Includes limited liability corporation investments, which offer portfolio diversification, along with higher expected long-term market returns. The private equity investments generally cannot be liquidated until the funds are fully terminated and distributed.

Fair Value of Investments That Calculate NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2024 and 2023. There are no participant redemption restrictions for these investments; and the redemption notice period is applicable only to the Plan.

5. Interest in Master Trust

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and each plan's divided share of investment income less actual distributions and administrative expenses. Total investment income (including net appreciation (depreciation) in the fair value of investments) and administrative expenses of the Master Trust are divided to the individual plans based upon the Plan's share of assets that were invested in the Master Trust.

6. Information Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2024 and 2023. Accordingly, Bank of New York Mellon/BNY Mellon, N.A., the Trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023, and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024, and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2024 and 2023. Such information was obtained by management and agreed to or derived from information certified as complete and accurate by a qualified institution.

7. Related-Party and Party in Interest Transactions

The Plan's investments are held by the Master Trust administered under a contract with Bank of New York Mellon/BNY Mellon, N.A., the Trustee of the Plan. Contributions are held and managed by Bank of New York Mellon/BNY Mellon, N.A., who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

8. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 13, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. In connection with the termination of the Plan, a request for a determination letter from the IRS to confirm the Plan's qualified status upon termination was submitted on June 10, 2024. The IRS issued a favorable determination letter upon termination on September 22, 2025.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, concentration, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2024 and 2023, the Plan had investments in their divided interest in the Master Trust of \$48,320,144 and \$290,151,866, respectively, that were concentrated in three and two different investments, respectively.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2024 and 2023, to Form 5500:

	2024	2023
Net assets available for benefits per the financial statements	\$ 59,367,086	\$ 786,097,758

Rationale for Economic Assumptions

- The expense assumption is based on prior year actual expenses, adjusted for expected changes in the coming year.
- The expected investment return is based on the median simulated investment returns using capital market assumptions published in Mercer Investment LLC's Capital Markets Outlook for the Plan's target asset mix, net of an adjustment for investment expenses assumed to be paid from the plan, and adjusted to reflect expected alpha.

Rationale for Demographic Assumptions

- Benefit commencement age for terminated vested participants, and the form of payment assumptions for the legacy M&FC plan were developed based on an experience study undertaken in 2011 covering the four-year period ending December 31, 2009. The plan sponsor believes these assumptions continue to be representative of anticipated future experience. The assumptions are reviewed annually for reasonability.
- Withdrawal, retirement age and form of payment assumptions for the legacy SE plan were based on an experience study undertaken in late 2016. The plan sponsor believes that these rates are representative of anticipated future experience.
- Because the employer does not have enough credible experience to analyze spousal demographics, the assumptions regarding percent married/spouse age difference at benefit commencement age are based on the actuary’s experience with many plans and discussions with employer representatives.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods for funding****Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts under which benefits are paid to plan participants.
- **Transferred participants:** The liabilities for employees who have transferred into another plan of the plan sponsor have been included with the liabilities for terminated vested participants.
- **Disabled participants:** Disabled participants are included in the active employee count since they continue to earn vesting service for early retirement eligibility.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Expenses	\$1,280,000 added to current year normal cost

Rationale for Economic Assumptions

- The expense assumption is based on prior year actual expenses, adjusted for expected changes in the coming year.
- The expected investment return is based on the median simulated investment returns using capital market assumptions published in Mercer Investment LLC's Capital Markets Outlook for the Plan's target asset mix, net of an adjustment for investment expenses assumed to be paid from the plan, and adjusted to reflect expected alpha.

