INDEPENDENT AUDITORS' REPORT

To the Plan Administrative Committee
Georgia-Pacific LLC 401(k) Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of Georgia-Pacific LLC 401(k) Retirement Savings Plan (“the Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (“ERISA”), as permitted by ERISA Section 103(a)(3)(C) (“ERISA Section 103(a)(3)(C) audit”). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan’s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (“investment information”) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (“qualified institution”).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors’ Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1 Description of Plan

The following description of the Georgia-Pacific LLC 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the Plan administrator.

General - The Plan is a defined contribution plan covering salaried employees and certain groups of non-union hourly employees eligible for salaried benefits of Georgia-Pacific LLC or its affiliates (the Company or Plan Sponsor) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective April 1, 2023, the Plan changed the trustee and recordkeeper to Fidelity Management Trust Company and Fidelity Workplace Services LLC, respectively. Through March 31, 2023, Alight Solutions was the recordkeeper for the Plan and The Northern Trust Company was the Plan's trustee.

Fidelity Management Trust Company holds all investment assets of the Plan in the Koch Companies Defined Contribution Master Trust (Master Trust) as of December 31, 2024 and 2023.

Participation in the Plan is voluntary and eligible employees may begin participating immediately in the saving features of the Plan. After an employee has completed one year of service, the Company begins matching employee contributions to the Plan. The entry date for eligible participants for matching contributions is the first day following completion of the eligibility requirements.

As described in the Plan document, employment status changes permit the affected participants to transfer their balances between plans sponsored by the Company or by one of its affiliates. Such transfers are reflected in the net plan transfers in the accompanying statement of changes in net assets available for benefits.

Eligibility - All eligible employees, as defined by the Plan, are eligible to participate in the Plan upon date of hire.

Contributions and Vesting - Each year, the Plan allows participants to contribute up to 75% of their eligible compensation on a before-tax, Roth, or after-tax basis subject to the annual limitation specified by the Internal Revenue Code (the Code). The Company's matching contribution is 100% of participant contributions for the first 3% of compensation, as defined by the Plan, and 50% of participant contributions on the next 5% of compensation up to 8% of compensation. Participants who have attained age 50 or older during the plan year are eligible to make additional contributions to the Plan.

For employees who are automatically enrolled in the Plan, the initial pre-tax contribution is 3% of compensation and increases 1% per year until the total deferral is 8% of compensation. Participants may opt out of contributing.

Employees hired on or after January 1, 2006, are ineligible to participate in the Georgia-Pacific LLC Salaried Pension Plan. Instead, these employees will receive a fixed company contribution in the Plan in addition to participant deferrals and company matching contributions. A service based fixed company contribution is offered to participants that were newly hired as of January 1, 2016. These contributions will vest 100% after three years of vesting service.

Participants are 100% vested in their contributions. Company matching contributions become 100% vested upon completion of three years of service, attainment of age 59½, death or disability while employed. Termination of employment for reasons other than retirement, disability or death results in forfeiture of the nonvested portion of the company matching contributions.

Participant Accounts - Individual accounts are maintained for each of the Plan's participants to reflect the participant's share of the investment fund's earnings (losses), the Company's contributions and the participant's contributions. Allocation of earnings (losses) and administrative expenses are based on relative account balances and the participant's

investment elections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Withdrawals Upon Termination - Withdrawals from participant accounts upon termination may be made only for the following reasons: termination of employment, retirement, death, or long-term disability. Upon occurrence of one of these events and election of the participant, the Plan will distribute to the participant up to 100% of the participant's vested account balance in a lump-sum payment.

Withdrawals While Employed - Hardship withdrawals are permitted if certain criteria are met, as defined by the Plan, and are subject to taxes in the year received. Hardship withdrawals (either full or partial) are paid in cash. Other withdrawals while still employed include (if applicable) age 59 ½, rollover, certain grandfathered after-tax accounts, and active military withdrawals.

