*Independent Auditor's Report*

To the Plan Administrator  
FIT Technologies, Inc. Employee Stock Ownership Plan

***Opinion***

We have audited the financial statements of FIT Technologies, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

To the Plan Administrator  
FIT Technologies, Inc. Employee Stock Ownership Plan

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

***Auditor's Responsibility for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

To the Plan Administrator  
FIT Technologies, Inc. Employee Stock Ownership Plan

***Supplemental Schedules Required by ERISA***

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

**December 31, 2024 and 2023**

**Note 1: Plan Description**

The following brief description of the FIT Technologies, Inc. Employee Stock Ownership Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General

FIT Technologies, Inc. (the “Company”) established the Plan effective as of January 1, 2018. As of December 31, 2018, the Plan was amended and operates, in relevant part, as a leveraged stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Plan Administrator. Aegis Trust Company LLC is the Trustee of the Plan.

On January 1, 2018, the Plan purchased 1,000,000 shares of the Company’s common stock with a loan of \$11,870,640 and holds the common stock in a trust established under the Plan.

The borrowing is collateralized by the unallocated shares of stock and is guaranteed by the Company. The lender had no rights against shares once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to:

- a. the accounts of employees with rights in allocated common stock (allocated), and
- b. common stock not yet allocated to employees (unallocated).

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan’s dividends and interest earnings, equal the amount necessary to enable the Plan to make regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

Payment of Benefits

Distributions on account of death, disability, or retirement are made in lump sum in the Plan year following the event. Distributions are made by either of the following methods, as directed by the Company:

- (a) by payment in a lump sum; or
- (b) by payment in a series of substantially equal annual or more frequent installments over a period not to exceed five years

**Note 1: Plan Description (continued)**

Payment of Benefits (continued)

The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan.

During 2024, the Company did not redeem any shares from participants. Instead, the Plan repurchased shares and allocated to remaining participants.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Plan Administrator has the right to direct the Trustee as to the voting of any unallocated shares held in the Plan on behalf of the collective best interests of Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 25 percent per year of service after one year, and are 100 percent vested after four years of service. Participants are immediately vested upon retirement, permanent disability, or death.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. In the first five years, a participant may diversify up to 25 percent of shares allocated to his or her account. In the sixth year, the percentage changes to 50%. Participants who are eligible and elect to diversify receive a cash distribution.

Forfeitures

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the proportion that each participants' compensation for that year bears to the compensation paid to all participants who are eligible to share in the allocations for that year. Forfeitures allocated to participants during December 31, 2024 totaled \$4,817.

**Note 2: Summary of Significant Accounting Policies**

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Basis of Presentation

The Plan follows authoritative guidance issued by the Financial Accounting Standards Board (FASB) which established the FASB Accounting Standards Codification (ASC) as the single source of authoritative accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt serviced is actually paid.

Investment Valuation and Income Recognition

The shares of Company common stock are valued at fair value. See Note 4 for discussion of fair value measurements. Dividend income is accrued on the ex-dividend date. Interest income is recorded on the accrual basis. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Employer Contributions Receivable

Contributions due but not paid prior to year-end are recorded as a contribution receivable. The receivable is considered collectible and therefore, the receivable is not subject to an allowance for amounts that will not be collectible.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through September 22, 2025, the date the financial statements were available to be issued.

**Note 3: Investments**

The Plan's investments, at December 31, are presented in the following table:

**Note 4: Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Interest bearing cash:* Valued at cost, which approximates fair value.

*Sponsor Company common stock:* Valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market approaches and income approach valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves the Trustee's selection of an independent appraiser under contract. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which the Trustee, reviews in detail, discusses, and approves.

**Employee Stock Ownership Plan**

**Notes to Financial Statements**

**December 31, 2024 and 2023**

**Note 4: Fair Value Measurements (continued)**

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2024 and 2023:

	Level 1	Level 2	Level 3	2024
Interest bearing cash	\$ 98,548	\$ -	\$ -	\$ 98,548
Sponsor Company common stock	-	-	20,260,000	20,260,000
Investments at fair value	\$ 98,548	\$ -	\$ 20,260,000	\$ 20,358,548
	Level 1	Level 2	Level 3	2023
Interest bearing cash	\$ 225,536	\$ -	\$ -	\$ 225,536
Sponsor Company common stock	-	-	16,040,000	16,040,000
Investments at fair value	\$ 225,536	\$ -	\$ 16,040,000	\$ 16,265,536

***Changes in Fair Value of Level 3 Assets***

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2024:

Balance, beginning of year	\$ 16,040,000
Unrealized gains relating to assets still held at the reporting date	4,220,000
Balance, end of year	\$ 20,260,000

There were no transfers into or out of Level 3 investments for the years ended December 31, 2024 and 2023.

**Notes to Financial Statements**

**December 31, 2024 and 2023**

**Note 5: Note Payable**

In 2018, the Plan entered into a \$11,870,640 term loan agreement with the Company. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 32,583 shares being released and allocated for the plan year ended December 31, 2024. The loan bears interest at a rate of 3.31% per annum.

The agreement provides for the loan to be repaid over 30 years. The fair value of the note payable as of December 31, 2024 and 2023, was approximately \$9.9 million and \$10.2 million, respectively, determined by using interest rates currently available for issuance of debt with similar terms, maturity dates, and nonperformance risk.

The scheduled amortization of the loan for the note payable is as follows:

2025	\$ 278,368
2026	287,582
2027	297,101
2028	306,110
2029	317,067
Thereafter	<u>8,473,528</u>
	\$ <u>9,959,756</u>

**Note 6: Related-Party and Party-In-Interest Transactions**

The Plan invests in Company common stock. This is a related-party and party-in-interest transaction. The Plan has a number of service providers. Such parties are parties-in-interest under ERISA.

**Note 7: Plan Termination**

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Plan Administrator directs the Trustee to pay all liabilities and expenses of the Plan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

**FIT Technologies, Inc.**  
**Employee Stock Ownership Plan**

**Notes to Financial Statements**

**December 31, 2024 and 2023**

**Note 9: Tax Status**

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated April 28, 2020, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress.

**Note 10: Risk and Uncertainties**

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the Company common stock and to uncertainties inherent in estimation and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
