Independent Auditor's Report

To the Participants and Plan Administrator of
LHB, Inc. 401(k) & Profit Sharing Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the Financial Statements

We have performed audits of the accompanying financial statements of the LHB, Inc. 401(k) & Profit Sharing Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the LHB, Inc. 401(k) & Profit Sharing Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the LHB, Inc. 401(k) & Profit Sharing Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Independent Auditor's Report

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the LHB, Inc. 401(k) & Profit Sharing Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the LHB, Inc. 401(k) & Profit Sharing Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the LHB, Inc. 401(k) & Profit Sharing Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Independent Auditor's Report

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

LHB, Inc. 401(k) & Profit Sharing Plan

Notes to the Financial Statements

December 31, 2024 and 2023

1. Description of Plan

The following brief description of the LHB, Inc. 401(k) & Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information regarding the Plan's definitions, benefits, eligibility requirements, and other matters.

General

The Plan is a defined contribution retirement plan covering eligible employees of LHB, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the Internal Revenue Code ("IRC"). The Plan sponsor, administrator, and employer is LHB, Inc. (the "Company," "Employer," "Plan Sponsor", or "Plan Administrator").

Contributions

Each year, participants may contribute a percentage of annual compensation, as defined in the Plan. Upon meeting the Plan's eligibility contribution, participants are automatically enrolled at a total of 8%, unless elected otherwise. The Plan allows participants to allocate contributions between pretax and after tax (Roth 401(k)) deferrals. Participants may also contribute (at the discretion of the Plan Administrator) amounts representing distributions from other qualified plans. The Company contributes 25 percent of the first 8 percent of compensation that a participant contributes to the Plan. Participants are eligible to participate in these matching contributions when they have completed six months of service and attained the age of 21. Additional profit sharing contributions and qualified nonelective contributions may be contributed at the option of the Company's board of directors. The Company's board of directors approved a profit sharing contribution of approximately \$776,000 during 2024, which was made in March 2025. Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to certain limitations. In order to share in profit sharing contributions, each participant must be employed on the last day of the Plan year and have completed at least 1,000 hours of service during the Plan year.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, an allocation of (a) the profit sharing contribution, (b) plan investment results, and (c) forfeitures, and is charged with an allocation of administrative fees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and matching contributions plus earnings thereon. Vesting in profit sharing contributions plus earnings thereon is based on years of credited service. A participant's profit sharing balance is 100 percent vested after six years of credited service.

Forfeited Accounts

If a participant terminates employment before becoming fully vested in their account balance, the forfeited portion of the account balance is moved from the participant's account into a forfeitures account. The balance in the forfeitures account may be used to pay any administrative expenses and to reduce any employer matching contribution. Forfeited amounts that were used to reduce Employer contributions to the Plan in 2024 and 2023 totaled approximately \$48,000 and \$19,700, respectively. At December 31, 2024 and 2023, there was approximately \$96,000 and \$38,000, respectively, of forfeited nonvested account totals in the Plan.

Notes to the Financial Statements

December 31, 2024 and 2023

1. Description of Plan (Continued)

Notes Receivable From Participants

Participants are permitted to borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balances, reduced by any outstanding loan balance. Participants are permitted to take out a maximum of two loans during a rolling twelve-month period and have a maximum of two loans outstanding at any given time. Loan transactions are treated as transfers between the investment fund and the loan account. Loan terms may not exceed five years, unless the note receivable is used to acquire a principal residence, then it is not to exceed fifteen years. The loans are secured by the balance in the participant's account and bear interest at rates of 4.25% to 9.50% at December 31, 2024 and 2023, respectively, which are commensurate with local prevailing rates. Principal and interest are paid ratably through regular payroll deductions. The notes receivable from participants are valued at their outstanding balances plus any accrued interest. Interest income is recorded on the accrual basis. Delinquent notes receivable are reclassified as benefits paid to participants based upon terms of the Plan agreement. No allowance for credit losses has been recorded as of December 31, 2024 and 2023.

Payment of Benefits

Upon termination of service due to death, disability, or retirement of employment, a participant may elect to receive a lump-sum amount equal to the vested balance in his or her account or the participant may defer receipt of any distribution. Those participants that have account balances of \$1,000 or less receive a lump sum upon termination.

2. Summary of Significant Accounting Policies

The following significant accounting policies were used to prepare the financial statements in conformity with accounting principles generally accepted in the United States of America.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except for fully benefit-responsive investment contracts, which are reported at contract value, and shares of common/collective trusts, which are stated at net asset value as a practical expedient. Shares of mutual funds are valued at the daily closing price as reported by the fund. The mutual funds held by the Plan are deemed to be actively traded.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis, which approximates the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains and losses on investments bought and sold during the year, as well as unrealized gains and losses on investments held during the year, are presented in the net appreciation or depreciation in fair value of investments.

