Report of Independent Auditor

To the Plan Administrator
Defined Contribution Pension Plan for Employees of National Industries
Alexandria, Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Defined Contribution Pension Plan for Employees of National Industries (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (“ERISA”), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan’s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s (“DOL”) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (“investment information”) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (“qualified institution”), provided the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of DOL’s Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America; and
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i, as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

DEFINED CONTRIBUTION PENSION PLAN FOR EMPLOYEES OF NATIONAL INDUSTRIES

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

Note 1—Description of the Plan

The following is a general description of the Defined Contribution Pension Plan for Employees of National Industries (the “Plan”). Participants should refer to the Plan document, as amended and restated, for a more complete description of the Plan’s provisions.

General – National Industries for the Blind (the “Plan Sponsor” or the “Organization”) established the Plan on December 1, 1971 and amended and restated the Plan effective January 1, 2024 to redefine eligible compensation. The Plan is a defined contribution plan covering substantially all employees of the Organization. The Plan is intended to qualify under Section 401(a) of the Internal Revenue Code (“IRC”) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Eligibility – An employee is eligible to participate in the Plan after completion of one year of service.

Contributions – The Plan is non-contributory. The Organization makes contributions to the Plan equal to 11% of each eligible employee’s compensation. Additionally, participants may contribute amounts representing distributions from other qualified defined contribution plans (rollovers).

Participant Accounts – Each participant’s account is credited with the employer’s contributions and an allocation of Plan earnings. Participant accounts are charged with participant distributions and an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings (losses), account balances, or specific transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting – Each participant has immediate, fully vested rights in all rollover contributions and earnings (losses) thereon. A participant also becomes 100% vested upon death, becoming disabled, or reaching retirement age, as defined by the Plan. Vesting in the Organization’s contributions is based on the time elapsed method. The Plan has adopted a three-year cliff vesting schedule, whereby a participant is 100% vested after three whole years of service as follows:

<u>Years of Service</u>	<u>Percentage</u>
1	0%
2	0%
3	100%

Forfeitures – Forfeited balances of terminated participants’ non-vested accounts are used to pay administrative expenses or reduce future employer contributions. The balance of forfeited nonvested accounts was \$124,037 and \$79,794 as of December 31, 2024 and 2023, respectively.

Investments Options – Participants may direct Fidelity Management Trust Company (“FMTC”) as to the investment of their account balance into various investment options offered by the Plan. Participants may change their investment directions at any time, subject to such restrictions and procedures as established by the recordkeeper, Plan, and Organization.

Payment of Benefits – On termination of service, a participant (or designated beneficiary) may elect to receive an amount equal to the value of the participant’s vested interest in his account. The Plan allows for distributions upon termination of service, death, disability, attainment of age 65 or attainment of age 55 with 5 years of vesting service. A participant may elect to receive a lump-sum payment, an annuity, or may roll over the value of their account into another qualified plan. Upon termination of service due to death, disability, or retirement, a participant with an account balance of \$1,000 or greater may elect to receive a distribution under any of the optional forms available under the Plan.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

Note 1—Description of the Plan (continued)

Administration Expenses – The Plan is administered by the Plan Sponsor. All assets of the Plan, as of December 31, 2024 and 2023, are held by FMTC, the “Trustee” or “Qualified Institution”. Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Administrative expenses are either paid directly by the Plan Sponsor or by the account of the participant. FMTC is also the Plan’s recordkeeper.

Notes Receivable from Participants – Loans to participants are not permitted.

Note 2—Summary of significant accounting policies

Basis of Presentation – The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Use of Estimates – The preparation of financial statements, in conformity with U.S. GAAP, requires management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risk and Uncertainties – The Plan provides for various investment fund options. Investments are exposed to various risks such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Payment of Benefits – Benefits paid to participants are recorded when paid.

Investment Valuation and Income Recognition – Investments (other than fully benefit-responsive investments) are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fully benefit-responsive investments are reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold, as well as held, during the year.

Management fees and operating expenses charged to Plan investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Fair Value Measurements – U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements).

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

Note 2—Summary of significant accounting policies (continued)

U.S. GAAP defines three levels of inputs that may be used to measure fair value as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability, including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following are descriptions of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy:

Mutual Funds – These investments are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily value and to transact at that price. Mutual funds held by the Plan are deemed to be actively traded and are classified within Level 1 of the valuation hierarchy.

Money Market Fund – This investment is valued at closing price reported on the active market on which the individual securities are traded and is classified within Level 1 of the valuation hierarchy.

