INDEPENDENT AUDITOR'S REPORT

To the Participants and Administrator of
Individual Management and Consultant, Inc.
Retirement Plan
Ponce, Puerto Rico

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audit of the financial statements of **Individual Management and Consultant, Inc. Retirement Plan, ("the Plan")** an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) ("**ERISA Section 103(a)(3)(C) audit**"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of **the Plan's** financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of **the Plan** by Empower Retirement, LLC that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified by Empower Retirement, LLC in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from Empower Retirement, LLC as of December 31, 2024 and 2023, and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Notes 3, 4 and 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section.

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by Empower Retirement, LLC agrees to, or is derived from, in all material respects, the information prepared and certified by Empower Retirement, LLC that Management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with generally accepted auditing standards in the United States of America (GAAS). Our responsibilities under those standards are further described in the ***Auditor's Responsibilities for the Audit of the Financial Statements*** section of our report. We are required to be independent of **the Plan** and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect Management's responsibility for the financial statements.

In preparing the financial statements, Management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about **the Plan's** ability to continue as a going concern for a reasonable period of time.

Management is also responsible for maintaining a current **Plan** instrument, including all **Plan** amendments, administering **the Plan**, and determining that **the Plan's** transactions that are presented and disclosed in the financial statements are in conformity with **the Plan's** provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in aggregate, they would influence the judgment made by a reasonable user based on financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise our professional judgment and maintain our professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of **the Plan's** internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about **the Plan's** ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedule of (1) Schedule H Line 4i – Schedules of Assets Held for Investment Purposes (held at end of year) as of December 31, 2024 and 2023 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Such information is the responsibility of Management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

Other Matter, Continued

Supplemental Schedules Required by ERISA, Continued

The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified by Empower Retirement, LLC agrees to, or is derived from, in all material respects, the information prepared and certified by Empower Retirement, LLC that Management determined meets the requirements of ERISA Section 103(a)(3)(C).

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by Empower Retirement, LLC, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

December 31, 2024 and 2023

1. PLAN DESCRIPTION

The following description of the **Individual Management and Consultant, Inc. Retirement Plan (the Plan)** provides only general information. Participants should refer to **the Plan** agreement for a more complete description of **the Plan's** provisions.

General - The Plan is a defined contribution plan covering all employees of Individual Management and Consultant, Inc. ("**the Company**") who have three months of service, are age twenty-one or older and be a resident and perform services in Puerto Rico. **The Plan** is subject to the provisions of ERISA.

Contributions - Each year, participants may make salary deferral contribution up to \$22,500 for the calendar years 2024 and 2023, respectively, of their compensation or any other limit as established in the Puerto Rico Code Section 1165(e) from time to time. Participants who have attained age 50 before the end of **the Plan** year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by **the Plan**. **The Plan** currently offers a separate account option which invests in various mutual funds and a group annuity contract known MassMutual Retire Smart Fund as investment options for participants. **The Company** contributes up to 3% of participants' compensation that a participant contributes to **the Plan**. All employers and employees' contributions are invested in MassMutual Retirement Services Business. Contributions are subject to certain limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) **the Company's** contribution and (b) plan earnings, (c) forfeitures of terminated participants' non-vested accounts and (d) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in **the Company's** contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after three years of credited service.

Payment of Benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts - These accounts will be used to reduce future employer contributions, and these accounts will be reallocated to participants in the same manner as employer contributions.

Notes to Financial Statements

December 31, 2024 and 2023

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of **the Plan** are prepared using the accrual basis of accounting.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition - **The Plan's** investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes **the Plan's** gains and losses on investments bought and sold as well as held during the year.

Payment Benefits - Benefits are recorded when paid.

Administrative Expenses – All expenses of maintaining **the Plan** are paid by **the Company**.

4. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a benefit-responsive investment contract with MassMutual Life Insurance Company (“MassMutual Life Insurance”). MassMutual Life Insurance maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to **the Plan**.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to **the Plan** by MassMutual Life Insurance, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts at December 31, 2024 and 2023 is \$61,878 and \$60,118, respectively. The crediting interest rate is based on a formula agreed upon with the issuer.

Certain events limit the ability of **the Plan** to transact at contract value with the issuer. Such events include the following: (1) amendments to **the Plan** documents (including complete or partial plan termination or merger with another plan), (2) changes to **the Plan's** prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of **the Plan** sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. **The Plan** administrator does not believe that any events which would limit **the Plan's** ability to transact at contract value with participants are probable of occurring prohibited transaction exemption under ERISA. **The Plan** administrator does not believe that any events which would limit **the Plan's** ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

5. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value, in the accompanying statements of net assets available for benefits, with gains or losses resulting from changes in fair value recognized currently in earnings.

FASB ASC 820, "Fair Value Measurements", established a framework for defining and measuring fair value under generally accepted accounting principles. It applies to the fair value of all assets and liabilities that are subject to accounting measurement. Fair value is the price that would be received to sell an asset or paid to transfer liability in an orderly (not forced) transaction between market participants at the measurement date. The sale takes place in the principal market where the assets are normally sold, and the price is not adjusted for transaction cost. The market participants (buyer or sales) must be knowledgeable, able to transact, not forced to transact, and not related to each other.

FASB ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels, which are described in more detail below. ASC 820 describes inputs as either observable or unobservable. Observable inputs can be seen in the market, whereas unobservable inputs are assumptions made by the value based upon the best available information. ASC 820 requires that the observable inputs be used wherever possible, resulting in the classification of the hierarchy.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that **the Plan** has the ability to access.
- Level 2 Inputs to the valuation methodology include
- Quoted prices for similar assets or liabilities in active market.
 - Quoted prices for identical or similar assets or liabilities in inactive markets.
 - Inputs other than quoted prices those are observable for the asset or
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurements

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

5. FAIR VALUE MEASUREMENTS, Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds: Valued at the net asset value (NAV) of shares held by **the Plan** at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See note 4).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although **the Plan** believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, **the Plan's** assets at fair value as of December 31, 2024:

8. TAX STATUS

The Puerto Rico Treasury Department has determined and informed **the Plan** by letter that **the Plan** and related trust are designed in accordance with applicable sections of the Puerto Rico Internal Revenue Code.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. SUBSEQUENT EVENTS

Subsequent events

The Plan adopted ASC 855 related to Subsequent Events. ASC 855 establishes the general standards for accounting and disclosure of events that occurred after the statement date, but before the date of issuance of the financial statements.

Specifically, it establishes the period after the issue date of the statement of Net Assets Available for Benefits during which **the Plan** Management must evaluate events or transactions that could have occurred and that would need to be recorded or disclosed in the financial statements, the circumstances under which **the Plan** should recognize and disclose such events, and the type of disclosure that should be provided for these events that occurred after the statement date.
