INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of
Tyson Foods, Inc. Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Tyson Foods, Inc. Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024, and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements (collectively, the financial statements).

Plan management (Management), having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (US GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that Management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are

required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect Management's responsibility for the financial statements.

In preparing the financial statements, Management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the ability of the Plan to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the transactions of the Plan that are presented and disclosed in the financial statements are in conformity with the provisions of the Plan, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls of the Plan. Accordingly, no such opinion is expressed.

McConnell Jones

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the ability of the Plan to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of US GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with US GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental information in the accompanying Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of Management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

McConnell Jones

- the information in the supplemental schedule related to assets held by and certified to by the qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that Management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements
December 31, 2024 and 2023

NOTE 1: DESCRIPTION OF THE PLAN

The following brief description of the Tyson Foods, Inc. Retirement Savings Plan ("the Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan which was adopted effective October 1, 1987, to provide a means for eligible employees to defer a portion of their compensation and to encourage savings to provide additional financial security for the future.

Contributions

Effective January 1, 2023, all eligible employees could elect to participate as of their first day of active employment. Eligible employees must elect to have deductions withheld from their paychecks by the Tyson Foods, Inc. ("Sponsor") in order to contribute to the Plan. Effective January 1, 2021, the Plan also allows Roth elective deferrals, wherein participants can designate a portion of their elective deferral contributions as after-tax Roth elective deferral contributions.

The Plan, as amended effective January 1, 1997, allows 100% Sponsor matching contributions on participant deferrals up to 3% of compensation, including annual bonuses and 50% for participant deferrals in excess of 3% but not more than 5% of compensation, including annual bonuses, except for certain groups as noted in the Plan document. The Plan provides matching contributions only to employees who have completed one year of service.

Change in Third Party Administrator

Effective June 1, 2024, the Plan Custodian and Recordkeeper was changed to Fidelity Investments Institutional Operations Co, LLC ("Fidelity" or the "Custodian"). This change reflects our commitment to providing the best possible management and oversight for our retirement savings plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Sponsor's contribution and Plan earnings. Additionally, the Plan is responsible for all administrative expenses, including investment advisory, legal and consulting fees. Administrative expenses are allocated evenly across all participant accounts on a monthly basis, after allocating loan initiation fees collected during the period to the respective participants' accounts.

Most funds impose restrictions on the timing of certain trades, depending on the fund and length of time the shares were held.

Vesting

Plan participants are fully vested at all times with regard to their salary deferral and employer matching contributions, except as noted in the Plan document.

Notes Receivable from Participants

Participants may obtain loans from their individual accounts in amounts not to exceed the lesser of 50% of their vested account balance or \$50,000. Loans are secured by the balance in the participant's account and bear interest at a fixed rate based upon New York prime plus 1% at the time the loan is made. The maximum maturity of a loan is sixty (60) months. Principal and interest are paid ratably through weekly, bi-weekly, or monthly payroll deductions. Participants are charged a one-time fee of \$35 per loan. Terms for loans initiated under merged plans may differ and generally carry over through the maturity of those loans.

Benefits

Participants who have attained age 59 ½ or become subject to an in-service disability may elect to withdraw part or all of their account balance. All other participants may elect to withdraw their salary deferral contributions to alleviate a financial hardship. Participants may withdraw after-tax or rollover contributions at any time.

Payment of a participant's benefits upon retirement, disability or death may be in a lump sum, in installments over a period of time or any combination at the participant's election. Participants terminating employment with vested account balances of \$1,000 or less are distributed in a lump sum. Participants may elect to defer distribution of their benefit if the vested account balance exceeds \$1,000 upon termination of employment. In order to elect installment payments, a participant's account balance must exceed \$7,000.

Plan Termination

Although the Sponsor has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of Employee Retirement Income Security Act ("ERISA"). In event of termination, participants will be entitled to their vested account balance.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**Basis of Accounting**

The accompanying financial statements are prepared on the accrual basis of accounting.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Sponsor to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. See Note 3: Fair Value Measurement for a description of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends and capital gain distributions are recorded on the ex-dividend date. The net appreciation or depreciation in fair value of investments consists of realized gains and losses and changes in unrealized gains and losses of these investments during the year. Unrealized gains and losses on investments are based on changes in the fair values of such investments.

