(1) Name: SMITH ELLIOTT KEARNS & COMPANY, LLC

(2) EIN: 52-0783935

**d** The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1)  This form is filed for a CCT, PSA, DCG or MTIA. (2)  It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

**Part IV Compliance Questions**

**4** CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
<b>a</b> Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
<b>b</b> Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
<b>c</b> Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
<b>d</b> Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
<b>e</b> Was this plan covered by a fidelity bond?	X		10000000
<b>f</b> Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
<b>g</b> Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
<b>h</b> Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
<b>i</b> Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
<b>j</b> Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	X		
<b>k</b> Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
<b>l</b> Has the plan failed to provide any benefit when due under the plan?		X	
<b>m</b> If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
<b>n</b> If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

**5a** Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?  Yes  No  
If "Yes," enter the amount of any plan assets that reverted to the employer this year \_\_\_\_\_.

## INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and Trustees  
Group Pension Plan For Employees of ACNB Bank  
Gettysburg, Pennsylvania

### *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit*

We have performed audits of the financial statements of Group Pension Plan For Employees of ACNB Bank, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for plan benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for plan benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Group Pension Plan For Employees of ACNB Bank's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (collectively "Principal"), a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

### *Opinion*

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Group Pension Plan For Employees of ACNB Bank and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Group Pension Plan For Employees of ACNB Bank's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group Pension Plan For Employees of ACNB Bank's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Group Pension Plan For Employees of ACNB Bank's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### ***Other Matter - Supplemental Schedules Required by ERISA***

The supplemental Schedule H, Part IV, line 4i – Schedule of Assets (Held at Year End) and Schedule H, Part IV, line 4j – Schedule of Reportable Transaction as of or for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that

agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **GROUP PENSION PLAN FOR EMPLOYEES OF ACNB BANK**

### **Notes to Financial Statements**

#### **NOTE 1 PLAN DESCRIPTION**

---

The following description of the Group Pension Plan For Employees of ACNB Bank (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

#### ***General***

The Plan is a defined benefit pension plan sponsored by ACNB Bank (Bank). Effective April 1, 2012, no newly-hired employees will be permitted to join or rejoin the Plan as active participants. If a participant was active on this date, he will remain active until termination. Participants had to be age 20 ½, complete one year of service and work 1,000 hours in a Plan year to be eligible for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the Plan Trustees. The Trustees have overall responsibility for the operation and administration of the Plan. Plan Trustees determine the appropriateness of the Plan's investment offerings and monitor investment performance.

#### ***Funding Policy***

The Plan's funding policy is for the Bank to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2024 and 2023, the Plan was over funded and therefore the Bank made no additional contributions to the Plan. Any available accumulated funding credit is considered when determining the level of contribution. The Bank's contributions for 2024 and 2023 equaled or exceeded the minimum funding requirements of ERISA. There are no required participant contributions, nor are there any voluntary contributions permitted by the participants under the Plan.

Although it has not expressed any intention to do so, the Bank has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

#### ***Pension Benefits***

The Plan provides for retirement benefits as outlined below. Participants are 100 percent vested as a result of death, disability, or if employed on or after their normal retirement age as defined by the Plan document. Participants that terminate employment prior to their normal retirement age for reasons other than death or disability are entitled to a percentage of their accrued benefits as defined in the vesting schedule as follows: less than 5 years of service 0 percent vested; 5 or more years of service 100 percent vested.

Employees may elect to receive their benefits under any of the following available options if the present value of the accrued pension benefit exceeds \$5,000: (a) a life annuity with a 5-year, 10-year or 15-year period certain, (b) joint and survivor annuity, or (c) a straight life annuity. If the present value of the accrued pension benefit does not exceed \$5,000, a lump sum payment is automatic. For former participants in the Farmers National Bank of Newville pension plan, a cash option is allowed on the portion of their benefit that was accrued prior to the merger with this Plan.

