Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **BAKER TILLY US, LLP**

(2) EIN: **30-1413443**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		5000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		X	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		X	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		X	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.		X	

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

Independent Auditors' Report

To the Plan Administrator and Participants of
Excela Health Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Excela Health Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Excelsa Health Pension Plan

Notes to Financial Statements

December 31, 2024 and 2023

1. Description of Plan

The following description of the Excelsa Health Pension Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan covering all eligible employees of Excelsa Health Homecare and Hospice, Frick Hospital, Latrobe Area Hospital, Inc. and Westmoreland Regional Hospital (collectively, the Company) who have completed 1,000 hours of service in the first consecutive 12-month period and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Plan management is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The Plan was formed on January 1, 2017 as a result of a plan amendment to the Defined Benefit Pension Plan for Employees of Excelsa Health (the Defined Benefit Plan) to spin off certain plan participants into the Plan. These participants include terminated vested participants or beneficiaries and nonunion active participants with a monthly age 65 accrued benefit of less than \$250 or in-payment retirees or beneficiaries with a monthly payment of less than \$800. As a result, plan assets of approximately \$70.2 million were transferred to the Plan from the Defined Benefit Plan in 2017.

Effective June 26, 2010, the Defined Benefit Plan was amended to freeze participation and accrued benefits, except for union employees at Frick Hospital. Effective January 1, 2015, the Defined Benefit Plan was amended to freeze participation and accrued benefits for union employees of Frick Hospital. As a result, all participation and accrued benefits of the Plan are frozen as of January 1, 2015.

Effective June 14, 2018, the Plan purchased a group annuity contract to buyout retired participants who began receiving monthly benefit payments from the Plan on or before February 1, 2018, whose monthly payments do not exceed \$575. As a result of this buyout, these participants will continue to receive their benefit payment as they did under the provisions of the Plan, but they will no longer be participants in the Plan and the Plan will have no further obligation to make any benefit payments to these individuals. As a result, plan assets were reduced by approximately \$40.8 million. In addition, the accumulated plan benefit obligation decreased by approximately \$40.0 million in 2018.

On January 1, 2023, the Company's Parent corporation, Excelsa Health, entered into an affiliation with Butler Health System, Inc. to create a new Parent corporation named Independence Health System, which has governance authority over both entities. The merger was initiated to help the combined entities reach the requisite scale to accelerate and elevate its relevancy and essentiality in the region's highly competitive healthcare marketplace. There were no changes to the Plan as a result of the merger.

Master Trust

The Plan's investments are held in a Master Trust (the Master Trust), which was established for the investment of assets of the Plan and the Excelsa Health Pension Plan. Each participating retirement plan has a divided interest in the Master Trust. The assets of the Master Trust are held by SEI Private Trust Company (the Custodian).

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The minimum funding requirements of ERISA were met in 2024 and 2023.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Pension Benefits

Plan participants with five or more years of credited service are generally entitled to monthly pension benefits beginning at normal retirement age (65) equal to 1% of their annual compensation for each year under 15 years of credited service and 1.2% of their annual compensation for each year for 15 years or more of credited service. Participants may also elect to receive the present value of their accrued benefit in a single lump sum payment. For union employees of Frick Hospital, benefits under the Plan are based on a flat rate earned per year of credited service according to their collective bargaining agreement.

The Plan permits early retirement at ages 55 to 64 for participants with five or more years of credited service for non-bargaining employees. For union employees of Frick Hospital, the early retirement age is 60 to 64. Participants generally elect to receive the value of their accumulated plan benefits in the form of a life annuity (if single) or 100% qualified joint and survivor annuity (if married) upon retirement or termination. If employees terminate before rendering five years of service, they forfeit the right to receive their accumulated plan benefits.

Death and Disability Benefits

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the equivalent normal retirement benefit they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age, at which time disabled participants will receive the normal retirement benefit computed as though they had been employed to normal retirement age, with their annual compensation remaining the same as at the time they became disabled.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan's interest in the investment gain of the Master Trust, in the accompanying Statements of Changes in Net Assets Available for Benefits includes the Plan's allocation of interest, dividends, realized gains or losses from the sale of investments, and unrealized appreciation or depreciation in the fair value of investments held by the Master Trust, and fees charged to the Master Trust, which are netted against or included with net appreciation in fair value of investments. These fees represent charges by the Custodian for services provided in connection with recordkeeping and investment management. Net unrealized appreciation in fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investments as of the beginning of the period or the cost of the investment if purchased during the year.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in investment gain in the Statements of Changes in Net Assets Available for Benefits.

