THE BOARD OF REGENTS
SAMUEL MERRITT UNIVERSITY 403(b) PLAN
Oakland, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of **SAMUEL MERRITT UNIVERSITY 403(b) PLAN (the Plan)**, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- the information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter-Supplemental Schedules Required by ERISA

The supplemental Schedule of Delinquent Participant Contributions and Schedule of Assets (Held at End of Year) for the year ended December 31, 2024 and as of December 31, 2024, respectively, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Samuel Merritt University 403(b) Plan

Notes to the Financial Statements

Note 1 - Description of the Plan:

The following description of the Samuel Merritt University 403(b) Plan, (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was originally adopted on January 1, 2001 and most recently restated February 28, 2020 to conform to legislative requirements. The Plan is sponsored by Samuel Merritt University (the University) to provide benefits to eligible employees, as defined in the Plan document. The Plan is a 403(b) plan that allows for investments in annuity contracts and in registered investment companies. The Ad Hoc Investment Subcommittee of the Finance Committee appointed by the University's Board of Regents provides oversight for the Plan. The Plan Administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

On March 27, 2020, the Coronavirus Aid, Relief and Economic Security Act ("CARES Act") was enacted and signed into law. The CARES Act provided plan sponsors the ability to offer participants penalty-free distributions up to \$100,000, increased loan limits and deferment of loan payments. The CARES Act also temporarily waived required minimum distributions for terminated participants in calendar year 2020. The University has implemented these provisions and formally executed an amendment on May 30, 2023 with an effective date of January 1, 2020 to comply with the provisions of the CARES Act.

Eligibility

The Plan covers substantially all regular non-student full-time or part-time employees not covered by a collective bargaining agreement. To receive a matching contribution and employer nonelective contribution, eligible employees must work for a period of twelve months and complete 1,000 hours of service during the Plan eligibility period.

Effective October 16, 2023, the Plan credits predecessor employer service for purposes of eligibility and vesting for employees who have completed one full year of full-time employment at accredited institutions of post-secondary education prior to the employee's date of hire at Samuel Merritt University and who are at least 21 years of age.

Contributions

Participants may make salary deferral contributions of their eligible pre-tax compensation, not to exceed the amount allowable under current income tax regulations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Newly hired eligible employees, except Adjunct Faculty and those who elect not to defer compensation to the Plan, are auto-enrolled at a pre-tax deferral rate of 5% of compensation.

Samuel Merritt University 403(b) Plan

Notes to the Financial Statements

Participants may also contribute amounts representing lump sum distributions from other qualified defined benefit or contribution plans.

Employer matching contributions are non-discretionary; the matching limit on participants' salary deferral contributions is 100% up to 2% of participants' eligible compensation. The matching contribution limit shall apply per plan year effective May 1, 2023. The employer makes a nonelective employer contribution of 5% of the participant's eligible compensation.

Effective December 10, 2024, the Plan permits after-tax contributions, after-tax rollovers, and Roth in-plan conversions. Effective April 2025, the Plan implemented an annual reenrollment feature whereby participants deferring 0% are automatically enrolled at a pre-tax deferral rate of 5% of compensation, unless they elect otherwise. Also effective April 2025, the Plan implemented an automatic increase feature whereby those participants deferring from 1% - 4% of compensation will be automatically increased by 1% in January of each year until they reach 5% of compensation.

Participant Accounts

The Plan's assets are held in separate funds with Fidelity Management Trust Company and TIAA and CREF. Each participant's account is credited with the participant's contribution and allocations of the University's contributions and Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined.

Participant Investment Options

Upon enrollment in the Plan, a participant directs their contributions to any of the available investment options. If the participant does not direct their contribution, the contributions will be invested in the Fidelity Freedom Blend Fund closest to the participant's retirement age which meets ERISA standards as a Qualified Default Investment Alternative. Participants may change their investment options as allowed by their investment and contract accounts throughout the year via the third-party administrators' telephone systems or websites.

Vesting

Participants are immediately vested in their contributions and the University's matching and nonelective employer contributions plus earnings thereon.

