Independent Auditors' Report

Board of Trustees
Operating Engineers Local 148 Health and Welfare Trust
St. Louis, MO

Opinion

We have audited the accompanying financial statements of Operating Engineers Local 148 Health and Welfare Trust (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits and statements of benefit obligations as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits and of changes in benefit obligations for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits and benefit obligations of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits and changes in its benefit obligations for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) and Schedule of Reportable Transactions are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Additional Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The additional Schedules of Administrative Expenses are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the additional information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements
December 31, 2024 and 2023

1. Description of the Plan

The following description of Operating Engineers Local 148 Health and Welfare Trust (the "Plan") provides only general information. Participants of the Plan should refer to the plan document and the summary plan descriptions for a more complete description of the Plan's provisions.

General

The Plan is a multiemployer defined benefit health and welfare plan. The Plan was established and is maintained pursuant to a collective bargaining agreement ("CBA") between Operating Engineers Local 148 (the "Union") and the participating employers (the "Employers") to provide medical, vision, pharmacy, dental, life and short term disability, and accidental death and dismemberment benefits to participants and their beneficiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration of the Plan is the responsibility of the Board of Trustees (the "Trustees") and is governed by a joint board consisting of equal representation from the Employers and the Union.

Eligibility

All full-time active employees who satisfy the initial eligibility requirements and work for an Employer who has made contributions to the Plan on their behalf are eligible for benefits.

Participants will continue to remain eligible until their employment is terminated, the participant is deceased, or the first day of an eligibility month for which the obligated contribution has not been received. Participants may also continue to remain eligible through the Consolidated Omnibus Budget Reconciliation Act ("COBRA").

Contributions

The Employers make monthly contributions to the Plan on behalf of covered employees in amounts determined by the CBA, or such other agreements as approved by the Trustees.

Participant contributions are allowed to provide COBRA benefits and participants pay the full cost of such benefits. Retired participants are also required to make contributions for their benefits.

Benefits

The Plan provides health benefits (medical, dental, vision, and pharmacy) and death and dismemberment and disability benefits for Plan participants, as specified in the plan document. The Plan also provides continuation of certain benefits upon termination of employment through COBRA. The premiums for all insured benefits (dental, vision, life and short term disability, and accidental death and dismemberment) are paid from the assets of the Plan. All other Plan benefits are self-insured. The claims for these benefits are processed by the Plan's third-party claims processors under administrative services only ("ASO") arrangements. The claims processors pay claims directly to or on behalf of the participants. Despite the Plan's utilization of third-party claims processors, ultimate responsibility for payments to providers and participants is retained by the Plan. The Plan uses a pharmacy benefit manager ("PBM"), which periodically makes refunds to the Plan based on the Plan's actual utilization pattern of specific drugs.

There are three types of plans available: Plan A, Plan B, and Plan R. Significant features of these plans are described in the summary plan descriptions. The Trustees have the right to modify the benefits provided to eligible participants under these plans.

Stop Loss Coverage

The Plan entered into a stop loss insurance arrangement with Berkshire Hathaway Specialty Insurance until December 2025 in an effort to actively manage catastrophic exposure (in excess of Medicare coverage) for self-insured medical benefits (individual participant claims over a specified dollar amount, as well as its aggregate measure for all claims).

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared in accordance with the provisions of the Financial Accounting Standards Board ("FASB"), Accounting Standards Codification (the "FASB ASC"), which is the source of authoritative, non-governmental accounting principles generally accepted in the United States of America ("GAAP"). All references to authoritative accounting guidance contained in our disclosures are based on the general accounting topics within the FASB ASC.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, benefit obligations and changes therein, incurred but not reported, claims payable, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Notes to Financial Statements
December 31, 2024 and 2023

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Fair Value Measurements

The Plan follows guidance issued by the FASB on fair value measurements, which establishes a framework for measuring fair value, clarifies the definition of fair value within that framework, and expands disclosures about the use of fair value measurements. This guidance applies whenever fair value is the applicable measurement. The three general valuation techniques used to measure fair value are the market approach, cost approach, and income approach.

Employer Contributions Receivable

Employer contributions receivable represents Employer contributions due to the Plan for hours worked prior to the end of the Plan year, but not yet received by year end. Employer contributions receivables are reported at their outstanding balances, net of an estimate made for credit losses. Management estimates the allowance for credit losses by regularly evaluating individual Employer receivables and considers Employer's financial condition, payment history, current economic conditions, and management's expectations of conditions in the future. Employer contributions receivables are written off when deemed uncollectible and collection enforcement efforts have failed to produce payments and additional efforts are not warranted. Management is of the opinion that no allowance for credit losses is necessary as of December 31, 2024 and 2023.

Refunds and Rebates

Prescription refunds due from the Plan's PBM are recorded when earned. Rebates due at year end are recorded as a receivable on the statements of net assets available for benefits, with the offset being recorded on the statements of changes in net assets as a reduction of pharmacy claims. Pharmacy rebates totaled \$313,080 and \$124,860 for the years ended December 31, 2024 and 2023, respectively.

Payment of Benefits

Premiums paid are recorded as insurance premiums in the accompanying statements of changes in net assets available for benefits. Claim payments are recorded when submitted to the Plan by the third-party claims processor for reimbursement.

Operating Engineers Local 148 Health and Welfare Trust
Notes to Financial Statements
December 31, 2024 and 2023

Claims paid by the claims processor prior to year end or claim payments submitted to the Plan by the third-party claims processor that are not yet paid by year-end are recorded as an amount currently payable in the accompanying statements of benefit obligations. Premiums not yet paid at year-end are included as an amount currently payable in the accompanying statements of benefit obligations.

