Independent Auditor's Report

To the Plan Administrator
Alaska Airlines, Inc. Pilots Long Term Disability Plan & Trust
Seattle, Washington

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Alaska Airlines, Inc. Pilots Long Term Disability Plan & Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits and statements of benefit obligations as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits and statements of changes in benefit obligations for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplementary information, as listed in the accompanying table of contents, is presented for purposes of additional analysis and is not a required part of the financial statements but is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary information, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplementary information that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplementary information, other than the information in the supplementary information that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplementary information agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**Notes to Financial Statements
For the Years Ended December 31, 2024 and 2023**

Note 1 - Description of the Plan

General - The Alaska Airlines, Inc. (the Company) Pilots Long Term Disability Plan & Trust (the Plan and the Trust) became effective as of January 1, 2010 as required by the Air Line Pilots Association, International collective bargaining agreement. The Plan and the Trust, established as a Voluntary Employee Beneficiary Association (VEBA), are intended to comply with all applicable ERISA requirements and qualify as a "voluntary employees' beneficiary association" meeting the requirements of Code Sections 501(a) and 501(c)(9).

The following description provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Trustee and Plan Administration - Principal Bank serves as custodian of the Plan. Overall responsibility for administering the Plan rests with the Company. Long-term disability benefits under the Plan are administered through Harvey Watt & Co., a third-party claims administrator, which makes determinations with respect to claims.

Eligibility - Pilots hired on or after January 1, 2010 or employed as of January 1, 2010, are eligible for participation under the Plan on the first day of the month following completion of thirty days of active service with the Company. A pilot whose date of disability precedes January 1, 2010, and who is receiving or will receive disability retirement benefits under the Alaska Airlines, Inc. Fixed Income Retirement Plan for Pilots as of January 1, 2010, is not eligible for membership in this Plan, unless they return to active service with the Company on or after January 1, 2010.

Contributions and Funding - Beginning January 1, 2011, and at the beginning of each plan year thereafter, the Company is required under the provisions of the Plan to fund the Trust with a minimum contribution equal to 100% of the present value of that plan year's approved disability benefits payable for the next twelve months, plus anticipated expenses, including funding for actuarially projected future disability benefits expected to be paid during that same twelve months.

Benefits - The Plan provides monthly long-term disability benefits. Benefits can begin after participants have been continuously disabled, as defined in the plan document, for six months. The disability benefit is 50% of the pilot's last full twelve months of eligible compensation immediately preceding the commencement of sick leave benefits, vacation pay and/or other disability benefits, unless adjusted pursuant to the plan document.

Plan Termination - Although it has not expressed any intent to do so, the Company may, with the prior written approval of the Air Line Pilots Association, International, terminate the Plan at any time, subject to the provisions of ERISA. On or after the effective date of the termination, no further benefits hereunder will be payable to or on behalf of any participant as to whom such termination applies. Any plan assets available for distribution upon termination will be distributed in a manner permitted by Treas. Reg. Section 1.501(c)(9)-4(d).

Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting. Claims are recorded in the accompanying statements of changes in net assets available for benefits when reimbursed to the third-party claims administrator on behalf of participants. The third-party claims administrator administers benefits to participants entitled to a benefit under the Plan.

**ALASKA AIRLINES, INC.
PILOTS LONG TERM DISABILITY PLAN & TRUST**

**Notes to Financial Statements
For the Years Ended December 31, 2024 and 2023**

Note 2 - Continued

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates and those differences could be significant.

Valuation of Investments and Income Recognition - The Plan's money market fund is valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Interest is recorded on the accrual basis.

Deposit Held with Claims Administrator - The claims administrator for the Plan requires a deposit by the plan which will be applied against claims paid on behalf of plan participants. Such deposits are reported as plan assets until the deposit is applied against paid claims.

Administrative Expenses - Certain expenses for administering this Plan, including costs paid to the third-party claims administrator, will be paid by the Plan from plan assets, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Administrative expenses consist primarily of processing fees paid to the third-party claims administrator and trustee fees.

Subsequent Events - The Plan's management has evaluated subsequent events through October 3, 2025, the date the financial statements were available to be issued.

Note 3 - Risks and Uncertainties

Plan contributions are made and the actuarial present value of benefit obligations are reported based on certain assumptions pertaining to interest rates, incidence of disability, termination from disability (recovery or mortality), and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 4 - Benefit Obligation

The present value of the expected benefit obligation is determined by an actuary using assumptions agreed upon by management and reports prepared from historical long-term and short-term disability benefits data. The benefit obligation represents the actuarial present value of those estimated future benefits under the terms of the Plan that are attributed to employee service rendered to the date of the financial statements. These benefits include future benefits expected to be paid to or for currently disabled participants. The benefit obligation represents the amount that is to be funded by existing plan assets and, if necessary, from Company contributions.

**ALASKA AIRLINES, INC.
PILOTS LONG TERM DISABILITY PLAN & TRUST**

**Notes to Financial Statements
For the Years Ended December 31, 2024 and 2023**

Note 4 - Continued

The following significant assumptions were used to determine the benefit obligation as of December 31, 2024 and 2023:

Discount rate	5.39% - 2024; 5.05% - 2023
Termination from disability (recovery and mortality)	1987 Commissioner's Group Disability Table
Incidence of long-term disability	Actual open long-term disability claims are utilized

Changes in actuarial assumptions included a change in the discount rate from 5.05% to 5.39%. Additionally, administrative expense load of 1.6% and 1.3% has been assumed in the calculation of the benefit obligation as of December 31, 2024 and 2023, respectively.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the benefit obligation.

Plan obligations at December 31 for claims incurred but not approved or reported are estimated by the Plan's actuary in accordance with accepted actuarial principles based on historical claims data provided by the Company. These amounts are paid by the Plan only if claims are submitted and approved for payment.

Note 5 - Tax Status

The Trust received an exemption letter from the Internal Revenue Service (IRS) dated May 23, 2011, stating that the Trust is tax-exempt under the provisions of Section 501(c)(9) of the Internal Revenue Code (IRC). In addition, the Plan and the Trust are required to operate in conformity with the IRC to maintain the tax-exempt status of the Trust. The plan administrator and the Plan's legal counsel believe that the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Trust is tax-exempt. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress.

Note 6 - Party-in-Interest Transactions

The Plan pays certain expenses related to plan operations to various service providers. These transactions are party-in-interest transactions.

Note 7 - Certified Information

Certified information in the accompanying financial statements and supplementary information related to investments held as of December 31, 2024 and 2023, and investment income or loss for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Bank, a qualified institution. The Plan's independent accountants did not perform auditing procedures with respect to this information, except comparing such information to the related information included in the financial statements and supplementary information.

Note 8 - Fair Value of Financial Instruments

GAAP provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of fair value are described as follows:

Level 1 - Unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than the quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data correlation, or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Unobservable inputs that are significant to the fair value measurement.

The asset or liability's fair value measurement within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2024 and 2023.

Money Market Fund - Valued at the net asset value of shares held by the Plan at the end of the year based on quoted market prices.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:
