REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Plan Administrator, Participants and Beneficiaries
White & Case LLP Pension Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit

We have performed an audit of the financial statements of White & Case LLP Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024, the related statement of changes in net assets available for benefits for the year then ended, and the statement of accumulated plan benefits as of December 31, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures

- responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
 - Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Auditor's report on the 2023 financial statements

Predecessor auditors performed an audit of the 2023 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 14, 2024, indicated that (a) the amounts and disclosures in the 2023 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2023 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF THE PLAN

General

The following brief description of the White & Case LLP Pension Plan (the “Plan” or “LEO”) is provided for general information purposes only. Plan members should refer to the Plan document for more complete information.

The Plan is a defined benefit plan that was created by White & Case LLP effective January 1, 1999. The Plan covers eligible partners, as defined in the Plan document, of White & Case LLP (the “Firm” or the “Plan administrator”) and of White & Case Global Management LLC, and provides benefits to participants upon termination or retirement.

Eligibility and Vesting

Partners, as defined by the Plan document, are eligible to participate in the Plan on the first day of the month coincident with or next following their date of hire, or date of promotion to partner if he/she is a citizen of the United States or if he/she is a lawful permanent resident or has applied to become a lawful permanent resident of the United States under the immigration laws of the United States. Prior to January 1, 2019, there was an age requirement of 21 and one year of service for eligibility purposes. Under certain circumstances, Foreign Partners, in Participating Offices outside the U.S., as defined, may be eligible to participate in the Plan. The Plan provides that all participants shall be fully and immediately (100%) vested in their accrued benefits.

Funding Policy

The Firm contributes and records as a reduction to each partner's annual partnership income for each Plan year in such amount, as determined by an actuary pursuant to the traditional unit credit method, to fund the cost of the accrued benefits under the Plan. The contributions for 2024 and 2023 met the minimum funding requirements under the Employee Retirement Income Security Act of 1974 (“ERISA”).

Benefits

Each participant is entitled to the non-forfeitable interest in his or her accrued benefit. The amount of benefit that accrues each year is determined by a formula based on two main factors: allocation or compensation level and age. Each participant is credited annually with a portion of LEO's annual investment return. Each participant receives the same rate of return, which is based directly upon the Plan's performance, net of fees and expense. A participant's interest in the Plan's assets is distributable upon departure from the Firm or death. Payment will be made in a lump sum or annuity to the participant or his/her beneficiary.

Effective January 1, 2024, the Plan permits in-service distributions for participants who have attained age 59½ and continue in active service, of their entire accrued benefit determined as of the applicable annuity starting date, as defined. For the 2024 Plan year, the first such in-service distributions were as of June 30, 2024, the applicable annuity starting date, and all eligible participants were also permitted to elect an in-service distribution of their entire accrued benefit determined as of December 31, 2024. For each succeeding Plan year, all eligible participants will be permitted to elect an in-service distribution of their entire accrued benefit determined as of December 31st of the Plan year.

Plan Termination

While the Firm has not expressed any intent to terminate the Plan, it is free to do so at any time. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided for in ERISA as follows:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had not retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (the "PBGC") (a U.S. government agency) up to the applicable limitations as defined.
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide accumulated benefit obligations and may also depend on the financial condition of the Firm and the level of benefits guaranteed by the PBGC.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES BASIS OF ACCOUNTING

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition

All investments of the Plan are held by State Street Bank and Trust Company (the "custodian") through November 2024 and as custodian subsequent thereto in the White & Case LLP Master Retirement Trust (the "Master Trust"), as more fully described in Note 5. In November of 2024, Russell Investment became the trustee with State Street Bank and Trust Company still serving as the custodian of the assets.

The Plan's investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies, utilizing information provided by the investment advisors, third-party administrator and custodian. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's proportionate share of gains and losses on investments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

Administrative and Investment Expenses

Certain expenses relating to the administration of the Plan and fees paid to the trustee, investment managers and Firm's investment advisor are currently paid by the Plan and are included in the Plan's interest in the Master Trust investment income in the statements of changes in net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, changes in these estimates and assumptions in the near term could have a material impact on the Plan's financial statements.

