Independent Auditor's Report

To the Plan Administrator of the GoRaleigh Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the GoRaleigh Pension Plan (“the Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (“ERISA”), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (“DOL”) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA (“qualified institution”).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note G to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (“GAAP”).
- the information in the accompanying financial statements related to assets which provide benefits under the plan and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024 and the Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified information in the supplemental schedules related to assets which provide benefits under the plan and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF PLAN:

The following description of the GoRaleigh Pension Plan (the "Plan") provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering substantially all employees of GoRaleigh (the "Company") who have attained age 21 and completed 120 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Effective April 23, 2023, the Plan was amended and the Company agreed to transfer plan sponsorship to RATP Dev USA, Inc. RATP Dev USA, Inc. assumed obligation of the plan sponsorship at that time.

Contributions

The cost of the Plan is shared by the Company and the participants. The contribution rates for the Company and the participants are defined in the Labor Agreement by and between the Company and the Plan and satisfy the minimum funding requirements of ERISA. Through June 30, 2026, the contribution rates for both the Company and the participants are 6% of each participant's gross wages.

Contributions from plan participants and company contributions are recorded in the year in which the participant contributions are withheld from compensation.

Present employees' accumulated contributions and interest on contributions at December 31, 2024 and 2023, were \$7,061,201 and \$6,219,424, respectively. Interest is credited at 120 percent of the federal mid-term rate for the first month of a Plan Year, compounded annually. For the plan years ended December 31, 2024 and 2023, the interest rate was 5.25% and 4.62% for 2024 and 2023, respectively.

Participant Accounts

Participant accounts are maintained by the plan administrator for accounting purposes and shall not be representative of any identifiable trust assets. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

As of December 31, 2024, plan net assets of \$21,489,417 were in excess of actuarial present value of accumulated plan benefits of \$18,502,908.

As of December 31, 2023, plan net assets of \$18,787,876 were in excess of actuarial present value of accumulated plan benefits of \$17,606,354.

GORALEIGH PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Vesting

Participants are fully vested in that portion of their account which represents their contributions and the income earned thereon. Each eligible participant becomes fully vested in Company contributions upon completion of five years of service.

Benefits

Employees who attain age 65 and have completed 5 years of credited service, or who have attained age 62 and have completed 10 years of service, are entitled to annual pension benefits equal to an amount (see chart below) multiplied by their years of credited service.

- i. \$48 multiplied by the participant's period of service ("PPS") before December 1, 1977,
- ii. \$87 multiplied by the PPS from December 1, 1977 to November 30, 1981;
- iii. \$192 multiplied by the PPS from December 1, 1981 to December 31, 1982;
- iv. \$384 multiplied by the PPS from January 1, 1983 to December 31, 1987;
- v. \$400 multiplied by the PPS from January 1, 1988 to December 31, 1988;
- vi. \$425 multiplied by the PPS from January 1, 1989 to December 31, 1992;
- vii. \$540 multiplied by the PPS from January 1, 1993 to December 31, 2000;
- viii. \$630 multiplied by the PPS on or after January 1, 2001.

Employees who retired prior to December 1, 1976 shall be entitled to an annual pension benefit of \$60.

Upon completion of 10 years of service, an employee who terminates employment due to total and permanent disability will be paid his accrued benefit beginning on the month after termination due to total and permanent disability. If a participant dies prior to retiring, the participant's spouse will receive a survivor benefit equal to one-half the benefit that the participant otherwise would have received upon leaving employment on his earliest retirement date.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

GORALEIGH PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Expenses of the Plan

Investment advisory and administrative expenses are paid by the Plan. Other fees are paid by the Company. Investment related expenses are included in net appreciation (depreciation) in fair value of investments. Expenses that are paid by the Company are excluded from these financial statements.

Payment of Benefits

Benefits are recorded when paid.

Reclassification

Certain 2023 amounts have been reclassified to conform with the presentation in the 2024 financial statements.

C. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

GORALEIGH PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Pooled separate accounts - Valued at the net asset value of units of a pooled separate account. The net asset value, as provided by the contract issuer, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

Guaranteed insurance contract: Valued at fair value by management by discounting the related cash flows based on current yields of similar institutions with comparable durations considering the creditworthiness of the issuer. In determining the reasonableness of the methodology, management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, minimum crediting rate, duration or payout date) while others are substantiated utilizing available market data (for example, discount rate).

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

GORALEIGH PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

(1) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Redemptions of investments in the pooled separate accounts are allowed daily for participants and there are no Plan level restrictions. These investments have no unfunded commitments.

Redemptions of investments in the guaranteed investment contract require the Plan to provide 30 days' notice to the contract issuer to redeem its interest in this investment at contract value.

The following tables represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges and values for those inputs for the years ended December 31,

		2024		
<u>Instrument</u>	<u>Fair Value</u>	<u>Principal Valuation Technique</u>	<u>Unobservable Input(s)</u>	<u>Range of Significant Input Values</u>

Purchases and sales of the Plan's level 3 investments during the year ending December 31, 2024 were \$1,554,459 and \$298,690, respectively. There were no transfers into or out of level 3 investments during the year.

