Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

October 7, 2025

To the Participants and Plan Administrator
American Axle & Manufacturing, Inc. Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the American Axle & Manufacturing, Inc. Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, as well as the related notes to the financial statements.

The Plan's management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C), pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

The Plan's management has obtained certifications from a qualified institution as of, and for the years ended, December 31, 2024 and 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section:

- The amounts and disclosures in the financial statements, other than those agreed to, or derived from, the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Opinion (continued)

- The information in the accompanying financial statements related to assets held by, and certified to by, a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that the Plan's management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("U.S. GAAS"). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

The Plan's management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

The Plan's management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the "Scope and Nature of the ERISA Section 103(a)(3)(C) Audit" section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. *Reasonable assurance* is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS:

- We exercise professional judgment and maintain professional skepticism throughout the audit.
- We identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and we design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- We evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, and we evaluate the overall presentation of the financial statements.
- We conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2024, and reportable transactions for the year then ended, are presented for the purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to, or derived from, the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. GAAS. For information included in the supplemental schedules that agreed to, or is derived from, the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to, or derived from, the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to, or is derived from, the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by, and certified to by, a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

AMERICAN AXLE & MANUFACTURING, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2024 and 2023

1. DESCRIPTION OF THE PLAN

The American Axle & Manufacturing, Inc. Pension Plan (the “Plan”) is a defined benefit pension plan, established as of March 1, 1994 and restated effective January 1, 2020, which covers the following groups:

- All employees of American Axle & Manufacturing, Inc. (the “Company”) who are members of the International Union, United Automobile, Aerospace, and Agricultural Implement Workers of America (“UAW”) and the International Association of Machinists and Aerospace Workers
- All salaried employees of the Company hired before January 1, 2002
- All employees of Colfor Manufacturing, Inc. who are members of the UAW and were hired prior to June 5, 2005
- All employees of MSP Industries Corporation who are members of the UAW and were hired prior to April 17, 2009

The Plan provides for pension, disability, and death benefits. The Company has agreed to contribute such amounts as necessary to meet the minimum funding standards required by law.

As of December 31, 2012, all benefit accruals and supplements were frozen for all Plan participants. Benefit accruals and supplements for Plan participants at the Company’s other facilities were previously frozen. Age and credited service continue to accrue for the purpose of determining eligibility for retirement and the type of supplement to be paid for all participants.

The Plan provides for a retirement benefit that currently provides a monthly lifetime benefit from \$50.90 to \$51.65 for every year of credited service earned after February 28, 1994. The Company pays the entire cost of the pension plan, which consists of basic benefits and three types of supplements. The basic benefit is a monthly benefit determined by a flat dollar rate, multiplied by years of credited service. The first supplement is a temporary supplement which is paid only for disability and mutual satisfactory retirements, with a 30-year maximum for credited service. This supplement is paid to retirees until age 62 and one month or, if earlier, when the employee becomes eligible for Social Security disability benefits. The second supplement is an early retirement supplement for those who retire with at least 30 years of credited service. This supplement is paid to age 62 and one month if a retiree is under age 62 at retirement.

AMERICAN AXLE & MANUFACTURING, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED) YEARS ENDED DECEMBER 31, 2024 and 2023

1. DESCRIPTION OF THE PLAN (CONTINUED)

The third supplement is an interim supplement for early voluntary retirees who are between ages 55 and 59, have less than 30 years of credited service at retirement, and have at least 85 “points” by adding together age and service of the employee. This supplement is also for those who are age 60 with at least 10 years of service. This supplement is paid to retirees until age 62 and one month if a retiree is under age 62 at retirement. This supplement is extended until the retiree has reached his Social Security “80% date” if the retiree meets the Plan’s requirements for the extension. The amount of such supplements is prorated based on credited service earned as of the freeze date. In addition, credited service continues to accrue for vesting purposes.

Participants are vested after earning five years of credited service. Employees may retire at any age with 30 or more years of credited service; at least age 55 with age plus credited service equaling at least 85 “points”; or age 60 with 10 or more years of credited service. Employees with 10 or more years of credited service may retire at any age prior to age 65 in the case of total and permanent disability. Employees at least age 65 are automatically vested. Eligibility for benefits will be determined based on total credited service with both the Company and General Motors Corporation (“GM”) for those GM employees who became Company employees on March 1, 1994.

Effective January 1, 2024, the Plan offers a single lump-sum payment option to qualifying active and terminated vested participants who have not yet commenced their benefits. Additionally, for annuity starting dates on or after January 1, 2024, a lump-sum is the only payment option for lump-sum values less than \$7,000.

The Plan has met the minimum funding requirements of the Employee Retirement Income Security Act of 1974, as amended. The Company has the right under the Plan to discontinue such contributions at any time and to amend, modify, suspend or terminate the Plan, consistent with the collective bargaining agreement and applicable law. No amendment, modification, suspension or termination of the Plan shall have the effect of providing that any amounts then held under the Plan may be used or diverted to any purpose other than for the exclusive benefit of members or their beneficiaries.

Should the Plan terminate at some future time, its assets will generally not be available on a pro-rata basis to provide participants’ benefits. Whether a particular participant’s accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (“PBGC”) at the time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

AMERICAN AXLE & MANUFACTURING, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED) YEARS ENDED DECEMBER 31, 2024 and 2023

1. DESCRIPTION OF THE PLAN (CONTINUED)

The foregoing description of the Plan provides only general information. Participants should refer to the summary plan description for a more complete representation of the Plan's provisions. Copies of the summary plan description are available from the Company's human resources department.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General — The financial statements of the Plan are presented on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Valuation of Investments — The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price).