Plan Benefit Obligations

Benefit obligations, include claims payable and claims incurred but not reported. Claims incurred but not reported are estimated by the Plan's actuary based on claims data provided by the Plan's third party claims administrators related to claims paid subsequent to year end and the expected time period from the date such claims are incurred to the date that the related claims are paid. These amounts are paid by the the Plan only if claims are submitted and approved for payment.

Administrative Expenses

The Plan permits the payment of Plan expenses from Plan assets. Expenses incurred in connection with the general administration of the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. The Plan shares certain administrative expenses with the Union. In computing these allocated costs, various factors are considered, including the time spent, space used, costs incurred, and volume of transactions relating to the Plan in relation to the Union. The Plan also pays administrative fees to third-party claims administrators. These expenses are reported on the statements of changes in net assets available for benefits.

Reclassifications

Certain amounts in the 2023 financial statements have been reclassified to conform to the current year presentation.

3. Postretirement Benefit Obligations

The amount reported as postretirement benefit obligations represents the actuarial present value of those estimated future benefits that are attributed by the terms of the Plan to employees for service rendered to December 31. Postretirement benefits include future benefits expected to be paid to or for active employees and their beneficiaries and dependents. The postretirement benefit obligation represents the amount that is to be funded by contributions from the Plan's Employers and from existing Plan assets. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's service in the industry rendered to the valuation date. The obligation is net of anticipated self-payments in the amount of \$72,005 and \$74,582 for the years ended December 31, 2024 and 2023, respectively.

Operating Engineers Local 148 Health and Welfare Trust
Notes to Financial Statements
December 31, 2024 and 2023

The actuarial present value of the expected postretirement benefit obligation is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The current medical trend rate assumption has a significant effect on the amounts reported in the accompanying financial statements. If the assumed rates increased by one percentage point in each year, it would increase the postretirement obligation as of December 31, 2024 and 2023, by \$10,585 and \$11,751, respectively.

The following were other significant assumptions used in the valuations as of December 31, 2024 and 2023:

Actuarial Cost Method:	Projected unit credit cost method in compliance with ASC 965
Discount Rates:	5.44% and 4.76% for 2024 and 2023, respectively
Mortality Rates:	
Preretirement:	2024 and 2023 - Based on the PRI 2012 Employee Blue Collar Tables, with projected mortality improvements based on the most recent improvements Scale published (Scale MP 2021)
Postretirement:	Based on the PRI 2012 Annuitant Blue Collar Tables, with projected mortality improvements based on the most recent improvements Scale published (Scale MP 2021)
Assumed Retirement Age:	Age 64
Expenses:	Included in claim cost development

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into Levels 1, 2, and 3. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical instruments in active markets.

- Level 2 Inputs to the valuation method to include quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in inactive markets, inputs other than quoted prices that are observable for the instrument, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The instruments' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value.

Level 1 investments consist of money market funds and registered investment companies ("mutual funds"). The interest bearing cash is valued at cost plus accrued interest which approximates fair value. Mutual funds are recorded at the closing price recorded by the funds. These are open ended mutual funds and are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The fair value of investments is measured as of December 31, as follows:

	2024			
	Total	Fair Value Measurements		Level 3
		Level 1	Level 2	
Money market funds	\$ 334,028	\$ 334,028	\$ -	\$ -

5. Related Party Transactions

The Plan shares office space and administrative resources with the Union and pays the Union for its share of these expenses. Rent and administrative expenses for the years ended December 31, 2024 and 2023 were \$118,866 and \$113,150, respectively.

At December 31 2024 and 2023, the Plan owed the Union \$10,690 and \$10,917, respectively, for shared administrative expenses.

The Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are party in interest transactions under ERISA.

6. Plan Amendments

Effective December 1, 2023, the Plan was amended to clarify exclusions for services related to appetite suppressants, dietary supplements, and vitamin supplements. In addition, the amendment also excluded any weight loss medications.

7. Plan Termination

Although they have not expressed any intent to do so, the Trustees have the right under the Plan to modify the benefits provided to eligible active employees. The Plan may be terminated only by joint agreement between the Employers and the Union, subject to the provisions set forth in ERISA.

Should the Plan terminate, any assets remaining shall be used solely for purposes of providing benefits and defraying the reasonable cost of administering the Plan. No assets shall revert to the Employers.

8. Tax Status of Plan

The Internal Revenue Service has determined and informed the Trustees by a letter that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. Management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Operating Engineers Local 148 Health and Welfare Trust
Notes to Financial Statements
December 31, 2024 and 2023

In accordance with GAAP, management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. Management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024 and 2023, there were no uncertain positions taken, or expected to be taken, that would require the recognition of a liability or disclosure in the financial statements. Management believes the Plan is no longer subject to income tax examinations prior to 2021. The Plan is also subject to routine audits by the DOL generally for six years after the statutory due date of the annual information return. There are currently no audits in progress for any tax periods.

9. Risks and Uncertainties

Investments

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Contributions

The majority of receivables are from Employers primarily located in or working in the Greater St. Louis Metro area. The Plan generally does not require collateral, but in some cases can require a performance bond.

Benefit Obligations

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, health care inflation and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

11. Subsequent Events

The Plan has evaluated subsequent events through September 25, 2025, the date on which the financial statements were available to be issued.

Effective January 1, 2025, the Plan has been amended to adjust prescription drug quantity limits, calendar year deductible, and maximum out of pocket amounts for health care Plans A, B, and R.
