Trustees and Plan Participants
Yavapai-Apache Nation Enterprise 401(k) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Yavapai-Apache Nation Enterprise 401(k) Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter—Required Supplementary Information

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Our opinion on the basic financial statements is not affected by the missing information.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of assets held at end of year as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1) Summary of Significant Plan Provisions

The following description of the Yavapai-Apache Nation Enterprise 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

From January 1, 1997 through December 31, 2006, the Yavapai-Apache Nation (the “Nation”) Governmental 401(k) Retirement Plan was documented and operated as a governmental plan in accordance with Section 414(d) of the Internal Revenue Code (the “IRC”) and Section 3(32) of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2007, the governmental plan became subject to the provisions of Section 906 of the Pension Protection Act of 2006 (the “PPA”). Although the Nation maintains that the Plan continues to be entitled to governmental status with regard to all employees of the Nation and its enterprises, the Nation spun-off the Yavapai-Apache Nation Enterprise 401(k) Retirement Plan (the “Plan”) effective January 1, 2007, for the benefit of those employees who may be deemed to be commercial employees under Section 906 of the PPA and pending further guidance from the U.S. Departments of Treasury and Labor.

The Nation is operating the Yavapai-Apache Nation Enterprise 401(k) Retirement Plan in accordance with its reasonable and good faith interpretation of the PPA, as required by IRS Notice 2006-89 and IRS Notice 2007-67. Neither the filing of the Form 5500 Annual Report nor the Nation’s compliance with the audit requirements imposed under ERISA shall be construed as a waiver of the Nation’s right to assert governmental status with regard to the Yavapai-Apache Nation Enterprise 401(k) Retirement Plan. The Plan has been established by the Yavapai-Apache Nation and operates under the authority of Tribal Council.

The Plan is a defined contribution plan covering full-time and part-time commercial employees of the Nation. There is no minimum age and service eligibility requirements to participate in the Plan.

Subject to the PPA compliance standards set forth above, the Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). As of December 31, 2024, there were 630 participants, 433 of whom had account balances.

Contributions

Participants may contribute, subject to limits imposed under the Internal Revenue Code (IRC), a percentage of pretax annual compensation as defined in the Plan. Participants who have attained age 50 before the close of the Plan year may elect to make catch-up contributions subject to certain limitations under the IRC. Participants may also contribute amounts representing distributions from other qualified Plans (rollover). Effective March 1, 2024, the Plan was restated to allow participants to contribute a percentage of annual compensation on an after-tax Roth basis.

December 31, 2024 and 2023

The Nation contributes a matching contribution equal to 50% of the first 5% of each participant's eligible compensation. The Nation may, at its discretion, make employer basic contributions to the Plan, which are allocated to eligible participants on the basis of a uniform percentage of each participant's eligible compensation. No basic contributions were made for 2024. All contributions to the Plan are participant-directed into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Nation's matching and discretionary basic contributions, and allocations of Plan earnings or losses. Participant accounts may be also charged with an allocation of certain administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Employees are immediately vested in their employer contributions.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000, not to exceed 50% of the combined balance held in the respective employee's contribution account. The loans are secured by the balance in the participant's account. The maximum loan period is five years for nonresidential loans and 15 years for residential loans. The loan interest rate, determined quarterly, is set at 2% above the prime rate, as defined. Principal and interest are paid through payroll deductions.

Payment of Benefits

On termination of service for any reason, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or in quarterly installments.

Mandatory Cash-Out Provisions

If the amount of benefit is \$5,000 or less, and greater than \$1,000, at the time of separation, the Nation will distribute the benefits in a single lump sum payment or into an individual retirement account without the consent of the participant. If the benefit amount is \$1,000 or less at the time of separation, the Nation will distribute the benefits in a lump sum cash payment. This "cash out" distribution is processed without the consent of the participant.

Forfeitures

Forfeitures of terminated participant's nonvested account balances may be used to pay administrative expenses. At December 31, 2024 and 2023, there were no forfeited nonvested accounts and there were no balances used to pay administrative expenses.

2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting based on the accounting standards as promulgated by the Governmental Accounting Standards Board.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related loan fees are recorded as administrative expenses when incurred. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan permits, but does not require, the Nation to pay significant costs of Plan administration. At any time, the Nation may elect for the Plan to pay administration costs. The Nation paid a portion of the Plan's administrative expenses for the year ended December 31, 2024, which are not included in these financial statements. Fees paid to the custodian for investment management services are included in net appreciation (depreciation) in fair value of investments.

Subsequent Events

Subsequent events were evaluated for recognition or disclosure in these financial statements through October 7, 2025, the date which the financial statements were available to be issued.

3) Investments and Fair Value Measurements

The Governmental Accounting Standards Board (GASB) Statement No. 72, *Fair Value Measurements and Applications*, provides the framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024.

Mutual Funds—Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at the price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trust Fund—The net asset value is based on unit values reported by the Plan custodian, which is principally the market value of the underlying investments. Therefore, fair value of the common collective trust is considered to be based on other observable inputs rather than directly determined by reference to quoted market prices and other relevant information generated by market transactions. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. Management has determined that the investments using NAV as a practical expedient do not have published prices and; therefore, the investments are not included in the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

2024	Investments at Fair Value			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 6,668,824	\$ -	\$ -	\$ 6,668,824

Information about Net Asset Value as a Practical Expedient

The following table sets forth additional disclosures of the Plan’s investments whose fair value is estimated using NAV as a practical expedient as of December 31, 2024 and 2023:

Investment	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Collective investment trust	\$ -	Immediate	None

4) Information Prepared and Certified by Custodian (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was obtained or derived from information provided to the Plan administrator by Charles Schwab Trust Bank, a qualified institution, and certified as complete and accurate:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023.
- Investment income and interest income from notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2024.
- Investments reflected on the supplemental schedule of assets held at end of year.

5) Plan Termination

Although it has not expressed any intent to do so, the Nation has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA.

6) Tax Status

The Internal Revenue Service (IRS) has determined in a letter dated February 16, 2018, that the Yavapai-Apache Nation Enterprise 401(k) Retirement Plan and its related trust, as then designed, were in compliance with the applicable requirements of the IRC. The

Plan has been amended since receiving the determination letter; however, the Nation and its counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, subject to the good faith operational compliance relief afforded to Tribal employers under the PPA.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's management believes the Plan is no longer subject to income tax examinations for years prior to 2021.

7) Related-Party and Party-In-Interest Transactions

Certain Plan investments are managed by Charles Schwab Trust Bank, the custodian of the Plan's investments. These transactions qualify as exempt party-in-interest transactions. The Nation provides certain accounting and administrative services to the Plan for which no fees are charged.

For the year ended December 31, 2024, fees paid by the Plan for administrative expenses, such as third-party administrative fees, totaled \$7,792.
