Independent Auditor's Report

To the Plan Administrator
FIRST 401(k) Plan
New York, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of FIRST 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2024 and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the

financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

FIRST 401(k) Plan

Notes to Financial Statements

1. Description of Plan

The following description of the FIRST 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions. The Plan is sponsored and administered by FIRST, Inc. (the Plan Sponsor or the Employer).

General

The Plan is a defined contribution plan adopted on February 26, 2007, that covers all employees of the Plan Sponsor who meet the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

All employees of the Plan Sponsor who have attained the age of 21 or older and completed three consecutive months of service with the Employer are eligible to participate in the Plan. Effective January 1, 2023, the Plan was amended to allow participants to become eligible to make contributions on the date of hire. Participants can join the Plan on the first day of each calendar month of the Plan year after the eligibility requirements are met. Non-resident aliens and employees subject to a collective-bargaining agreement are not eligible to participate in the Plan. Effective January 1, 2024, part-time, temporary, or seasonal employees who work at least 500 hours of service during each of three consecutive 12-month periods after December 31, 2020, are eligible to participate.

Employees are eligible for Safe Harbor contributions after three months of service if they are full-time employees. Part-time, temporary, or seasonal employees become eligible after one year of service, defined as working at least 1,000 hours.

Participant Contributions

Each year, participants may elect to defer up to 100% of their pretax annual compensation, as defined in the Plan, which cannot exceed the limits permitted under Internal Revenue Service (IRS) regulations. Participants can also elect to make Roth 401(k) contributions, which allow for after-tax contributions to be made. Roth 401(k) contributions are subject to the same pre-tax contribution limitations. Participants who have attained age 50 or older may elect to make a "catch-up" contribution, not to exceed IRS limits. In addition, participants may also contribute amounts representing rollovers from other qualified defined benefit or defined contribution plans. Contributions in any calendar year may not exceed the limits under Internal Revenue Code (IRC) Sections 401(k), 402(g), 404, and 415.

Employer Contributions

The Plan Sponsor must make Safe Harbor contributions in an amount not less than 3% of participants' eligible compensation to all eligible participants. The Plan contains a provision that allows the Plan Sponsor to make discretionary matching contributions to participants that make contributions into the Plan. No such discretionary matching contributions have been made during 2024 and 2023. The Safe Harbor matching contribution totaled \$1,405,494 and \$1,560,208 for the years ended December 31, 2024 and 2023, respectively.

FIRST 401(k) Plan

Notes to Financial Statements

In addition, the Plan Sponsor, at its sole discretion, can elect to make a profit-sharing contribution to the Plan. In order for a participant to be eligible for the profit-sharing contribution, the participant must be employed by the Plan Sponsor on the last day of the Plan year and work at least 1,000 hours in the year. Eligible employees who terminate employment due to death, disability, or the attainment of normal retirement age will still be eligible to receive a profit-sharing contribution. For the years ended December 31, 2024 and 2023, there was no discretionary profit-sharing contributions made.

Participants' Accounts

Participants direct the investment of their contributions and employer contributions into various investment options offered by the Plan. Each participant's account is credited with the participant's contribution and allocations of (a) the Plan Sponsor's Safe Harbor contributions, (b) Plan earnings, and (c) the Plan Sponsor's profit-sharing and discretionary matching contributions, if any, and is charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants in the Plan are 100% vested in their contributions, rollover contributions, and Safe Harbor matching contributions made in order to satisfy certain non-discrimination testing required by the IRC, plus actual earnings thereon. Vesting in the Plan Sponsor's discretionary matching and profit-sharing contributions is based on the following schedule:

Years of Vesting Service	Vesting (%)
Less than 1	-
1-2	20
2-3	40
3-4	60
4-5	80
5 or more	100

Upon termination of employment, non-vested balances are accumulated in the Plan's forfeiture account. A participant is also fully vested upon reaching normal retirement age, upon death, upon becoming totally and permanently disabled, or upon termination of the Plan.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts, if any, are used to reduce future Plan Sponsor contributions or are applied to pay administration fees. As of and for the years ended December 31, 2024 and 2023, there were no amounts forfeited by withdrawing participants and there was no balance in the forfeiture account.

Notes Receivable from Participants

Participants can borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of the participant's vested account balance.

FIRST 401(k) Plan

Notes to Financial Statements

The minimum loan amount is \$1,000. The funds required to satisfy a loan request are withdrawn on a pro-rata basis from the participant's account in the various investment funds. The loans generally must be repaid within five years, unless it is used for the purchase of a primary residence. Interest and principal repayments are credited directly to the borrower's respective account and are repaid by payroll deductions. The loans bear interest equal to local prevailing rates as determined by the Plan administrator, in accordance with the Plan. The interest rates on loans outstanding at December 31, 2024 and 2023 ranged from 6.00% to 9.50% and 4.25% to 9.50%, respectively.

If a participant fails to make a payment when a loan is due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately, and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit a participant would otherwise be entitled to from the Plan.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant (or their designated beneficiary) may receive the value of their vested account balance in a lump sum or installments, as described in the Plan document. The Plan Sponsor may distribute accounts of former employees of \$7,000 or less without the consent of the participant. In-service distributions are permitted if a participant reached age 59½. In addition, the Plan provides for participant withdrawals of fully vested elective deferral contributions and matching contributions in the event of hardships, as defined in the Plan document.