Rationale for Demographic Assumptions

- Benefit commencement age for terminated vested participants, and the form of payment assumptions for the legacy M&FC plan were developed based on an experience study undertaken in 2011 covering the four-year period ending December 31, 2009. The plan sponsor believes these assumptions continue to be representative of anticipated future experience. The assumptions are reviewed annually for reasonability.
- Withdrawal, retirement age and form of payment assumptions for the legacy SE plan were based on an experience study undertaken in late 2016. The plan sponsor believes that these rates are representative of anticipated future experience.
- Because the employer does not have enough credible experience to analyze spousal demographics, the assumptions regarding percent married/spouse age difference at benefit commencement age are based on the actuary’s experience with many plans and discussions with employer representatives.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods for funding****Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts under which benefits are paid to plan participants.
- **Transferred participants:** The liabilities for employees who have transferred into another plan of the plan sponsor have been included with the liabilities for terminated vested participants.
- **Disabled participants:** Disabled participants are included in the active employee count since they continue to earn vesting service for early retirement eligibility.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Effective Date	March 10, 1989
Eligibility	An eligible employee is an employee of Precision Die Casting, Inc. who is covered by a collective bargaining agreement.
Participation Date	A new eligible employee will become a participant in the plan on the date he or she becomes an eligible employee.
Credited Service	Credited Service is granted for employment with an employer as an eligible employee on or after March 10, 1989 or, if later, after the employer became an affiliated employer. Credited Service is frozen as of December 17, 2003 (Metering Systems divestiture date). Years of Credited Service is measured on the basis that: 12 months of service (or 365 days of service) equals one year of service, and 30 days of service equals one month of service with respect to the aggregation of fractional months.
Vesting Service	One year of Vesting Service is earned for each twelve month period of employment for employment after March 10, 1989.

Normal Retirement

Eligibility	Age 65
Benefit	The greater of A. and B. as below: \$22 times participants' years of Credited Service. The participant's accrued benefit determined under the Invensys Pension Plan as of December 31, 2000.
Commencement	Payments commence on the later of the first day of the month following an employee's retirement or the date the participant applies for the benefit.
Form of Payment	Benefits are normally payable in an unreduced amount as a life annuity for unmarried participants and in a reduced amount on a 50% joint and survivor basis for married participants.
Late Retirement	Each employee who continues to be an employee after attaining his or her Normal Retirement Age and shall be entitled upon actual retirement to receive a monthly benefit determined in the same manner as for normal retirement as of his or her Late Retirement Date.

Schedule SB, Part V — Summary of Plan Provisions**Definitions****Early Retirement**

Eligibility	Age 55 with at least 10 years of Vesting Service
Benefit	Accrued normal retirement benefit reduced by 5/9ths of 1% for each of the first 60 months and 5/18ths of 1% for each additional month by which the participant's benefit commencement date precedes his or her Normal Retirement Date.
Commencement	Anytime between Early Retirement Date and Normal Retirement Date, at the employee's election.

Disability Benefit

Eligibility	If the active participant is eligible for a company-sponsored long-term disability benefit, he or she will continue to accrue Credited and Vesting Service under the plan during periods of disability. If the participant is not eligible for a for a company-sponsored long-term disability benefit, the participant will be eligible to receive a temporary benefit equal to the participant's accrued benefit which will be payable until the earlier of the participant's death, cessation of disability, or attainment of age 65.
Benefit	Accrued normal retirement benefit
Commencement	As described under eligibility
Form of Payment	Same as for normal retirement

Death Benefit

Before Retirement	If a participant dies after five years of Vesting Service and has been married at least one year, 50% of the accrued normal retirement benefit, based on Credited Service at the time of death, reduced by appropriate early retirement and qualified joint and survivor option factors. Benefit begins at the later of the participant's death or the date the participant would have attained early retirement age.
After Retirement	Death benefits payable after retirement, if any, are payable in accordance with whichever option the retiree elected.
Optional Forms of Payment	The forms of benefit payment available to each participant shall be the Actuarial Equivalent of his/her basic normal retirement benefit. The forms of benefit are as follows: 50%, 75% and 100% contingent annuitant 60 months and 120 months certain and continuous

Schedule SB, Part V — Summary of Plan Provisions**Definitions**

Actuarial Equivalent	For determination dates occurring on or after January 1, 1996, means an amount having equal value when computed on the basis of a 7% interest rate compounded annually and a blend of 50% of the male mortality rates and 50% of the female mortality rates from the 1983 Group Annuity Mortality Table.
Actuarial Equivalent for Lump Sums (Small Cashouts)	Effective January 1, 2008, an interest rate equal to the annual rate structure based on the Pension Protection Act of 2006 (PPA) rates for the month of October preceding the plan year during which the payment occurs and mortality rates based on PPA rates for the applicable year.

