INDEPENDENT AUDITOR'S REPORT

October 3, 2025

To the Plan Administrator of the
Inontime Employee Stock Ownership Plan
Holland, Michigan

Opinion

We have audited the accompanying financial statements of Inontime Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023 and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Inontime Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of Inontime Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Inontime Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Inontime Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Inontime Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The Supplemental Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS

INONTIME EMPLOYEE STOCK OWNERSHIP PLAN

December 31, 2024 and 2023

Note A – Description of Plan

The following description of the Inontime Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

Effective January 1, 2019, Holding Co. V&V, Inc. and Inontime, LLC (collectively, the "Company") established Inontime Employee Stock Ownership Plan. The Plan operates as a noncontributory, leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan purchased the Company's common shares from existing stockholders using funds borrowed from the Company and holds the stock in a trust established under the Plan. The borrowing was to be repaid over a period of ten years. As the Plan made each payment of principal and interest, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the Internal Revenue Code (IRC). The loan was collateralized by the unallocated shares of stock and guaranteed by the Company. The lender has no rights against shares once they are allocated under the Plan. The loan was paid off during the plan year ended December 31, 2023 and all shares have been allocated to participants.

Eligibility and Contributions

Eligible employees who have attained age 21 can become participants in the Plan on the first entry date preceding the date the employee completes one year of employment with the Company consisting of at least 750 hours of service. Company contributions to the Plan will be allocated to participants who are employed on the last day of the plan year and have completed at least 750 hours of service during the year, generally based on eligible compensation of each participant.

Plan Operations

The Company acts as plan administrator and appoints an outside individual to act as Trustee. The Trustee is responsible for holding the investment assets of the Plan, voting shares of Company stock, executing investment transactions, and making distributions to participants. The plan administrator interprets and communicates the provisions of the Plan, ensures that all government and participant reporting requirements are fulfilled, and approves all distributions from the Plan to participants.

NOTES TO FINANCIAL STATEMENTS

INONTIME EMPLOYEE STOCK OWNERSHIP PLAN

December 31, 2024 and 2023

Note A – Description of Plan (Continued)

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each eligible participant's account is credited as of the last day of each plan year with (a) an allocation of the Company's common stock contributed to the Plan, (b) forfeitures of terminated participant's nonvested accounts, (c) plan earnings, and (d) an allocation of expenses. Allocations are based on a participant's eligible compensation relative to total eligible compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to a participant for which there is no market. The put price is representative of the fair market value of the stock on its last valuation date. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Vesting

Vesting in the employer contribution accounts is based on years of continuous service, as follows:

| Years of Service | Vesting Percentage |
|-------------------|--------------------|
| Less than 2 years | 0% |
| 2 years | 25% |
| 3 years | 50% |
| 4 years | 75% |
| 5 years or more | 100% |

A participant also becomes fully vested at the time of the participant's death, if the participant becomes disabled while employed, or upon attainment of normal retirement age. Forfeitures of nonvested account balances will be used first to restore any forfeited amounts that are required to be restored, and then will be allocated as an additional Company contribution. The Company reallocated 73 and 68 shares valued at a total of \$37,628 to participant accounts during the years ended December 31, 2024 and 2023, respectively. Forfeitures of \$37,773 and \$35,002 remained in terminated participants' accounts to be allocated at a future date as of December 31, 2024 and 2023, respectively.

INONTIME EMPLOYEE STOCK OWNERSHIP PLAN

December 31, 2024 and 2023

Note A – Description of Plan (Continued)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the balance of their investment in Company stock into investments which are more diversified. Participants who are at least age fifty-five with at least ten years of participation in the Plan may elect to diversify a portion of their account. A participant may diversify up to 25% of the total shares allocated to his or her account, less any prior diversification distributions. Participants who elect to diversify may roll over the funds into the participant's 401(k) or the funds may be paid directly to the participant, subject to any applicable taxes and penalties.

Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies, or otherwise terminates employment with the Company. Distributions are made in cash, shares of company stock, or both. If the participant receives shares of company stock, it must be sold back to the Company at a price determined as of the last valuation date. The participant is paid either in a lump-sum payment or in up to five annual installments with interest.

Operating Expenses

Costs and expenses of maintaining the Plan are paid by the Company.

Voting Rights

All shares of employer stock held by the Trustee shall be voted by the Trustee. However, each participant shall be entitled to direct the Trustee as to the manner in which all employer stock allocated to the participant's account shall be voted with respect to any corporate matter which involves the voting of shares for the approval or disapproval of a merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of the Company, or similar transactions. Unallocated shares shall be voted by the Trustee, as directed by the administrator.

Note B – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Note B – Summary of Accounting Policies (Continued)

Investments and Income Recognition

Investments are recorded in the Plan's financial statements at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements. Net appreciation or depreciation of investments is determined using the value at the beginning of the year or purchase price if acquired since that date.

Benefits

Benefits are recorded when paid.

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 3, 2025, which is the date the financial statements were available to be issued.

Note C – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – inputs to the valuation methodology include:

- quoted prices for similar assets and liabilities in active markets,
- quoted prices for identical or similar assets and liabilities in markets that are not active,
- other inputs that are observable or can be corroborated by observable market data,
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – inputs are generally unobservable and significant to the fair value measurement. Such inputs typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability, including certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note C – Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Inontime, LLC Common Stock: The fair value of the sponsor company common stock held by the Plan is valued at estimated fair value based upon an independent appraisal. The appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser accounted for historical and projected cash flows and net income, return on assets, return on equity, market comparables, and estimated fair value of the Company's assets and liabilities. The Trustee and the Company's CEO and CFO review and evaluate the appraiser's methodology and assumptions and verify financial information of the Company used in the appraisal. They then approve the valuation for presentation to the Company's Board of Directors, who formally approve the valuation at a regular meeting.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value on a recurring basis as of December 31, 2024 and 2023:

| | <u>2024</u> | <u>2023</u> |
|-----------------------------------|--------------|--------------|
| <u>Level 3 Investments</u> | | |
| Inontime, LLC common stock | \$ 3,506,001 | \$ 2,739,954 |

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 investments (Inontime, Inc. common stock) for the years ended December 31, 2024 and 2023.

| | <u>2024</u> | <u>2023</u> |
|-----------------------------|---------------------|---------------------|
| Balance, beginning of year | \$ 2,739,954 | \$ 2,568,898 |
| Issuance of common stock | 613,945 | 508,407 |
| Net unrealized gains (loss) | 152,102 | (337,351) |
| Balance, end of year | <u>\$ 3,506,001</u> | <u>\$ 2,739,954</u> |

Gains and losses (realized and unrealized) included in the changes in net assets available for the periods above are reported in net appreciation in fair value of investments in the Statements of Changes in Net Assets Available for Benefits.

NOTES TO FINANCIAL STATEMENTS

INONTIME EMPLOYEE STOCK OWNERSHIP PLAN

December 31, 2024 and 2023

Note D – Risks and Uncertainties

The Plan investments consist of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note E – Loans Payable to Company

On January 1, 2019, the Plan entered into a \$2,078,957 promissory note agreement with the Company. The proceeds of the loan were used to purchase all of the Company's outstanding common stock. Unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid at \$245,237 per year plus accrued interest. The loan was paid off during the plan year ended December 31, 2023.

Note F – Employer Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loans.

Note G – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts.

Note H – Tax Status

The Plan obtained its latest determination letter dated September 26, 2022 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan is no longer subject to income tax examinations for years prior to 2021.