The shares of registered investment companies and units of money market funds are valued at quoted market prices that represent the asset value of the shares or units held by the Plan at year-end. Investments in U.S. government agency bonds are valued by independent pricing sources based on the quoted market prices of similar securities available in the over-the-counter market. Investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices.

The investment in a property fund (which invests primarily in U.S. Core Real Estate) is estimated using the net asset value per share of the fund, which is determined by using the fair value of the portfolio as of the close of business at the end of each quarter.

Investment Income — Purchases and sales of securities are recorded on a trade-date basis. Gains and losses on sales of securities are based on average costs. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation include gains and losses on investments bought and sold, as well as held, during the year.

Fair Value Measurements — The Plan uses fair value measurements in the preparation of its financial statements, which utilize various inputs, including those that can be readily observable, corroborated, or are generally unobservable. The Plan utilizes market-based data and valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Additionally, the Plan applies assumptions that market participants would use in pricing an asset or liability, including assumptions about risk.

AMERICAN AXLE & MANUFACTURING, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED) YEARS ENDED DECEMBER 31, 2024 and 2023

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (continued) — The measurement of fair value includes a hierarchy based on the quality of inputs used to measure fair value. Financial assets and liabilities are categorized into this three-level fair value hierarchy based on the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable inputs.

The various levels of the fair value hierarchy are described as follows:

- Level 1 — Financial assets and liabilities whose values are based on unadjusted quoted market prices for identical assets and liabilities in an active market that the Plan has the ability to access
- Level 2 — Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable for substantially the full term of the asset or liability
- Level 3 — Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement

The use of observable market data, when available, is required in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement.

Use of Estimates — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and accumulated plan benefits at the date of the financial statements and the reported amounts of increases or decreases in net assets available for benefits and accumulated plan benefits during the reporting period. Actual results could differ from those estimates. The Plan invests in various securities, including registered investment companies, U.S. government agency bonds, a money market fund, and a property fund. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

AMERICAN AXLE & MANUFACTURING, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED) YEARS ENDED DECEMBER 31, 2024 and 2023

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Actuarial Present Value of Accumulated Plan Benefits — Accumulated plan benefits (see Note 3) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan’s provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on various plan benefit formulas, as defined in the Plan document, depending upon the date of the retirement, death or termination of employment. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Subsequent Events — The Plan’s management has evaluated subsequent events through October 7, 2025, the date that the accompanying financial statements were available to be issued.

3. ACCUMULATED PLAN BENEFITS

The Plan’s actuary, WTW, estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of January 1, 2024 and 2023 is as follows:

	<u>2024</u>	<u>2023</u>
ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS:		
Vested benefits	\$ 306,729,234	\$ 299,250,167
Nonvested benefits	<u>6,440,908</u>	<u>6,287,241</u>
 TOTAL ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS	 <u><u>\$ 313,170,142</u></u>	 <u><u>\$ 305,537,408</u></u>

AMERICAN AXLE & MANUFACTURING, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED) YEARS ENDED DECEMBER 31, 2024 and 2023

3. ACCUMULATED PLAN BENEFITS (CONTINUED)

Changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2024 are as follows:

INCREASE (DECREASE) IN ACCUMULATED PLAN BENEFITS ATTRIBUTABLE TO:	
Actuarial (gains)/losses	\$ 792,124
Decrease in discount period	16,274,064
Changes in actuarial assumptions	10,958,106
Benefits paid	(19,290,668)
Plan amendments	<u>(1,100,892)</u>
CHANGE IN ACCUMULATED PLAN BENEFITS	7,632,734
ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS, JANUARY 1, 2023	<u>305,537,408</u>
ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS, JANUARY 1, 2024	<u><u>\$ 313,170,142</u></u>

The more significant assumptions underlying the actuarial valuations are as follows:

Actuarial cost method:	
Funding purposes	Projected unit credit
Accumulated plan benefits	Unit credit
Weighted average discount rate for the present value of accumulated plan benefits	2024 — 5.15%
	2023 — 5.50%
Mortality basis	2024 and 2023 — Pri-2012 mortality tables (employee, healthy annuitant, and contingent annuitant tables) with collar adjustments (white collar for salaried participants, blue collar for other participants) projected generationally from base year 2012 using a modified scale MP-2019
Employee turnover	A moderate rate
Retirement	A graduated scale

AMERICAN AXLE & MANUFACTURING, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED) YEARS ENDED DECEMBER 31, 2024 and 2023

3. ACCUMULATED PLAN BENEFITS (CONTINUED)

These actuarial assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the nature of these assumptions and the uncertainties inherent in setting these assumptions, it is at least reasonably possible that changes in the near term to these assumptions would be material to the financial statements.