Stewart-Warner Southwind, Inc.**Definitions**

Effective Date	January 1, 1946 As of December 31, 2000, the assets and liabilities of Stewart-Warner Southwind, Inc. were transferred from the Schlegel Corporation Pension Plan for Union Employees into the Measurement and Flow Control, Inc. Union Retirement Plan.

Normal Retirement

Eligibility	Age 65
Benefit	Effective December 31, 1996, the JW Hobbs-Spring Valley division benefit accruals were frozen, and Effective June 30, 1997, the JW Hobbs-Springfield benefit accruals were frozen.
Commencement	Payments commence on the later of the first day of the month following an employee's retirement or the date the participant applies for the benefit.
Form of Payment	Benefits are normally payable in an unreduced amount as a life annuity for unmarried participants and in a reduced amount on a 50% contingent annuitant basis for married participants. In no event will a participant receive less than the value of his or her aggregate employee contributions accumulated with interest to the benefit commencement date, less the sum of any pension payments already paid.

Late Retirement	Each employee who continues to be an employee after attaining his or her Normal Retirement Age shall be entitled upon actual retirement to receive a monthly benefit determined in the same manner as for normal retirement as of his or her Late Retirement Date.
------------------------	--

Early Retirement

Eligibility	A participant who was hired prior to January 1, 1976 and who participated when first eligible is eligible for early retirement on the first day of any month after the participant's 55th birthday and prior to his 65th birthday. Others are eligible on the completion of at least 10 years of Vesting Service in addition to meeting the requirements above.
Benefit	An amount described for normal retirement based on the participant's accrued benefit. The benefit is further reduced by 5/9ths of 1% for each of the first 60 months and 5/18ths of 1% per month for each of the next 60 months that benefit commencement date precedes Normal Retirement Date.

Schedule SB, Part V — Summary of Plan Provisions

Definitions	
Commencement	Anytime between Early Retirement Date and Normal Retirement Date, at the employee's election.
Form of Payment	Same as for normal retirement
Deferred Vested Benefit	
Eligibility	Any employee who terminates service prior to normal retirement and has at least 5 years of Vesting Service is eligible to receive a benefit at Normal Retirement Date.
Benefit	Accrued normal retirement benefit payable at age 65.
Commencement	An employee's deferred vested benefit shall commence in full on his or her Normal Retirement Date, or, at the participant's option, in a reduced amount prior to his Normal Retirement Date but after eligibility for early retirement. Benefits shall be reduced in the same manner as early retirement.
Form of Payment	Same as for normal retirement
Disability Benefit	
Eligibility	If a participant who has completed 15 or more years of Vesting Service incurs a disability, he or she shall be entitled to receive a disability benefit.
Benefit	Same as for normal retirement based on Credited Service and Final Average Annual Compensation on date of disability, but with no reduction for commencement prior to Normal Retirement Date. This amount was frozen effective June 30, 1997.
Commencement	Payments commence after the disability has lasted 90 days.
Form of Payment	Same as for normal retirement
Death Benefit	
Prior to 5 Years of Service/No Surviving Spouse Coverage in Effect	If the participant dies prior to completion of five years of Vesting Service or if the surviving spouse coverage is not in effect at the time of death, the beneficiary will be entitled to receive a refund of the employee contributions with interest.
After 5 Years of Service/and Surviving Spouse Coverage in Effect	If a vested participant dies after completion of five years of Vesting Service and the surviving spouse coverage is in effect, the spouse will be entitled to receive a death benefit from the plan. If the participant was eligible for early (or normal) retirement at the time of death, the spouse will receive a death benefit calculated in the same manner as an early (or normal) retirement benefit assuming that the participant had retired the day before death, elected the 50% contingent annuitant option and then died the next day. If the participant was eligible to receive a vested deferred retirement benefit at the time of death, the spouse will receive a death benefit based on the accrued normal retirement benefit at death and payable to the spouse when the participant would have reached age 65. The amount of the benefit is payable on the first day of the month following the participant's 65th birthday and is determined by assuming the participant had lived until his or her 65th birthday, elected the 50% contingent annuity option and then died the next day. In lieu of this benefit, the spouse may elect to receive reduced payments which commence prior to the participant's 65th birthday.
After Retirement	Death benefits payable after retirement, if any, are payable in accordance with whichever option the retiree elected.

