INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
Complete Automation Solutions Holdings, Inc. 401(k) Plan
North Attleboro, Massachusetts

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Complete Automation Solutions Holdings, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from Voya Retirement Insurance and Annuity Company, a custodian of the Plan, a qualified institution, as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as identified in Note C to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the financial statements referred to above related to benefits provided by and certified to by an insurance company, a qualified institution, agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

INDEPENDENT AUDITORS' REPORT (CONTINUED)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule, as listed in the table of contents as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to benefits provided by and certified to by an insurance company, a qualified institution, agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

401(K) PLAN

Notes to Financial Statements

December 31, 2024 and 2023 and Year Ended December 31, 2024

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Contributions (Continued)

Employees hired on or after January 1, 2018, excluding RND Automation & Engineering L employees hired prior to December 31, 2021, who have not made an elective deferral election will be automatically enrolled in the Plan under a Qualified Automatic Contribution Arrangement with a pre-tax deferral rate of 3% and their contributions invested in a designated fund until changed by the participant. The pre-tax deferral rate increases 1% each year on the first day of the Plan year (after the initial period as defined by the Plan) up to a maximum of 6%.

The Plan provides for a Qualified Automatic Contribution Arrangement safe harbor match for each participant, which was 100% of the first 1% of compensation (as defined by the Plan) and 50% of the next 5%, which totals a maximum contribution under this formula of 3.5% that a participant contributed to the Plan for the year ended December 31, 2024. The Plan also provides for discretionary employer matching and employer nonelective contributions. There were no discretionary matching or nonelective contributions during the year ended December 31, 2024.

Participants direct the investment of contributions in their accounts into various options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Vesting

Participants are immediately vested in their elective deferral, rollover, and the Company's Qualified Automatic Contribution Arrangement safe harbor matching contributions and qualified non-elective contribution accounts, plus actual earnings thereon. Vesting in employer nonelective contributions including discretionary employer profit sharing contributions, plus actual earnings thereon is based on years of continuous service at a rate of 20% after the first year of service. Participants are fully vested in their discretionary employer profit sharing contributions after six years of credited service. Vesting in discretionary employer matching contributions plus actual earnings thereon is based on years of continuous service at a rate of 33% each year. Participants are fully vested in their discretionary employer matching contributions after three years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 reduced by the difference between the participant's highest outstanding loan balance during the previous twelve months and the outstanding balance of loans from the Plan on the date the loan is made. The loan cannot exceed 50% of the participant's vested account balance. Notes receivable for participants are subject to certain Department of Labor and IRS requirements. Notes receivable terms range from 1 - 5 years.

Notes to Financial Statements

December 31, 2024 and 2023 and Year Ended December 31, 2024

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Notes receivable are secured by the balance in the participants' accounts and bear interest at the prime rate plus 1.00%. Interest rates on notes receivable ranged from 4.25% to 9.50% at December 31, 2024. Principal and interest are paid ratably through bi-weekly payroll deductions. Upon termination of employment, a participant may continue to make the scheduled loan repayments by check or other method prescribed by the Plan Administrator.

Forfeited Accounts

Forfeitures are used to pay administrative expenses or to reduce employer contributions. Unallocated forfeiture balances as of December 31, 2024 and 2023 were \$3,016 and \$1,533, respectively. Forfeitures of \$1,518 were used during the year ended December 31, 2024 to pay Plan expenses.

A participant may request an in-service withdrawal from their voluntary contribution account and rollover contribution account at any time.

If the value of the vested benefits credited to the participant's account is \$5,000 or less at the time of termination, the entire amount will be distributed to the participant without the participant's consent. In the event of a mandatory distribution of amounts greater than \$1,000 but not exceeding \$5,000, the entire amount was distributed in the form of a direct rollover to an individual retirement account as designated by the Plan Sponsor.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment Valuation

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodian. See Note D for discussion of fair value measurements.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. If a participant ceases to make repayments on a note receivable and the Plan Administrator deems the note receivable to be uncollectible, the balance on the note receivable from the participant is reclassified to benefits paid to participants.

Investment Income Recognition

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions and Contributions Receivable

Contributions from Plan participants and related matching contributions are recorded in the year in which the employee's participant contributions are withheld from compensation. Any contributions attributable to the Plan year but not received by the trust by the last day of the Plan year are recorded as a receivable.

