*INDEPENDENT AUDITOR'S REPORT*

Plan Administrator  
Betz Industries Pension Plan  
Grand Rapids, Michigan

**Scope and Nature of the ERISA Section 103(a)(3)(C) Audit**

We have performed audits of the accompanying financial statements of *Betz Industries Pension Plan*, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2023 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

## Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of *Betz Industries Pension Plan* and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about *Betz Industries Pension Plan's* ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of *Betz Industries Pension Plan's* internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about *Betz Industries Pension Plan's* ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

### **Auditor's Responsibilities for the Audit of the Financial Statements - Continued**

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Other Matter - Supplemental Schedules Required by ERISA**

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024, and the Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

BETZ INDUSTRIES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2024 AND 2023

---

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the *Betz Industries Pension Plan* is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

*General*

The Plan is a defined benefit pension plan covering substantially all employees of *Betz Industries, Inc.* ("Company"). It is subject to the provisions of the ERISA. The Plan was restated effective January 1, 2016, to maintain compliance with the requirements of the Internal Revenue Code (IRC) and ERISA.

*Pension Benefits*

Employees with five or more years of service are entitled to monthly pension benefits beginning at normal retirement age (65) equal to one-half of one percent times their average monthly compensation times years of benefit service as of December 31, 1986, plus three-fifths of one percent times their average monthly compensation times years of benefit service after 1986. The Plan permits early retirement when the employee has completed at least 10 years of service and has attained age 55. If the participant retires earlier than the normal retirement date, they will receive a reduced amount of retirement benefits. If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated Plan benefits attributed to the Company's contribution. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. Employees may also elect to receive the value of their accumulated Plan benefits as a lump-sum distribution upon retirement or termination, or they may elect to receive benefits as a life annuity payable monthly from retirement.

*Death and Disability Benefits*

If an active employee dies before retirement and has at least 10 years of vesting service, the employee's beneficiary will be entitled to a death benefit. The amount of death benefits will be equal to the actuarially equivalent present value of the participant's accrued benefit minus the value of any benefit payable to the participant's spouse. Active employees who become totally disabled receive benefits equal to an amount determined by the Plan's benefits committee upon review of the employee's benefit claim request. Disability benefits to be paid by the Plan will be reduced by the employee's non-Plan disability benefits received.

*Vesting*

Employees become 100 percent vested after five years of service.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

*Basis of Accounting*

The accompanying financial statements are prepared on the accrual basis of accounting.

*Use of Estimates*

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported assets and changes therein, disclosures, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

*Investment Valuation and Income Recognition*

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

*Actuarial Present Value of Accumulated Plan Benefits*

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees previous 10 calendar years of employment with the Company. From this 10-year period, the average monthly compensation will be determined by taking the 5 consecutive complete calendar years during which the employee's compensation was the highest and dividing that number by 60. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Principal Financial Group and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of **December 31, 2023**, were (a) retirement age assumptions, (b) interest rate, which varies depending on expected future payment dates, ranging from 4.75 percent to 5.59 percent, (c) life expectancy of participants, (d) salary adjustment of Table S-5 from the Actuary's Pension Handbook plus 1 percent, (e) 100 percent of participants are assumed to be married and the male is assumed to be three years older than the female, (f) asset valuations and returns, including an assumed rate of return of 7 percent, (g) inflation, including an assumed 2.4 percent increase per year and, (h) plan expenses. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

*Actuarial Present Value of Accumulated Plan Benefits - Continued*

The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding 2 years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over 3 plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings, based on the lesser of the assumed interest rate or the maximum allowable rate. The deferred gains and losses are added to the current market value and then restricted to no more than 110 percent and no less than 90 percent of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10 percent of market value.

*Payment of Benefits*

Benefit payments to participants are recorded when paid.

*Expenses*

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company, including compensation for officers and employees performing administrative functions, are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. The Plan paid fees in the amount of \$19,190 and \$18,336 to Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency, for the years ended December 31, 2024 and 2023, respectively. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the statements of changes in net assets available for benefits.

*Subsequent Events*

Management has evaluated subsequent events through September 18, 2025, the date on which the financial statements were available to be issued.

NOTE 3 - FUNDING POLICY

No participant was required to make any contributions to the Plan. The sole source of benefits is Company contributions. It is the intent of the Company to contribute to the Plan such amounts as are calculated as sufficient on a sound actuarial basis to provide for the payment of benefits under the Plan and to make annual contributions to the Plan in amounts certified by an enrolled actuary to be not less than the amounts necessary to maintain the minimum funding standard required under the applicable provisions of ERISA. The ERISA minimum funding requirements have been met for both years ended December 31, 2024 and 2023.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

NOTE 4 - PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the PBGC up to the applicable limitations (discussed below).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All nonvested benefits.

#### NOTE 4 - PLAN TERMINATION - CONTINUED

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guaranties most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guaranty all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guarantied at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guaranties. For Plan terminations occurring during 2024, that ceiling is \$7,108 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are 65 years old at the time of retirement or plan termination (whichever comes later). For older annuitants, the corresponding ceilings are actuarially adjusted upward. For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

#### NOTE 5 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available to the Plan.

##### *Level 1 Fair Value Measurements*

The fair value of interests in pooled separate accounts are based on quoted net asset values of the shares held by the Plan at year-end.