**Notes to Financial Statements**

---

**NOTE 1 PLAN DESCRIPTION (CONTINUED)**

---

In the event of a mandatory distribution greater than \$1,000, the Plan Administrator will pay the distribution in a direct rollover to an individual retirement arrangement designated by the Plan Administrator if the participant does not elect a direct rollover or lump sum distribution.

***Normal Retirement Benefit***

The normal retirement age is the earlier of age 65 with 5 years of service or age 62 with 30 years of service. Employees will be entitled to retirement benefits equal to the accrued benefit as of December 31, 2009 plus 0.75 percent of average monthly compensation multiplied by accrued service not to exceed 25 years credit on and after January 1, 2010. The accrued benefit as of December 31, 2009 equals 1 percent of average compensation up to the integration level plus 1.3 percent of average compensation in excess of the integration level multiplied by years of service up to 45 years. For applicable participants, it will also include the accrued benefit earned under the Farmers National Bank of Newville plan. Average compensation is the monthly average of the compensation received during the five consecutive years out of the ten latest years prior to retirement date, which yields the highest average. For Farmers National Bank of Newville, employees' total pay excludes compensation received prior to January 1, 2002. The integration level is the monthly average of the social security taxable wage bases for each year in the 35-year period ending with the year the employee attains social security retirement age.

***Early Retirement Benefit***

The Plan permits early retirement at age 55 with 15 years of vesting service. The employee's accrued benefit as of the date of early retirement is reduced by 6 2/3 percent for each year up to 5, and 3 1/3 percent for each year between five and ten that the early retirement date precedes the normal retirement date. After attainment of age 62 with 30 years of service, there is no reduction for early retirement.

***Late Retirement Benefit***

The Plan specifies no maximum age for late retirement. The benefit is the greater of the accrued benefit on the normal retirement date actuarially increased to the late retirement date or the accrued benefit on the late retirement date.

***Death Benefits***

For a qualified married participant fully or partially vested, the death benefit payment payable to his or her beneficiary would be equal to 100 percent of the amount of monthly retirement benefit that would have been payable to such employee had the retirement date coincided with the date of death.

For qualified unmarried fully vested participants, the death benefit is the amount that would have been payable to the participant's beneficiary or contingent annuitant if the participant's retirement date had occurred on the date of death. The optional form of distribution elected according to provisions of the Plan document is the form in effect for determining the death benefit.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

---

The following are the significant accounting policies followed by the Plan:

***Basis of Accounting***

The accompanying financial statements are prepared on the accrual basis of accounting.

***Use of Estimates***

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

***Investment Valuation and Income Recognition***

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

***Payment of Benefits***

Benefit payments to participants are recorded upon distribution.

***Administrative Expenses***

The Plan's expenses are paid either by the Plan or the Bank, as provided by the Plan document. Expenses that are paid directly by the Bank are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for plan benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets available for plan benefits.

#### NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

---

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances - retirement, death, and termination of employment - are included, to the extent they are deemed attributable to employees' service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2025 and 2024, were as follows:

- Life expectancy of participants: Total mortality rates based on Pri-2012 total dataset base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2024) (2025). Total mortality rates based on Pri-2012 total dataset base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2023) (2024).
- Normal retirement age assumptions: 65 with 5 years of vested service or age 62 with 30 years of vested service.
- Asset return: 6.50 percent (2025 and 2024)
- Liability interest (discount) rate: 6.00 percent (2025 and 2024).
- Inflation assumption: 2.40 percent (2025 and 2024).

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits (Note 7) were made as of January 1, 2025 and 2024. Had the valuations been performed as of December 31, there would be no material differences.