Through the Master Trust, the Plan provides for various investments in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks, as well as the financial strength of the insurance company. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the statements of net assets available for benefits. Volatility in the financial market may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2024 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE 3 - FAIR VALUE OF FINANCIAL INSTRUMENTS

As required by the Fair Value Measurements and Disclosure Topic of the FASB Accounting Standards Codification, fair value is to be determined based on the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market, in an orderly transaction between market participants. Such is a market-based measurement, not an entity-specific measurement.

This Topic establishes a three-level valuation hierarchy based upon observable and non-observable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

White & Case LLP Pension Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

Level 2 - Inputs other than quoted prices included in Level 1 that are observable either directly or indirectly; quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data, for substantially the full term of the assets or liabilities.

Level 3 - Significant inputs to the valuation model that are unobservable, typically based on a Plan's own assumptions, as there is little, if any, related market activity.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024.

Mutual funds: Investments in mutual funds are valued at the quoted net asset value ("NAV") for each fund on the valuation date. Mutual funds that are held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. The mutual funds held by the Plan are deemed to be actively traded.

Short-term investment funds: Investments in short-term investment funds are valued based on the principal investment plus accrued interest.

Insurance company separate accounts: Investments in the insurance company separate account are based on the daily unit value, as a practical expedient to measure fair value. The unit value is equal to the value of the insurance company separate account at the end of the day divided by the number of its units at the beginning of the day. The value of the insurance company separate account is the sum of its cash and the value of its other assets minus its outstanding indebtedness and expenses.

Limited partnerships, statutory trusts and collective trusts: Investments in limited partnerships, the Delaware statutory trust and collective trusts are valued at net asset value of units held. It is based on the fair value of the underlying investments and are derived from the capital account. The NAV is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Limited partnerships, the insurance company separate account, and the Delaware statutory trust may be subject to redemption restrictions (see Note 5).

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The methods of valuation described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable, under the Plan's provisions, to the service that members have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated members or their beneficiaries, (b) beneficiaries of members who have died, and (c) present members or their beneficiaries. The accumulated Plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date (the valuation date). Benefits payable under all

December 31, 2024 and 2023

circumstances - retirement, death, disability and termination of employment - are included to the extent they are deemed attributable to a member's service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was calculated by the Plan's independent actuary, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant assumptions underlying the actuarial computations at December 31, 2023 are as follows:

Interest (discount) rate	6.50% compounded annually
Mortality table	For annuitants - PRI2012 White Collar mortality table with mortality improvement scale MP-2021; For lump sums – RP2014 Mortality Table with MP2014 Generational Improvement, at December 31, 2023; (For annuitants – PRI2012 White Collar mortality table with mortality improvement scale MP-2021, For lump sums – RP2014 Mortality Table with MP2014 with Generational Improvement, at December 31, 2022)
Employee turnover	2% for all ages up to age 62
Expected retirement age	Later of age 62 or age on valuation date
Asset valuation	Market Value

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2024. Had the valuation been performed as of December 31, 2023 there would be no material differences.

NOTE 5 - INVESTMENTS

The Plan's assets are held by State Street Bank and Trust Company, as custodian, together with certain assets of the Firm's other qualified plans in a Master Trust. Investments made for the Plan in the Master Trust may be commingled with certain investments of White & Case LLP Retirement Income Plan. The trustee maintains books and records that show the assets of the Master Trust attributable to each participating plan. Each participating plan has a separate and divided interest in any pooled investment account established under the Master Trust. Investment results of pooled funds within the Master Trust are allocated to each plan monthly based on the proportionate share of each plan's net assets invested in each such fund of the Master Trust as of the relevant valuation date.

