## Independent Auditors Report

Trustees  
Reinauer Transportation Companies, LLC  
Retirement and Investment Plan #2  
Staten Island, New York

### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the Financial Statements***

We have performed audits of the accompanying financial statements of the Reinauer Transportation Companies, LLC Retirement and Investment Plan #2 (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024 and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### ***Opinion***

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditors Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the financial statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplemental Schedule Required by ERISA***

The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Note 1. Plan Description**

### ***General***

Reinauer Transportation Companies, LLC (the “Company” or “Employer”) Retirement and Investment Plan #2 (the “Plan”) was established on October 1, 1988. The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The following brief description of the Plan provides only general information. Participants should refer to the plan document for a complete description of the Plan’s provisions.

### ***Eligibility and Contributions***

All non-union employees of the Company are eligible to participate in the Plan upon hire. On March 5, 2020, the Plan was amended to allow Windserve Marine, LLC to participate in the Plan.

The Plan provides each employee with an opportunity to make elective salary deferral contributions to the Plan up to 60% of their eligible compensation and subject to the limitations of the Internal Revenue Code (“IRC”). Employees are able to make pre-tax contributions and Roth elective deferrals. Participants may also make rollover contributions from other qualified plans.

The Company contributes to the Plan on behalf of each eligible participant a matching contribution, which is equal to a predetermined percentage of the aggregate deferral contributions, excluding any deferral contributions in excess of 6% of annual compensation. The percentage is selected in advance by the Company each year. For the year ended December 31, 2024, the Company elected to make a matching contribution which was equal to 50% of participant contributions up to 6% of eligible compensation and totaled \$583,592.

A profit-sharing contribution may also be made at the discretion of the Company’s board of directors. Employees must have completed 1,000 hours or, if a Maritime Employee, 100 days of service, and be employed on the last business day of the year to be eligible for the Employer contributions. For the year ended December 31, 2024, the Company elected to make a profit-sharing contribution of 4% of a participant’s eligible compensation. For the year ended December 31, 2024 the profit-sharing contribution was \$856,185.

### ***Participant Accounts***

Each participant's account is credited with their salary deferral contributions, employer matching contribution, employer discretionary profit-sharing contribution, and earnings thereon. Contributions to the Plan are invested by the custodian as directed by the participants. Each participant may elect from one or more of the investment vehicles offered pursuant to the provisions of the Plan Document.

### ***Vesting***

Participants are immediately and fully vested in their contributions and the Company’s contributions plus earnings thereon.

### ***Benefit Payments***

Upon termination of employment, retirement, disability or death, the participant or their beneficiary is entitled to receive a distribution of the participant’s entire vested interest in the Plan, pursuant to the guidelines set forth in the Plan.

***Notes Receivable from Participants***

Participants are permitted to borrow up to 50% of their vested account balance up to a maximum of \$50,000. The minimum loan is \$1,000. The maximum term of a loan is five years, or ten years if the loan is for the purchase of a principal residence. The loans are secured by the balance in the participants' account and must bear a reasonable interest rate commensurate with the prevailing rate as determined by the plan administrator. Notes receivable from participants are repaid through payroll deductions and monitored by the plan administrator. Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. As of December 31, 2024 and 2023, the interest rate on all outstanding notes receivable from participants ranged from 5.25% to 10.50% with maturity dates through December 2029. Loans that are in default are accounted for as a reduction of net assets available for benefits in the year the default occurs and are treated as a deemed distribution. As of December 31, 2024, and 2023, there was no balance of defaulted loans. There were approximately \$6,000 in loans defaulted during the year ended December 31, 2024.

Effective June 28, 2022, the Plan was amended to allow participants who terminate their employment with the Company to continue repay outstanding loans in accordance with the loan provisions or roll over to an eligible retirement plan.

***Administrative Expenses***

Investment account charges, investment advisor, recordkeeper, and auditor charges are deducted from the participants' account balances. Other administrative expenses are paid by the Company, without reimbursement from the Plan.

***Other Income***

Other income represents a revenue credit received from Fidelity as described in Note 6.

**Note 2. Summary of Significant Accounting Policies**

***Basis of Accounting***

The financial statements of the Plan are prepared on the accrual basis of accounting.

***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

***Payment of Benefits***

Benefits are recorded when paid.

***Investment Valuation and Income Recognition***

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

***Subsequent Events***

The Plan has evaluated subsequent events through September 16, 2025, the date the financial statements were available for issuance.

