INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Operative Plasterers' and Cement Masons' International Association,
Local No 394 Pension Trust Fund

Opinion

We have audited the accompanying financial statements of Operative Plasterers' and Cement Masons' International Association, Local Union No. 394 Pension Trust Fund, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2023, the related statement of changes accumulated plan benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Operative Plasterers' and Cement Masons' International Association, Local Union No. 394 Pension Trust Fund as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, and the accumulated plan benefits as of December 31, 2023, and the changes in its accumulated plan benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Operative Plasterers' and Cement Masons' International Association, Local Union No. 394 Pension Trust Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Operative Plasterers' and Cement Masons' International Association, Local Union No. 394 Pension Trust Fund's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Operative Plasterers' and Cement Masons' International Association, Local Union No. 394 Pension Trust Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Operative Plasterers' and Cement Masons' International Association, Local Union No. 394 Pension Trust Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule of Assets (Held at End of Year) as of December 31, 2024, and Schedule of Reportable Transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE A – DESCRIPTION OF PLAN

The following description of the Operative Plasterers' and Cement Masons' International Association, Local Union No. 394 Pension Trust Fund (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a multiemployer defined benefit pension plan. The Plan was established in 1965, as a result of a collective bargaining agreement (CBA) between the Contractors' and Home Builders' Associations and the Labor Unions to provide retirement, death, and disability benefits for eligible participants and beneficiaries. The CBA provided, among other things, for participating employers to make contributions to the Plan for each hour worked by covered participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective January 1, 1987, the Board of Trustees of the Plan acted to freeze all accrual of future benefits and subsequently determined that the Plan terminated by mass withdrawal as of that date. A defined contribution plan (individual account annuity plan) was established for all active participants, with all subsequent contributions made to such plan.

Administration of the Plan is the responsibility of the Board of Trustees (Trustees) and is governed by a joint board consisting of equal representation from the Associations and the Labor Unions.

Pension benefits – The Plan provides the following three types of pension benefits: (1) normal retirement, (2) early retirement, and (3) disability retirement. The type and amount of the pension benefit is based on several factors, including the participant's age, work history (years of service and number of hours worked), and disability. Participants are 100% vested in the Plan after January 1, 1987 without a permanent break in service.

Normal pensions are granted at the age of 65 to participants with vested status. Early retirement pensions are granted between the ages of 55 and 65 to participants with a vested status with the benefit amount being actuarially reduced for commencement prior to normal retirement. The normal or early retirement benefits, to which a married participant (with qualifying spouse) is entitled, is automatically paid in the form of a qualified joint and 50% survivor benefit unless the participant and his/her spouse elect another benefit option. The Plan also offers 75% and 100% joint and survivor options.

Death and disability benefits – Participants with a vested status and who have been deemed disabled by the Social Security Administration, were eligible to receive total and permanent disability benefits equal to the accrued normal retirement benefit. Effective for annuity starting dates on or after January 1, 2017, disability benefits were eliminated.

NOTE A – DESCRIPTION OF PLAN - continued

Beneficiaries of participants are eligible to receive a death benefit. When a participant dies following retirement, the death benefits available are based on the benefit option selected at the time of retirement. Pre-retirement death benefits are based on the participant's years of covered employment, marital status, and disability status

NOTE B – SUMMARY OF ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan.

Basis of accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

The Plan maintains its financial records using the modified cash basis of accounting, under which additions and deductions to net assets available for benefits are recognized when measurable and available to finance expenditures of the current period. Expenditures are generally recorded when the liability is paid. Adjustments are prepared at each year end to adjust the financial records to the accrual method of accounting.

Use of estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits – Benefit payments to participants are recorded upon distribution.

Administrative expenses – Expenses incurred in connection with the general administration of the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. The Plan shares certain administrative expenses with a related annuity plan. In computing these allocated costs, various factors were considered, including the net assets of each plan in relation to the other plan (see Note G).

Subsequent events – The Plan's management has evaluated subsequent events through May 6, 2025, the date the financial statements were available to be issued.