* See details of redemption restrictions of limited partnerships below:

- (a) Fixed Income - The primary investment strategy is to seek an investment return that approximates as closely as practicable, before expenses, the performance of the Russell 2000 Index over the long term.
- (b) International Equities - The primary investment strategy seeks to provide long-term capital growth by investing primarily in securities listed on the major developed equity markets of the U.S. Europe and Asia as well as within those listed on emerging country equity markets on tactical basis.
- (c) Domestic Equities - The primary investment strategy is to capture valuation, growth and quality exposures in diversified portfolios by investing in the U.S. Core equity strategies, which includes long-only Core, All Cap, Mid-Cap, and Small Cap Equity.
- (d) Emerging Fixed Income - The primary investment strategy is achieving a favorable income-oriented returns from a globally diversified portfolio of primarily debt or debt-like securities and the preservation and enhancement of principal.
- (e) Private Equity (including Private Real Estate) - The primary investment strategy is to enhance return, with the premiums earned over public investment options serving to compensate for liquidity risk, returns are largely sourced through income and capital appreciation. Private Equity and Real Estate Limited Partnerships allow for access to large investable universes and provide diversification to the portfolio.
- (f) Other International Equity - Provides broad participation in financial markets outside of the United States. These Funds invest in international financial markets, including the financial markets of developing economies in Asia, Latin America, Eastern Europe, the Middle East, and Africa. The Fund invests in funds which primarily invest in equity - developed to primarily invest in equity securities, including common stocks and preferred stocks, issued by companies located in emerging markets or that derive a majority of their revenues from operations in such countries and in depositary receipts and other derivatives which represent economic ownership of securities of such companies.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

Redemption Restrictions and Unfunded Commitments

Certain investments contain significant redemption restrictions as follows:

In relation to the Limited Partnerships, investment decisions are typically made by the General Partner and the Master Trust is invested as a Limited Partner. The General Partner calls capital as they see opportunities to invest and distribute capital back to the investors when they exit portfolio companies and or the companies generate profit. For this reason, capital is "locked up" during the investment horizon and investors cannot put any redemption requests. Generally, no Limited Partner may withdraw from the Partnership or make a demand for or receive paid-in capital until the termination of the Partnerships, which are expected between 2025 and 2030. The Beach Point Loan Fund LP requires 90 days written notice subject 10% fund level gate.

Pursuant to the terms of the agreements, the Master Trust has outstanding commitments of additional capital with certain limited partnerships amounting to \$11,276,010 and \$13,118,301 at December 31, 2024 and December 31, 2023, respectively.

NOTE 6 - TAX STATUS

The Internal Revenue Service determined and informed the Firm by a letter dated December 15, 2016 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since receiving the tax determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that may not be sustainable upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

NOTE 7 - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Master Trust investments are held in custody by State Street Bank and Trust Company or managed by Russell Investments. State Street Bank and Trust Company and Russell Investments are the trustees during the Plan year as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

NOTE 8 - INVESTMENT CERTIFICATION

The Plan Administrator has elected the method of compliance permitted by 29 CFR2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, State Street Bank and Trust Company, the custodian of the Plan, and Russell Investments, the trustee of the plan effective November 1, 2024, have certified to the completeness and accuracy of all investments and related investment activity in the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023 and the statements of changes in net assets available for benefits for the years then ended.

NOTE 9 - ADJUSTED FUNDING TARGET ATTAINMENT PERCENTAGE ("AFTAP")

The Pension Protection Act (the "Act") included many provisions and numerous revisions to rules surrounding defined benefit plans including rules that govern Plan funding. The Act established minimum funding standards for defined benefit plans and limited benefit increases and accruals for underfunded plans. Pursuant to the Act, each year actuaries are required to certify to a plan's funded percentage. The Plan received such certification for the 2024 Plan year for the AFTAP, which is one way of measuring the funded status of a Plan using actuarial assumptions mandated by the IRS, and the actuary determined that the 2024 AFTAP for the Plan is 106.68%.

NOTE 10 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 7, 2025, which is the date the financial statements were available to be issued.