## **GROUP PENSION PLAN FOR EMPLOYEES OF ACNB BANK**

### **Notes to Financial Statements**

---

#### **NOTE 4 PLAN TERMINATION**

---

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for the three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was (or would have been) payable during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a United States government agency, up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

#### **NOTE 5 FAIR VALUE MEASUREMENTS**

---

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

**GROUP PENSION PLAN FOR EMPLOYEES OF ACNB BANK**  
**Notes to Financial Statements**

---

**NOTE 5 FAIR VALUE MEASUREMENTS (CONTINUED)**

---

**Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

**Level 2** – Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

***Pooled Separate Accounts***

Valued at the net asset value of the underlying investments on the last day of the Plan year. The net asset value of the fund is based on the market value of its underlying investments but it is not a publicly quoted price in an active market.

***Common Stock***

Valued at the closing price reported on the active market on which the individual securities are traded.

**NOTE 5 FAIR VALUE MEASUREMENTS (CONTINUED)**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023.

- (a) These funds are generally comprised of investment options that invest in stocks, or shares of ownership in large, well-established, U.S. companies. These investment options typically carry more risk than fixed income investment options but have the potential for higher returns over longer time periods.
- (b) These funds are generally comprised of investment options that invest in stocks or shares of ownership in small to medium sized U.S. companies. These invest options typically carry more risk than larger U.S. equity investment options but have the potential for higher returns.
- (c) These funds are generally comprised of investment options that invest in stocks or shares of ownership in companies with their principal place of business or office outside the United States. These investment options often carry more risk than U.S. equity investment options but may have the potential for higher returns.
- (d) These funds are generally comprised of investment options that invest in bonds, or debt of a company or government entity (including U.S. and Non- U.S.). It may also include real estate investment options that directly own property. These investment options typically carry more risk than short-term fixed income investment options (including, for real estate investment options, liquidity risk), but less overall risk than equities.
- (e) This fund invests the majority of assets in owned private equity commercial real estate. It focuses on properties anticipated to return both lease income and appreciation of the buildings' marketable value. The property holdings usually contain real estate from the multi-family, office, warehouse/manufacturing, and retail sectors. This investment is subject to investment and liquidity risk and other risks inherent in real estate such as those associated with general and local economic conditions.

**NOTE 7 ACCUMULATED PLAN BENEFITS AND CHANGES IN ACCUMULATED PLAN BENEFITS**

Accumulated benefits are those annual pension benefits that individual participants have accumulated under the Plan's benefit accrual provision based on their current salary and service to date. The current value of those accumulated benefits is the aggregate of participants' accumulated benefits adjusted to reflect the life expectancy of participants and discounted for the overall rate of investment return, net of investment expenses. A comparison of accumulated plan benefits and plan net assets as of December 31 is presented below:

#### **NOTE 8 RISKS AND UNCERTAINTIES**

---

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

#### **NOTE 9 TAX STATUS OF THE PLAN**

---

The Plan adopted a Principal Life Insurance Company non-standardized pre-approved defined benefit plan document that was deemed acceptable under section 401(a) of the Internal Revenue Code. Principal Life Insurance Company has obtained an opinion letter dated February 28, 2023, in which the IRS states that the non-standardized pre-approved document is in compliance with the applicable requirements of the IRC. The Plan administrator adopted the restated prototype plan effective January 1, 2024.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan is subject to routine audits by taxing jurisdictions, generally for a period of three years after the returns are filed; however, there are currently no audits for any tax periods in progress.

#### **NOTE 10 RELATED-PARTY TRANSACTIONS AND PARTIES-IN-INTEREST TRANSACTIONS**

---

Certain Plan investments are shares of ACNB common stock. The Plan held 89,514 and 86,591 shares of ACNB common stock at December 31, 2024 and 2023, respectively, at a cost of \$1,343,326 and \$1,232,725, respectively, and valued at \$3,565,294 and \$3,875,782, respectively. For the years ended December 31, 2024 and 2023, the Plan received dividends on this common stock of \$100,601 and \$96,806, respectively. These transactions are party-in-interest transactions under ERISA.