Refund of Employee Contributions

Eligibility	A non-vested participant who terminates or dies and who is not entitled to any pension payments under the plan is eligible for a refund of his or her employee contributions with interest. All other participants who terminate employment may elect to receive a refund of their employee contributions with interest, in which case only their employer-provided benefit will be payable from the plan.
Interest	Interest is credited on employee contributions at a rate of 4% from January 1, 1971 to January 1, 1975, 5% from January 1, 1975 to January 1, 1988 and 120% of the Applicable Midterm Federal Rate thereafter.
Optional Forms of Payment	The forms of benefit payment available to each participant shall be the Actuarial Equivalent of his/her basic normal retirement benefit. The forms of benefit are as follows: 50%, 66 2/3%, 75% and 100% contingent annuitant 60 months and 120 months certain and continuous 10-Year certain Lump sum of participant's accumulated employee contributions with interest with remainder of accrued benefit payable in one of the other available forms of payment
Actuarial Equivalent	For determination dates occurring on or after July 1, 1996, means an amount having equal value when computed on the basis of 7.00% interest rate compounded annually and a blend of 50% of the male mortality rates and 50% of the female mortality rates from the 1983 Group Annuity Mortality Table.

Benefits included or excluded

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Most recent plan amendments included:** May 31, 2018
- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:** Participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**

Schedule SB, Part V — Summary of Plan Provisions

- *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Summary of Plan Provisions

Definitions	
Commencement	Anytime between Early Retirement Date and Normal Retirement Date, at the employee's election.
Form of Payment	Same as for normal retirement
Deferred Vested Benefit	
Eligibility	Any employee who terminates service prior to normal retirement and has at least 5 years of Vesting Service is eligible to receive a benefit at Normal Retirement Date.
Benefit	Accrued normal retirement benefit payable at age 65.
Commencement	An employee's deferred vested benefit shall commence in full on his or her Normal Retirement Date, or, at the participant's option, in a reduced amount prior to his Normal Retirement Date but after eligibility for early retirement. Benefits shall be reduced in the same manner as early retirement.
Form of Payment	Same as for normal retirement
Disability Benefit	
Eligibility	If a participant who has completed 15 or more years of Vesting Service incurs a disability, he or she shall be entitled to receive a disability benefit.
Benefit	Same as for normal retirement based on Credited Service and Final Average Annual Compensation on date of disability, but with no reduction for commencement prior to Normal Retirement Date. This amount was frozen effective June 30, 1997.
Commencement	Payments commence after the disability has lasted 90 days.
Form of Payment	Same as for normal retirement
Death Benefit	
Prior to 5 Years of Service/No Surviving Spouse Coverage in Effect	If the participant dies prior to completion of five years of Vesting Service or if the surviving spouse coverage is not in effect at the time of death, the beneficiary will be entitled to receive a refund of the employee contributions with interest.
After 5 Years of Service/and Surviving Spouse Coverage in Effect	If a vested participant dies after completion of five years of Vesting Service and the surviving spouse coverage is in effect, the spouse will be entitled to receive a death benefit from the plan. If the participant was eligible for early (or normal) retirement at the time of death, the spouse will receive a death benefit calculated in the same manner as an early (or normal) retirement benefit assuming that the participant had retired the day before death, elected the 50% contingent annuitant option and then died the next day. If the participant was eligible to receive a vested deferred retirement benefit at the time of death, the spouse will receive a death benefit based on the accrued normal retirement benefit at death and payable to the spouse when the participant would have reached age 65. The amount of the benefit is payable on the first day of the month following the participant's 65th birthday and is determined by assuming the participant had lived until his or her 65th birthday, elected the 50% contingent annuity option and then died the next day. In lieu of this benefit, the spouse may elect to receive reduced payments which commence prior to the participant's 65th birthday.
After Retirement	Death benefits payable after retirement, if any, are payable in accordance with whichever option the retiree elected.

Benefits included or excluded

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Most recent plan amendments included:** May 31, 2018
- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:** Participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**

Schedule SB, Part V — Summary of Plan Provisions

- *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