Subsequent Events

Subsequent events were evaluated through October 6, 2025, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death, disability, and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

Excela Health Pension Plan

Notes to Financial Statements

December 31, 2024 and 2023

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuation been performed as of December 31, there would be no material differences. The significant actuarial assumptions used in the valuation were:

Assumption	January 1, 2024
Discount rate	7.25%
Mortality	Pri-2012 Mortality Table with Scale MP-2021 for Annuities and 417(e) final mortality regulations for lump sums
Retirement age	Age 62

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Excela Health Pension Plan

Notes to Financial Statements

December 31, 2024 and 2023

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Interest-bearing cash: These investments are stated at cost, which approximates fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Investments measured at net asset value: Consisting of a common-collective trust, valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common-collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, a summary of the investments in the Master Trust at fair value as of December 31, 2024 and 2023:

Master Trust Assets at Fair Value as of December 31, 2024	Level 1	Level 2	Level 3	Total

5. Interest in Master Trust

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Total investment income (including net appreciation in the fair value of investments) and administrative expenses of the Master Trust are allocated to the individual plans based upon the amount of the time the plan's assets were invested in the Master Trust.

The following table presents the investments and other assets and liabilities of the Master Trust as of December 31, 2024 and 2023:

	Master Trust Balances 2024	Plan's Interest in Master Trust Balances 2024	Master Trust Balances 2023	Plan's Interest in Master Trust Balances 2023
Interest-bearing cash	\$ -	\$ -	\$ 1,518	\$ 1,518
Mutual funds	130,398,425	21,636,659	126,788,510	20,785,848
Collective trust fund	11,905,546	1,881,292	15,241,323	2,376,354
Accrued interest receivable	234,049	38,896	172,539	28,442
Total	\$ 142,538,020	\$ 23,556,847	\$ 142,203,890	\$ 23,192,162

The following are net appreciation in the fair value of investments and investment income for the Master Trust for the years ended December 31, 2024 and 2023:

Master Trust Net Appreciation for the Year Ended December 31, 2024

Net appreciation in fair value of investments	\$ 7,788,401
Interest and dividends	4,168,391
Total	\$ 11,956,792

Master Trust Net Appreciation for the Year Ended December 31, 2023

Net appreciation in fair value of investments	\$ 14,728,818
Interest and dividends	3,747,661
Total	\$ 18,476,479

Refer to Note 4 for description of the valuation techniques used.

6. Concentrations

As of December 31, 2024 and 2023, the Master Trust had investments of approximately \$98.3 million and \$107.2 million, respectively, that were concentrated in three funds and four funds, respectively.

Excela Health Pension Plan

Notes to Financial Statements

December 31, 2024 and 2023

7. Information Certified by Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2024 and 2023. Accordingly, SEI Private Trust Company, the Custodian of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023 and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2024 and 2023. Such information was obtained by management and agreed to or derived from information certified as complete and accurate by a qualified institution.

8. Related-Party and Party in Interest Transactions

The Plan's investments are administered under a contract with the Custodian. Contributions are held and managed by the Custodian, who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

Fees incurred by the Plan for the investment management services are included in net appreciation in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Custodian receives revenue from investment fund service providers for services the Custodian provides to the funds. This revenue is used to offset certain amounts owed to the Custodian for its administrative services to the Plan. If the revenue received by the Custodian from such investment fund service providers exceeds the amount owed for its services, the Custodian remits the excess to the Plan's trust on a quarterly basis. The Plan or Plan Sponsor may make a payment to the Custodian for administrative expenses not covered by revenue sharing.

9. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Excela Health Pension Plan

Notes to Financial Statements

December 31, 2024 and 2023

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

10. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 19, 2018, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was adopted in the January 1, 2017 restated plan document for the plan document for the Excela Health Pension Plan.

Covered employees The Excela Health Pension Plan covers any employee other than (1) a physician who is not classified as a salaried employee, (2) an employee covered under another retirement plan to which the Employer contributes (3) any leased employee, (4) dentists or physicians who are on a "fee for service" or "per diem" basis, (5) employees of Westmoreland Primary Health Center, Caregivers and Convenient Care Products Group, Ltd. and Surgi-Center at Latrobe, (6) non-physician employees of Latrobe Cardiology Associates, Inc. and (7) employees of an affiliate that is not a participating employer.

Participation date An employee is eligible to participate on the January 1 or July 1 coincident with or immediately following attainment of age 21 and completion of 1,000 Hours of Service in the consecutive 12-month period measured from the date he is first credited with an Hour of Service, or, if later, any calendar year.

The non-bargaining plan is closed to new participants effective June 26, 2010.

The bargaining plan is closed to new participants effective December 31, 2014.

Definitions

Vesting service One year for each year in which at least 1,000 hours are worked. Former employees of Jeannette Hospital who became active employees of the Company on May 1, 2008 are credited with vesting service for prior employment at Jeannette Hospital.