4. INVESTMENTS AND FAIR VALUE

The following is a summary of information regarding the Plan, included in the Plan's financial statements, that was obtained or derived from information provided to the Plan administrator, and was certified as complete and accurate, by SEI Private Trust Company ("SEI"), the Plan's trustee and custodian. Information included in the supplemental Schedule of Assets (Held at End of Year) and Schedule of Reportable Transactions was also obtained from, and certified as complete and accurate by, SEI.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) YEARS ENDED DECEMBER 31, 2024 and 2023

4. INVESTMENTS AND FAIR VALUE (CONTINUED)

As of December 31, 2024 and 2023, the Plan held the following investments with various parties-in-interest:

	<u>2024</u>	<u>2023</u>
Investments managed by SEI:		
Registered investment companies	\$ 229,884,379	\$ 243,383,030
Money market funds	28,943	-
Property fund	<u>15,410,528</u>	<u>16,302,763</u>
	<u>\$ 245,323,850</u>	<u>\$ 259,685,793</u>

5. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain investments held by the Plan as of December 31, 2024 and 2023 are managed by SEI, the trustee and custodian of the Plan. Such investments fall within the investment guidelines of the Plan and are considered parties-in-interest. See Note 4 for investments held by the Plan with various parties-in-interest.

Fees for accounting, legal, and trustee services were paid by the Plan. The fees paid for services rendered by parties-in-interest were based on customary and reasonable rates for such services.

6. INCOME TAX STATUS

The Plan obtained its latest determination letter on November 21, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The Plan administrator and the Plan’s tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. In addition, the Plan administrator is not aware of any uncertain tax positions or unrecognized tax benefits as of December 31, 2024 or 2023. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Schedule SB, Part V Summary of Plan Provisions

The four legacy AAM US qualified pension plans (Salaried, Hourly, Colfor Hourly, and MSP Hourly) merged into the AAM Hourly Plan on December 31, 2019. This merged plan has been renamed the AAM Pension Plan. The pre-merger plan provisions summarized below continue to apply to the merged AAM Pension Plan.

B.1 Salaried

AAM Retirement Program for Salaried Employees Provisions

The AAM and Affiliated Corporation Salaried Cash Balance Pension Plan was merged into the AAM Retirement Program for Salaried Employees on December 31, 2011. The provisions for the two prior plans are outlined separately below.

AAM Salaried Participants Hired before January 1, 2002

Effective Date	March 1, 1994 Restated within the American Axle & Manufacturing, Inc. Pension Plan as of January 1, 2020 and amended through the end of 2023.
Employees Covered	Salaried employees of AAM hired before January 1, 2002.
Plan Year	First: March 1, 1994 to December 31, 1994; second and later: calendar years beginning on or after January 1, 1995.
Eligibility	Part A: Immediately upon becoming a salaried employee of AAM. Part B: Age 21, six months of service, and elect to contribute.
Grandfathered Participants	Participants who are active and a participant on December 31, 2006, and will be eligible to retire under the plan on or before December 1, 2011.
Freeze Date	Benefits were frozen on December 31, 2006, for non-grandfathered participants and benefits were frozen on December 31, 2011, for grandfathered participants.

Plan Name:	American Axle & Manufacturing, Inc. Pension Plan

SCHEDULE SB ATTACHMENTS

Credited Service Generally all periods of service for which the employee is paid; however, credited service is frozen on December 31, 2006 for non-grandfathered participants and on December 31, 2011, for grandfathered participants for benefit purposes.

Service after the freeze dates is counted for vesting purposes and determining retirement eligibility. Credited service with GM is included for determining eligibility for AAM benefits for associates defined as Transitioned Associates under the Plan. For employees with less than five years of service at March 1, 1994, GM credited service before March 1, 1994 counts for AAM benefits as well as eligibility. All credited service counts for Part B benefits for employees who contribute at all times while eligible; otherwise only credited service while contributing counts for Part B benefits.

Under the Voluntary Compliance Program (VCP) in 2010, fourteen non-grandfathered non-highly compensated participants were granted an additional year of benefit accrual for 2009.

Similarly in 2012, sixteen non-grandfathered, non-highly compensated participants were granted an additional year of benefit accrual for 2011.

Benefit Formula All benefits were frozen as of December 31, 2006 for non-grandfathered participants and as of December 31, 2011 for grandfathered participants. Benefits are based on the credited service, basic benefit rate, and base pay as of the freeze date. There are no additional employee contributions after the freeze date.

Part A: Monthly pension of \$51.65 times credited service.

Part B:

- Basic: Annual pension equals 100% of the Participant's contributions.
- Supplemental: Monthly pension is 1% of excess average monthly base pay times credited service. Excess average monthly base pay is the excess of average monthly base pay over 100 times the Part A basic benefit rate for Class D (\$51.65). Average monthly base salary is the average salary rate for the highest 60 months during the last 120 months of employment before the freeze date.

Accrued Pension: The sum of the accrued Part A and Part B pensions earned by the Participant and payable from the plan's normal retirement date as a single life annuity.

Participant Contributions 1.25% of monthly base salary in excess of \$3,400. No further contributions are required after 35 years. No contributions after the freeze date.

2014 Window Benefit In the fall of 2014, there was a limited time program called the AAM Pension Payout Offer. Under this program, terminated vested participants were offered a lump sum or immediate annuity as of December 1, 2014. Alternatively, participants could take no action under the program and would still be entitled to their annuity benefit upon attainment of retirement eligibility.

2019 Window Benefit In the fall of 2019, there was a limited time program called the AAM Pension Payout Offer. Under this program, eligible terminated participants and surviving spouses were offered a lump sum or immediate annuity as of December 1, 2019. Alternatively, participants and surviving spouses could take no action under the program and would still be entitled to their annuity benefit upon attainment of retirement eligibility.