Administrative Expenses

Trustee fees and other Plan expenses are primarily paid by the Company or through the application of forfeited funds. Recordkeeping and investment fees are paid by the Plan.

Payment of Benefits

Benefit payments are recorded when paid.

December 31, 2024 and 2023

2. Summary of Significant Accounting Policies (Continued)

Accounting Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for Plan benefits at the date of the financial statements and the changes in net assets available for Plan benefits during the reporting period and, when applicable, disclosures of contingent net assets and liabilities at the date of the financial statements. Actual results could differ from those estimates and the differences could be material.

Fair Value of Financial Instruments

The Plan's accounting for fair value measurements of assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring or nonrecurring basis adheres to the Financial Accounting Standards Board (FASB) fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 Inputs: Unadjusted quoted prices in active markets for identical assets or liabilities accessible to the Plan at the measurement date.
- Level 2 Inputs: Other than quoted prices included in Level 1 inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3 Inputs: Unobservable inputs for the asset or liability used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at measurement date.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Securing Strong Retirement Act

In December 2022, Securing a Strong Retirement Act (SECURE 2.0) was passed into law. The provisions of SECURE 2.0 continue the themes and reforms that began with the 2020 CARES Act. Most of the provisions of SECURE 2.0 became effective in 2024 and beyond. The Plan Administrator has determined which provisions apply to the Plan and their impact on the Plan.

Subsequent Events

The Plan has evaluated subsequent events for recording or disclosure in the financial statements through October 8, 2025, the date which the financial statements were available to be issued.

LHB, Inc. 401(k) & Profit Sharing Plan

Notes to the Financial Statements

December 31, 2024 and 2023

3. Investments and Limitation on Scope

As of December 31, 2024 and 2023, and for the year ended December 31, 2024, the Plan's investments were held in a bank-administered trust fund of Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (the "Trustee"). Participants in the Plan may direct the Trustee as to the investment of their individual account balances.

The Plan Administrator has elected the method of compliance permitted by ERISA Section 103(a)(3)(c) pursuant to 29 CFR Section 2520.103-8 of the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed its independent auditors not to perform, and they did not perform any auditing procedures with respect to the following information certified by the Trustee, except for comparing the information with the related information included in the financial statements and supplemental schedule.

The information certified by the Trustee includes total investments of \$64,822,606 and \$59,438,511 and notes receivable from participants of \$243,600 and \$283,107 at December 31, 2024 and 2023, respectively, and net investment appreciation of \$6,685,559, interest and dividend income from registered investment company mutual funds of \$3,252,948, and interest income from participant notes receivable of \$21,940 for 2024.

4. Guaranteed Interest Contracts

The Plan provides a stable value investment option issued by the Trustee, that simulates the performance of a guaranteed investment contract. The Trustee maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

At December 31, 2024 and 2023, the fair value of stable value fund as certified by the Trustee, is consistent with the contract value.

LHB, Inc. 401(k) & Profit Sharing Plan

Notes to the Financial Statements

December 31, 2024 and 2023

6. Party-In-Interest Transactions

Certain Plan investments are managed by the Trustee as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions.

The Trustee receives rebate revenue from certain of the mutual fund and collective trust fund providers for administrative services the Trustee provides to the funds ("revenue share income"). This revenue is used to offset costs of certain administrative services that the Trustee provides to the Plan. Such revenue sharing income and related fee expenses are offset by the Plan and presented on a net basis in the statement of changes in net assets available for benefits. Fees paid by the Plan for administrative services totaled approximately \$28,000 for the year ended December 31, 2024.

7. Plan Termination

Although the Plan Administrator has not expressed any intent to do so, it has the right under the Plan to discontinue Employer contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants would become 100 percent vested in their accounts.

8. Tax Status

The Plan adopted a volume submitter Plan sponsored by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company. The volume submitter Plan obtained its latest opinion letter on June 30, 2020 in which the Internal Revenue Service stated that the volume submitter Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The volume submitter Plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Due to the tax exempt status of the Plan, the Plan does not have any significant tax uncertainties that would require recognition or disclosure. The Plan is no longer subject to income tax examinations for the years before 2021.

9. Risks and Uncertainties

The Plan provides investment options in various combinations of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the financial statements.

To the Investment Committee and Management
LHB, Inc. 401(k) and Profit-Sharing Plan

We have audited the financial statements of the LHB, Inc. 401(k) and Profit-Sharing Plan (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) for the year ended December 31, 2024, and we have issued our report thereon dated October 8, 2025. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, (the “Trustee”), which is a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and ERISA-required supplemental schedule, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America (“U.S. GAAP”). Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards as well as certain information related to the planned scope and timing of our audit. Professional standards also require that we communicate to you the following information related to our audit.