**Note 3. Information Certified by the Plan's Custodian**

The Plan's financial statements and supplemental schedule as of December 31, 2024 and 2023, and for the year ended December 31, 2024, were prepared and derived from information provided by Fidelity Management Trust Company ("Fidelity") and furnished to the plan administrator.

The Company has obtained certifications from Fidelity as of December 31, 2024 and 2023, and for the year ended December 31, 2024, that such information is complete and accurate. Such information includes investments at fair value, notes receivable from participants, interest on notes receivable from participants, interest and dividend income, other income, and net appreciation in fair value of investments as shown in the accompanying statements of net assets available for benefits and statement of changes in net assets available for benefits.

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

**Note 4. Fair Value Measurements**

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs. Valuation techniques used to measure fair value are defined as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2** Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023:

*Mutual funds:* Valued at unadjusted quoted prices reported in an active market at year end.

*Money market fund:* Valued at cost plus accrued interest, which approximates fair value.

**Reinauer Transportation Companies, LLC Retirement and Investment Plan #2**  
**Notes to Financial Statements**  
**December 31, 2024 and 2023**

---

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient to fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

**Note 5. Risks and Uncertainties**

The Plan's investments are concentrated in funds that invest in various investment securities. Such securities are subject to various risks that determine the value of the funds. Due to the level of risk associated with these securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

**Note 6. Party-In-Interest Transactions**

Plan investments are comprised of mutual funds and a money market fund managed by Fidelity. Fidelity is the custodian of the Plan assets and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to Fidelity by the Plan for management services were \$1,000 for the year ended December 31, 2024. Fees paid to three third party service providers for audit and consulting services totaled approximately \$46,000.

Effective August 1, 2016, Fidelity agreed to pay an annual amount to a revenue credit account. During November 2020, the annual amount was increased from \$120,000 to \$150,000. As of February 15, 2024, the amount of revenue was amended from a fixed \$150,000 to a variable revenue credit based on the average daily balances held in eligible investment products during the quarter. The revenue credit is allocated to participants on a pro rata basis and invested in the same fund from which the credit was derived, or in the Plan's default investment if the original fund is no longer available. The plan administrator may direct Fidelity to use amounts held in the revenue credit account to reimburse the plan sponsor for fees and expenses associated with services provided to the Plan, to pay vendors, including Fidelity or third parties, or to be allocated to the accounts of participants. For the year ended December 31, 2024, the Plan was allocated approximately \$18,000 of the revenue credit included as Other Income in the Statement of Changes in Net Assets Available for Benefits and earned dividends of approximately \$10,000. Approximately \$47,000 of the revenue credit was used to pay plan expenses. The available balance of the revenue credit account for the years ended December 31, 2024 and 2023, approximated \$179,000 and \$198,000, respectively.

**Note 7. Tax Status**

The Plan operates under a Non-Standardized Pre-Approved Profit Sharing Plan with CODA adoption agreement sponsored by Fidelity. Effective March 12, 2021, the Fidelity prototype plan documents adopted by the Plan were restated to adopt required amendments, regulatory changes, and other enhancements in order to maintain the Plan's tax-qualified status. On June 30, 2020, the IRS stated that the prototype adopted by the Plan, as designed, qualifies under Section 401(a) of the IRC.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

**Note 8. Plan Termination**

Although it has not expressed any intention to do so, the Company has the right under the Plan to amend, alter or terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, all participants are entitled to receive their entire interest in the Plan. No Plan assets may revert to the Company.

**Note 9. Reconciliation of Financial Statements to Form 5500**

The following is a reconciliation between the statements of net assets available for benefits per the accompanying financial statements and the Form 5500 as of December 31, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
Net assets available for benefits per the financial statements	\$ 72,721,361	\$ 66,164,658

Net assets available for benefits per Schedule H of Form 5500	<u>\$ 71,167,950</u>	<u>\$ 64,719,028</u>

The following is a reconciliation between the statement of changes in net assets available for benefits per the accompanying financial statements and the Form 5500 for the year ended December 31, 2024:

Net increase per the financial statements	\$ 4,693,226
Add employer contribution receivable at December 31, 2023	1,306,930
Add participant contributions receivable at December 31, 2023	62,196
Less employer contribution receivable at December 31, 2024	(1,439,777)
Less participant contributions receivable at December 31, 2024	(66,487)
Change in adjustment from net asset value to fair value for common collective trust	<u>29,357</u>
Net increase per Schedule H of Form 5500	<u>\$ 4,585,445</u>

**Note 10. Concentrations**

The Plan had two investments that accounted for approximately 27% of total Plan investments at fair value as of December 31, 2024, and two investments that accounted for approximately 25% of total Plan investments at fair value as of December 31, 2023.