Monthly preretirement death benefit

Frick Non-Bargaining, Latrobe, and Westmoreland

Death benefits are available to all employees.

Upon the death of an active participant before retirement but after age 55 and 5 years of vesting service, the surviving spouse will receive the lump sum special payment, if applicable, plus the accrued benefit reduced for early retirement and a 100% joint and survivor annuity.

Upon the death of a vested active participant prior to age 55 and 5 years of vesting service, a beneficiary benefit equal to the accrued benefit reduced for early retirement and a 100% Joint and Survivor option shall be payable from the Plan. This benefit becomes payable to the beneficiary when the deceased participant would have been first eligible for immediate retirement under the plan. There is no special lump sum payment.

Pre-Retirement Death Benefits are payable to the surviving spouse. If the participant is not married, benefits are provided to a designated beneficiary.

Frick Bargaining

Upon the death of an active participant before retirement but after age 60 and 5 years of vesting service, the surviving spouse will receive the lump sum special payment, if applicable, plus the accrued benefit reduced for early retirement and a 50% joint and survivor annuity.

Upon the death of a vested active participant prior to age 60 and 5 years of vesting service, a surviving spouse's benefit equal to the accrued benefit reduced for early retirement and a 50% Joint and Survivor option shall be payable from the Plan. This benefit becomes payable to the spouse when the deceased participant would have been first eligible for immediate retirement under the plan. There is no special lump sum payment. If there is no surviving spouse, the participant's designated beneficiary or children if no beneficiary is designated, are eligible to receive the benefit.

Other Plan Provisions

Forms of payment	<p>Pre-retirement death benefits are payable only as described above.</p> <p>Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan.</p> <p>Optional forms are a 100% joint and survivor annuity, a 75% joint and survivor annuity (for Frick Bargaining participants), a five-year or ten-year certain and life annuity, (for married participants) a life annuity, or lump sums. Basis for actuarial equivalence for all forms other than lump sums is 1983 Group Annuity Mortality Table for Males with a five year setback for the participant and a one year setback for any spouse or beneficiary and 7.0% interest. The lump sum basis is 417(e) interest and mortality. Other forms of payment may apply for benefits earned before March 31, 2005.</p>
Limits on benefits and pay	<p>All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.</p>

Plan-related expenses Prior year expenses adjusted for expected PBGC premiums for the current year, rounded up to the nearest \$25,000. For 2024, the expense load is \$625,000

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used, and are used to determine the PBGC FTAP and the PBGC 4010 FS.

At-risk assumptions

For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the form of payment shown below:

- 100% J&S for all married males
- Lump sum for all single males
- Single life annuity for all females

Cash flow:

- Timing of benefit payments Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement
- Special lump sum For participants eligible for a lump sum distribution of accumulated unused sick days, it is equal to the unused sick hours times the current year's pay rate

Methods

Valuation date

First day of plan year

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost

Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.

Decrement timing

The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of fair value, including contributions receivable (discounted using the effective interest rate for the 2023 plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with the Company and based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor and its third party administrator furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with the Company, the following assumptions were made for missing data elements:

- In the absence of information regarding terminated vested participants, it is assumed these participants remain alive and due a benefit.
- Prior year information was used to the extent omitted from current year data received (such as historical participation, accrued benefits, and retiree annuity forms).
- Beneficiary information was assumed to be consistent with information used for the prior year valuation. If no prior year information is available, beneficiary information is assumed to be consistent with the valuation spousal age and gender assumptions.

No data adjustments were made, and we are unaware of any data adjustment made by the data provider.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using “annuity substitution,” so that the interest rates assumed are effectively the same as described above for the funding discount rate.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Assumed return for asset smoothing	The assumed return of 5.74% (for the 2023 plan year) used for asset smoothing is the third segment rate. Although we have not explicitly determined an expected return on assets, based on an analysis of the plan sponsor’s investment policy, we believe the rate to be above the third segment rate. The expected return on assets assumption chosen by the client with the help of their investment adviser for the 2024 fiscal year under U.S. GAAP was 7.25% and we believe that would not significantly conflict with what would be reasonable based on their asset allocation.

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Lump Sum Mortality	Assumptions used for lump sum purposes are as prescribed by IRC §417(e).

Termination

Termination rates are based on expectations for future rates, split by group, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. Experience was most recently reviewed June 30, 2017.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Retirement

Retirement rates are based on expectations for future rates, split by group, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. Experience was most recently reviewed June 30, 2017.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Form of payment

The percentage of retiring participants assumed to take lump sums and joint and survivor annuities are based on observed experience modified to reflect an increase in lump sum elections following the plan amendment effective January 1, 2015 which removed the cap on benefits eligible for lump sum payment. Experience was most recently reviewed June 30, 2017.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law," as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