Samuel Merritt University 403(b) Plan

Notes to the Financial Statements

Notes Receivable from Participants and Plan Loans

Notes Receivable from Participants

The Plan allows participants to borrow from their accounts for general purpose loans the lesser of 50% of their account balance or \$50,000 or for loans to purchase a primary residence the lesser of 50% (through TIAA) or 45% (through Fidelity) of their account balance or \$50,000 subject to plan provisions. Loan terms range from one to five years, except for loans to purchase a primary residence which may not exceed 15 years. The loans are secured by the balance in the participant's account and the interest rate is set at the prime rate, as specified by Reuters, plus one percent at the time of the loan. Principal and interest are paid ratably through payroll deductions. A participant may only have two loans outstanding at a time. As of December 31, 2024, interest rates on outstanding loans ranged from 4.25% to 9.50%.

Plan Loans

Participants may also borrow directly from funds owned by TIAA and CREF and not directly from the participant accounts. TIAA and CREF requires adequate security for the loans issued and a portion of the participant's account is reserved, or held in collateral, to cover 110% of the outstanding loan in case of default. Interest rates charged on these loans may be fixed or variable and were determined by the terms of the controlling contract. Repayments on these loans, including principal and interest, are made directly by the participant to TIAA and CREF and do not flow through the Plan. The Plan Administrator has concluded that these loans are not plan assets and that such arrangements are exempt transactions. As of December 31, 2024 and 2023, the outstanding plan loan balances were \$2,678 and \$10,431, respectively. As of December 31, 2024, the plan loan bears interest at 5.33% per annum.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Plan allows for hardship withdrawals by the participant as outlined in the plan document. The Plan also permits in-service distributions for those participants who have attained the age of 59 1/2 as outlined in the Plan Document.

Plan Custodians

Fidelity Management Trust Company and TIAA and CREF serve as the record keepers for the Plan. Fidelity Management Trust Company is the custodian of the Plan assets record kept by Fidelity Investments. TIAA and CREF is the custodian of the Plan assets record kept by TIAA and CREF.

Notes to the Financial Statements

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Contributions

Contributions from Plan participants and the University are recorded in the year in which the employee contributions are withheld from compensation.

Investment Valuation and Income Recognition

Investments of the Plan are held by Custodians and invested based solely upon instructions received from participants. The Plan's investments are reported at fair value as of the last day of the Plan year, except for fully benefit-responsive investment contracts (Note 5) which are reported at contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The University's Finance Committee determines the Plan's valuation policies, utilizing information provided by the investment advisors, the issuer and/or Custodians of the Plan. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is accrued on the ex-dividend date.

The net appreciation of investments in the Statement of Changes in Net Assets Available for Benefits includes both the unrealized appreciation in the aggregate current value of investments and net realized gains and losses on sale of investments.

The market volatility of equity-based investments could substantially impact the value of such investments at any given time. It is likely that the value of the Plan's investments, both in total and in individual participant accounts, has fluctuated since December 31, 2024.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation in fair value.

Samuel Merritt University 403(b) Plan

Notes to the Financial Statements

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2024 or 2023.

Benefit Payments

Benefits to participants are recorded when paid. As of December 31, 2024, there were no benefits processed and approved for payment that had not been paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the University. Expenses that are paid by the University are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

TIAA provides certain administrative services to the Plan pursuant to a Revenue Credit Account Arrangement Agreement (the Agreement) between the University and TIAA. TIAA receives amounts from mutual fund service providers for services TIAA provides to the funds. These amounts are used to offset certain amounts owed to TIAA for its administrative services to the Plan.

If the amounts received by TIAA from such mutual fund service providers exceeds amounts owed under the Agreement, TIAA remits the excess to the Plan's trust on a quarterly basis. Such amounts may be allocated to participants at TIAA or be applied to pay Plan administrative expenses not covered by the Agreement. The Plan does not recognize these amounts as revenue due to the fact that they are intended to reduce administrative costs for the Plan and are not paid to the Plan for delivering or producing goods, rendering services, or undertaking other activities for the investment manager.

Subsequent Events

The Plan Administrator has evaluated subsequent events from December 31, 2024 through October 1, 2025, the date the financial statements were available to be issued, and there were no material subsequent events that required recognition or disclosure, except as disclosed in Note 1.

Samuel Merritt University 403(b) Plan

Notes to the Financial Statements

Note 3 - Certified Information:

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividend income, other income, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified complete and accurate by Fidelity Management Trust Company and TIAA and CREF.

Note 4 - Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Samuel Merritt University 403(b) Plan

Notes to the Financial Statements

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis and recognized in the accompanying Statement of Net Assets Available for Benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no changes in the methodologies used as of December 31, 2024 and 2023.

Mutual funds: Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Variable annuity contracts: Valued based on the net asset values of underlying securities held by the contract at year end, which are generally valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing.