Notes Receivable from Participants

Notes receivable from participants are valued at the unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE 3: FAIR VALUE MEASUREMENT

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value hierarchy contains three levels as follows:

Level 1 — Unadjusted quoted prices available in active markets for the identical assets or liabilities at the measurement date that the Plan has the ability to access.

Level 2 — Other observable inputs available at the measurement date, other than quoted prices included in Level 1, either directly or indirectly, including:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets in non-active markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs derived principally from or corroborated by other observable market data.

Level 3 — Unobservable inputs that cannot be corroborated by observable market data and reflect the use of significant management judgment. These values are generally determined using pricing models for which the assumptions utilize management's estimates of market participant assumptions.

The fair value hierarchy requires the use of observable market data when available. In instances where the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input significant to the fair value measurement in its entirety. Our assessment of the significance of a particular

item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Collective investment trust

At December 31, 2024 and 2023, the Plan's investments included units of a collective investment trust ("CIT") which provides long term investors with an asset allocation strategy designed to provide a strategic portfolio of diversifying and real return type asset classes. The CIT is valued at the net asset value ("NAV") of units held by the Plan at year end as a practical expedient. The NAV represents the value at which the units of the CIT may be purchased or redeemed. Valuation of the CIT occurs, at a minimum, each day the CIT is open for contributions and redemptions. Unit values are determined by dividing the CIT's net assets by the number of units outstanding on the valuation date. Redemptions are permitted on a daily basis and are executed based on the CIT unit value determined on that day. There were no unfunded commitments related to the CIT as of December 31, 2024 and 2023. The CIT investment has not been categorized in the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth the Plan's assets at fair value by level, within the fair value hierarchy at December 31, 2024 and 2023 (in thousands):

					in thousands
December 31, 2024	Level 1	Level 2	Level 3	Total

	\$ 865,641	\$ —	\$ —	\$ 2,680,816	

^(a) Units of the collective investment trust are valued at NAV and excluded from the fair value hierarchy.

NOTE 4: STABLE VALUE FUND

The Plan's Stable Value Fund ("the Fund") holds a portfolio of synthetic guaranteed investment contracts ("GICs") in order to manage market risks and to alter the return characteristics of underlying securities to match certain fixed income fund objectives. GICs generally change the investment characteristics of underlying securities to those of guaranteed investment contracts. The GICs provide that benefit-responsive distributions for underlying securities may be withdrawn at contract or face value. Benefit-responsive distributions are generally defined as a withdrawal on account of a participant's retirement, disability, or death, or participant-directed transfers in accordance with the terms of the Plan.

The primary purpose of the Fund is to provide preservation of principal, maintain a stable interest rate, and to provide daily liquidity at contract value for participant withdrawals and transfers in accordance with the provisions of the Plan. To accomplish the above objectives, the Fund invests primarily in a portfolio of GICs managed by Invesco Trust Company, the Custodian. BNY Mellon serves as the custodian for the underlying securities in the GICs. Each of the GICs is comprised of common collective trusts, which seek to maximize the portfolio's total return relative to a specific bond index. As each of the common collective trusts is tied to short-term or intermediate bond indices, the nature and risk does not vary significantly between each GIC.

Because these contracts meet the fully benefit-responsive investment contract criteria, they are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported by the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The synthetic GICs utilize a wrapper investment contract structure with the underlying investments owned by the Fund and held in trust for Plan participants. The Fund purchases a wrapper contract from an issuer that amortizes the realized and unrealized gains and losses on the underlying fixed income investments, typically over the duration of the investments, through adjustments to the future interest crediting rate (which is the rate earned by participants in the Fund for the underlying investments). The issuer provides assurance that the adjustments to the interest crediting rate will not result in a future interest crediting rate that is less than zero. The key factors that influence future interest crediting rates for a GIC include:

- The level of market interest rates;
- The amount and timing of participant contributions, transfers, and withdrawals into/out of the wrapper contract;
- The investment returns generated by the fixed income investments covered by the wrapper contract; and
- The duration of the underlying investments backing the wrapper contract.

Interest crediting rates for GICs are typically reset on a monthly or quarterly basis. The crediting rate formula amortizes the Fund's realized and unrealized market value gains and losses over the duration of the contract's underlying investments. All GICs provide for a minimum interest crediting rate of zero percent. In the event that the interest crediting rate should fall below zero and the requirements of the wrapper contract are satisfied, the wrapper issuers will pay to the Plan the shortfall needed to maintain the interest crediting rate at zero. This helps to ensure that participants' principal and accrued interest will be protected.