Notes Receivable from Participants - Participants may borrow from their fund accounts up to the lesser of \$50,000 or 50% of their vested account balances. Participants may have two loans outstanding at any time. Loans bear interest at a rate equal to the prime lending rate plus one percent at the date of origination of the loan and are secured by the balance of the participant's vested account. Loan repayments are generally made through payroll deductions and normally must be repaid within a five-year term unless the loan was used to purchase a primary residence, which could extend the term to 15 years.

Forfeited Accounts - Forfeited nonvested accounts totaled \$3,299,725 and \$2,854,228 at December 31, 2024 and 2023, respectively. These accounts will first be used to reduce future employer contributions, and any remaining forfeitures may be used to pay administrative expenses. During 2024, forfeited non-vested accounts of \$4,965,392 were used to reduce employer contributions.

2 Summary of Significant Accounting Policies

Basis of Accounting - The accompanying financial statements have been presented on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value (except for the fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment gain includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent loans are reclassified as distributions based upon the terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Contributions - Contributions from Plan participants and contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

3 Information Prepared and Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate with respect to investments:

- Investments at fair value
- Fully benefit-responsive investment contracts at contract value
- Notes receivable from participants
- Net investment gain
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4 Investment in Master Trust

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and several other Company sponsored retirement plans. Each participating plan has a divided interest in the Master Trust based on participant account balances. Total investment gain of the Master Trust is allocated to the participating plans based on each plan's participation in investment options within the Master Trust. The assets of the Master Trust are held by Fidelity Management Trust Company, the trustee.

The following table presents the net assets of the Master Trust as of December 31, 2024 and 2023:

	December 31, 2024		December 31, 2023	
	Koch Master Trust	Plan's Interest	Koch Master Trust	Plan's Interest

The investment income of Master Trust investments was comprised of the following:

For the year ended December 31	2024
Net appreciation in the fair value of investments	\$ 1,797,864,103
Interest, dividends and other income	8,476,513
Net investment income	\$ 1,806,340,616

5 Fully Benefit-Responsive Investment Contracts

The Master Trust holds investments in synthetic guaranteed investment contracts (GICs) and other assets as part of the Stable Value Fund.

A synthetic GIC, also known as a wrapper contract, is an investment contract issued by an insurance company or other financial institutions designed to provide a contract value wrapper around a portfolio of bonds or other fixed income securities that are owned by the fund.

The fair value of each synthetic GIC contract is calculated based on the fair value of the investments underlying the contract, which are valued using the market approach. The fair value of each synthetic GIC wrapper is calculated using the replacement cost approach by discounting the difference between indicative replacement cost and the current annual fee multiplied by the contract value times the duration of the contract.

Contract value is the relevant measure for fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of synthetic GICs represents contributions made under the contract and reinvested income, less any withdrawals plus accrued income. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

The synthetic GICs provide a fixed return on principal over a specified period of time through fully benefit-responsive contracts or wrapper contracts issued by a third party which are backed by underlying assets owned by the Stable Value Fund. The portfolio of assets underlying the synthetic GICs may include: collective trust funds, U.S. and non-U.S. government debt obligations, mortgage-backed securities, asset backed securities, municipal bonds, and corporate notes and bonds. These underlying assets are required to meet a long-term credit rating equivalent to "Investment grade."

The relationship between future crediting rates and the adjustment to contract value reported on the statements of net assets available for benefits is provided through the mechanism of the crediting rate formula. The difference between the contract value and the fair market value of the investment of each contract is periodically amortized into each contract's crediting rate. The amortization factor is calculated by dividing the difference between the fair market value of the investment and the contract value by the duration of the bond portfolio covered by the investment contract.

Key factors that could influence future average interest crediting rates include but are not limited to: Plan cash flows, changes in interest rates, total return performance of the fair market value bond strategies underlying each synthetic GIC contract, default or credit failures of any of the securities, investment contracts, or other investments held in the fund, and the initiation of an extended termination of one or more synthetic GIC contracts by the manager or the contract issuer.