NOTE C – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or inactive participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Benefits under the Plan are based on pension credits earned by the participant. Benefits payable under all circumstances – retirement, death, disability, and inactive participants – are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions as of December 31, 2023 were: (a) life expectancy of healthy participants and disabled participants (rates published by the PBGC for 2023 under ERISA Section 4044), (b) retirement age assumption (age 55, the earliest age per ERISA Section 4281.12(b)), and (c) investment return (5.06% for 20 years following valuation date and 4.37% thereafter). During the year ended December 31, 2023, the actuary changed the following assumptions: 1) the net investment return assumption was increased from 3.90%, and 2) mortality rates were updated. The Plan was amended at the November 7, 2023 meeting to unwind the rehabilitation plan provisions effective January 1, 2017. The effect of these changes decreased the actuarial present value of accumulated plan benefits by \$400,788 and are included in the statements of accumulated plan benefits and changes in accumulated plan benefits.

NOTE D – DISCONTINUANCE OF CONTRIBUTIONS / PLAN TERMINATION

The Board of Trustees amended the Plan effective January 1, 1987, freezing benefit accruals under the Plan, and directing future contributions into a defined contribution plan. The Board of Trustees subsequently determined that the Plan terminated by mass withdrawal as of January 1, 1987 (Note A).

The net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former participants or their beneficiaries have been receiving for at least three years, or that participants eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding the Plan termination.

2. Other vested benefits guaranteed by the Pension Benefit Guarantee Corporation (PBGC) (A U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested monthly benefits are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits will depend on the sufficiency of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the level of benefits guaranteed by the PBGC. For multiemployer plans, the PBGC provides financial assistance to plans that are unable to pay basic PBGC guaranteed benefits when due.

NOTE E – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include <ul style="list-style-type: none">- Quoted prices for similar assets or liabilities in active markets- Quoted prices for identical or similar assets or liabilities in inactive markets- Inputs other than quoted prices that are observable for the asset or liability- Inputs that are derived principally from or corroborated by observable market data by correlation or other means If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE E – FAIR VALUE MEASUREMENTS – continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

- *Cash and equivalents* – Valued at the closing price reported on the active market on which the individual securities are traded.
- *Exchange traded funds* – Valued at the closing price reported on the active market on which the individual securities are traded.
- *Government obligations* – Valued at closing price reported in the active market in which the individual security is traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Cash and equivalents	\$ 651,386	\$ -	\$ -	\$ 651,386
Government obligations	699,990	-	-	699,990
Exchange traded funds	15,411	-	-	15,411
 Total investments at fair value	 \$ 1,366,787	 \$ -	 \$ -	 \$ 1,366,787

	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Cash and equivalents	\$ 453,745	\$ -	\$ -	\$ 453,745
Government obligations	1,478,542	-	-	1,478,542
Exchange traded funds	46,322	-	-	46,322
 Total investments at fair value	 \$ 1,978,609	 \$ -	 \$ -	 \$ 1,978,609

During the year ended December 31, 2014, the Plan sold all holdings of the Fundamental Limited Partnership (FLP) account. However, a portion of the redemption amount was withheld in an illiquid side pocket consisting of a percentage ownership in one security FLP holds and a limited partnership interest in a hedge fund. FLP's auditor concluded that the security and hedge fund be deemed worthless in 2014, on both a book and tax basis, as a result of corporate events that transpired in December 2014. However, in February 2015 a buyer of those assets gave "kicker" shares and warrants to old investors. The value of the Plan's capital balance increased in February 2015 to \$34,067 to reflect the value of those kicker shares and warrants. The final value of the side pocket will be returned to the Plan when the securities become liquid and can be sold. As of December 31, 2024 and 2023, the trustees have determined that the value of this investment is worthless.

NOTE F – TAX STATUS

The Plan obtained its latest determination letter on May 8, 2015, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operating in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE G – RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan pays fees for several arrangements with service providers, including a third-party administrator, attorneys, actuaries, consultants, and auditors. These transactions are considered exempt party in interest transactions under ERISA.

The Plan shares certain operating expenses with the Operative Plasterers' and Cement Masons' International Association, Local No 394 Defined Contribution Plan. Each plan pays its own pro-rata share of operating expenses.

NOTE H – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and participant data, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