In certain circumstances, the amount withdrawn from the GIC would be payable at fair value rather than at contract value, known as value events. These value events could include the termination of the Plan, a material adverse change to the provisions of the Plan, or a decision to withdraw from the contract in order to change to a different investment provider. The Sponsor does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

There were no circumstances noted in which issuers may terminate at an amount other than contract value.

At December 31, 2024 and 2023, all investment contracts had open maturities.

NOTE 5: INCOME TAX STATUS

The Plan's latest tax determination letter dated May 2, 2017, from the Internal Revenue Service ("IRS") states that the Plan, as designed, is in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since the date of the letter. However, the Plan Sponsor and the Plan's tax counsel believe that the Plan is presently designed and being operated in compliance with the current requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6: INFORMATION CERTIFIED BY CUSTODIAN

Effective June 1, 2024, Fidelity Management Trust Company became the Custodian of the Plan. Accordingly, investment information for the period from January 1, 2024, through May 31, 2024, and for the year ended December 31, 2023, were obtained or derived from information provided to the Sponsor and certified as complete and accurate by Charles Schwab Trust Bank, the prior Custodian. Investment information for the period from June 1, 2024, through December 31, 2024, was obtained or derived from information provided to the Sponsor and certified as complete and accurate by Fidelity Management Trust Company, the current Custodian. These certifications were provided in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Management obtained this information and agreed to or derived it from the information certified by the respective Custodian.

NOTE 7: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8: PARTY-IN-INTEREST TRANSACTIONS

The Sponsor pays certain expenses of administering the Plan and provides the Plan with office space, equipment and personnel necessary to administer the Plan.

Certain assets of the Plan during 2024 and 2023 consisted of notes receivable from participants. The Plan invests in securities managed by the Trustee or its affiliates, these investments and transactions with the trustee will qualify as party-in-interest transactions; however, they will be exempt from the prohibited transactions rules under ERISA.

NOTE 9: SUBSEQUENT EVENTS

The Sponsor has evaluated subsequent events through October 8, 2025, the date the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of
Tyson Foods, Inc. Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Tyson Foods, Inc. Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024, and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements (collectively, the financial statements).

Plan management (Management), having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (US GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that Management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are

required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect Management's responsibility for the financial statements.

In preparing the financial statements, Management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the ability of the Plan to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the transactions of the Plan that are presented and disclosed in the financial statements are in conformity with the provisions of the Plan, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls of the Plan. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the ability of the Plan to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of US GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with US GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental information in the accompanying Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of Management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

McConnell Jones

- the information in the supplemental schedule related to assets held by and certified to by the qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that Management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements
December 31, 2024 and 2023

NOTE 1: DESCRIPTION OF THE PLAN

The following brief description of the Tyson Foods, Inc. Retirement Savings Plan ("the Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan which was adopted effective October 1, 1987, to provide a means for eligible employees to defer a portion of their compensation and to encourage savings to provide additional financial security for the future.

Contributions

Effective January 1, 2023, all eligible employees could elect to participate as of their first day of active employment. Eligible employees must elect to have deductions withheld from their paychecks by the Tyson Foods, Inc. ("Sponsor") in order to contribute to the Plan. Effective January 1, 2021, the Plan also allows Roth elective deferrals, wherein participants can designate a portion of their elective deferral contributions as after-tax Roth elective deferral contributions.

The Plan, as amended effective January 1, 1997, allows 100% Sponsor matching contributions on participant deferrals up to 3% of compensation, including annual bonuses and 50% for participant deferrals in excess of 3% but not more than 5% of compensation, including annual bonuses, except for certain groups as noted in the Plan document. The Plan provides matching contributions only to employees who have completed one year of service.

Change in Third Party Administrator

Effective June 1, 2024, the Plan Custodian and Recordkeeper was changed to Fidelity Investments Institutional Operations Co, LLC ("Fidelity" or the "Custodian"). This change reflects our commitment to providing the best possible management and oversight for our retirement savings plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Sponsor's contribution and Plan earnings. Additionally, the Plan is responsible for all administrative expenses, including investment advisory, legal and consulting fees. Administrative expenses are allocated evenly across all participant accounts on a monthly basis, after allocating loan initiation fees collected during the period to the respective participants' accounts.