2021 Retiree Annuity Purchase In November 2021, retirees and in-payment beneficiaries in all subplans with monthly benefits less than or equal to \$1,000, who were in-payment as of January 1, 2021, were settled through the purchase of an annuity contract. Assets and liabilities for the affected participants and beneficiaries were transferred to American International Group (AIG) for payments commencing January 1, 2022. Participants and beneficiaries were excluded if their benefit was impacted by a QDRO, they were disabled retirees who had not yet reached age 55, they had retiree medical coverage, they resided out of the US, or they had other administrative complexities.

Benefits at Retirement

(a) Normal Retirement:

Eligibility: Age 65

Benefit: The accrued pension.

(b) Early Retirement:

Eligibility: (1) Age 55 with at least 10 years of credited service, (2) if hired by GM before 1988, any age after completion of 30 years of credited service or (3) if hired by GM before 1988, age 55 with at least 85 points (sum of age and credited service). Service after the freeze date is counted for eligibility purposes.

Benefit: The accrued pension, reduced for early commencement, plus a supplement. Sample early retirement factors are as follows:

Age	1) On or after age 60 or 2) Pre 1988 hires with a) 30 years of service or b) 85 points	Age 55 to 60 (Less Than 85 Points or Hired After 1987)
65	100.0%	100.0%
62	100.0%	78.4%
60	86.7%	64.0%
55	57.9%	46.0%

For Participants hired by GM before 1988, reductions in Part A pensions are restored at age 62 if the Participant has at least 30 years of service, or if the sum of the Participant's age and credited service at retirement is at least 85.

Supplements:

- Early retirement supplement: Participants hired by GM before 1988 who retire with at least 30 years of credited service are entitled to a monthly supplement until age 62. The amount is equal to the excess of a total benefit amount determined as for an hourly employee (\$3,020), over the sum of Participant's reduced Part A and Part B supplemental pensions. Supplements are prorated based on credited service as of the freeze date, for participants whose credited service was frozen for benefit accrual purposes, but continued to grow for benefit eligibility purposes.

SCHEDULE SB ATTACHMENTS

- Interim supplement: For Participants hired by GM before 1988 who retire with less than 30 years of credited service, a monthly interim supplement is payable until age 62. The interim supplement is equal to a rate at age of retirement as described in the Hourly Plan summary multiplied by credited service, reduced by Part B Supplementary Benefits. Supplements are prorated based on credited service as of the freeze date, for participants whose credited service was frozen for benefit accrual purposes, but continued to grow for benefit eligibility purposes.

All early retirement supplements are payable beyond age 62 for individuals born between 1938 and 1945. These supplements are payable to the Social Security retirement age in which 80% of the normal benefit is payable.

(c) Disability Retirement:

Eligibility: On disability leave from active service for a minimum duration of 5 months (or diagnosed as terminal), after completing at least 10 years of eligibility service, and before reaching age 65. If approved, the disability retirement date is determined by the following factors:

If the accrued pension benefit amount is greater than the Extended Disability benefit amount, then the disability retirement date is the later of the first of the month Sickness & Accident Maxes or the first of the month in which the benefit application was received by American Axle.

If the Extended Disability benefit amount is greater than the accrued pension benefit amount, then the disability retirement date is the later of the first of the month Sickness and Accident Maxes or the first of the third month after the application was received by American Axle.

Benefit: The accrued pension without reduction for early commencement plus a temporary benefit. For participants born between 1938 and 1945, the temporary benefit is payable to the Social Security retirement age in which 80% of the normal benefit is payable. For all other participants, the temporary benefit is payable until age 62. The monthly temporary amount is determined as described in the Hourly Plan summary. If the Participant has at least 30 years of credited service and was hired by GM before 1988, an early retirement supplement is also payable. The unreduced accrued pension and the temporary benefit are both subtracted in calculating the early retirement supplement for a special early retirement. American Axle assumes the individual has been approved for SSDI unless the participant provides proof otherwise, and then receives the temporary benefit.

(d) Deferred Vested Benefit:

Eligibility: Termination of employment before eligibility for retirement and for Part A and Part B supplemental pensions, after completing at least five years of service.

Benefit: The full accrued pension is payable at age 65. A reduced pension is available as early as age 55. Sample reduction factors are as follows:

Age	Factor
65	100.0%
62	78.4%
60	64.0%
55	42.8%

Effective for annuity starting dates on or after January 1, 2024, an immediate annuity may be elected by a deferred vested participant at any age. Annuities reduced for early commencement to ages less than those with plan early commencement reduction factors are reduced by the plan actuarial equivalence. See the Forms of Payment – Lump Sum section below for more detail on how the benefit is calculated.

(e) Early Retirement Window Retirement:

An Early Retirement Window called the VSRIP (Voluntary Salaried Retirement Incentive Program) was offered in 2008 and 2009. Participants received up to three years (two in 2009) of age and/or service to attain retirement eligibility. The additional years of age and service are also reflected in the calculation of benefits and early retirement reduction factors.

A cash balance account was also established under the plan and participants who did not need additional age or service to attain retirement eligibility received a \$50,000 account addition. Participants who did need additional age or service to attain retirement eligibility received a \$35,000 account addition.

Pre-retirement Death Benefits

(a) Eligibility: Death while a Participant

(b) Benefits:

Unmarried: Lump sum payment of the Participant's contributions plus interest.