**NOTE 10 RELATED-PARTY TRANSACTIONS AND PARTIES-IN-INTEREST TRANSACTIONS (CONTINUED)**

Certain Plan investments are pooled separate accounts managed by Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (collectively "Principal"), the custodian of the Plan, and therefore, these transactions qualify as party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity during 2024 and 2023. During 2024 and 2023 the Plan paid contract administrator fees to Principal Life Insurance Company, audit fees to SEK CPA's and Advisors, and investment advisory fees to Neucleus (paid through Alden Capital) totaling \$178,394 and \$185,323, respectively. Additionally, the plan paid PBGC premiums of \$33,431 and \$32,160 during 2024 and 2023, respectively. These transactions are party-in-interest transactions under ERISA. The Bank pays directly any other fees related to the Plan's operations.

#### Assumptions prescribed by law

Mortality	<a href="#">Before benefit payment period</a> IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.
	<a href="#">During benefit payment period</a> IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

#### Assumptions selected by actuary

Inflation	<p>2.40% increase per year.</p> <p>Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.</p>
Asset return	<p>6.50% for the current plan year.</p> <p>The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.</p>
Expected expense	<p>The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.</p>
Retirement	<p>Active and inactive participants are assumed to retire at normal retirement age as defined in <a href="#">Plan provisions</a>.</p> <p>This assumption is based on the results of recent experience analysis and anticipated future experience.</p>
Upcoming year salary increase	<p>The preceding year's salary is increased by 3.75% at each age. Note: not used for Plan accounting calculations.</p> <p>Expected salary increase is composed of salary inflation, a real wage growth and a merit increase. This reflects company salary increase philosophies along with more recent experience of the plan participants.</p>
Disability	<p>1987 Commissioner's Group Disability Table, six month elimination period, male and female.</p> <p>We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes.</p>
Marriage	<p>75% married; husbands are 3 years older than wives.</p> <p>This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.</p>

<a href="#">Withdrawal</a>	<p>2003 Society of Actuaries Small Plan Age Table, multiplied by 1.00.</p> <p>We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.00 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.</p>
<a href="#">Compensation limit increase</a>	<p>2.40% increase per year used in the calculation of the IRC 404 maximum deduction cushion. See <a href="#">Calculated deduction</a> in Rules and regulations.</p> <p>Compensation limit increase is consistent with the inflation assumption.</p>
<a href="#">Form of benefit</a>	<p>33% of all active and inactive participants will receive their retirement benefit as a monthly annuity payable as a 100% survivorship life annuity, and all other active and inactive participants will receive their benefit on the normal form.</p> <p>This assumption is based on the results of recent experience analysis and anticipated future experience.</p>

#### Methods prescribed by law

<a href="#">Liability measure</a>	<p>Funding target is the present value of the benefits accrued on the valuation date.</p> <p>Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.</p>
<a href="#">Benefit accrual</a>	<p>All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target.</p> <p>The portion based on the plan's definition of accrued benefit.</p> <p>The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement.</p> <p>The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.</p>

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2008 plan year.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
5.01%	5.13%	5.15%

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

**Assumptions and methods elected by actuary - plan accounting (ASC 960)**

With the exceptions below, all assumptions and methods are the same as those used in determining your plan’s regular funding target and target normal cost.

**Mortality** Based on Pri-2012 Total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2023).

**Mortality base rates**

**Before benefit payment period**  
 Employee amount-weighted, male and female

**During benefit payment period**  
 Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe “Approach 1” is reasonable for this plan.

**Mortality improvement** Principal 2023 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2023
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2029/2029
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2023
COVID-19 or Excess load	None <sup>1</sup>

<sup>1</sup>Based on the sponsor’s input, plan experience does not show a need for long-term excess death or Covid death load adjustments. See [Mortality documentation](#) for rationale and additional information.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods  
Group Pension Plan for Employees of ACNB Bank  
EIN 23-0581360 Plan No. 001

Interest rate used to value liabilities	6.00% The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.
Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.  Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.  Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 12/21/2023.