Most funds impose restrictions on the timing of certain trades, depending on the fund and length of time the shares were held.

Vesting

Plan participants are fully vested at all times with regard to their salary deferral and employer matching contributions, except as noted in the Plan document.

Notes Receivable from Participants

Participants may obtain loans from their individual accounts in amounts not to exceed the lesser of 50% of their vested account balance or \$50,000. Loans are secured by the balance in the participant's account and bear interest at a fixed rate based upon New York prime plus 1% at the time the loan is made. The maximum maturity of a loan is sixty (60) months. Principal and interest are paid ratably through weekly, bi-weekly, or monthly payroll deductions. Participants are charged a one-time fee of \$35 per loan. Terms for loans initiated under merged plans may differ and generally carry over through the maturity of those loans.

Benefits

Participants who have attained age 59 ½ or become subject to an in-service disability may elect to withdraw part or all of their account balance. All other participants may elect to withdraw their salary deferral contributions to alleviate a financial hardship. Participants may withdraw after-tax or rollover contributions at any time.

Payment of a participant's benefits upon retirement, disability or death may be in a lump sum, in installments over a period of time or any combination at the participant's election. Participants terminating employment with vested account balances of \$1,000 or less are distributed in a lump sum. Participants may elect to defer distribution of their benefit if the vested account balance exceeds \$1,000 upon termination of employment. In order to elect installment payments, a participant's account balance must exceed \$7,000.

Plan Termination

Although the Sponsor has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of Employee Retirement Income Security Act ("ERISA"). In event of termination, participants will be entitled to their vested account balance.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**Basis of Accounting**

The accompanying financial statements are prepared on the accrual basis of accounting.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Sponsor to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. See Note 3: Fair Value Measurement for a description of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends and capital gain distributions are recorded on the ex-dividend date. The net appreciation or depreciation in fair value of investments consists of realized gains and losses and changes in unrealized gains and losses of these investments during the year. Unrealized gains and losses on investments are based on changes in the fair values of such investments.

Notes Receivable from Participants

Notes receivable from participants are valued at the unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE 3: FAIR VALUE MEASUREMENT

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value hierarchy contains three levels as follows:

Level 1 — Unadjusted quoted prices available in active markets for the identical assets or liabilities at the measurement date that the Plan has the ability to access.

Level 2 — Other observable inputs available at the measurement date, other than quoted prices included in Level 1, either directly or indirectly, including:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets in non-active markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs derived principally from or corroborated by other observable market data.

Level 3 — Unobservable inputs that cannot be corroborated by observable market data and reflect the use of significant management judgment. These values are generally determined using pricing models for which the assumptions utilize management's estimates of market participant assumptions.

The fair value hierarchy requires the use of observable market data when available. In instances where the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input significant to the fair value measurement in its entirety. Our assessment of the significance of a particular

item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Collective investment trust

At December 31, 2024 and 2023, the Plan's investments included units of a collective investment trust ("CIT") which provides long term investors with an asset allocation strategy designed to provide a strategic portfolio of diversifying and real return type asset classes. The CIT is valued at the net asset value ("NAV") of units held by the Plan at year end as a practical expedient. The NAV represents the value at which the units of the CIT may be purchased or redeemed. Valuation of the CIT occurs, at a minimum, each day the CIT is open for contributions and redemptions. Unit values are determined by dividing the CIT's net assets by the number of units outstanding on the valuation date. Redemptions are permitted on a daily basis and are executed based on the CIT unit value determined on that day. There were no unfunded commitments related to the CIT as of December 31, 2024 and 2023. The CIT investment has not been categorized in the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth the Plan's assets at fair value by level, within the fair value hierarchy at December 31, 2024 and 2023 (in thousands):

					in thousands
December 31, 2024	Level 1	Level 2	Level 3	Total

	\$ 865,641	\$ —	\$ —	\$ 2,680,816	

^(a) Units of the collective investment trust are valued at NAV and excluded from the fair value hierarchy.

NOTE 4: STABLE VALUE FUND

The Plan's Stable Value Fund ("the Fund") holds a portfolio of synthetic guaranteed investment contracts ("GICs") in order to manage market risks and to alter the return characteristics of underlying securities to match certain fixed income fund objectives. GICs generally change the investment characteristics of underlying securities to those of guaranteed investment contracts. The GICs provide that benefit-responsive distributions for underlying securities may be withdrawn at contract or face value. Benefit-responsive distributions are generally defined as a withdrawal on account of a participant's retirement, disability, or death, or participant-directed transfers in accordance with the terms of the Plan.

