## **Independent Auditor's Report**

### ***Opinion***

We have audited the accompanying financial statements of Infoverity, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America (GAAP).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Other Matter - Supplemental Schedule Required by ERISA***

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

# INFOVERITY, INC. EMPLOYEE STOCK OWNERSHIP PLAN

## Notes to Financial Statements

December 31, 2024 and 2023

### Plan Description

The following brief description of the Infoverity, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

Infoverity, Inc. established the Plan effective January 1, 2018. Effective September 30, 2022, Infoverity, Inc. transferred its rights and obligations as plan sponsor to Infoverity Holdings Company (the Company). The Plan is designed as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

During 2018, the Plan purchased Company shares using borrowings from the Company. The borrowings are to be repaid by Company contributions to the trust. See *Loan Payable – Related Party* footnote herein for further information on the terms of the loan. The stock is held in a trust established under the Plan. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowing is collateralized by the unallocated shares of stock. As the lender, the Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan for the years ended December 31, 2024 and 2023 present separately the assets and liabilities and changes therein pertaining to:

- (a) the accounts of employees with vested rights in allocated stock (Allocated), and
- (b) stock not yet allocated to employees (Unallocated)

#### General

The ESOP is a non-contributory plan covering substantially all employees of the Company. Employees become eligible to participate after completing one year of service (defined as 1,000 hours of service) and reaching age 21. Employees must also be employed on the last day of the plan year.

#### Employer Contributions

The Company is obligated to make contributions in cash to the Plan which equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its loans.

#### Voting Rights

Shares of Company stock held in the Trust shall be voted by the Trustee in most instances. In certain extraordinary situations, such as a corporate merger, Treasury Regulations may require pass-through of voting rights in Company stock which has been fully paid for to Plan participants and beneficiaries.

# INFOVERITY, INC. EMPLOYEE STOCK OWNERSHIP PLAN

## Notes to Financial Statements

December 31, 2024 and 2023

### Plan Description (continued)

#### Vesting

Vesting in a participant's account balance is based on years of continuous service and is subject to the following vesting percentage provisions:

Years of Service	Vesting Percentages
1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

#### Participant Accounts

Each participant's account is credited with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Allocations are based on a participant's eligible compensation, relative to total eligible compensation, as defined in the plan agreement.

#### Payment of Benefits

Upon termination of service due to death, disability, retirement or other reasons, distributions of the balance in a participant's Company stock account will be distributed either in whole shares of Company stock, in cash or in any combination thereof, as decided by the Trustee after the loan agreement with the Company has been fulfilled. Distributions may be made in a lump sum, in equal installments not to exceed five years, or in any combination thereof.

#### Forfeitures

During 2024 and 2023, respectively, 67.1072 shares and 17.8854 shares of Company stock as well as \$19,867 and \$0 of cash were forfeited and reallocated to participants' accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

#### Put Option

Under the terms of the Plan and federal income tax regulations, any Company stock that is distributed and held by participants will include a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants. The put price is representative of the fair value of the stock. The Company can, at its discretion, pay for the purchase of the Company stock in a single sum or in installments with interest over a period not to exceed five years.

# INFOVERITY, INC. EMPLOYEE STOCK OWNERSHIP PLAN

## Notes to Financial Statements

December 31, 2024 and 2023

### Plan Description (continued)

#### Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

#### SECURE Act 2.0

On December 23, 2022, Congress passed the Consolidated Appropriations Act of 2023, which included SECURE Act 2.0. SECURE Act 2.0 contains over 90 new retirement provisions, with varying effective dates through 2027. Since SECURE Act 2.0 provisions include both required and optional elements, the plan administrator will determine the optional provisions to elect and amend the Plan document accordingly. Most of the significant provisions will become effective in 2024 and thereafter. However, there was no material impact to the Plan's 2024 and 2023 financial statements.

### Summary of Significant Accounting Policies

#### Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

#### Cash

Cash is maintained at one financial institution, and at times, balances may exceed federally insured levels.

#### Investment Valuation and Income Recognition

The common stock of the Company is valued at its estimated fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

# INFOVERITY, INC. EMPLOYEE STOCK OWNERSHIP PLAN

## Notes to Financial Statements December 31, 2024 and 2023

### Summary of Significant Accounting Policies (continued)

#### Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

#### Contributions

Contributions from the Company are recorded in the year in which the regularly scheduled payment is required to be made.

