Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

## **Schedule SB, line 25 – Change in Method**

There is a change in the actuarial method for the plan year that qualifies for automatic approval under Revenue Procedure 2017-56, Section 4.01 ("Approval for change in funding method for takeover plans"). Both the enrolled actuary for the plan and the business organization providing actuarial services to the plan have changed. The funding target and target normal cost (without regard to any adjustments for employee contributions and plan-related expenses), as determined by the new enrolled actuary as of the valuation date for the prior plan year (using the actuarial assumptions of the prior enrolled actuary and using the data elements and valuation software of the new enrolled actuary), are both within 3% of those values as determined for that prior plan year by the prior enrolled actuary. The actuarial value of plan assets, as determined by the new enrolled actuary as of the valuation date for the prior plan year (using the actuarial assumptions of the prior enrolled actuary), is within 2% of the value for that prior plan year as determined by the prior enrolled actuary.

There is also a change in actuarial method for the plan year that qualifies for automatic approval under Revenue Procedure 2017-56, Section 3.02 ("Approval for changes in valuation date"). The valuation date was changed from the last day of the plan year to the first day of the plan year. The valuation date was not changed in any of the four preceding plan years.