GORALEIGH PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

D. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable, under the Plan's provisions, to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and, (c) present employees or their beneficiaries. Vested benefits are benefits to which members are entitled regardless of future service with the Company. Nonvested benefits are dependent upon future services.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant assumptions underlying the December 31, 2024 and 2023 actuarial computations are as follows:

Mortality basis	Pri-2012 (Total Dataset) projected with MP-2021
Discount rate	5.00% per annum
Retirement age	Age 65 or age 62 with 10 years of service or age on actuarial valuation date

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2025 and 2024. Had the valuation been performed as of December 31, there would be no material difference.

E. RELATED-PARTY AND PARTY IN INTEREST TRANSACTIONS:

Section 3(14) of ERISA defines a party in interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, the management of investments held by the trustee are considered party in interest transactions.

F. TAX STATUS:

The Internal Revenue Service ("IRS") has determined and informed the sponsor of the volume submitter plan document adopted by the Company by a letter dated February 28, 2023 that the volume submitter plan document and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

GORALEIGH PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

G. CERTIFIED INVESTMENTS:

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2024 and 2023, and net appreciation (depreciation) in fair value of investments, and interest and dividends for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Standard Insurance Company, the trustee of the Plan.

H. PLAN TERMINATION:

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Benefits attributable to employee contributions, taking into account those paid out before termination.
- b) Benefits for participants or their beneficiaries who, three years prior to the Plan termination date, were either receiving retirement income or would have been eligible to receive retirement income had they or the employee from whom their rights derived then retired.
- c) Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed below).
- d) All other vested benefits (that is, vested benefits not insured by the PBGC).
- e) All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

GORALEIGH PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

I. RISKS AND UNCERTAINTIES:

The plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

J. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

Appendix A – Summary of Principal Plan Provisions

For attachment to 2024 Schedule SB, Part V – Summary of Plan Provisions
EIN 52-1493194 / PN 011

Original Effective Date:	Restated Effective January 1, 2020. Originally effective December 1, 1972.	
Employee:	Any person who is employed by the employer as a bona fide, common law employee whose wages are subject to laws requiring withholding by the employer of income and Social Security taxes, and who is compensated on an hourly basis, including union members, but excluding any part-time person who works less than 1,000 hours during a plan year. Effective January 1, 1998, an Employee does not include any other common law employee or an individual not treated as a common law employee on the employer's payroll records.	
Participation:	Effective January 1, 2000, each Employee will become a Participant in the plan on the first day of the first pay period following the completion of 120 days of employment.	
Vesting Service:	The number of full years of employment.	
Benefit Service:	The number of years and fractions of a year beginning on an Employee's latest employment date, and ending on the first to occur of his date of termination of employment, retirement date, death, disability or transfer to an uncovered division during which employee contributions are made. For each calendar month in which the Employee works at least one day, one-twelfth of a year shall be credited.	
Normal Retirement Date:	The first day of the calendar month coincident with or next following the later of age 65 and the effective date of participation.	
Early Retirement Date:	Any participant who has attained age 62 and completed 10 years of vesting service may elect early retirement on the first day of any calendar month following the termination of service.	
Total and Permanent Disability	A physical or mental condition which renders a participant disabled to the extent that he is eligible for and receives payments under the Social Security Act.	
Vesting Schedule:	<u>Years of Vesting Service</u>	<u>Vested Interest</u>
	Less than 5	0%
	5 or more	100%

GoRaleigh Pension Plan

Appendix A – Summary of Principal Plan Provisions (cont.)

Normal Retirement Benefit:	For each year of Benefit Service on and after January 1, 2001, a participant accrues an annual benefit of \$630. Lesser dollar multipliers apply to Benefit Service earned before January 1, 2001.
Early Retirement Benefit:	The amount of the benefit accrued as of Normal Retirement Date, without actuarial reduction for early commencement.
Disability Benefit:	A participant who retires because of Total and Permanent Disability and who has at least 10 years of vesting service shall be eligible to commence receipt of their benefit regardless of age. The disability benefit is the amount of the benefit accrued as of Normal Retirement Date, without actuarial reduction for early commencement.
Other Termination Benefits:	A terminated participant is entitled to the value of his employee contributions with interest at any time. Otherwise, if retirement has not been reached, no benefit is payable unless the lump sum amount of the participant's total benefit is less than \$5,000.
Normal Form of Benefit:	The normal form of benefit is a monthly annuity payable for the participant's life. If the participant dies before receiving the full amount of his employee contributions account with interest, his beneficiary will receive the difference.
Optional Benefit Forms:	100%, 75% or 50% Joint and Survivor Annuity; Ten-year Certain and Life Annuity.
Death Benefits (Pre-Retirement):	If the participant is married, his spouse is entitled to the standard statutory survivor's benefit equal to one-half of the benefit that would have been payable in the form of a 50% joint and survivor annuity. If the participant is not married, the death benefit is the value of his employee contributions with interest.
Death Benefits (Post-Retirement):	None except as provided by the annuity form elected.
Employee Contributions:	Prior to February 20, 2009, employee contributions were made at the rate of 5% of compensation. The contribution rate was increased to 5.5% on February 20 and to 6.00% on January 1, 2010.
Changes Since Last Year:	None.