#### Payment of Benefits

Benefits are recorded when paid.

#### Administrative Expenses

The Company pays the majority of the administrative expenses and professional fees related to the Plan.

### Administration of Plan Assets

The Plan's assets, which consist principally of sponsor Company common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loans.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

### Investment in Common Stock of Plan Sponsor

At December 31, 2024 and 2023, the Plan was allocated shares of the Company's no par value common stock with a fair value of \$433.52 and \$537.14 per share, respectively.

Notes to Financial Statements  
December 31, 2024 and 2023

## Investment in Common Stock of Plan Sponsor (continued)

The investment in the Company's common stock at December 31, 2024 and 2023 is presented in the following table:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	23,983	76,017	20,628	79,372
Common stock - fair value	\$ 10,397,111	\$ 32,954,889	\$ 11,079,892	\$ 42,634,108
Common stock - cost	\$ 8,088,616	\$ 25,637,837	\$ 6,956,947	\$ 26,769,506

## Loan Payable – Related Party

On January 1, 2018, the Plan entered into a loan agreement with the Company and used the proceeds to purchase 100,000 shares of the Company's common stock. The original amount of the loan with the Company was for \$33,726,453. The agreement provides for the loan to be repaid over 30 years. Annual principal and interest payments of \$1,732,999 are due on December 31. Interest is fixed at 3.31%. Unallocated shares are collateral for the loan.

The scheduled amortization of the loans are as follows:

2025	\$ 828,813
2026	856,247
2027	884,559
2028	913,869
2029	944,118
Thereafter	22,889,166
<b>Total</b>	<b>\$ 27,316,772</b>

## Fair Value Measurements

U.S. GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. The three levels of the fair value hierarchy are as follows:

- Level 1 Inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date. Level 1 inputs provide the most reliable measure of fair value as of the measurement date.

### Fair Value Measurements (continued)

Level 2 Inputs are based on significant observable inputs, including unadjusted quoted market prices for similar assets and liabilities in active markets, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.

Level 3 Inputs are significant unobservable inputs for the asset or liability.

The level of the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Interest-bearing cash*

Valued at cost which approximates fair value.

*Infoverity Holding Company common stock:*

Valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of market, asset and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparable and estimated fair value of Company assets and liabilities.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's net assets at fair value as of December 31, 2024 and 2023. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Cash	\$ 726,896	\$ -	\$ -	\$ 726,896
Infoverity Holding Co. common stock	-	-	43,352,000	43,352,000
<b>Total assets at fair value</b>	<b>\$ 726,896</b>	<b>\$ -</b>	<b>\$ 43,352,000</b>	<b>\$ 44,078,896</b>

### Fair Value Measurements (continued)

	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Cash	\$ 515,636	\$ -	\$ -	\$ 515,636
Infoverity Holding Co. common stock	-	-	53,714,000	53,714,000
<b>Total assets at fair value</b>	<b>\$ 515,636</b>	<b>\$ -</b>	<b>\$ 53,714,000</b>	<b>\$ 54,229,636</b>

### Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

The Company evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to the total net assets available for benefits.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31:

	Common Stock	
	2024	2023
Balance - beginning of year	<b>\$ 53,714,000</b>	\$ 44,124,000
Unrealized (losses) gains relating to instruments still held at the reporting date	<b>(10,362,000)</b>	9,590,000
<b>Balance - end of year</b>	<b>\$ 43,352,000</b>	<b>\$ 53,714,000</b>

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net (depreciation) appreciation in fair value of investments.

### Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts. Upon termination of the Plan, the Trustee should pay all liabilities and expenses of the trust fund and may sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay any loan used to acquire Company stock.

## Notes to Financial Statements

### December 31, 2024 and 2023

#### **Tax Status**

The Internal Revenue Service (IRS) has determined that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Code.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

#### **Party-in-Interest Transactions**

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The plan paid administrative fees to GreatBanc Trust, the Trustee of the Plan, for services rendered which amounted to \$30,667 and \$99 during 2024 and 2023, respectively.

#### **Risks and Uncertainties**

The Plan's investments consist of the Company's common stock, which is exposed to various risks such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the 2024 statement of net assets available for benefits.

#### **Subsequent Events – Date of Management's Evaluation**

The Plan has evaluated subsequent events through the date of the Independent Auditor's Report, the date the financial statements were available to be issued.
