Independent Auditor's Report

The Plan Administrator
Gravity Retirement Plan
Midland, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Gravity Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The ERISA-required supplemental schedules of Schedule H, Line 4a, Schedule of Delinquent Participant Contributions for the year ended December 31, 2024 and Schedule H, Line 4i, Schedule of Assets (Held at End of Year) as of December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that

agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedules agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Gravity Retirement Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Gravity Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Document or summary plan description for a more complete description of the Plan's provisions.

General

The Plan was established effective January 1, 1998. The Plan is a contributory defined contribution 401(k) plan available to qualifying employees of Gravity Oilfield Services, LLC and its adopting participating employers (Company or Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Administration of the Plan

The Plan Sponsor is the plan administrator. Fidelity Management Trust Company (Fidelity) is the trustee and recordkeeper and holds all assets of the Plan in accordance with the service provider contract with the Company. The Company and the investment advisor determine the appropriateness of the Plan's investment offerings and monitors investment performance.

Eligibility

An employee is eligible to become a participant in the Plan after being credited with 90 days of service and after having attained age 18, provided such employee is not (1) a member of a collective bargaining unit unless his or her collective bargaining agreement provides for coverage under the Plan or (2) a non-resident alien with no earned income from the Company that constitutes income from sources within the United States. Employees are automatically enrolled in the Plan upon attaining eligibility unless a formal election is made not to participate.

Contributions

Participants may elect to contribute, on a pre-tax or after-tax Roth basis, up to 90% of their eligible compensation as defined by the Plan Document, subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained or will attain age 50 by the last day of the Plan year may make catch-up contributions, as defined by the Plan, subject to IRC limitations. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions are invested in a designated balance fund until changed by the participant.

The Company makes safe harbor matching contributions in an amount equal to 100% of the first 5% of eligible compensation, contributed to the Plan as deferral contributions. The Company may also make a discretionary matching contribution and a discretionary non-elective contribution to the Plan. The discretionary non-elective contributions would be made in the same proportion that each participant's compensation for the plan year bears to the compensation of all participants for such year if participants have worked at least 501 hours and are employed on the last day of the Plan year. The employer contributions are invested in various investment options as directed by the participant and subject to vesting requirements described below. For the plan year ended December 31, 2024 the Company did not make a

Gravity Retirement Plan

Notes to Financial Statements

discretionary matching or discretionary non-elective contributions.

Rollovers

Rollovers represent funds transferred to the Plan from other qualified plans of the participants.

Participant Accounts

Each participant's account is credited with the participant's and the Company's contributions, if any, and an allocation of net plan earnings (losses) and charged with administrative expenses, where applicable. Allocations are based on participant earnings or account balances, as defined in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances into various investment options offered by the Plan.

Vesting

Under the terms of the Plan, participants are immediately 100% vested in their voluntary contributions, prior safe harbor matching contributions, and the related earnings thereon. Participants vest in their discretionary employer contributions on the basis of the participant's number of years of service according to the following schedule:

Years of Service	Vesting Percentage (%)
1	-
2	20
3	40
4	60
5	80
6	100

The nonvested portion of any participant's account, when the participant terminates for a reason other than death, disability, or retirement, attributable to employer contributions shall be first used to pay plan expenses or to reduce employer contributions.

Forfeitures

Forfeitures of non-vested participant balances are determined at least once during each plan year and are used to pay plan expenses and reduce employer contributions. As of December 31, 2024 and 2023, forfeitures totaled \$61,829 and \$146,277, respectively. For the plan year ended December 31, 2024, forfeitures of \$116,867 were used to reduce plan expenses.

Payment of Benefits

Upon termination of service, due to death, disability, retirement, or separation, a participant may elect to receive a lump-sum distribution. If the total vested value is below \$5,000 in a participant's account at the time of termination, a distribution will be made to the participant regardless of whether they consent to receive it. Any distribution greater than \$1,000 that is made to a participant without the participant's consent before the participant's normal retirement age will

Gravity Retirement Plan

Notes to Financial Statements

be rolled over to an individual retirement plan designated by the plan administrator.

In-Service Withdrawals

A participant who has attained age 59½ may withdraw from his or her account in an amount not exceeding his or her vested account balance. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan.

The Plan also provides for minimum required distributions per Internal Revenue Service (IRS) regulations.

Additionally, the Plan provides for distributions to participants ordered or called to active duty from the participant's account of amounts attributable to deferral contributions, provided such distribution is made during the period beginning on the date of the order or call to active duty and ending at the close of the active-duty period.

Notes Receivable from Participants

Participants may borrow up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance reduced by the highest outstanding loan balance in their account during the prior 12-month period. The minimum loan amount is \$1,000. Interest is determined by the plan administrator based upon prevailing interest rates charged for similar types of loans by other lenders. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest. The loans are repaid ratably through payroll deductions generally over a period of five years or less, except for the purchase of a principal residence, which may be repaid over a period of ten years or less.

