Report of Independent Auditors

To the Plan Participants and the Plan Administrator of the ConocoPhillips Retirement Plan (the ConocoPhillips Company Benefits Committee)

Opinion

We have audited the financial statements of the ConocoPhillips Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes (collectively referred to as the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions,

**Shape the future
with confidence**

including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion of the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2024, loans or fixed income obligations in default or classified as uncollectible, nonexempt

transactions, and reportable transactions (5 percent transactions) for the year then ended (referred to as the “supplemental schedules”), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1--Plan Description

The following description of the ConocoPhillips Retirement Plan (Plan) is subject to and qualified by the more complete information appearing in the Plan document.

Any subsidiary or affiliate of ConocoPhillips Company (Company) may participate in the Plan upon the approval of the Company. Participating employers in the Plan are hereafter referred to collectively as the Company.

The Plan is a noncontributory defined benefit plan for eligible U.S. employees of the Company. Employees hired on or after January 1, 2019, are not eligible to participate in the Plan.

No employee contributions are required or allowed under the Plan. The Plan includes transfer provisions with respect to plans of subsidiary and affiliated companies.

The Plan is composed of the following (collectively “Titles”):

- ConocoPhillips Retirement Plan - Main Title
- Phillips Retirement Income Plan – Title I
- ConocoPhillips Cash Balance Account – Title II
- Tosco Pension Plan – Title III
- Retirement Plan of Conoco – Title IV
- Pension Plan for Hourly Employees of Phillips Fibers Corporation – Title V
- Burlington Resources Inc. Pension Plan – Title VI
- ConocoPhillips Store Retirement Plan – Title VII
- Tosco Corporation Pension Plan for Union Employees Formerly Employed by Monsanto Company – Title VIII

In addition, effective August 1, 2025, the Retirement Plan of Marathon Oil Company was merged into and added as a new Title IX to the Plan (see Note 2 Subsequent Events).

The Plan, inclusive of all its Titles, is a single defined benefit plan intended to be qualified under Section 401(a) of the Internal Revenue Code of 1986, as amended, and to satisfy the requirements of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Each Title of the Plan has its own benefit formula(s) and distribution options for participants covered by the Title. Upon becoming eligible for a distribution from the Plan, participants generally have the option of receiving benefits in the form of a lump sum or various annuity forms (including joint and survivor forms), but not all distribution options are available under all Titles. Generally, all remaining active participants in the Plan are fully vested.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor benefits. The amount of benefit protection is subject

to a maximum benefit guarantee set each year under provisions of ERISA.

The administration of the Plan is divided among the Company's Benefits Committee and Retirement Plan Investment Committee. Members of both Committees are appointed by the Board of Directors of the Company and serve without compensation but are reimbursed by the Company for necessary expenditures incurred in the discharge of their duties. Administrative expenses of the Plan are paid from assets of the Plan to the extent allowable by law, unless paid by the Company without reservation of a right of reimbursement.

ConocoPhillips Retirement Plan recordkeeping and disbursement services are provided by Fidelity Workplace Services LLC.

Note 2--Significant Accounting Policies

Basis of Presentation - The Plan's financial statements are presented on the accrual basis of accounting in conformity with U.S. generally accepted accounting principles (GAAP).

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). Valuation of the Plan's participation right is discussed in Note 3 – Insurance Contract – Participation Right. Valuation of all other Plan investments is discussed in Note 4 – Investments.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Fair Value Measurement - ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or

liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Refer to Note 3 and Note 4 for disclosures provided for fair values of Plan investments.

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to employee service rendered to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by the Plan's actuary, Willis Towers Watson, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation at December 31, 2024 and 2023, were:

Discount rate – 2024 – 5.30% and 2023 – 5.30%

Mortality - 2024 and 2023 - Pri-2012 tables with generational MP-2021 projection.

Retirement age – 2024:

<u>Age</u>	<u>Percentage of Eligible Participants Who Retire During the Year</u>	<u>Age</u>	<u>Percentage of Eligible Participants Who Retire During the Year</u>
50 – 53*	4.0%	61 – 64	25.0%
54 – 55*	10.0	65 – 66	30.0
56 – 58	15.0	67 – 69	35.0
59 – 60	20.0	70	100.0

Retirement age – 2023:

<u>Age</u>	<u>Percentage of Eligible Participants Who Retire During the Year</u>	<u>Age</u>	<u>Percentage of Eligible Participants Who Retire During the Year</u>
50 – 53*	4.0%	61 – 64	25.0%
54 – 55*	10.0	65 – 66	30.0
56 – 58	15.0	67 – 69	35.0
59 – 60	20.0	70	100.0

* Ages 50-54 are only applicable to Title IV

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits (see Note 9 – Plan Termination).