## Independent Auditors Report

Trustees  
Reinauer Transportation Companies, LLC  
Retirement and Investment Plan #2  
Staten Island, New York

### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the Financial Statements***

We have performed audits of the accompanying financial statements of the Reinauer Transportation Companies, LLC Retirement and Investment Plan #2 (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024 and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### ***Opinion***

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditors Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the financial statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplemental Schedule Required by ERISA***

The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Note 1. Plan Description**

### ***General***

Reinauer Transportation Companies, LLC (the “Company” or “Employer”) Retirement and Investment Plan #2 (the “Plan”) was established on October 1, 1988. The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The following brief description of the Plan provides only general information. Participants should refer to the plan document for a complete description of the Plan’s provisions.

### ***Eligibility and Contributions***

All non-union employees of the Company are eligible to participate in the Plan upon hire. On March 5, 2020, the Plan was amended to allow Windserve Marine, LLC to participate in the Plan.

The Plan provides each employee with an opportunity to make elective salary deferral contributions to the Plan up to 60% of their eligible compensation and subject to the limitations of the Internal Revenue Code (“IRC”). Employees are able to make pre-tax contributions and Roth elective deferrals. Participants may also make rollover contributions from other qualified plans.

The Company contributes to the Plan on behalf of each eligible participant a matching contribution, which is equal to a predetermined percentage of the aggregate deferral contributions, excluding any deferral contributions in excess of 6% of annual compensation. The percentage is selected in advance by the Company each year. For the year ended December 31, 2024, the Company elected to make a matching contribution which was equal to 50% of participant contributions up to 6% of eligible compensation and totaled \$583,592.

A profit-sharing contribution may also be made at the discretion of the Company’s board of directors. Employees must have completed 1,000 hours or, if a Maritime Employee, 100 days of service, and be employed on the last business day of the year to be eligible for the Employer contributions. For the year ended December 31, 2024, the Company elected to make a profit-sharing contribution of 4% of a participant’s eligible compensation. For the year ended December 31, 2024 the profit-sharing contribution was \$856,185.

### ***Participant Accounts***

Each participant's account is credited with their salary deferral contributions, employer matching contribution, employer discretionary profit-sharing contribution, and earnings thereon. Contributions to the Plan are invested by the custodian as directed by the participants. Each participant may elect from one or more of the investment vehicles offered pursuant to the provisions of the Plan Document.

### ***Vesting***

Participants are immediately and fully vested in their contributions and the Company’s contributions plus earnings thereon.

### ***Benefit Payments***

Upon termination of employment, retirement, disability or death, the participant or their beneficiary is entitled to receive a distribution of the participant’s entire vested interest in the Plan, pursuant to the guidelines set forth in the Plan.

***Notes Receivable from Participants***

Participants are permitted to borrow up to 50% of their vested account balance up to a maximum of \$50,000. The minimum loan is \$1,000. The maximum term of a loan is five years, or ten years if the loan is for the purchase of a principal residence. The loans are secured by the balance in the participants' account and must bear a reasonable interest rate commensurate with the prevailing rate as determined by the plan administrator. Notes receivable from participants are repaid through payroll deductions and monitored by the plan administrator. Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. As of December 31, 2024 and 2023, the interest rate on all outstanding notes receivable from participants ranged from 5.25% to 10.50% with maturity dates through December 2029. Loans that are in default are accounted for as a reduction of net assets available for benefits in the year the default occurs and are treated as a deemed distribution. As of December 31, 2024, and 2023, there was no balance of defaulted loans. There were approximately \$6,000 in loans defaulted during the year ended December 31, 2024.

Effective June 28, 2022, the Plan was amended to allow participants who terminate their employment with the Company to continue repay outstanding loans in accordance with the loan provisions or roll over to an eligible retirement plan.

***Administrative Expenses***

Investment account charges, investment advisor, recordkeeper, and auditor charges are deducted from the participants' account balances. Other administrative expenses are paid by the Company, without reimbursement from the Plan.

***Other Income***

Other income represents a revenue credit received from Fidelity as described in Note 6.

**Note 2. Summary of Significant Accounting Policies**

***Basis of Accounting***

The financial statements of the Plan are prepared on the accrual basis of accounting.

***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

***Payment of Benefits***

Benefits are recorded when paid.

***Investment Valuation and Income Recognition***

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

***Subsequent Events***

The Plan has evaluated subsequent events through September 16, 2025, the date the financial statements were available for issuance.