Participant who is married (for at least one year on the date of death) but

not eligible to retire: Deferred pension equal to 50% of the Participant's accrued Part B (primary plus supplemental) benefit plus, if the Participant is vested, a deferred pension equal to 50% of the Participant's accrued Part A pension, both payable at the Participant's normal retirement age.

Participant who is married (for at least one year on the date of death) and eligible to retire: An immediate pension of 65% of the Participant's accrued Part B (primary plus supplemental) pension plus 65% of the Participant's immediate Part A benefit under the automatic 65% joint and survivor form.

Forms of Payment

- (a) Pre-retirement Spouse's Pensions: Payable for the life of the spouse. Effective for annuity starting dates on or after January 1, 2024, the surviving spouse of a Participant may elect to receive their survivor benefits as a lump sum payment in lieu of the survivor annuity.
- (b) Supplements and Temporary Pensions: Payable for the life of the Participant, but not beyond age 62 (extended beyond 62 for participants born between 1938 and 1945 to the Social Security retirement age at which 80% of the normal benefit is payable).
- (c) Regular Pensions:

Normal form: Single life annuity.

Automatic option for married Participants: A reduced 65% joint and survivor annuity with the spouse as beneficiary. The reduction is 5% plus/minus 0.5% for each year above five that the spouse is younger/older than the Participant, respectively (reduction not less than zero). The reduction is restored if the spouse dies before the participant. For participants whose Part A early retirement reduction is restored at age 62, the joint & survivor reduction is based on the post 62 benefit. For disability retirements before 55, the continuation percentage is 50% (instead of 65%), the reduction is actuarial equivalent (instead of 0.5% per year) and the benefit payable to the surviving spouse is deferred until the date in which the participant would have attained age 55. The standard automatic spouse provisions apply once the disability pensioner attains age 55.

Other joint & survivor options: The Plan offers optional joint and survivor annuities.

Lump Sum: Effective for annuity starting dates on or after January 1, 2024 the Plan offers a single lump sum payment option.

- (d) Contribution Withdrawals: Terminated Participants may elect to withdraw their contributions plus interest in a lump sum. Participants

with less than five years of service who elect these options receive no other benefits. Participants who elect this option and have more than five years of service forfeit the employee-provided and supplementary portion of the Part B pension.

- (e) Lump Sums: Effective for Annuity Starting Dates on or after January 1, 2024, a Participant may elect a single lump sum payment. This benefit is available to active participants and terminated vested participants, who have not yet commenced their benefit. If the participant (1) has met early, normal or late retirement eligibility, or (2) has met disability retirement eligibility and is age 55 or older at the Annuity Starting Date, or (3) is deferred vested and is age 55 or older at the Annuity Starting Date, the lump sum is the greater of the present value of (A) the actuarial equivalent present value of the accrued benefit payable as of normal retirement date and (B) the actuarial present value of the accrued benefit payable as of the benefit commencement date reflecting plan early reduction factors, including the ERF pop-up, and including any early retirement supplements and temporary benefits. If the participant has not met any of the three requirements listed above, the lump sum is the present value of the deferred to age 65 accrued benefit.

Mandatory Lump Sums: Effective for Annuity Starting Dates on or after January 1, 2024, lump sums are the only payment option for Participants, Alternate Payees and Beneficiaries with lump sum values that do not exceed \$7,000.

Maximum Benefit and Pay

No benefit payable to a Participant can exceed the IRC Section 415 limit for the plan year. The amount of pay considered in figuring contributions of benefits for a year is limited by IRC Section 401(a)(17).

Actuarial Equivalence (lump sums)

The Actuarial equivalent lump sum present value of a Participant's Accrued Benefit shall be computed using applicable mortality and applicable interest rates, as of the year of commencement. The applicable mortality table is the IRC Section 417(e) Prescribed Mortality for the Plan Year in which the Participant's Annuity Starting Date occurs. The applicable interest rates are the segment rates under IRC 417(e) for the month of August preceding the first day of the Plan Year during which the Participant's Annuity Starting Date occurs.

Benefit Formula

The accrued benefit is a monthly single life annuity at Normal Retirement Date, equal to the greater of (A) the Actuarial Equivalent of the Participant's projected Cash Balance Account at Normal Retirement Date or (B) the Participant's Minimum Benefit.

- (A) Cash Balance Account: As of the date an employee becomes a Participant, a hypothetical account is established. On January 1 of each year, an amount is credited to a Participant's account equal to a percentage of the Participant's Base Salary for the prior Plan Year. Contribution credits cease for AAM participants effective January 1, 2007 and for Colfor and MSP participants effective January 1, 2010. The applicable percentage is based on Contribution Points, as follows:

Colfor and MSP Participants – Pre January 1, 2010 (Post January 1, 2010 is 0%)

Participant's Contribution Points	Percent of Base Salary Allocated
Less than 50 points	1.5%
50 to 69 points	2.0%
70 to 89 points	2.5%
90 points or more	3.0%

American Axle Participants – Pre January 1, 2007 (Post January 1, 2007 is 0%)

Participant's Contribution Points	Percent of Base Salary Allocated
Less than 40 points	2.5%
40 to 59 points	3.0%
60 to 79 points	4.0%
80 points or more	5.0%

A Participant receives one age point for each year of age he or she has attained on the date of calculation, one service point for each year of benefit service attained at the date of calculation, and for Colfor and MSP participants, one service point for each year of benefit service prior to April 1, 1999. The Participant's contribution points are the sum of their age and service points on that date.