Benefits Paid - Annuity payments are recorded upon distribution to participants. Lump sum benefits are funded by the Company on behalf of the Plan, and recorded as a distribution when the Plan reimburses the Company.

Subsequent Events - In accordance with ASC Topic 855, *Subsequent Events*, Plan management has evaluated subsequent events through October 8, 2025, the date the financial statements were available to be issued. Effective as of August 1, 2025, the Retirement Plan of Marathon Oil Company (Marathon Plan) was merged into the Plan with assets with an approximate value of \$193 million. Accumulated plan benefits associated with the Marathon Plan were approximately \$227 million as of January 1, 2025. During the period January 1, 2025 to July 31, 2025, the Marathon Plan made approximately \$30 million in benefit payments to Marathon Plan participants. Additionally, the Plan was amended to include Title IX relating to benefits under the Marathon Plan.

Note 3-- Insurance Contract - Participation Right

The Plan has a participating annuity contract (GA-5503) with Prudential. The contract price included the cost of Prudential's irrevocable guarantee of benefits accrued from January 1, 1968 through August 31, 1986, and a cost of \$71,800,000 for the Plan's right to receive any returns resulting from the participation features of the contract. This investment only relates to Title I of the Plan.

All funds under the contract are maintained in a Prudential separate account. If the contract account value (market value of assets held in the account) compared to the contract liability amount (based on projected benefit and administrative costs discounted using specified actuarial assumptions) exceeds a specified level, the Plan currently has a right to receive such excess. The Plan received an excess of \$14,800,000 in 2024, which is reflected in the Statement of Changes in Net Assets Available for Benefits. In addition, the Plan has a right to the total funds remaining upon the satisfaction of all contract obligations including conversion of the contract to a nonparticipating basis. The Plan has no obligation for any excess liability amount; however, under regulations prescribed by ERISA, the Plan still has fiduciary responsibility with respect to the total separate account assets. Conversion to a nonparticipating basis would be negotiated with Prudential based on market factors at the time of conversion. The valuation methodologies used for the assets held in the participating annuity contract are the same as those described in Note 4 - Investments. There have been no changes in the methodologies used at December 31, 2024 and 2023.

The following value of the participation right at December 31 represents the estimated fair value of the assets held in the separate account, net of the present value of the expected contract obligations as calculated by the Plan's actuary.

	<u>2024</u>	<u>2023</u>
Total Fair Value of Contract Assets	\$ 109,769,508	\$ 134,470,690
Present Value of Contract Obligations	(75,593,024)	(79,674,208)
Reported Fair Value of Participation Right at December 31	\$ 34,176,484	\$ 54,796,482

Changes in the present value of contract obligations from the prior year are as follows:

Present Value of Contract Obligations at December 31, 2023	\$ 79,674,208
Increase (Decrease) During the Year Attributed to:	
Actuarial (Gains) Losses	3,384,396
Changes of Assumptions	-
Decrease in the Discount Period	3,920,989
Benefits Paid	(11,386,569)
Present Value of Contract Obligations at End of Year	\$ 75,593,024

The significant assumptions used by the actuary in the valuation of the contract obligations were:

Discount rate – 2024 – 5.30% and 2023 – 5.30%

Mortality - 2024 and 2023 - Pri-2012 tables with generational MP-2021 projection.

Retirement age – 2024:

<u>Age</u>	<u>Percentage of Eligible Participants Who Retire During the Year</u>	<u>Age</u>	<u>Percentage of Eligible Participants Who Retire During the Year</u>
55	10.0%	61 – 64	25.0%
56 – 58	15.0	65 – 66	30.0
59 - 60	20.0	67 – 69	35.0
		70	100.0

Retirement age – 2023:

<u>Age</u>	<u>Percentage of Eligible Participants Who Retire During the Year</u>	<u>Age</u>	<u>Percentage of Eligible Participants Who Retire During the Year</u>
55	10.0%	61 – 64	25.0%
56 – 58	15.0	65 – 66	30.0
59 - 60	20.0	67 – 69	35.0
		70	100.0

The actuarial assumptions used by the Plan’s actuary to determine the expected contract obligations are the Plan’s best estimates of actual experience under the contract.

The participation right is classified as Level 3 in the ASC 820 fair value hierarchy as the fair value is determined via a combination of comparison to quoted market prices and estimation using recently executed transactions and market price quotations for contract assets, and an actuarial present value computation for contract obligations.