The carrying amount of contributions receivable, if any, are assessed for the need to record a valuation allowance. The valuation allowance is an estimate derived from the Plan's historical losses of contributions receivable, adjusted for the Plan Administrator's assessment of current conditions, reasonable and supportable forecasts regarding future events, and any other factors deemed relevant by the Plan.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participants' accounts and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments on the accompanying statement of changes in net assets available for benefits.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes

The Company adopted a non-standardized pre-approved profit sharing/money purchase/cash or deferred arrangement plan which received an opinion letter from the IRS dated June 30, 2020 stating that the Plan was designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the opinion letter, the Plan Sponsor believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the Code and therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through October 2, 2025, the date which the financial statements were available to be issued.

NOTE C - CERTIFICATION

Notes receivable from participants, pooled separate accounts, and Voya Retirement Insurance and Annuity Company (VRIAC) fully benefit-responsive guaranteed investment contract information disclosed in the accompanying financial statements and ERISA-required supplemental schedule at December 31, 2024 and 2023, and net appreciation in the fair value of investments and interest income on notes receivable from participants and the VRIAC fully benefit-responsive guaranteed investment contract for the year ended December 31, 2024 was obtained by management and agreed to or derived from information certified as complete and accurate by VRIAC, a custodian of the Plan.

NOTE D - FAIR VALUE MEASUREMENTS

The three levels of the fair value hierarchy, which are based on the inputs used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities (for example, exchange quoted prices).

Level 2 - Inputs to the valuation methodology are observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not sufficiently active to qualify as Level 1, other observable inputs, or inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are significant to the fair value measurement and unobservable (for example, supported by little or no market activity).

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The Plan's investments accounted for at fair value as of December 31, 2024 are summarized below:

	<u>Level 3</u>	<u>Total</u>
Guaranteed investment contract	\$ 15,093	\$ 15,093
Total investments in the fair value hierarchy	<u>\$ 15,093</u>	15,093

Pooled separate accounts		<u>20,152,090</u>
Total investments at fair value		<u>\$20,167,183</u>

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodology used for assets measured at fair value. As of December 31, 2023, the fair value of pooled separate accounts was \$18,152,920. There have been no changes in the methodology used as of December 31, 2024 and 2023.

Pooled separate accounts (See Note E) are valued at the net asset values of units held by the Plan at year end. The net asset values, as provided by the custodian, are used as a practical expedient to estimate fair values. The net asset values are based on quoted market prices of the underlying investments, net of insurance company fees and expenses less their liabilities. This practical expedient is not used when it is determined to be probable that the accounts will sell the investments for amounts different than their reported net asset values.

The guaranteed investment contract with Lincoln is valued at contract value, which approximates fair value (See Note F). Quantitative information about significant unobservable inputs is not readily available. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The methods described above may produce fair value calculations that may not be indicative of net realizable values or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of a different methodology or assumptions to determine the fair values of certain financial instruments could result in different fair value measurements as of the reporting date.

The table below sets forth a summary of certain changes in the fair value of the Plan's level 3 assets with Lincoln for the year ended December 31, 2024:

	Guaranteed Investment Contract
Purchases - deposits	\$ -0-
Purchases - interest credited	588
Transfers in	-0-
Transfers out	-0-

401(K) PLAN

Notes to Financial Statements

December 31, 2024 and 2023 and Year Ended December 31, 2024

The Plan has investments in Voya Retirement Insurance and Annuity Company's (VRIAC) pooled separate accounts. There are no restrictions on transfers or withdrawals from these accounts. The investment strategies of pooled separate accounts with a balance in excess of 5% of total assets as of December 31, 2024 and 2023 are as follows:

AB Large Cap Growth Fund - Class Z seeks long term growth of capital by investing primarily in equity securities of a limited number of large, carefully selected, high-quality U.S. companies. The fund invests primarily in the domestic equity securities of companies selected by the fund's adviser for their growth potential within various market sectors.

Vanguard Target Retirement 2035 Fund - Investor Shares seeks to provide capital appreciation and current income consistent with its current asset allocation by investing in a mix of Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of the target year.

Vanguard Total Stock Market Index Fund - Admiral™ Shares seeks to track the performance of the CRSP U.S. Total Market Index (the Index) that measures the investment return of the overall stock market by employing an indexing investment approach designed to track the performance of the Index, which represents approximately 100% of the investable U.S. stock market and includes large-, mid-, small-, and micro-cap stocks.

