Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **PENSION ASSURANCE LLP**

(2) EIN: **30-0840934**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		5000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

5b(1) Name of plan(s)	5b(2) EIN(s)	5b(3) PN(s)

5c Was the plan a defined benefit plan covered under the PBGC insurance program at any time during this plan year? (See ERISA section 4021 and instructions.) ☒ Yes ☐ No ☐ Not determined

If "Yes" is checked, enter the My PAA confirmation number from the PBGC premium filing for this plan year 560305.

INDEPENDENT AUDITOR'S REPORT

To the plan administrator and participants of
Silgan Closed Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Silgan Closed Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023, the Statements of Changes in Net Assets Available for Benefits for the Years Ended December 31, 2024 and 2023, the Statement of Accumulated Benefits as of December 31, 2023, the Statement of Changes in Accumulated Benefits for the Year Ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to benefits provided under the plan and certified to by a qualified institution or assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedule of Schedule H, line 4i—Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to benefits provided under the plan and certified to by a qualified institution or assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Silgan Closed Pension Plan

Notes to Financial Statements
For the Years Ended December 31, 2024 and 2023

1. Plan Description

The following description of Silgan Closed Pension Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

a. General

The Plan, originally effective January 1, 2012, and restated December 31, 2014, is a noncontributory defined benefit plan covering employees of the Silgan Containers Manufacturing Corporation (the Company). The Plan encompasses the following previously existing plans (or portions of previously existing plans) that were merged into the Plan (the Prior Plans):

- the Silgan Containers Pension Plan for Former Finger Lakes Packaging Employees;
- the Silgan Containers Pension Plan for Tarrant, Alabama, Employees;
- the Silgan Containers Pension Plan for Oconomowoc, Wisconsin, Can Plant Employees;
- the Silgan-Former Van Can Union Employees' Retirement Plan;
- the Silgan-Former Van Can Retirement Plan;
- participants in the Silgan-Fort Madison Employees' Pension Plan who were employed at Crystal City, Texas; Rochelle, Illinois; Oakland, California; Smithfield, Utah; Kingsburg, California; Modesto, California; and Stockton, California; and
- participants in the Silgan Containers Pension Plan for Eligible Employees other than those located at the Hoopeston, Illinois, location.

Eligible employees are those employed by the Company that are not specifically excluded, as set forth in the plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Transfer of Assets to Other Plans

The Plan permits transfers to related plans. Final adjustments in the amount of \$1,197,351 were transferred from the Plan as follows:

Transfer out to Silgan White Cap Basic Non-Contributory Hourly Pension Plan	\$ (28,796)
Transfer out to Silgan White Cap Pension Plan for Richmond Hourly Employees	(6,531)
Transfer out to Silgan Can Company Pension Plan for Hourly Employees	(166,162)
Transfer out to Silgan Containers Pension Plan for Eligible USW Employees	(83,896)
Transfer out to Silgan Non-Union Pension Plan	<u>(911,966)</u>
Total transfer of assets to other plans	<u>\$ (1,197,351)</u>

All assets were transferred on August 1, 2024. The effect of these transfers on accumulated benefits was reflected in the Statement of Changes in Accumulated Benefits for the Year Ended December 31, 2023.

For the Years Ended December 31, 2024 and 2023

c. Contributions

The Company has agreed to voluntarily contribute such additional amounts as are necessary to provide assets sufficient to meet benefits to be paid to participants as they come due. Contributions to the Plan are expected to fund each year's normal cost and a portion of the unfunded accrued liability.

d. Vesting

Vesting in the Company's contribution is based on years of credited service, as defined in the plan document. Participants become fully vested upon attaining either five years of credited service or the age of 65.

e. Plan Benefits

Participants' monthly pension benefit is determined in accordance with the provisions of the Prior Plans' plan documents. Generally, participants may elect to receive their pension benefits through various forms of joint and survivor annuities, a single-life annuity, or a single lump-sum payment.

2. Summary of Significant Accounting Policies

a. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value.

Purchases and sales of securities are generally recorded on a trade-date basis. As permitted by Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 960, *Plan Accounting--Defined Benefit Plans: Investments--Other*, settlement-date basis may be used when (a) the settlement date is after the financial statement date, (b) the fair value of the securities purchased or sold did not change significantly from the trade date to the financial statement date, and (c) the purchases or sales do not significantly affect the composition of the plan's net assets available for benefits.

Silgan Closed Pension Plan

Notes to Financial Statements
For the Years Ended December 31, 2024 and 2023

c. Investment Valuation and Income Recognition (Continued)

Interest income is recorded on the accrual basis. The components of the change in plan interest in master trust are disclosed in Note 8.

d. Payment of Benefits

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

e. Plan Expenses

Plan expenses are paid by the Plan.

f. Subsequent Events

The Plan has evaluated the subsequent events through September 29, 2025, the date the financial statements were available to be issued.

3. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

4. Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts computed by the Plan's actuary using the traditional unit credit method. Under this actuarial method, the objective is to fund each participant's benefits under the plan as they accrue. It is the intention of the Company's funding policy, based on the actuarial assumptions referred to in Note 11, that all eligible participants' benefits will be fully provided for by the time they retire. During 2024 and 2023, the Plan exceeded the minimum funding requirements of ERISA. Plan participants may not make contributions to the Plan.

5. Fair Value Measurement

FASB ASC 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Silgan Closed Pension Plan

Notes to Financial Statements
For the Years Ended December 31, 2024 and 2023

5. Fair Value Measurement (Continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There has been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan include open-end mutual funds, short term funds, and bond funds that are registered with the United States Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023. At December 31, 2024, there were no investments held at fair value.

Assets at Fair Value as of December 31, 2023				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 47,510	\$ -	\$ -	\$ 47,510
Investments, at fair value	\$ 47,510	\$ -	\$ -	\$ 47,510

6. Certified Investment Information

Management has elected to have the audits of the Plan performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Bank, the Custodian of the Plan, has certified that the following investment information is complete and accurate:

- Fair value of investments, plan interest in master trust, and accrued interest as reflected in the Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023.
- Investment income as reflected in the Statements of Changes in Net Assets Available for Benefits for the Years Ended December 31, 2024 and 2023.
- Investment information as reflected in Note 5 and Note 8 to these financial statements.
- Investment information reflected in the Schedule H, line 4i—Schedule of Assets (Held at End of Year) as of December 31, 2024.

As permitted by ERISA Section 103(a)(3)(C), the audit need not extend to any statements or information related to the certified investment information.

7. Tax Exempt Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated February 17, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended, the plan administrator believes that the Plan and related trust are currently designed and operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Interest in Master Trust

Most of the Plan's investments are invested in the Silgan Containers Corporation Pension Plans Master Trust, a master trust that was established for the investment of assets of the Plan and a number of other retirement plans sponsored by the Company and its affiliates. Each participating retirement plan has an undivided interest in the master trust. The assets of the master trust are held by Principal Bank.

8. Interest in Master Trust (Continued)

The value of the Plan's interest in the master trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2024 and 2023, the Plan's interest in the net assets of the master trust was approximately 61.2 and 63.2 percent, respectively. Investment income and administrative expenses relating to the master trust are allocated to the individual plans based upon the respective balances invested by each plan.

The following table presents the investments and other assets and liabilities of the master trust and the Plan's interest in the master trust at December 31, 2024 and 2023.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan include open-end mutual funds, short term funds, and bond funds that are registered with the United States Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. Treasury securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Other government bonds, corporate bonds, asset-backed securities, and collateralized mortgage-backed securities: Other government bonds, corporate bonds, asset-backed securities are valued at the regular close of trading on each valuation date at the evaluated bid prices supplied by pricing vendors or brokers, if any, whose prices reflect broker/dealer supplied valuations and electronic data processing techniques. Collateralized mortgage-backed securities are valued using pool-specific pricing. The pool-specific pricing is provided by the pricing vendors.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023. The fair values within the table below exclude interest and dividend receivables and pending investment purchases and sales.

CAPTRUST Financial Advisors	Investment advisor	Qualified investment advice to participants or beneficiaries, reasonable compensation for necessary services
Reinhart Boerner Van Duren Norris Rieselbach S.C.	Legal Counsel	Reasonable compensation for necessary services

10. Plan Termination

In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed to the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2024 and 2023, the ceiling is \$7,108 and \$6,750 per month, respectively. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the ceiling is actuarially adjusted downward.

10. Plan Termination (Continued)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

11. Actuarial Present Value of Accumulated Benefits

Accumulated benefits are those future periodic payments, including lump sums, which are attributable under the Plan's provisions to the services employees have rendered. Accumulated benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated benefits for active employees are based on (a) years of credited service, (b) predetermined factor based on description of job or wage rates, as defined in the plan document, and (c) any benefits from workers' compensation payments.

The actuarial present value of accumulated benefits has been determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money and the probability of payment between the benefit information date and the expected payment dates. The effect of plan amendments on accumulated benefits is recognized during the year in which such amendments become effective. The actuarial valuation is as of January 1, 2024, which is the beginning of the plan year and is presented in the Statement of Accumulated Benefits as of December 31, 2023.

The significant actuarial assumptions used in determining accumulated benefits as of December 31, 2023, are as follows:

	<u>2023</u>
Investment return	5.5%
Mortality	Pri-2012 mortality tables projected with the IRS-modified MP-2021 mortality improvement scale, in accordance with IRS regulation 1.430(h)(3)-1.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

(1) The Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits reflect the actual amount of funds transferred between plans during the periods that those transfers occurred. The Statement of Accumulated Benefits, the Statement of Changes in Accumulated Benefits, and the Form 5500 reflect the anticipated movement of participant benefits amongst the related plans as determined by the Plan's actuaries and involve timing differences with the actual amounts transferred to date that will be resolved in subsequent accounting periods. Management has determined that the treatments of these transactions on each respective report are most appropriate and informative to the users of those reports.

