Independent Auditor's Report

The Trustee and Administrative Committee
Cactus Feeders, Inc. Employee
Stock Ownership Plan and Trust:

Opinion

We have audited the accompanying financial statements of Cactus Feeders, Inc. Employee Stock Ownership Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which are comprised of the statements of net assets available for plan benefits as of October 31, 2024 and 2023, the related statement of changes in net assets available for plan benefits for the year ended October 31, 2024 and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for plan benefits of Cactus Feeders Inc. Employee Stock Ownership Plan and Trust as of October 31, 2024 and 2023, and the changes in its net assets available for plan benefits for the year ended October 31, 2024 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Cactus Feeders, Inc. Employee Stock Ownership Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Cactus Feeders, Inc. Employee Stock Ownership Plan and Trust's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Cactus Feeders, Inc. Employee Stock Ownership Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Cactus Feeders, Inc. Employee Stock Ownership Plan and Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held for Investment as of October 31, 2024 (Schedule 1) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan’s management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole and the form and content are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

October 31, 2024 and 2023

(1) Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements of Cactus Feeders, Inc. Employee Stock Ownership Plan and Trust (the Plan) have been prepared utilizing the accrual basis of accounting.

Fair Value of Investments

Financial Accounting Standards Board Accounting Standard Codification 820 (FASB ASC 820) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used by the Plan at October 31, 2024 and 2023.

The common stock of Cactus Feeders, Inc. (Cactus) is stated at estimated fair values as determined by an annual independent valuation.

Notes to Financial Statements

(1) Summary of Significant Accounting Policies, Continued

Fair Value of Investments, Continued

This valuation is based upon a combination of the market and income valuation techniques consistent with prior years. The evaluation took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of entity assets and liabilities.

The valuation of plan investments fall within level 3 of the fair value hierarchy as described above and may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Income Recognition

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net unrealized appreciation(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Income Taxes

The Plan has received a determination letter from the Internal Revenue Service (IRS) stating that the Plan qualifies for tax-exempt status under the Internal Revenue Code.

Pervasiveness of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Date of Trustee Evaluation

The Trustees have reviewed events occurring subsequent to October 31, 2024 through October 8, 2025 for potential impact on the accompanying financial statements and disclosures herein.

(2) Description of the Plan

General

Cactus Feeders, Inc. established the Plan effective November 1, 1988. The Plan operates as a leveraged employee stock ownership plan (ESOP), and is designed to comply with regulations of the Internal Revenue Code and applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered and assets are managed by appointed trustees.

The Plan purchased Cactus common stock shares using the proceeds of borrowings and holds the stock in a trust established under the Plan. The borrowings are to be repaid over a period of years by employer contributions to the trust fund. As the Plan makes each payment of principal or interest, a calculated percentage of stock is allocated to eligible participants' accounts in accordance with applicable terms of the Plan.

Borrowings are collateralized by unallocated shares of Cactus stock with the lender having no rights against shares once they are allocated to participants under the Plan. Accordingly, the accompanying financial statements present separately the changes in net assets pertaining to:

- (a) the accounts of participants with rights in allocated stock (Allocated) and
- (b) stock not yet allocated to participants (Unallocated).

Each participant is entitled to exercise voting rights attributable to the allocated shares in the participant's account. Unallocated shares are voted by the Plan trustees.

Employees of Cactus and its participating subsidiaries are generally eligible to participate in the Plan after meeting minimum age (18 years) and service (1,000 hours) requirements.

Related Party Transactions and Party-in-Interest Transactions

The Plan's sponsor paid substantially all administrative expenses aggregating \$1,414,081 on behalf of the Plan in 2024. The expenses are not included in these financial statements. As the Plan sponsor, these transactions qualify as party-in-interest transactions.

All of the party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

(2) Description of the Plan, Continued

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Contributions of Participating Companies

The trust agreement provides for annual contributions to the Plan to be made at the discretion of the Board of Directors of Cactus.

Forfeitures

As directed by the trust agreement, forfeitures by former participants of any employer contribution amounts will be available to reinstate a former participant's account or administrative expenses of the plan. There were 635.2772 shares of Cactus Feeders Inc. forfeited during the year ending October 31, 2024.

Distributions

The trust agreement provides for benefits to be payable to a participant or their beneficiaries in the event of (1) participant's retirement, (2) participant's death, (3) participant's total disability, (4) statutory and early diversification or (5) termination of employment under all other circumstances. At October 31, 2024, allocated vested net assets available for plan benefits totaling \$48,529,277 were attributable to former participants and will be paid under terms of the Plan.

Vesting

Vesting begins after two years of service and participants become 100% vested after six years of service. Participants also become 100% vested upon (1) normal retirement, reaching the age of sixty, (2) death or (3) total and permanent disability.

STOCK OWNERSHIP PLAN AND TRUST**

Notes to Financial Statements

(2) Description of the Plan, Continued

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Termination of the Plan

The trust agreement provides that the Plan may be terminated at any time by resolution of Cactus. The Plan shall also be terminated in the event of a complete discontinuance of contributions. Upon termination of the Plan, each participant becomes fully vested and the balance of the amounts allocated to each participant shall be distributed to participants or their beneficiaries.

(4) Note Payable

During 2011, the Plan purchased 375,000 shares of Cactus common stock with \$100,000,000 proceeds of borrowings from Cactus. The 3.53% note evidencing these borrowings is secured by the unallocated common stock and is due in annual installments of \$4,265,643 including interest through 2060. Interest incurred on such note aggregated \$3,083,868 during 2024. Principal amounts due on this note for the five years subsequent to October 31, 2024 are; \$1,223,491 in 2025; \$1,266,680 in 2026; \$1,311,394 in 2027; \$1,357,686 in 2028; and \$1,405,613 in 2029.