#### Plan eligibility

Age	Attained age 20 1/2.
Service	One year of service in which an employee is credited with 1,000 hours.
Class	An employee who is neither a member of a bargaining unit nor a leased employee.  No employee hired after March 31, 2012, shall become an active participant and no inactive participant or former participant shall again become an active participant.

#### Normal retirement benefit

Age	Earlier of a) or b): a) Attained age 65 with five years of plan participation. b) Attained age 62 with 30 years of vesting service.
Form	Monthly annuity payable for life with five years certain. (Optional forms may be elected in advance of retirement.)
Amount (accrued benefit)	The sum of a) plus b): a) Accrued benefit as of 12/31/2009. b) 0.75% of average compensation times years of accrual service earned after January 1, 2010, but not to exceed 25 years.

#### Early retirement benefit

Age	Attained age 55.
Service	15 years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by 6 2/3% for each year up to five, and 3 1/3% for each year between five and ten that early retirement date precedes normal retirement date. After attained age 62 with 30 years of service there is no reduction for early retirement.

#### Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on late retirement date or accrued benefit on normal retirement date actuarially increased to late retirement date.

#### Termination benefit

Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

#### Survivor annuity death benefit

Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 100% survivor annuity in effect, then died the next day.

#### Definitions

Average compensation	The monthly average of total pay received for the five consecutive years out of the ten latest years prior to retirement date which gives the highest average.  For Farmers National Bank of Newville employees, total pay excludes compensation received prior to January 1, 2002.
Integration level	The monthly average of the Social Security taxable wage bases (in effect under Section 230 of the Social Security Act) for each year in the 35-year period ending with the year the employee attains Social Security retirement age.
Accrued benefit as of 12/31/2009	The sum of a) plus b) determined at 12/31/2009: <ul style="list-style-type: none"> <li>a) 1% of average compensation up to the integration level plus 1.3% of average compensation in excess of integration level multiplied by years of service up to 45.</li> <li>b) The accrued benefit earned under the Farmers National Bank of Newville plan.</li> </ul>

#### Optional forms of benefit payments

The optional forms of benefit payments are:

Monthly annuity payable for life, or 5, 10, or 15 years certain and life

Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, or 100.

For former participants in the Farmers National Bank pension plan, a cash option is allowed on the portion of their benefit that was accrued prior to the merger with this plan.

The optional form conversion basis is 7.5% interest and the UP1984 Mortality table (age set back 3 years for participants and 0 years for contingent annuitants) for payments other than lump sums.

#### Lump sum provisions

Small amount force out (SAFO) – allowed up to \$5,000.

Lump sums in excess of SAFO - are allowed at termination of employment and retirement only for former participants in the Farmers National Bank pension plan equal to the portion of their benefit that was accrued prior to the merger with this plan.

Conversion – for those participants eligible for lump sum distributions (other than small amounts) the optional form conversion basis uses whichever of the following provides the greatest benefit:

- a) 6.0% interest and UP84 mortality.
- b) 30-year Treasury rate (2<sup>nd</sup> month look-back for stability period of one month) and 1983 GAM mortality.
- c) 417(e) interest and mortality (2<sup>nd</sup> month look-back for stability period of one month).

#### Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

#### Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Schedule SB, Line 25 – Change in Method  
Group Pension Plan for Employees of ACNB Bank  
EIN 23-0581360 Plan No. 001

The Employee Retirement Income Security Act of 1974, Section 103(c)(4), requires the plan administrator to furnish an explanation of a change in the enrolled actuary as part of the annual report. There was a change in enrolled actuaries since last year. The actuarial valuation work continues to be done by Principal Life Insurance Company. However, the individual involved with this plan as the enrolled actuary has changed due to a change in the plan assignment among enrolled actuaries at Principal Life Insurance Company.

Schedule SB, Line 24 – Change in Actuarial Assumptions  
Group Pension Plan for Employees of ACNB Bank  
EIN 23-0581360 Plan No. 001

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has decreased from 6.75% to 6.50%. This rate is used in the calculation of the actuarial value of plan assets.