**Note 3. Information Certified by the Plan's Custodian**

The Plan's financial statements and supplemental schedule as of December 31, 2024 and 2023, and for the year ended December 31, 2024, were prepared and derived from information provided by Fidelity Management Trust Company ("Fidelity") and furnished to the plan administrator.

The Company has obtained certifications from Fidelity as of December 31, 2024 and 2023, and for the year ended December 31, 2024, that such information is complete and accurate. Such information includes investments at fair value, notes receivable from participants, interest on notes receivable from participants, interest and dividend income, other income, and net appreciation in fair value of investments as shown in the accompanying statements of net assets available for benefits and statement of changes in net assets available for benefits.

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

**Note 4. Fair Value Measurements**

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs. Valuation techniques used to measure fair value are defined as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2** Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023:

*Mutual funds:* Valued at unadjusted quoted prices reported in an active market at year end.

*Money market fund:* Valued at cost plus accrued interest, which approximates fair value.

**Notes to Financial Statements**  
**December 31, 2024 and 2023**

---

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient to fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

**Note 5. Risks and Uncertainties**

The Plan's investments are concentrated in funds that invest in various investment securities. Such securities are subject to various risks that determine the value of the funds. Due to the level of risk associated with these securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

**Note 6. Party-In-Interest Transactions**

Plan investments are comprised of mutual funds and a money market fund managed by Fidelity. Fidelity is the custodian of the Plan assets and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to Fidelity by the Plan for management services were \$1,000 for the year ended December 31, 2024. Fees paid to three third party service providers for audit and consulting services totaled approximately \$46,000.

Effective August 1, 2016, Fidelity agreed to pay an annual amount to a revenue credit account. During November 2020, the annual amount was increased from \$120,000 to \$150,000. As of February 15, 2024, the amount of revenue was amended from a fixed \$150,000 to a variable revenue credit based on the average daily balances held in eligible investment products during the quarter. The revenue credit is allocated to participants on a pro rata basis and invested in the same fund from which the credit was derived, or in the Plan's default investment if the original fund is no longer available. The plan administrator may direct Fidelity to use amounts held in the revenue credit account to reimburse the plan sponsor for fees and expenses associated with services provided to the Plan, to pay vendors, including Fidelity or third parties, or to be allocated to the accounts of participants. For the year ended December 31, 2024, the Plan was allocated approximately \$18,000 of the revenue credit included as Other Income in the Statement of Changes in Net Assets Available for Benefits and earned dividends of approximately \$10,000. Approximately \$47,000 of the revenue credit was used to pay plan expenses. The available balance of the revenue credit account for the years ended December 31, 2024 and 2023, approximated \$179,000 and \$198,000, respectively.

**Note 7. Tax Status**

The Plan operates under a Non-Standardized Pre-Approved Profit Sharing Plan with CODA adoption agreement sponsored by Fidelity. Effective March 12, 2021, the Fidelity prototype plan documents adopted by the Plan were restated to adopt required amendments, regulatory changes, and other enhancements in order to maintain the Plan's tax-qualified status. On June 30, 2020, the IRS stated that the prototype adopted by the Plan, as designed, qualifies under Section 401(a) of the IRC.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

**Note 8. Plan Termination**

Although it has not expressed any intention to do so, the Company has the right under the Plan to amend, alter or terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, all participants are entitled to receive their entire interest in the Plan. No Plan assets may revert to the Company.

**Note 9. Reconciliation of Financial Statements to Form 5500**

The following is a reconciliation between the statements of net assets available for benefits per the accompanying financial statements and the Form 5500 as of December 31, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
Net assets available for benefits per the financial statements	\$ 72,721,361	\$ 66,164,658

Net assets available for benefits per Schedule H of Form 5500	<u><u>\$ 71,167,950</u></u>	<u><u>\$ 64,719,028</u></u>

The following is a reconciliation between the statement of changes in net assets available for benefits per the accompanying financial statements and the Form 5500 for the year ended December 31, 2024:

Net increase per the financial statements	\$ 4,693,226
Add employer contribution receivable at December 31, 2023	1,306,930
Add participant contributions receivable at December 31, 2023	62,196
Less employer contribution receivable at December 31, 2024	(1,439,777)
Less participant contributions receivable at December 31, 2024	(66,487)
Change in adjustment from net asset value to fair value for common collective trust	<u>29,357</u>
Net increase per Schedule H of Form 5500	<u><u>\$ 4,585,445</u></u>

**Note 10. Concentrations**

The Plan had two investments that accounted for approximately 27% of total Plan investments at fair value as of December 31, 2024, and two investments that accounted for approximately 25% of total Plan investments at fair value as of December 31, 2023.