The CREF Accounts are valued at the daily unit value published on NASDAQ. The value of the unit holder's investment rises and falls with the return on the underlying assets in the account. The CREF variable annuity accounts consist of eight investment portfolios: the Stock, Global Equities, Growth, Equity Index, Bond Market, Inflation-Linked Bond, Social Choice, and Money Market accounts.

The Plan may redeem units at fair value on any day the New York Stock Exchange is open for business. Participants cannot redeem units from the CREF portfolios (with the exception of the Money Market account) for 90 days if a purchase, sale, and/or repurchase is made within that account within a 60-day period.

Self-Directed Brokerage Accounts: Accounts primarily consist of cash, and mutual funds. Cash is valued at its outstanding balance, which represents fair value. Mutual funds are valued on the basis of readily determinable market prices.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Note 5 - Fully Benefit-Responsive Contracts:

The Plan has a fully benefit responsive contract with TIAA. The traditional investment contract held by the Plan with TIAA maintains the contributions in a general account, under which are sub-contracts, which are fully benefit responsive. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Each premium allocated to the fixed annuity investment contract buys a guaranteed minimum amount of lifetime income based on the rate schedule in effect at the time the premium is credited.

For investment contracts that are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the Net Assets Available for Benefits attributable to the guaranteed investment contract. This contract is included in the financial statements at contract value, as reported to the Plan by TIAA. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan Administrator is not aware of reserves against contract value for credit risk of either contract issuer or otherwise. TIAA has reported that contract value approximates fair value for the investment at December 31, 2024 and 2023. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3% for the contract held with TIAA and such interest rates are reviewed and re-set by TIAA on an annual basis. The contract also offers the opportunity for additional amounts in excess of the guaranteed rate. When declared by TIAA, additional amounts remain in effect for the 12-month period that begins each March 1.

Samuel Merritt University 403(b) Plan

Notes to the Financial Statements

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events may be different under each contract and include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, and (5) premature termination of the contract.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreements without the consent of the issuer.

For accumulating Group Supplemental Retirement Annuity contracts held with TIAA, deemed fully benefit-responsive contracts amounted to \$8,668,809 and \$8,975,815 as of December 31, 2024 and 2023, respectively.

Note 6 - Related Party Transactions and Party-in-Interest Transactions:

Certain Plan investments are managed by Fidelity and TIAA and CREF. Such an arrangement, while considered a party-in-interest transaction under ERISA regulations, is permitted under the provisions of the Plan and is specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Certain administrative functions are performed by officers or employees of the University. No such officer or employee receives compensation from the Plan. Certain other administrative expenses may be covered by the Plan as stated in the Plan agreement, however, the University elected to pay these expenses directly.

Note 7 - Plan Termination:

Although the University has not expressed any intent to do so, the University has the right to amend or terminate the Plan subject to the provisions of ERISA at any time. All participants are currently 100% vested in their entire account. In the event the Plan is terminated, participant balances will be distributed in accordance with the Plan Document and ERISA.

Samuel Merritt University 403(b) Plan

Notes to the Financial Statements

Note 8 - Income Tax Status:

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (Code). The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for Plan participants under Section 403(b). The Plan Document is a 403(b) volume submitter plan that received a favorable opinion letter from the Internal Revenue Service on August 7, 2017, which stated that the Plan, as then designed, was in accordance with the applicable sections of the Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that is more likely than not would be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 9 - Risks and Uncertainties:

The Plan provides for various investment options in any combination of the investments offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the nature of risks associated with certain investment securities, it is at least reasonably possible that changes in the level of risks in the near term would materially affect participants' account balances and the amounts reported in the statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets available for Benefits.

Approximately, 37% and 39% of the Plan investments are held in fixed and variable annuity contracts with TIAA and CREF as of December 31, 2024 and 2023. This is considered a concentration of credit risk. At December 31, 2023, the balance in the TIAA Traditional Annuity represented 10% of the Plan's total investments. At December 31, 2024 and 2023, the balance in the Fidelity 500 Index Fund represented 12% and 10%, respectively, of the Plan's total investments.

Note 10 - Nonexempt Prohibited Transactions:

During 2024, the University inadvertently failed to deposit approximately \$22,877 of participant contributions within the required timeframe as stated by the United States Department of Labor (DOL) regulations. Delays in remitting contributions were due to administrative errors. The lost earnings due to the affected participants' accounts as a result of the delay were calculated and were deemed immaterial to the financial statements.