Plan Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and in-service withdrawal processing fees are charged directly to the participant's account and are included in administrative expenses.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected in the net appreciation or depreciation in the fair market value of such investments.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

FIRST 401(k) Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for the Plan's fully benefit-responsive investment contract that is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan agreement.

Payment of Benefits

Benefits are recorded when paid to participants.

3. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

FIRST 401(k) Plan

Notes to Financial Statements

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following tables summarize the Plan's investments measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy:

Pooled separate account*				13,085
Investments, at fair value				\$ 21,039,353

* Certain investments that are measured at fair value using the net asset value (NAV) per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits. These assets have no restrictions on redemption.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual Funds - Mutual funds are valued at the daily closing price, as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are actively traded.

Collective Investment Trusts (CITs) - CITs are valued at the NAV of units held. The NAV, as provided by the trustee of the CITs, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the CIT less its liabilities. This practical expedient is not used when it is determined to be probable that the CITs will sell for an amount different than the reported NAV. The CITs provide for daily redemptions by the Plan at reported NAV with no advance notice. There are no unfunded commitments related to these investments.

Pooled Separate Account (PSA) - PSA is valued at the NAV of the units held. The NAV is based on the fair value of the underlying investment held by the PSA less its liability. The fair value of the underlying investment, which consist of a single mutual fund, is determined using market quotations or prices obtained from independent pricing sources. The NAV, as provided by Principal Trust Company (Principal), is used as a practical expedient to estimate fair value. NAV would not be used

FIRST 401(k) Plan

Notes to Financial Statements

if it was probable that the investment would not be traded at NAV. The PSA provides for daily redemptions by the Plan at reported NAV. There are no unfunded commitments related to this investment.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Party-in-Interest Transactions

Parties-in-interest are defined under the Department of Labor's (DOL) Rules and Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Employer, and certain others. Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Plan Sponsor. Notes receivable from participants also reflect party-in-interest transactions.

Certain Plan investments are securities managed by Principal. Principal is the custodian of the Plan. These transactions qualify as party-in-interest transactions, which are exempt from prohibited transaction rules.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Certified Investment Information

Certain information disclosed in the accompanying financial statements and ERISA-required supplemental schedule, related to investments and notes receivable from participants held as of December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal, a qualified institution.

7. Fully Benefit-Responsive Investment Contract

The Plan offers participants an option to invest in the Principal Fixed Income Guaranteed Option Account, a guaranteed investment contract (GIC) issued by Principal Life Insurance Company (PLIC). The contracts underlying this investment option are considered to be fully benefit-responsive. Generally, contract value is equal to participant deposits minus participant withdrawals plus credited interest. Contract value may be subject to adjustments in connection with contract holder-directed withdrawals that are subject to a market value adjustment. Under limited circumstances, contract value may be adjusted as a result of a market value adjustment.

FIRST 401(k) Plan

Notes to Financial Statements

Because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. Contract value, as reported to the Plan by PLIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fixed income guaranteed option is a single group annuity contract with a fixed rate of interest. As a result, the average yield earned by the Plan is the yield earned (i.e., interest credited) on the group annuity contract. The crediting interest rates to participants for the contract as of December 31, 2024 and 2023 were 4.75% and 4.65%, respectively.

Principal makes these guarantees, and although Principal may credit a higher interest rate, the credited rate will never fall below the lifetime guaranteed minimum of 1.00%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan Sponsor or other events of the Plan Sponsor (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

8. Plan Termination

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

9. Tax Status

The Plan has adopted DWC ERISA Consultants LLC's volume-submitter plan, which has received a favorable opinion letter dated September 6, 2023, indicating that the written form of the prototype plan is acceptable under Section 401(a) of the IRC and that any employer adopting this prototype plan document will be considered to have a plan qualified under Section 401(a) of the IRC. Although the Plan has been amended since the third-party administrator received the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Delinquent Participant Contributions

During the Plan years ended December 31, 2022 through 2024 and for the period from October 1, 2021 through December 31, 2021, participant contributions, including loan repayments, totaling \$1,233,478, were not remitted to the Plan in a timely matter as prescribed by DOL regulations. These transactions constitute prohibited transactions as defined by ERISA. During 2024, the 2023 late remittances totaling \$460,397 were self-corrected with a contribution of lost earnings totaling \$2,760. In September 2024, the Employer self-corrected the 2022 and 4th quarter 2021 late remittances, totaling \$767,350, with a contribution of lost earnings totaling \$1,072. In December 2024, the Employer self-corrected the 2024 late remittances of \$5,731 with a contribution of lost earnings totaling \$10.

The lost earnings include the amount the participants should have earned from the date the contributions should have been made through the date of correction.

The Plan Sponsor is responsible for any fines, excise taxes, and/or penalties or actions brought by the affected participants or regulatory authorities.

11. Subsequent Events

On January 1, 2025, the Plan Sponsor approved the amendment to adopt automatic enrollment at 3% of eligible employees' compensation increasing 1% per year up to a maximum of 5% of compensation.

The Plan has evaluated subsequent events through October 1, 2025, the date the financial statements were available to be issued. There were no other subsequent events requiring adjustments or additional disclosure to the financial statements.