NOTE 5 - FAIR VALUE MEASUREMENTS - CONTINUED

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and 2023:

	<u>Fair Value Measurements at Reporting Date Using</u>	
	<u>Fair Value</u>	<u>Quoted Prices In Active Markets for Identical Assets (Level 1)</u>
<u>December 31, 2024:</u>		
Pooled separate accounts	<u>\$ 16,210,756</u>	<u>\$ 16,210,756</u>
<u>December 31, 2023:</u>		
Pooled separate accounts	<u>\$ 16,018,689</u>	<u>\$ 16,018,689</u>

Gains and losses (realized and unrealized) included in the statements of changes in net assets available for benefits for both years ended December 31, 2024 and 2023, are reported in net appreciation in fair value of investments.

NOTE 6 - INFORMATION CERTIFIED BY THE TRUSTEE

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by Principal Financial Group, trustee of the Plan as of December 31, 2024 and 2023.

	<u>2024</u>	<u>2023</u>
Investments at fair value:		
Pooled separate accounts	\$ 16,210,756	\$ 16,018,689
Net appreciation in fair value of investments	709,784	1,712,887

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

#### NOTE 7 - TAX STATUS

The Internal Revenue Service (IRS) had determined and informed the Company by letter dated June 23, 2017, that the Plan and related trust, which were restated effective January 1, 2016, were designed in accordance with applicable sections of the IRC. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

GAAP requires the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress.

#### NOTE 8 - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts managed by Principal Financial Group. Principal Financial Group is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for certain administrative and investment management services amounted to \$20,078 and \$17,748 for the years ended December 31, 2024 and 2023, respectively. In addition, certain Plan expenses for investment management, recordkeeping, and actuarial services have been offset by revenue-sharing income and, therefore, are included in net appreciation in fair value of investments presented in the statements of changes in net assets available for benefits. The party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

#### NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan restatement effective 01/01/2016 including amendments through the Second Amendment to the Betz Industries, Inc. Pension Plan signed 08/10/2020.

#### Plan eligibility

Service	One year of eligibility service prior to entry date.
Class	Any employee who is: <ul style="list-style-type: none"><li>• Not represented by a bargaining agreement.</li><li>• A citizen of the United States.</li><li>• Not performing services for the company pursuant to an agreement between the company and another person or entity.</li></ul>
Entry date	The earlier of the first day of the plan year or the first day of the seventh month of the plan year coinciding with or following the date on which an employee meets the eligibility requirements.

#### Normal retirement benefit

Age	Attained age 65 with five years of plan participation.
Form	Single participants receive a straight life annuity. Married participants receive a 50% joint and survivor annuity. If the spouse is more than five years younger than the participant, the monthly benefit is reduced by .5% per year for each full year more than five. Optional forms may be elected in advance of retirement.
Amount (accrued benefit)	The greater of a) and b): <ol style="list-style-type: none"><li>a) The sum of 0.5% of average compensation multiplied by years of service as of January 1, 1987, and 0.6% of average compensation multiplied by years of benefit service earned after January 1, 1987.</li><li>b) The sum of a participant's accrued benefit as of January 1, 1994, and 0.6% of average compensation multiplied by years of benefit service after January 1, 1994.</li></ol>

#### Early retirement benefit

Age	Attained age 55.
Service	Ten years of benefit service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by six tenths of one percent for each month that early retirement date precedes normal retirement date.

#### Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on normal retirement date actuarially increased to late retirement date or accrued benefit on late retirement date.

#### Termination benefit

Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

#### Survivor annuity death benefit (a vested benefit)

Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death. The surviving spouse may elect a single lump sum payment equal to the actuarial equivalent of the benefit.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

#### Lump sum death benefit (a non-vested benefit)

Service	Ten years of vesting service.
Form	Lump sum payment payable to designated beneficiary.
Amount	The actuarially equivalent present value of the participant's accrued benefit minus the value of any Survivor Annuity Death Benefit payable to the participant's spouse.

## Definitions

### Average compensation

The monthly average of total pay received for the five consecutive years out of the ten latest years which gives the highest average.

### Optional forms of benefit payments

The optional forms of benefit payments are:

- Monthly annuity payable for life or 10 years certain and life
- Monthly annuity payable as a 50% or 75% survivorship life annuity

The optional form conversion basis is 7.0% interest and the UP-1984 mortality table.

## Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

## Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

-----------	---

Assumptions selected by actuary

Inflation	<p>2.40% increase per year.</p> <p>Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.</p>
Asset return	<p>7.00% for the current plan year.</p> <p>The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.</p>
Expected expense	<p>The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.</p>
Retirement	<p>Active and inactive participants are assumed to retire at normal retirement age as defined in <a href="#">Plan provisions</a>.</p> <p>This assumption is based on the results of recent experience analysis and anticipated future experience.</p>
Upcoming year salary increase	<p>The preceding year's salary is increased using the S-5 Table from The Actuary's Pension Handbook, increased by 1.00% at each age. This table provides a rate of increase that declines as participants age.</p> <p>Note: not used for Plan accounting calculations.</p>

Age	Upcoming increase
25	5.18%
40	3.72%
55	2.88%

Disability	<p>Expected salary increase is composed of salary inflation, a real wage growth and a merit increase. This reflects company salary increase philosophies along with more recent experience of the plan participants.</p> <p>None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.</p>
------------	---

Marriage	<p>100% married; husbands are 3 years older than wives.</p> <p>This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.</p>
Withdrawal	<p>2003 Society of Actuaries Small Plan Age Table, multiplied by 1.00.</p> <p>We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.00 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.</p>
Compensation limit increase	<p>2.40% increase per year used in the calculation of the IRC 404 maximum deduction cushion. See <a href="#">Calculated deduction</a> in Rules and regulations.</p> <p>Compensation limit increase is consistent with the inflation assumption.</p>
Form of benefit	<p>Participants are assumed to receive their benefits on the normal form at the assumed retirement age.</p> <p>This assumption is based on the results of recent experience analysis and anticipated future experience.</p>
<b>Methods prescribed by law</b>	
Liability measure	<p>Funding target is the present value of the benefits accrued on the valuation date. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.</p>
<b>Methods selected by plan sponsor</b>	
Asset method	<p>The asset valuation method is prescribed by law for plans that elect to use a value other than market value.</p> <p>For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.</p> <p>The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.</p> <p>When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.</p>
Segment rates	<p>24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.</p>

**PBGC premium basis**

Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2008 plan year and the method must be used for five years before a change can be made.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
5.01%	5.13%	5.15%

**Methods elected by actuary**

**Retirees**

Assets and liabilities for current and future retirees are included.

**Vested benefits**

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant’s vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

**Assumptions and methods elected by actuary - plan accounting (ASC 960)**

With the exceptions below, all assumptions and methods are the same as those used in determining your plan’s regular funding target and target normal cost.

**Mortality**

Based on Pri-2012 Total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2023).

**Mortality base rates**

**Before benefit payment period**

Employee amount-weighted, male and female

**During benefit payment period**

Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe “Approach 1” is reasonable for this plan.

**Mortality improvement**

Principal 2023 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2023
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2029/2029
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2023
COVID-19 or Excess load	None <sup>1</sup>

<sup>1</sup>Based on the sponsor’s input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

See [Mortality documentation](#) for rationale and additional information.

**Interest rate used to value liabilities**

6.50%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes’ arithmetic returns of the plan’s target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

**Treatment of administrative expenses**

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

#### Basis for lump sums

#### Interest rate

Based on the three segment yield curve: 3.55%/3.95%/4.95%

The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.55%/3.95%/4.95%. For details, see Corporate AA yield in Table 3 of Long-Term Capital Market Assumptions link.

#### Mortality

IRS Prescribed lump sum mortality for 2024. Future years are projected to decrement date with SOA mortality improvement scale MP-2021 as adjusted by the IRS Document Number 2023-23267.

This assumption reflects current law as provided by the IRS.

Schedule SB, Line 24 – Change in Actuarial Assumptions  
The Betz Industries Pension Plan  
EIN 38-1243090 Plan No. 001

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has increased from 6.50% to 7.00%. This rate is used in the calculation of the actuarial value of plan assets.

## Plan accounting information - ASC 960

This information may be used for plan accounting. The current year present value of vested and nonvested accrued benefits are based on the [Plan accounting](#) assumptions. The prior year present value of vested and nonvested accrued benefits are based on the assumptions shown in the 01/01/2023 valuation report.

Present value of vested benefits	01/01/2023	01/01/2024
Retirees and beneficiaries in pay status	\$4,478,516	\$3,892,194
Terminated vested participants	1,180,094	1,278,344
Active participants	4,376,304	4,272,253
Total	\$10,034,914	\$9,442,791
Present value of nonvested benefits		
Retirees and beneficiaries in pay status	\$0	\$0
Terminated vested participants	0	0
Active participants	23,592	34,532
Total	\$23,592	\$34,532
<b>Total present value of accumulated plan benefits</b>	<b>\$10,058,506</b>	<b>\$9,477,323</b>

Change in present value of accumulated plan benefits	
Present value of accumulated plan benefits as of 01/01/2023	\$10,058,506
Increase (decrease) during the year due to:	
Increase for interest due to decrease in the discount period	589,370
Benefits paid	(478,327)
Benefits accumulated and plan experience	(85,449)
Change in assumptions	(606,777)
Plan amendment	0
Method changes	0
<b>Present value of accumulated plan benefits as of 01/01/2024</b>	<b>\$9,477,323</b>

The annual update to mortality is included in the plan experience above. See [Plan accounting](#) assumptions for details. If this mortality was also used to determine the present value of accumulated plan benefits as of 01/01/2023, the liability would have been \$10,052,300.

**Statement by Enrolled Actuary**  
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