At the end of each calendar quarter, the Participant's account is credited with one quarter of the average Ten Year Treasury Constant Maturity rate effective for the November lookback month. For the 2017 plan year, a transition comparison will be used to set the interest crediting rate to be the greater of the old and the new interest crediting rate method. The prior interest crediting rate method was based on the Ten Year Constant Treasury Maturity rate effective at the beginning of the plan year. Interest credits continue after January 1, 2007 for AAM participants and after January 1, 2010 for Colfor and MSP participants.

Upon termination of employment, pay-based credits cease, but interest-based credits continue to be earned. Upon benefit commencement, interest based credits also cease.

(A) Opening account balances for Participants as of January 1, 2001, were set equal to the product of:

- (i) Participant's Base Salary for December 2000
- (ii) Participants Benefit Service as of January 1, 2001
- (iii) Participant's Contribution Percentage based on his or her Contribution Points on January 1, 2001

(B) Minimum Benefit

\$22 multiplied by the Participant's years of Benefit Service credited while an eligible employee of Colfor or MSP.

Normal Retirement

Eligibility: Termination of employment on Normal Retirement Date.

Benefit: The Accrued Benefit determined at Normal Retirement Date.

Early Retirement

Eligibility: Termination of employment after completion of 5 Years of Service and attainment of age 55, but before Normal Retirement Date.

Benefit: The Accrued Benefit at date of early retirement, reduced 6.0% for each year that early commencement precedes age 65.

Late Retirement

Eligibility: Termination of employment after Normal Retirement Date.

Benefit: The Accrued Benefit determined at Late Retirement Date.

Deferred Vested Retirement

Eligibility: Termination of employment after completion of three Years of Service and before eligibility for retirement. Previously a five-year requirement before the Pension Protection Act.

Benefit: The full Accrued Benefit is payable at age 65. A Participant entitled to a Deferred Vested Benefit may elect commencement of his or her benefits, either in the form of a lump sum distribution or in the form of a reduced annuity, at the attainment of age 55. Reductions for commencement of retirement annuities before age 65 consistent with the Early Retirement section above.

Early Retirement Window Retirement

An Early Retirement Window called the VSRIP (Voluntary Salaried Retirement Incentive Program) was offered to AAM participants in 2008 and 2009. Participants received up to three years (two in 2009) of age and/or service as needed to attain retirement eligibility. Participants who did not need additional age or service to attain retirement eligibility received a \$50,000 cash balance account addition, while those participants who did need additional age or service to attain retirement eligibility received a \$35,000 cash balance account addition.

Preretirement Surviving Spouse's Benefit

Eligibility: Married Participants who die after having completed three Years of Service and before having commenced benefits.

Benefit: The Preretirement Death Benefit shall be the Actuarial Equivalent of the Participant's Cash Balance Account; provided, the Participant's spouse is his or her Beneficiary. The benefit payable to the spouse shall not be less than:

- i. If the Participant dies after age 55, the spouse's interest under a 50% Qualified J&S Annuity.
- ii. If the Participant dies before age 55, the spouse's interest as though the Participant terminated on date of death (if actively employed when died), survived to age 55, retired electing a 50% Qualified J&S Annuity, then died the next day.

Normal Form of Payment

Single Participants and Participants Married less than 1 year: Straight Life Annuity.

All other: 50% Joint and Survivor Annuity. The benefit payable to the Participant is 93% of the Accrued Benefit otherwise payable, if the Participant and spouse are within 5 years of age. If the age difference is greater than 5 years, the reduction shall be the actuarial equivalent of the Straight Life Annuity form of payment, computed using the Uninsured Pensioner's

Mortality Table of 1994 and an interest rate assumption of 8%.

Alternate Forms of Payment

- Lump Sum: as an alternative to the normal payment forms, participants are permitted to receive the actuarial equivalent of their accrued benefits as a lump sum distribution.
- 75% Joint and Survivor Annuity. The benefit payable to the Participant is 90% of the Accrued Benefit otherwise payable, if the participant and spouse are within five years of age. If the age difference is greater than five years, the reduction shall be the actuarial equivalent of the Straight Life Annuity form of payment, computed using the Uninsured Pensioner's Mortality Table of 1994 and an interest rate assumption of 8%.

Maximum Benefit

No benefit payable to a Participant can exceed the IRC Section 415 limit for the plan year.

Plan Changes since Prior Valuation

Effective for Annuity Starting Dates on or after January 1, 2024, participants, beneficiaries, and alternate payees may now elect a lump sum payment option in lieu of a monthly annuity.

The lump sum or immediate annuity may be taken by terminated vested participants at any age effective January 1, 2024.

Effective for Annuity Starting Dates on or after January 1, 2024, the mandatory cashout threshold has been increased to \$7,000.

Grandfathered Participants

UAW participants who are an active participant on December 31, 2008 and have at least 20 years of credited service under the plan as of December 31, 2008 and not at Three Rivers. All IAM Detroit 4/5 participants are grandfathered, but terminated in 2009 due to the location's closing.

Service

Credited Service: One year for each calendar year for which the employee is credited with 1,700 or more hours, with proportionate credit if the employee is credited with less than 1,700 hours. Hours include paid hours as well as hours credited for certain periods during which the employee is on leave or laid off. Extra service credits are granted for employment in foundry jobs (this applies to GM periods of employment only, as AAM has no foundries).