The primary purpose of the Fund is to provide preservation of principal, maintain a stable interest rate, and to provide daily liquidity at contract value for participant withdrawals and transfers in accordance with the provisions of the Plan. To accomplish the above objectives, the Fund invests primarily in a portfolio of GICs managed by Invesco Trust Company, the Custodian. BNY Mellon serves as the custodian for the underlying securities in the GICs. Each of the GICs is comprised of common collective trusts, which seek to maximize the portfolio's total return relative to a specific bond index. As each of the common collective trusts is tied to short-term or intermediate bond indices, the nature and risk does not vary significantly between each GIC.

Because these contracts meet the fully benefit-responsive investment contract criteria, they are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported by the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The synthetic GICs utilize a wrapper investment contract structure with the underlying investments owned by the Fund and held in trust for Plan participants. The Fund purchases a wrapper contract from an issuer that amortizes the realized and unrealized gains and losses on the underlying fixed income investments, typically over the duration of the investments, through adjustments to the future interest crediting rate (which is the rate earned by participants in the Fund for the underlying investments). The issuer provides assurance that the adjustments to the interest crediting rate will not result in a future interest crediting rate that is less than zero. The key factors that influence future interest crediting rates for a GIC include:

- The level of market interest rates;
- The amount and timing of participant contributions, transfers, and withdrawals into/out of the wrapper contract;
- The investment returns generated by the fixed income investments covered by the wrapper contract; and
- The duration of the underlying investments backing the wrapper contract.

Interest crediting rates for GICs are typically reset on a monthly or quarterly basis. The crediting rate formula amortizes the Fund's realized and unrealized market value gains and losses over the duration of the contract's underlying investments. All GICs provide for a minimum interest crediting rate of zero percent. In the event that the interest crediting rate should fall below zero and the requirements of the wrapper contract are satisfied, the wrapper issuers will pay to the Plan the shortfall needed to maintain the interest crediting rate at zero. This helps to ensure that participants' principal and accrued interest will be protected.

In certain circumstances, the amount withdrawn from the GIC would be payable at fair value rather than at contract value, known as value events. These value events could include the termination of the Plan, a material adverse change to the provisions of the Plan, or a decision to withdraw from the contract in order to change to a different investment provider. The Sponsor does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

There were no circumstances noted in which issuers may terminate at an amount other than contract value.

At December 31, 2024 and 2023, all investment contracts had open maturities.

NOTE 5: INCOME TAX STATUS

The Plan's latest tax determination letter dated May 2, 2017, from the Internal Revenue Service ("IRS") states that the Plan, as designed, is in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since the date of the letter. However, the Plan Sponsor and the Plan's tax counsel believe that the Plan is presently designed and being operated in compliance with the current requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6: INFORMATION CERTIFIED BY CUSTODIAN

Effective June 1, 2024, Fidelity Management Trust Company became the Custodian of the Plan. Accordingly, investment information for the period from January 1, 2024, through May 31, 2024, and for the year ended December 31, 2023, were obtained or derived from information provided to the Sponsor and certified as complete and accurate by Charles Schwab Trust Bank, the prior Custodian. Investment information for the period from June 1, 2024, through December 31, 2024, was obtained or derived from information provided to the Sponsor and certified as complete and accurate by Fidelity Management Trust Company, the current Custodian. These certifications were provided in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Management obtained this information and agreed to or derived it from the information certified by the respective Custodian.

NOTE 7: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8: PARTY-IN-INTEREST TRANSACTIONS

The Sponsor pays certain expenses of administering the Plan and provides the Plan with office space, equipment and personnel necessary to administer the Plan.

Certain assets of the Plan during 2024 and 2023 consisted of notes receivable from participants. The Plan invests in securities managed by the Trustee or its affiliates, these investments and transactions with the trustee will qualify as party-in-interest transactions; however, they will be exempt from the prohibited transactions rules under ERISA.

NOTE 9: SUBSEQUENT EVENTS

The Sponsor has evaluated subsequent events through October 8, 2025, the date the financial statements were available to be issued.