Note 4-- Investments

Following is a description of the valuation techniques and inputs used for the investments held in the Plan. There have been no changes in the techniques and inputs used at December 31, 2024, from those used at December 31, 2023.

Fair values of equity securities and mutual funds securities classified in Level 1 are based on quoted market prices. Cash & cash equivalents are valued at cost plus accrued interest, which approximates fair value.

Fair values of private placement equity securities classified in Level 3 are based on the latest tender offer valuations.

Fair values of debt classified in Level 2 are estimated using recently executed transactions and market price quotations. If there have been no market transactions in a particular fixed-income security, its fair market value is calculated by pricing models that benchmark the security against other securities with actual market prices. When observable price quotations are not available, fair value is based on pricing models that use something other than actual market prices (e.g., cash flow projections with yield curves, “price prospectives” from trading desks), and these securities are classified in Level 3 of the fair value hierarchy.

Fair values of investments in common/collective trusts (CCTs) are determined based on net asset value as a practical expedient as determined by the issuer of each fund based on the fair value of the underlying assets.

The fair value of investments in the real estate fund is determined based on net asset value as a practical expedient as determined by the issuer of the fund based on the fair value of the underlying assets. Fair values of the underlying assets are valued using real estate valuation techniques and other methods that include reference to third-party sources and comparable transactions where available.

Investment purchases and sales are recorded on a trade-date basis. The net appreciation (depreciation) in the fair value of investments consists of realized gains or losses and unrealized appreciation (depreciation) of those investments. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair Value Hierarchy

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value.

As of December 31, 2024	Level 1	Level 2	Level 3	Total

Common / Collective Trusts				1,173,193,873
Real Estate Fund				27,295,075
Total Investments, at fair value				\$1,312,214,365

* In accordance with FASB ASC Subtopic 820-10, "Fair Value Measurement – Overall", certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

Level 3 Changes

The table below sets forth a summary of changes in the fair value of the Level 3 investments for the year ended December 31, 2024:

	Corporate Debt	Equity Securities – Preferred Stock	Equity Securities – Common Stock	Insurance Contract – Participation Right	Total
Transfers In	761,359	-	-	-	761,359
Transfers Out	-	-	-	-	-
Purchases	-	-	-	-	-
Sales/Issues	-	-	-	-	-

Transfers into Level 3 were due to changes in the observability of inputs used in the valuation of such assets.

Investment Strategies and Redemption Restrictions - Following is a description of investment strategies and significant redemption restrictions for investments that do not have readily determinable fair values.

The Plan maintains liquidity through the use of a temporary investment CCT. Cash is swept daily into the fund. This fund invests primarily in instruments issued by the U.S. government and Federal agencies. Liquidity from the CCT is available on any bank business day with same-day notice.

The Plan also invests in equity and fixed income CCTs. They are generally designed around widely quoted indexes or benchmarks. The CCTs process redemptions on any business day with one or two days notice depending on fund. In 2023 and through April 2024, redemptions were settled two business days following the trade date. In May 2024, the settlement period was reduced to one day. Redemptions are then settled one business day following the trade date. The CCT trustees reserve the right to suspend redemptions due to extreme market conditions or disruptive asset flows.

The Plan invests in real estate through its shares in a limited liability company that has elected to be treated as a real estate investment trust for U.S. federal income tax purposes. The Plan can request partial or full withdrawal of its investment by submitting the request at least 15 days prior to the end of a calendar quarter. If the fund has sufficient cash available, the Plan will receive the cash for its withdrawal generally in the quarter after the request. If there is not sufficient cash for all withdrawal requests, the fund will use the available cash to pay the requested withdrawals on a pro-rata basis.

Note 5 --Funding Policy

The Company's policy is to make contributions that are at or above the minimum ERISA funding requirements. The Plan satisfied the minimum funding requirements for the 2024 Plan year.

Note 6--Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits at December 31 follows:

	2024	2023
Actuarial Present Value of Accumulated Plan Benefits:		
Vested Benefits:		
Participants Currently Receiving Payments	\$ 147,221,426	\$ 133,429,475

Total Vested Benefits	1,309,043,125	1,242,781,616
Non-Vested Benefits	6,725,245	6,946,972
Total Actuarial Present Value of Accumulated Plan Benefits	\$ 1,315,768,370	\$ 1,249,728,588

Changes in the accumulated plan benefits from the prior year are as follows:

Actuarial Present Value of Accumulated Plan Benefits at December 31, 2023	\$ 1,249,728,588
Increase (Decrease) During the Year Attributed to:	
Benefits Accumulated	63,526,252
Actuarial (Gains) Losses	8,088,830
Decrease in the Discount Period	67,361,012
Change of Assumptions	12,051,709
Benefits Paid	(84,584,699)
Plan Amendments	(403,322)
Net Increase in Actuarial Present Value of Accumulated Plan Benefits During the Year	66,039,782
Actuarial Present Value of Accumulated Plan Benefits at December 31, 2024	\$ 1,315,768,370

Assumption changes since the last valuation include updates to the interest rates for lump sum conversions. Various interest rates are utilized by the different plan titles.