Administrative Expenses

Fees and expenses incurred in the administration of the Plan, to the extent not paid by the Company, are charged to and paid from the Plan's assets. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payments of benefits, as well as certain recordkeeping and investment advisory fees are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation or depreciation in fair value of investments.

Revenue Credits

The Plan's trust agreement with Fidelity provides for a participant revenue credit arrangement, whereby the trustee pays administrative expenses or allocates quarterly deposits into the accounts of eligible participants who are invested in certain funds. Unallocated revenue credits at December 31, 2024 and 2023 are \$3,345 and \$3,181, respectively. During 2024, the Plan received credits of \$1,262 which was used to pay administrative expenses. Revenue credits are presented in administrative expenses in the statement of changes in net assets available for benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 4 for discussion of fair value measurements.

Purchases and sales are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Participant loans are classified as notes receivable and are measured at the unpaid principal balance plus unpaid accrued interest. The Plan classifies all participant loans with no payments received for six months as in default. Defaulted loans are deemed distributed and recorded as benefits paid to participants in the statements of changes in net assets available for benefits. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Contributions

Participant contributions and any related discretionary employer matching contributions are recognized in the period during which the Company makes the respective payroll deduction from the participant's compensation. Non-elective contributions are recorded in the relevant period in accordance with the terms in the Plan document.

Payment of Benefits

Benefit payments to participants are recorded when paid as a reduction to net assets available for benefits.

3. Certified Investment Information

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements, and Schedule H, Line 4i - Schedule of Assets (Held at End of Year), including investments and notes receivable from participants held at December 31, 2024 and

Gravity Retirement Plan

Notes to Financial Statements

2023, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity, a qualified institution.

At the request of the Plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 - This level consists of inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the assets or liability.

Level 3 - This level consists of inputs that are unobservable inputs for the asset or liability.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual Funds - Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily fair value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Gravity Retirement Plan

Notes to Financial Statements

Common/Collective Trust - The shares of a Common/Collective Trusts (CCT) are valued at net asset value (NAV) as determined by the trustee of the CIT at year end. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount difference from the reported NAV. NAV is determined by the issuer based on the fair value of the underlying investments. Participants can ordinarily direct the withdrawal or transfer of all or a portion of their investment without penalty. The CITs provide for daily redemptions by the Plan at reported NAV with no advance notice. There are no unfunded commitments related to these investments. The CCTs are direct filing entities.

Stable Value Fund - The Putnam Stable Value Fund is a common collective trust composed primarily of fully benefit-responsive investment contracts. The stable value fund is valued at the NAV, which is based on the fair value of the underlying investments less its liabilities. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions may occur daily with no advance notice. There is no unfunded commitment related to this investment. If the Plan initiates a full redemption of the stable value fund, the issuer reserves the right to require 12 months notification in order to ensure that securities liquidations will be carried out in an orderly business manner. This is a direct filing entity.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

December 31, 2024

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 37,132,178	\$ -	\$ -	\$ 37,132,178
Investments measured at NAV*				1,134,792
Total Investments	\$ 37,132,178	\$ -	\$ -	\$ 38,266,970

December 31, 2023

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 32,468,002	\$ -	\$ -	\$ 32,468,002
Investments measured at NAV*				1,064,481
Total Investments	\$ 32,468,002	\$ -	\$ -	\$ 33,532,483

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Gravity Retirement Plan

Notes to Financial Statements

4. Related Party and Party-in-Interest Transactions

Certain plan investments were managed by Fidelity Management Trust Company, the trustee of the Plan; therefore, these transactions qualify as parties-in-interest. Participant loan and distribution processing fees are paid to Fidelity by participants. The Plan also receives revenue credits from Fidelity. Participant loans also qualify as party-in-interest transactions. Certain fees paid by the Plan to the trustee and the investment advisor were \$ \$174,133 and \$167,089 for the years ended December 31, 2024 and 2023, respectively. The above transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

5. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participant accounts would become fully vested and non-forfeitable.

6. Tax Status

The Plan adopted a non-standardized pre-approved profit-sharing plan with CODA designed by FMR LLC. FMR LLC obtained its latest opinion letter on June 30, 2020, in which the IRS stated that the pre-approved arrangement, as designed, was in compliance with the applicable requirements of the IRC including amendments to comply with recent legislation. The plan administrator believes the Plan, as amended, is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for federal and state income taxes has been included in the accompanying financial statements.

GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan invests in various mutual funds and common/collective trusts. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Additionally, the value, liquidity and related income of these securities are sensitive to changes in economic conditions and may be adversely affected by shifts in the market's perception of the issuers and changes in interest values. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in value in the near term would materially affect the amounts reported in the statements of net assets available for benefits and participant accounts.

8. Delinquent Participant Contributions

During the Plan year ended December 31, 2022, certain participant contributions were remitted to the Plan outside the period prescribed by DOL regulations. These transactions constitute non-exempt party-in-interest transactions or prohibited transactions as defined by ERISA. Lost earnings related to these delinquent contributions are expected to be remitted to the Plan during 2025.