A. Actuarial Assumptions for Funding Purposes

Valuation Date	January 1, 2024
Valuation Interest Rate	The Plan's January 1, 2024 funding target was determined using the rates based on the corporate bond yield curve, as prescribed under the Pension Protection Act of 2006.
Mortality - Funding	2024 Static Mortality Table pursuant to Internal Revenue Code Section 1.430(h)(3)-1(b). Separate table for annuitants and nonannuitants. For valuing lump sums, the RP2014 Mortality Table with MP2014 Generational Improvement, weighted equally for male and female lives at each age.
Salary Scale	Not applicable
Withdrawal	2% for all ages up to age 62.
Retirement	Later of attainment of age 62 and the age on valuation date.
Disability	No decrement
IRC Section 415(b) Limits	\$275,000 for 2024
Form of Payment	It is assumed 100% of participants will elect the lump sum option upon termination or retirement.
Investment Yield	6.5% per year, compounded annually. This rate is intended to represent the net yield after investment expenses over an extended period of time in the future.
Provisions for expenses	Expenses are paid from the trust; the investment yield is assumed to be net of expenses.
Future Yield	In any calculation where an estimate of future yield is necessary, the interest rate applicable for that calculation will be used.
Asset Valuation Method	Market Value

A. Actuarial Assumptions for Funding Purposes (cont.)

Changes from Prior Year

The funding interest rate was changed from the corporate bond yield curve as of January 1, 2023 to the corporate bond yield curve as of January 1, 2024.

The mortality table was changed from the 2023 Static Mortality Table to the 2024 Static Mortality Table pursuant to IRC Section 430(h)(3)(A) for terminated vested and retired participants.

B. Actuarial Methods for Funding Purposes

1. Actuarial Cost Method

The actuarial cost method used in this valuation is the traditional unit credit method.

The target liability is the present value of the accrued benefits. The target liability is funded over time. Each year's funding shortfall is spread over 15 years. This shortfall is the result of gains or losses when actual experience differs from expectations based on the actuarial assumptions, plan changes, assumption changes or changes in the asset valuation method.

The target normal cost is the present value of the benefit earned in the year.

C. Actuarial Assumptions Rationale

Valuation Interest Rates (Funding)	The interest rate assumption used is prescribed by IRC section 430(h) subject to specified elections by the plan sponsor.
Mortality (Funding)	For annuitants, the mortality assumption used is prescribed by IRC section 1.430(h)(3)-1(b) subject to specified elections by the plan sponsor. For valuing lump sums, the mortality table reflects the most recent SOA mortality study.
Retirement/Withdrawal	Retirement rates and withdrawal rates are based on the plan sponsor's historical experience and expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.
Form of Payment	This assumption was based on best expectations given plan provisions, based on historical experience of the plan.
Provisions for expenses	This assumption is set based on the plan sponsor's historical experience and expectations for future expenses to be paid from the trust.
Investment Yield	This rate is intended to represent the net yield after investment expenses over an extended period of time in the future.

Accrued Benefit

A participant's Accrued Benefit (AB) as of the last day of any Plan Year is an amount determined by the formula $AB = ADJ AB' + \text{Incremental AB}$, where

ADJ AB' is the participant's adjusted Accrued Benefit for the Preceding Plan Year:

$ADJ AB' = AB' * \text{Annuity Ratio Factor} * (1 + \text{Plan Year Yield}) / 1.065$

where AB' = the Participant's Accrued Benefit as of the last day of the preceding Plan Year

Prior to January 1, 2009, Incremental AB is the lesser of Incremental Aby or the Maximum Accrual Margin.

$\text{Incremental Aby} = (m/12) * \text{Coefficient Factor} * Y\text{-factor} * \text{Reciprocal Factor}$
where m = the number of full months in the Plan Year during which the Eligible Employee is a Participant.

Effective January 1, 2009, Incremental AB is the lesser of Incremental Aby or the Maximum Accrual Margin.

$\text{Incremental Aby} = (m/12) * \text{Coefficient Factor} * 10\% * \text{limit under Section 415(b)(1)(A) of the Code for the 2015 Plan Year expressed as an annuity commencing at Normal Retirement Age}$ where m = the number of full months in the Plan Year during which the Eligible Employee is a Participant.

Maximum Accrual Margin is the excess, if any, of (1) the lesser of the limit under Section 415(b)(1)(A) of the Code as adjusted by Section 415(d) of the Code, expressed as an annuity commencing at the later of Normal Retirement Age or the Participant's attained age over (2) the sum of ADJ AB' and any other benefit paid, or payable, from any other defined benefit pension plan maintained by the Employer, also expressed as an annuity.