- Expected investment return**

The assumed long-term expected rate of return on plan assets was selected by Mercer, considering a review of simulated investment compound returns using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix, net of an adjustment of 8 bps for investment expenses assumed to be paid from plan assets.

- Expenses**

Determined as the expected expenses considering the most recent three-year average of non-investment, administrative, PBGC premiums, trustee and legal expenses paid from trust adjusted for significant non-recurring items and/or anticipated changes.

Rationale for Demographic Assumptions

- Disability Incidence**

The plan does not have enough credible experience, but is not expected to have mortality significantly different from that included in the SOA's study; accordingly, the most recently published PRI-2012 disability mortality tables were selected.

- Withdrawal, retirement and spouse age difference**

These assumptions are based on an experience study undertaken in 2020 using data from January 1, 2015 to January 1, 2020, with consideration given to expectations for the future.

- Percentage married at retirement**

Based on the company's understanding of its population.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Methods for Funding****Asset Methods**

The asset valuation method (as elected by Silgan) is an annual average of the adjusted market value over the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for non-vested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Summary of Major Plan Provisions – Former Container Salaried (Non-Union)

Effective date and plan year	Original plan: September 1, 1987 Restated plan: December 31, 2020 Plan year: Calendar year
Status of the plan	The plan was closed to new entrants as of July 1, 2008.
Significant events that occurred during the year	None
Definitions	
• Covered employees	Salaried non-union employees not covered by any other defined benefit plan of Silgan Containers Corporation who have completed one year of service. Employees hired after December 31, 2006 are not eligible. Certain employees re-hired/transferred after 1/31/2008 are also not eligible.
• Participation	Later of (1) September 1, 1987, and (2) the first day of the month after first meeting the eligibility requirements described above.
• Employer contributions	Determined annually by actuarial computations made by an Enrolled Actuary.
• Employee contributions	For those earning at least \$5,400, an annual amount equal to \$93 plus 3% of compensation in excess of \$5,800 per year. Amount is lower for those earning less than \$5,400 per year. Effective July 1, 1994, employee contributions are no longer required or permitted. Beginning January 1, 1988 employee contributions are credited with interest at an annual rate equal to 120% of the federal mid-term rate. Prior to that date the interest crediting rate was 5% per year.
• Collective Bargaining Status	The plan is not collectively bargained as no benefitting participant is covered by a bargaining agreement.
• Vesting service	Vesting service is determined from the participant's date of hire and includes service with the Carnation Company and its affiliates, as well as service with the Del Monte Corporation, ANC, Finger Lakes, Alcoa, Kraft, Campbell Soup, Silgan Holdings, Inc. and Pacific Coast Producers. Immediate vesting provided effective January 1, 2013.
• Benefit service	Benefit service is equal to the participant's period of employment determined from his date of hire. Fractions of a year are determined on the basis of 365 days equaling one year and 30 days deemed to be one month. Benefit service includes service with the Carnation Company and excludes service while the participant was eligible to but declined to make the required employee contributions under this Plan or under the Carnation Company Pension Plan. Benefit service includes service with Silgan Holdings, Inc. For participants of the following employee groups, benefit service is generally equal to the participant's period of employment determined from the later of date of hire or the date shown below:

Schedule SB, Part V — Summary of Plan Provisions

	Former Del Monte salaried employees	January 1, 1994
	Former Finger Lakes salaried employees	October 9, 1996
	Richmond (former Alcoa) salaried employees	April 1, 1997
	Tarrant (former Kraft) salaried employees	October 1, 1997
	Former Campbell Soup salaried employees	June 1, 1998
	Former Pacific Coast Producers salaried employees	July 1, 2003

Schedule SB, Part V — Summary of Plan Provisions**Benefits Included or Excluded**

Unless noted below, all benefits provided by the plan, as restated December 22, 2014, are included in this valuation.

- **Most recent plan amendments included:** Seventh Amendment effective December 21, 2023
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - 1) *Active Participants:* Active participants over normal retirement age as of the valuation date are valued using the greater of the current accrued benefit or the benefit at age 65 with actuarial increases using the PPA 2017 mortality table and a 5.50% discount rate.
 - 2) *Deferred Vested Participants:* Deferred vested participants over normal retirement age as of the valuation date are valued reflecting actuarial increases after age 65 using the PPA 2017 mortality table and a 5.50% discount rate.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan Provisions Specific to Funding**Additional Benefits Included or Excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation. The target normal cost does not reflect any limitation on benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