There are certain events not initiated by the Plan participants that could limit the ability of the Plan to transact with the issuer of a synthetic GIC at its contract value. Specific coverage provided by each synthetic GIC may be different from each issuer, and can be found in the individual synthetic GIC contracts held by the Plan. Examples of such events include but are not limited to: the Plan's failure to qualify under the Code; full or partial termination of the Plan; involuntary termination of employment as a result of a corporate merger, divestiture, spin-off or other significant business restructuring, which may include early retirement incentives or bankruptcy; changes to the administration of the Plan which decreases employee or

employer contributions, the establishment of a competing Plan by the plan sponsor, the introduction of a competing investment option or other plan amendment that has not been approved by the contract issuers; dissemination of a participant communication that is designed to induce participants to transfer assets from the Stable Value Fund; and events resulting in a material and adverse financial impact on the contract issuer, including changes in the tax code, laws or regulations.

The Plan administrator does not believe that the occurrence of any of the aforementioned events, which will limit the Plan's ability to transact with the issuer of a GIC at its contract value with participants, is probable.

6 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

- *Common collective trusts*: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of a collective trust, the investment advisors reserve the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. For investments managed by Fidelity Institutional Asset Management Trust Company, a notice period of 15 days is required.
- *Self-directed brokerage account investments*: Brokerage accounts through which participants may invest in a variety of securities, including stocks, bonds, exchange traded funds, mutual funds, certificates of deposit, money market funds, and publicly traded partnerships. These investments are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end.

In accordance with Subtopic 820-10, investments that were measured at net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. Additionally, there are no unfunded commitments as of December 31, 2024 and 2023.

The following tables set forth by fair value level, a summary of the Master Trust investments as of December 31, 2024 and 2023, respectively:

December 31, 2024	Level 1	Level 2	Level 3	NAV	Total

Total	\$ 256,927,708	\$ -	\$ -	\$11,041,006,451	\$11,297,934,159

7 Related Party Transactions and Party-in-interest Transactions

Certain Plan investments are units of common collective trust funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee for the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Certain fees incurred by the Plan are included in net investment gain from the Plan's interest in the Master Trust. The Plan paid certain expenses relating to the Plan's operations and investment activity to various service providers. These transactions are party-in-interest transactions. The Plan Sponsor pays directly any other fees related to the Plan's operations.

The Plan receives revenue credits from Fidelity Workplace Services LLC for services provided pursuant to a Master Services Agreement. These revenue credits are used to offset certain amounts owed for administrative services to the Plan. In 2024, the Plan paid administrative fees to various service providers of \$1,689,133, which was not covered by revenue credits.

8 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

9 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2024 and 2023 to Form 5500:

	2024	2023
Net assets available for benefits per the financial statements	\$ 4,722,466,978	\$ 4,380,615,507
Less deemed loans for active participants	(1,432,992)	(999,317)
Net assets available for benefits per Form 5500	\$ 4,721,033,986	\$ 4,379,616,190

The following is a reconciliation of net increase before transfers per the financial statements for the year ended December 31, 2024 to Form 5500:

	<u>2024</u>
Net increase before transfers per the financial statements	\$ 340,394,728
Change in deemed distributions of participant loans	(433,675)
Net income per Form 5500	<u>\$ 339,961,053</u>

10 Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated May 10, 2018, that the Plan and the related trust are designed in accordance with the applicable sections of the Code. The Plan has been amended since receiving the determination letter, however, the Plan administrative committee believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Code.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress.

11 Risks and Uncertainties

The Plan, through the Master Trust, invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

12 Plan Transfers

Certain participants transferred their balances between plans sponsored by the Company or by one of its affiliates. During 2024, Plan transfers in totaled \$5,590,149, while transfers out of the Plan were \$4,133,406.

13 Subsequent Events

The Plan has evaluated subsequent events through October 6, 2025, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
