INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of
Teamsters Local 814 Annuity Fund

Opinion

We have audited the accompanying financial statements of Teamsters Local 814 Annuity Fund (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the 2024 audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in accordance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

TEAMSTERS LOCAL 814 ANNUITY FUND

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2024 AND 2023

NOTE 1. DESCRIPTION OF PLAN

The following brief description of the Teamsters Local 814 Annuity Fund (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General - The Plan is a multiemployer defined contribution profit-sharing plan (the Plan was structured as a money purchase plan prior to 2012) established under the provisions of an Agreement and Declaration of Trust effective January 1, 1970 between Local 814 Van Drivers, Packers and Furniture Handlers, Warehousemen and Appliance Home Delivery Workers, affiliated with the International Brotherhood of Teamsters (the Union) and various employers in the moving and storage industry who are parties to collective bargaining agreements with the Union requiring contributions to the Plan. The Union and employers agreed to participate in the operation of a trust fund for the purpose of providing retirement benefits for employees represented by the Union. The Plan is administered by a Board of Trustees (the Trustees) consisting of union and employer representatives and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Funding Policy - Funding to provide the benefits is made through monthly contributions by participating employers on behalf of each covered employee as provided for in the applicable prevailing collective bargaining agreements with the Union. In addition, contributions are made by the Plan's sponsoring Union in its capacity as employer. Contributions by participants are not permitted under the Plan.

Vesting - Participants are vested immediately in their account balances and have a vested interest in their account at all times.

Participant Accounts - Each participant account is credited with employer contributions made on their behalf and allocated a portion of net investment earnings and administrative expenses. Effective April 1, 2020, net investment earnings and administrative expenses are allocated to each participant's account quarterly, based on the ratio of the participant's beginning of the quarter account balance to all participants' beginning of the quarter account balances. Previously, valuations were performed annually.

Notes Receivable from Participants - A participant who has had an individual account of five years or more may apply to the Plan for a loan in the amount not to exceed the lesser of (1) \$50,000, or (2) 50% of the total balance in their individual account. The loans are secured by the balance in the participant's account bearing interest at the prime rate and are charged to participants in equal monthly amounts.

NOTE 1. DESCRIPTION OF PLAN (CONTINUED)

Interest is calculated using effective interest amortization. Loans must be repaid over a period of no more than five years. If the purpose of the loan is to purchase a primary residence, however, the loan may be repaid over 10 years.

Eligibility and Payment of Benefits - Participants become eligible to receive benefits from the Plan when:

- The participant retires under the Teamsters Local 814 Pension Fund;
- The participant dies;
- No employer contributions are made on the participant's behalf for three consecutive months because the participant no longer works in covered employment; or
- The participant becomes totally and permanently disabled before retiring as determined solely by the Social Security Administration.

Benefits are paid in the following forms of payments:

- Single lifetime annuities;
- 50% or 75% husband and wife lifetime annuities;
- Lump sum distributions; or
- In a fixed monthly annuity not in excess of 10 years.

Nonparticipant Directed Investments - All funds are invested by the Trustees through professional investment managers. The Plan does not provide a participant-directed investment program.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting. Under this basis, revenue is recorded when earned and expenses are recorded when incurred, regardless of when cash is exchanged.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and the disclosure of contingent assets and liabilities, if any, at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determines its valuation policies utilizing information provided by the investment managers. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Employer Contributions Receivable - Contributions due from employers are accrued at year end only as to those amounts applicable to contribution periods which ended on or before the financial statement dates and are based on subsequent period cash collections. Based on a review of historical losses, current economic conditions and supportable and reasonable forecast assumptions, the Plan has concluded that any expected credit losses on balances outstanding at year end will be immaterial.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Notes Receivable from Participants - Notes receivable is measured at their unpaid principal balance plus any accrued but unpaid interest. Participant loans that have defaulted are recorded as deemed distributions on participant loans on the statements of changes in net assets available for benefits.

Administrative Expenses - Expenses incurred in connection with the general administration of the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits.

NOTE 3. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Plan by letter dated July 23, 2015, that the Plan meets the requirements of Internal Revenue Code (IRC) Section 401(a) and is exempt from federal income taxes under IRC Section 501(a). The Trustees believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America requires the Plan to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if it has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 4. PLAN TERMINATION

In the event that complete termination of the Trust is determined, the Trustees shall continue to apply the Plan for the purpose of providing benefits in accordance with the provisions of the Annuity Plan. Upon the disbursement of the entire Trust Fund, the Trust shall terminate. In no event, however, shall termination create any rights or establish any benefits except as set forth the Plan as now constituted or hereafter amended, nor shall any part of the funds revert to the employers or the Union.

NOTE 5. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and to uncertainties in estimates and assumptions, it is at least reasonably possible that changes in the values of such investments will occur in the near term and that such changes could materially affect participants' account balances, and the amounts reported in the statements of net assets available for benefits.

NOTE 6. FAIR VALUE MEASUREMENTS

Accounting standards provide the framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include other significant observable inputs including:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable securities. The income approach uses valuation techniques to discount estimated future cash flows to present value.

Accounting standards permit the Plan, as a practical expedient, to estimate the fair value of their investment in certain entities that calculate net asset value (NAV) per share by using the NAV as reported by the management of the entity.

NOTE 6. FAIR VALUE MEASUREMENTS (CONTINUED)

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Collective trust funds - Valued at the NAV per share at year end as reported by the fund. The NAV, as provided by the fund, is used as a practical expedient to estimate fair value. Share values are based on the current market value of the underlying assets.

Fixed income group trust - Valued at the NAV per share at year end as reported by the trust. The NAV, as provided by the trust, is used as a practical expedient to estimate fair value. Share values are based on the current market value of the underlying securities.

Limited liability company (LLC) - Valued at the NAV per share at year end as reported by the LLC. The NAV, as provided by the LLC, is used as a practical expedient to estimate fair value. Share values are based on the current market value of the underlying securities.

Limited partnership (LP) - Valued at the NAV per share at year end as reported by the LP. The NAV, as provided by the LP, is used as a practical expedient to estimate fair value. Share values are based on the current market value of the underlying assets.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. In addition, the inputs and methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The Plan did not have any investments required to be classified in the fair value hierarchy as of December 31, 2024 and 2023.

Fair Value of Investments that Calculate NAV

The following table on the next page summarizes investments measured at fair value based on NAV per share as of December 31, 2024 and 2023. The collective trust funds and fixed income group trust are measured at fair value by using the NAV practical expedient and also file U.S. Department of Labor Form 5500 as a direct filing entity (DFE). Accordingly, disclosure of the significant investment strategies for these funds are not required. At December 31, 2024 and 2023, the Plan had no unfunded commitments towards these investment entities.