Note 7--Agreements with Parties-in-Interest

Contributions to the Plan are paid into the trust under the provisions of a trust agreement with Bank of New York Mellon. As of year-end 2024, the Plan has investment management agreements with The Prudential Insurance Company of America, BlackRock, Inc., and Lazard Asset Management. The Plan's actuary is Willis Towers Watson.

The Company has a consulting agreement with Cook Street for investment advisory services. Periodic annuities and lump sums are paid by Fidelity Workplace Services LLC.

Note 8--Income Tax Status

The Plan received a determination letter from the Internal Revenue Service (IRS) dated April 13, 2021, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to our submission to the IRS for the determination letter, the Plan has been amended. The Plan is required to operate in conformity with applicable requirements of the Code to maintain its qualification. The Benefits Committee believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Benefits Committee has analyzed the tax positions taken by the Plan and has concluded there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions.

Note 9--Plan Termination

The Company may amend or terminate the Plan at any time. No amendment or modification of the Plan will reduce the benefits that participants have earned as of the effective date of the amendment or modification.

If the Plan is ever terminated, the benefit earned by participants to the date of Plan termination (to the extent then funded) will become vested and will be distributed to participants in any manner permitted by the Plan. Upon termination of the Plan, the assets of the Plan will generally be allocated in accordance with the following priorities:

- (a) to provide benefits for that portion of the normal retirement income attributable to employee contributions remaining under the Plan;
- (b) ignoring any increases to the Plan's benefit formulas made during the five years before the date of Plan termination, equally among:
 - (i) the actual benefits of participants and beneficiaries to whom payment commenced in the form of an annuity at least three years before the date of Plan termination; and
 - (ii) the normal retirement benefits as of three years before the date of Plan termination for participants who had not but could have retired and commenced payment of their benefit as of such date;
- (c) to all benefits guaranteed by the PBGC;
- (d) to all other vested accrued benefits not guaranteed by the PBGC; and
- (e) to all other accrued benefits provided under the Plan, which were not otherwise vested on the date of Plan termination.

While certain benefits are insured by the PBGC, Plan participants' ability to receive their benefits will depend upon the sufficiency of the net assets of the Plan at the date of its termination.

Any excess funds shall revert to the Company under certain conditions outlined in the Plan.

Methods

Valuation date First day of plan year

Funding target Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the previous plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method

has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

WTW has reviewed the plan provisions with ConocoPhillips Company and, based on that review, is not aware of any other significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor through its third party administrator, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Cash Balance Interest crediting rate

The plan credits interest to cash balance accounts as described in the economic assumptions. After examining historical variability in these rates, we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate.

Lump sum conversion rate

Lump sum benefits are valued using a select and ultimate assumption for the plan's lump sum conversion rate, and thus reflects both current conditions and expected future conditions. We believe the assumption is not significantly inconsistent with what would be reasonable and consistent with other economic assumptions used, other than the discount rate.

Rates of increase in compensation, National Average Wages (NAW), CPI

Assumed increases were chosen by the plan sponsor and they represent an estimate of future experience.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination/Retirement	Termination and retirement rates were based on an experience study conducted during 2022. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.
Form of payment	The percentage of retiring participants assumed to take lump sums is based on an examination of the election rates over the preceding years. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Changes in Assumptions and Methods

Change in assumptions since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430. The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC 430. The lump sum rates and interest crediting rates have been updated to better reflect the current economic environment.
Change in methods since prior valuation	None.

Vesting Service

A participant is credited with 1 year of Vesting Service for each anniversary year in which he/she has completed 1,000 or more Deemed Hours of Service.

Final Average Compensation/Salary

The average of the highest 3 consecutive calendar years of compensation during the 11-year period ending on the earliest of termination, early retirement or normal retirement dates.

Accrued Benefit

Subsidiaries that were merged into the Plan on January 1, 1990 have minimum past service benefits based on their respective formulas.

The Accrued Benefit will be offset for:

- a. Benefits provided by Prudential, under the participating annuity contract GA-5503, established 9/1/1986; and