Fisher Investments All World Equity Collective Fund - Class 4 seeks to meet or exceed the return of the MSCI ACWI Index (the Benchmark) with a level of risk similar to the risk associated with the Benchmark as measured by the standard deviation of the Benchmark. The adviser seeks to achieve this investment objective by investing in a diversified portfolio of securities of issuers domiciled outside the United States. The Fund may invest in common stocks and other equity-type securities.

Fisher Investments U.S. Fixed Income Collective Fund - Class 4 seeks to meet or exceed the return of the Bank of America Merrill Lynch (BAML) U.S. Broad Market Bond Index (the Benchmark) with a level of risk similar to the risk associated with the Benchmark as measured by the standard deviation of the Benchmark. The adviser seeks to achieve this investment objective by investing in a diversified portfolio of fixed income and fixed income-related securities.

Notes to Financial Statements

December 31, 2024 and 2023 and Year Ended December 31, 2024

NOTE F - GUARANTEED INVESTMENT CONTRACTS

VRIAC Contract

The Plan has a traditional fully benefit-responsive guaranteed investment contract with VRIAC totaling \$522,388 and \$643,120 at December 31, 2024 and 2023, respectively. Contributions from the Plan are maintained in VRIAC's general account. Under the contract, the Plan owns a promise by the issuer to repay the principal and to pay interest at crediting rates which are announced in advance and declared on an annual basis. The crediting rate is based on a formula established by the contract issuer but may not be less than 1 percent. The crediting rate is reviewed on an annual basis for resetting. The Plan Sponsor may terminate the contract at any time. If the Plan Sponsor terminates the contract, a market value adjustment may apply. Plan level transactions are subject to a restriction of 20% of the unallocated balance within the account as of January 1 of the calendar year. VRIAC may terminate the contract at any time after 5 years from the date the contract became effective, which was April 28, 2014, with notice of 90 days. The Plan Sponsor does not believe that any events which would limit the Plan's ability to transact at contract value are probable of occurring.

Lincoln Contract

The Plan has a traditional guaranteed investment contract with Lincoln that transferred into the Plan on January 1, 2024 (See Note A) totaling \$15,093 and \$-0- at December 31, 2024 and 2023, respectively. Past contributions from PanelTEK, LLC are maintained in Lincoln's general account. No further contributions will be allocated to this contract. Under the contract, the Plan owns a promise by the issuer to pay interest at crediting rates which are announced in advance and declared on a quarterly basis. All benefit payments are made at contract value. The contract restricts participant-directed transfers to 20% of the participants' balances in any 12-month period. The contract may be terminated by the Plan Sponsor subject to a notice period of at least 60 days and can be terminated by the issuer subject to a notice period of at least 90 days.

The Plan's investment contract with Lincoln is not considered to be fully benefit-responsive due to the restrictions on fund transfers and the merger of PanelTEK, LLC with the Company and therefore, the investment is included in the statements of net assets available for benefits at fair value. The Plan's investment contract with VRIAC meets the fully benefit-responsive criteria and is therefore reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by VRIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct permitted withdrawals or transfers of all or a portion of their account balances at contract value.

The Plan's ability to receive amounts due under the contracts is dependent on the issuers' ability to meet their financial obligations. The issuers' ability to meet their contractual obligations to the Plan may be affected by future economic and regulatory developments.

Notes to Financial Statements

December 31, 2024 and 2023 and Year Ended December 31, 2024

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their total participant account balances.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I - RELATED-PARTY TRANSACTIONS AND PARTIES-IN-INTEREST TRANSACTIONS

Parties-in-interest transactions include the investment in the funds of the custodians, and related interest income, and the payment of expenses by the Plan. Such transactions are exempt from being prohibited transactions.

VRIAC provides certain administrative services to the Plan. VRIAC receives revenue from pooled separate accounts investment fund service providers for services provided at crediting rates per investment ranging from 0.49% to 6.54% of the funds' balances. These fees reduce the rate of return credited to the Plan for these investments and are netted within net appreciation in fair value of investments on the statement of changes in net assets available for benefits.

A portion or all of the revenue is allocated back to the Plan and is used to pay Plan expenses. The remaining amount after payment of Plan expenses, if any, is allocated to participants at the discretion of the Plan Sponsor. Unallocated revenue as of December 31, 2024 and 2023 was \$5,379 and \$784, respectively. Revenue of \$4,874 was used during the year ended December 31, 2024 to pay Plan expenses.