Credited Service is frozen for all Three Rivers participants as of December 31, 2008. For all other locations, non-grandfathered participants will have their credited service frozen for all benefits as of December 31, 2008. UAW grandfathered participants will have their credited service frozen for supplementary benefits only and IAM grandfathered participants will not have any service frozen. Service after December 31, 2008, will continue for all participants in regards to vesting purposes and determining benefit eligibility.

ERISA Service: Calendar years during which an employee completes at least 750 ERISA hours of service, excluding years before the employee's 18th birthday. ERISA hours of service are regular time hours which the employee is paid for the performance of duties.

Service both before and after March 1, 1994, counts towards meeting eligibility requirements for all employees and towards benefits for employees who were not vested in their GM benefits on March 1, 1994.

Life Income Benefit

All benefits will be frozen for non-grandfathered participants as of December 31, 2008. An employee's life income benefit is a monthly single life annuity equal to the product of the employee's credited service times the life income benefit rate from the following table:

Benefit Class Code	Cheektowaga Net Tech & Three Rivers 11.5	All Others

Lump Sum Separation Benefit The UAW Special Separation Program (SSP) and Tonawanda Forge IAM Closing Separation Program (CSP) were offered in 2008. These included a number of lump sum payment options depending on the participant's age, service and election. If the participant had attained age 55, the lump sum was payable from the pension plan. Consequently, a cash balance account was established under the plan to provide this retirement incentive.

2014 Window Benefit In the fall of 2014, there was a limited time program called the AAM Pension Payout Offer. Under this program, terminated vested participants were offered a lump sum or immediate annuity as of December 1, 2014. Alternatively, participants could take no action under the program and would still be entitled to their annuity benefit upon attainment of retirement eligibility.

2019 Window Benefit In the fall of 2019, there was a limited time program called the AAM Pension Payout Offer. Under this program, eligible terminated participants and surviving spouses were offered a lump sum or immediate annuity as of December 1, 2019. Alternatively, participants and surviving spouses could take no action under the program and would still be entitled to their annuity benefit upon attainment of retirement eligibility.

2021 Retiree Annuity Purchase In November 2021, retirees and in-payment beneficiaries in all subplans with monthly benefits less than or equal to \$1,000, who were in-payment as of January 1, 2021, were settled through the purchase of an annuity contract. Assets and liabilities for the affected participants and beneficiaries were transferred to American International Group (AIG) for payments commencing January 1, 2022. Participants and beneficiaries were excluded if their benefit was impacted by a QDRO, they were disabled retirees who had not yet reached age 55, they had retiree medical coverage, they resided out of the US, or they had other administrative complexities.

(c) Regular Early Retirement:

Eligibility: Age 60 and at least 10 years of credited service, age 55 and age plus credited service equals at least 85, or completion of 30 years of credited service at any age.

Benefit: The accrued life income benefit, reduced for early commencement, plus a supplement. Sample early retirement factors are as follows:

Age	Early Retirement Factor
62 and above	100.0%
60	86.7%
55	57.9%
50	38.3%
45	26.1%
42	21.0%

Reductions in life income benefits are restored at age 62 (for participants satisfying the Age Creep criteria, the Social Security retirement age at which 80% of the normal benefit is payable) if the Participant has at least 30 years of credited service or if the sum of the Participant's age and credited service at retirement is at least 85.

Benefits at Retirement

(a) Supplements:

For all UAW participants, grandfathered and non-grandfathered, supplement benefit accruals have been frozen as of December 31, 2008. Service will continue to grow for benefit eligibility purposes. Service for supplements has not been frozen for IAM Detroit 4/5 participants or Tonawanda IAM participants.

- Early retirement supplement:

For Participants with at least 30 years of credited service, a monthly supplement is payable until age 62 (for participants satisfying the Age Creep criteria, payable until the Social Security retirement age in which 80% of the normal benefit is payable). The amount is equal to the excess of a total benefit amount over the employee's reduced life income benefit.

The current monthly total benefit amounts are as follows:

58	32.70	36.60
59	36.50	40.85
60-61	42.25	47.30

- 70% Base Pay Limitation – Applies to early retirement supplement and interim supplement: If the total of the participant’s monthly pension and monthly supplement exceed 70% of the participant’s final monthly base pay, such monthly supplement (but not the basic benefit) shall be reduced to the extent required so that the sum of the monthly pension and the monthly supplement equals 70% of the participant’s final monthly base pay.

(b) Mutually Satisfactory Retirement (MSR):

- Eligibility: Age 55, at least 10 years of credited service, and termination caused by conditions specified in the pension agreement (Age 50 if plant shut down).
- Benefit: The accrued life income benefit without reduction for early commencement plus a temporary benefit. The temporary benefit is payable until age 62 (for participants satisfying the Age Creep criteria, payable until the Social Security retirement age in which 80% of the normal benefit is payable) and the monthly amount is the product of credited service (maximum 30 years) times the temporary benefit rate. The current temporary benefit rates are:

Location	Rate	Maximum
Cheektowaga Net Tech and Three Rivers 11.5	\$44.45	\$1,333.50
All Others	\$49.80	\$1,494.50

- If the Participant has at least 30 years of credited service, an early retirement supplement is also payable. The unreduced accrued life income pension and the temporary benefit are both subtracted in

(c) Total and Permanent Disability Retirement:

- Eligibility: Total and permanent disability from active service for a minimum duration of 5 months (or diagnosed as terminal), after completing at least 10 years of eligibility service, and before reaching age 65. Total and permanent disability means a disability wholly and permanently preventing the employee of engaging in regular occupation or employment at the plant where he or she has seniority. If approved, the disability retirement date is determined by the following factors:

If the accrued pension benefit amount is greater than the Extended Disability benefit amount, then the disability retirement date is the later of the first of the month Sickness & Accident Maxes or the first of the month in which the benefit application was received by American Axle.