The Plan believes its valuation methods are appropriate and consistent with other market participants; however, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Note 3—Information certified by qualified institution

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, FMTC, has certified to the completeness and accuracy of the following data included in the accompanying financial statements and supplemental schedule:

- Total investments, at fair value and contract value, as shown on the statements of net assets available for benefits as of December 31, 2024 and 2023.
- Net appreciation in fair value of investments and interest and dividends as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2024.
- Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2024.

The Plan's independent auditors did not perform auditing procedures with respect to the certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4—Fair value measurements

Below are the Plan's financial instruments carried at fair value on a recurring basis by the fair value hierarchy levels:

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 39,748,232	\$ -	\$ -	\$ 39,748,232
Money market fund	739,978	-	-	739,978
Total investments at fair value	<u>\$ 40,488,210</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 40,488,210</u>

	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 34,738,026	\$ -	\$ -	\$ 34,738,026
Money market fund	460,598	-	-	460,598
Total investments at fair value	<u>\$ 35,198,624</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 35,198,624</u>

Note 5—Fully benefit-responsive investment contract

The Plan holds an investment in the Fidelity Managed Income Portfolio, established and managed by the Plan's Trustee. The Plan's investment in the Fidelity Managed Income Portfolio is fully benefit-responsive; therefore, contract value is the relevant measurement attribute for that portion of the net assets available for Plan benefits attributable to the investment contract.

Contract value, as reported to the Plan by FMTC, represents contributions made to the portfolio, plus earnings, less participant withdrawals, and administrative expenses. In determining the reasonableness of the methodology, a number of factors are considered, such as economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms, while others are substantiated utilizing available market data. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Fidelity Managed Income Portfolio is administered under a trust for the collective investment and reinvestment of assets contributed from employee benefit plans maintained by more than one plan. The trust publishes annual audited financial statements and files the Form 5500 annually.

The Fidelity Managed Income Portfolio strives to preserve principal while earning a level of interest income consistent with principal preservation. The Fidelity Managed Income Portfolio maintains, but cannot guarantee, a stable net asset value of \$1 per share. The yield of the Fidelity Managed Income Portfolio will fluctuate.

The Fidelity Managed Income Portfolio is structured as an actively managed short-term bond fund that is more conservative than its stable value peers. Investments in the Fidelity Managed Income Portfolio include short-term bonds and other fixed income securities such as U.S. treasury bonds, government agency securities, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities, and derivative instruments, including futures, options, and swaps.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

Note 5—Fully benefit-responsive investment contract (continued)

The Fidelity Managed Income Portfolio purchases third party wrap contracts designed to maintain constant net asset value and to provide for the payment of participant-directed withdrawals and exchanges book value under most circumstances. Currently, the Fidelity Managed Income Portfolio utilizes five wrap providers; interest is credited under wrap contracts. The Fidelity Managed Income Portfolio recognizes gains and losses over time, instead of immediately, by adjusting the interest rate credited to the Fidelity Managed Income Portfolio. The Fidelity Managed Income Portfolio may invest in investment contracts offered by insurance companies and other approved financial institutions that provide for the payment of a specified rate of interest to the Fidelity Managed Income Portfolio and the repayment of principal at maturity. All investments in the Fidelity Managed Income Portfolio must satisfy the credit quality standards of FMTC. There are no unfunded commitments as of December 31, 2024 or 2023 and the redemption frequency is daily.

The terms of the investment contract allow all participant-initiated transactions with the fund to occur at contract value with no conditions, limits, or restrictions. Certain events, such as premature termination of the contract by the Plan, plant closings, layoffs, Plan termination, bankruptcy, mergers, and early retirement incentives may limit the ability of the fund to transact at contract value with the issuer. The Plan administrator does not believe these events are probable of occurring.

Note 6—Related party and party-in-interest transactions

Plan investments and the related transactions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, were in investment funds managed by FMTC; therefore, these investments and transactions qualify as party-in-interest transactions. A Service Agreement entered into by the Plan sponsor and the Plan Trustee allows the Plan sponsor to receive a revenue credit paid by the Plan Trustee. The revenue credit is invested in the Plan's money market fund. Excess revenue credit funds may be used to pay Plan expenses or allocated to participants based upon their account balances. Funds credited from the Trustee totaled \$14,000 for the year ended December 31, 2024, a portion of which was used to pay Plan expenses.

Note 7—Tax status

The Plan obtained its latest opinion letter on June 30, 2020, in which the Internal Revenue Service stated the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan believes it was qualified and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires Plan management to evaluate the tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken which would require recognition of a liability or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8—Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions to the Plan at any time and terminate the Plan subject to the provisions set forth ERISA. In the event of the Plan's termination, participants will become fully vested in their accounts.