Our Responsibility under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated June 24, 2025, our responsibility, as described by professional standards, is to conduct our audit in accordance with auditing standards generally accepted in the United States of America except that, as permitted by Regulation 2520.103-8 of the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA and as elected by management, we will not perform any auditing procedures with respect to asset information prepared and certified to by the Trustee, in accordance with DOL Regulation 2520.103-5, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and ERISA-required supplemental schedule, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your responsibilities related to the preparation and fair presentation of the financial statements.

Our responsibility for the ERISA-required supplemental schedule accompanying the financial statements is to perform adequate procedures to evaluate whether the form and content of the ERISA-required supplemental schedule, other than that agreed to or derived from the certified investment information, is presented in compliance with the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA, and whether the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Planned Scope, Timing of the Audit, Significant Risks, and Other

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions examined and the areas tested.

Our audit included obtaining an understanding of the Plan and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures. However, we will not consider internal control relating to the information prepared and certified to by the Trustee. Material misstatements may result from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations, including prohibited transactions with parties in interest or other violations of ERISA rules and regulations, that are attributable to the Plan or to acts by management or employees acting on behalf of the Plan. We communicate our significant findings at the conclusion of the audit. However, some matters could be communicated sooner, particularly if significant difficulties are encountered during the audit where assistance is needed to overcome the difficulties or if the difficulties may lead to a modified opinion. We also communicate any internal control related matters that are required to be communicated under professional standards.

We have identified the following significant risks of material misstatement as part of our audit planning:

- Management override of controls
- Existence, accuracy and completeness of participant data, participant accounts and participant eligibility
- Existence and accuracy of contribution amounts
- Completeness, existence & accuracy of benefit payments.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Note 2 to the financial statements. No new accounting policies were adopted, and the application of existing policies was not changed during 2024. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statements was:

The disclosure of risk and uncertainties in Note 9 to the financial statements discusses the possible financial volatility related to market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The financial statement disclosures are neutral, consistent, and clear.

In testing of the employer matching contributions, we noted twelve participants who reached the limit on employee contributions for the plan year who continued receiving employer matching contributions. Based on discussions with management, employer matching contributions were automatically calculated by their payroll provider, and there was no procedure in place to recalculate the contributions. Management plans to reclassify these amounts as forfeitures during the current year.

Form 5500 Procedures

We are required to obtain and read a substantially complete draft of Form 5500 prior to dating our auditor's report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the Plan's financial statements. We identified no material inconsistencies in performing and completing our audit.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Reportable Findings

For purposes of this letter, a reportable finding is a matter that includes one or more of the following: (1) noncompliance or suspected noncompliance with laws and regulations, (2) a finding that in our professional judgment is significant and relevant to you regarding your responsibility to oversee the financial reporting process, and (3) an indication of internal control deficiencies identified during the audit that have not been previously communicated to management by other parties and that we determined are sufficiently important to merit management's attention. We identified no reportable findings.

Disagreements with Management

For purposes of this letter, a disagreement with management is a disagreement on a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 8, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

Our responsibility for the ERISA-required supplemental schedule accompanying the financial statements is to perform adequate procedures to evaluate whether the form and content of the ERISA-required supplemental schedule, other than that agreed to or derived from the certified investment information, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, and whether the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

This information is intended solely for the use of the Plan Administrator, Plan Management, and the Investment Committee of the Plan and is not intended to be, and should not be, used by anyone other than these specified parties.

To the Investment Committee and Management
LHB, Inc. 401(k) and Profit-Sharing Plan

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of the LHB, Inc. 401(k) and Profit Sharing Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as of and for the year ended December 31, 2024, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of issuing our report on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform an ERISA Section 103(a)(3)(C) audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit also did not include a consideration of internal control relating to the investment information.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a certain deficiency in internal control that we consider to be significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the following deficiency in the Plan's internal control to be a material weakness:

Calculation of Employer Matching Contributions

In testing of the employer matching contributions, 12 participants continued to receive employer matching contributions after reaching employee contribution limits. Based on discussions with management, employer matching contribution amounts were automatically calculated by their payroll provider, ADP, and there was no implemented control to verify employer matching contributions. Management has corrected this difference in 2025 and has reallocated these excess contributions as forfeitures to the plan.

A significant deficiency is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness yet important enough to merit attention by those charged with governance. We consider the following deficiency in the Plan's internal control to be a significant deficiency:

Preparation of Financial Statements

The Plan does not have a system of financial reporting internal controls that fully prepares financial statements and disclosures that are fairly presented in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) and Department of Labor regulations. We understand that those charged with governance have made a cost benefit decision in obtaining our assistance in the preparation of these financial statements and disclosures.