(5) Plan Amendment

During 2010, Cactus Feeders, Inc. on behalf of the Plan, received permission from the IRS to amend the plan retroactively to provide certain additional benefits to participants. The cost of these retroactive benefits was provided by Cactus Feeders, Inc. through additional contributions to the Plan. No such amounts were contributed during 2024. Approximately \$98,000 of these benefits were yet to be provided at October 31, 2024.

(6) Transfer to 401(k) Plan

During the year ended October 31, 2024, the Plan transferred \$41,729 to a 401(k) plan established for the benefit of the same individuals who are participating in the ESOP. The amounts transferred are available for self-directed investment at the discretion of the participants.

Independent Auditor's Report

The Trustee and Administrative Committee
Cactus Feeders, Inc. Employee
Stock Ownership Plan and Trust:

Opinion

We have audited the accompanying financial statements of Cactus Feeders, Inc. Employee Stock Ownership Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which are comprised of the statements of net assets available for plan benefits as of October 31, 2024 and 2023, the related statement of changes in net assets available for plan benefits for the year ended October 31, 2024 and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for plan benefits of Cactus Feeders Inc. Employee Stock Ownership Plan and Trust as of October 31, 2024 and 2023, and the changes in its net assets available for plan benefits for the year ended October 31, 2024 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Cactus Feeders, Inc. Employee Stock Ownership Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Cactus Feeders, Inc. Employee Stock Ownership Plan and Trust's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Cactus Feeders, Inc. Employee Stock Ownership Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Cactus Feeders, Inc. Employee Stock Ownership Plan and Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held for Investment as of October 31, 2024 (Schedule 1) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan’s management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole and the form and content are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

October 31, 2024 and 2023

(1) Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements of Cactus Feeders, Inc. Employee Stock Ownership Plan and Trust (the Plan) have been prepared utilizing the accrual basis of accounting.

Fair Value of Investments

Financial Accounting Standards Board Accounting Standard Codification 820 (FASB ASC 820) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

- Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used by the Plan at October 31, 2024 and 2023.

The common stock of Cactus Feeders, Inc. (Cactus) is stated at estimated fair values as determined by an annual independent valuation.

Notes to Financial Statements

(1) Summary of Significant Accounting Policies, Continued

Fair Value of Investments, Continued

This valuation is based upon a combination of the market and income valuation techniques consistent with prior years. The evaluation took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of entity assets and liabilities.

The valuation of plan investments fall within level 3 of the fair value hierarchy as described above and may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Income Recognition

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net unrealized appreciation(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Income Taxes

The Plan has received a determination letter from the Internal Revenue Service (IRS) stating that the Plan qualifies for tax-exempt status under the Internal Revenue Code.

Pervasiveness of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Date of Trustee Evaluation

The Trustees have reviewed events occurring subsequent to October 31, 2024 through October 8, 2025 for potential impact on the accompanying financial statements and disclosures herein.

(2) Description of the Plan

General

Cactus Feeders, Inc. established the Plan effective November 1, 1988. The Plan operates as a leveraged employee stock ownership plan (ESOP), and is designed to comply with regulations of the Internal Revenue Code and applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered and assets are managed by appointed trustees.

The Plan purchased Cactus common stock shares using the proceeds of borrowings and holds the stock in a trust established under the Plan. The borrowings are to be repaid over a period of years by employer contributions to the trust fund. As the Plan makes each payment of principal or interest, a calculated percentage of stock is allocated to eligible participants' accounts in accordance with applicable terms of the Plan.

Borrowings are collateralized by unallocated shares of Cactus stock with the lender having no rights against shares once they are allocated to participants under the Plan. Accordingly, the accompanying financial statements present separately the changes in net assets pertaining to:

- (a) the accounts of participants with rights in allocated stock (Allocated) and
- (b) stock not yet allocated to participants (Unallocated).

Each participant is entitled to exercise voting rights attributable to the allocated shares in the participant's account. Unallocated shares are voted by the Plan trustees.

Employees of Cactus and its participating subsidiaries are generally eligible to participate in the Plan after meeting minimum age (18 years) and service (1,000 hours) requirements.

Related Party Transactions and Party-in-Interest Transactions

The Plan's sponsor paid substantially all administrative expenses aggregating \$1,414,081 on behalf of the Plan in 2024. The expenses are not included in these financial statements. As the Plan sponsor, these transactions qualify as party-in-interest transactions.

All of the party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

(2) Description of the Plan, Continued

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Contributions of Participating Companies

The trust agreement provides for annual contributions to the Plan to be made at the discretion of the Board of Directors of Cactus.

Forfeitures

As directed by the trust agreement, forfeitures by former participants of any employer contribution amounts will be available to reinstate a former participant's account or administrative expenses of the plan. There were 635.2772 shares of Cactus Feeders Inc. forfeited during the year ending October 31, 2024.

Distributions

The trust agreement provides for benefits to be payable to a participant or their beneficiaries in the event of (1) participant's retirement, (2) participant's death, (3) participant's total disability, (4) statutory and early diversification or (5) termination of employment under all other circumstances. At October 31, 2024, allocated vested net assets available for plan benefits totaling \$48,529,277 were attributable to former participants and will be paid under terms of the Plan.

Vesting

Vesting begins after two years of service and participants become 100% vested after six years of service. Participants also become 100% vested upon (1) normal retirement, reaching the age of sixty, (2) death or (3) total and permanent disability.

(2) Description of the Plan, Continued

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Termination of the Plan

The trust agreement provides that the Plan may be terminated at any time by resolution of Cactus. The Plan shall also be terminated in the event of a complete discontinuance of contributions. Upon termination of the Plan, each participant becomes fully vested and the balance of the amounts allocated to each participant shall be distributed to participants or their beneficiaries.