If the Extended Disability benefit amount is greater than the accrued pension benefit amount, then the disability retirement date is the later of the first of the month Sickness and Accident Maxes or the first of the third month after the application was received by American Axle.

- Benefit: Same as the mutually satisfactory retirement benefits. Temporary benefit only available when proof of Social Security Disability Insurance Benefits has been denied.

(d) Deferred Vested Retirement:

- Eligibility: Loss of credited service due to quit, discharge, release or break in seniority before eligibility for retirement and after completing at least five years of credited or ERISA service.

Annuities reduced for early commencement to ages less than those with plan early commencement reduction factors are reduced by the plan actuarial equivalence. See the Forms of Payment – Lump Sum section below for more detail on how the benefit is calculated.

(e) Age Creep:

Extension of early retirement supplements and delay of restoration of ERF from age 62 to the Social Security Retirement Age at which 80% of the normal Social Security benefit is payable. The following participants are eligible for the age creep:

- Participants who retired prior to the effective date of the 2004 collective bargaining agreement or during the term of the 2004 collective bargaining agreement, attained age 62 during the term of the collective bargaining agreement, and were born from 1941 – 1945 (1938 – 1940 were granted under prior collective bargaining agreements).
- IAM Detroit 4/5 participants who retired prior to the effective date of the 2007 collective bargaining agreement or during the term of the 2007 collective bargaining agreement, attained age 62 during the term of the collective bargaining agreement, and were born from 1945 – 1947.
- UAW participants who retired on or after May 23, 2008 and before January 1, 2009.

The January 1, 2009 limitation does not apply for participants who retired under the Special Separation Program in 2008 but were not released by the corporation until after January 1, 2009 or for participants who elected a 30 year grow-in retirement in 2008.

Pre-retirement Surviving Spouse Benefit

- (a) Eligibility: Death while married after completion of at least 5 years of credited or ERISA service and at least one year of marriage.
- (b) Benefits: The death benefit for spouses of Participants who die before eligibility for early retirement is a pension based on 50% of the Participant's deferred vested pension commencing at the Participant's earliest retirement date.

The death benefit for spouses of Participants who die while eligible for early retirement is an immediate annuity equal to the amount which would have been payable to the spouse under the automatic surviving spouse option had the Participant retired on the date of his or her death.

Effective for annuity starting dates on or after January 1, 2024, the surviving spouse may elect to receive their survivor benefits as an immediate annuity regardless of age.

Forms of Payment

- (a) Pre-retirement Surviving Spouse Benefit: Payable for the life of the spouse.
- (b) Supplements and Temporary Pensions: Payable for the life of the Participant, but not beyond age 62 (extended beyond 62 for participants satisfying the Age Creep criteria to the Social Security retirement age in which 80% of the normal benefit is payable).
- (c) Regular Pensions:
- Automatic form for single Participants: Single life annuity.
 - Automatic surviving spouse option for married Participants: For most retirements a reduced 65% contingent annuity with the spouse as contingent annuitant. The reduction is 5% plus/minus 0.5% for each year above five that the spouse is younger/older than the Participant, respectively (reduction not less than zero). The reduction is restored if the spouse dies before the participant. For participants whose early retirement reduction is restored at age 62, the joint and survivor reduction is based on the post 62 benefit. For disability retirements before age 55 with less than 30 years of service, the continuation percentage is 50% (instead of 65%), the reduction is actuarial equivalent (instead of 0.5% per year) and the benefit payable to the surviving spouse is deferred until the date in which the participant would have attained age 55. The standard automatic spouse provisions apply once the disability pensioner attains age 55.

- Lump Sum: Effective for annuity starting dates on or after January 1, 2024 the Plan offers a single lump sum payment option.

(d) Lump Sums: Through the UAW Special Separation Program and Tonawanda Forge IAM Closing Separation Program, lump sum payments were added to the plan. Additionally, alternative payees may elect to receive their benefits as a lump sum.

Effective for Annuity Starting Dates on or after January 1, 2024, a Participant may elect a single lump sum payment. This benefit is available to active participants and terminated vested participants, who have not yet commenced their benefit. If the participant (1) has met early, normal or late retirement eligibility, or (2) has met disability retirement eligibility and is age 55 or older at the Annuity Starting Date, or (3) is deferred vested and is age 55 or older at the Annuity Starting Date, the lump sum is the greater of the present value of (A) the actuarial equivalent present value of the accrued benefit payable as of normal retirement date and (B) the actuarial present value of the accrued benefit payable as of the benefit commencement date reflecting plan early reduction factors, including the ERF pop-up, and including any early retirement supplements and temporary benefits. If the participant has not met any of the three requirements listed above, the lump sum is the present value of the deferred to age 65 accrued benefit.

Effective for Annuity Starting Dates on or after January 1, 2024, lump sums are the only payment option for Participants, Alternate Payees and Beneficiaries with lump sum values that do not exceed \$7,000.

Maximum Benefit No benefit payable to a Participant can exceed the IRC Section 415 limit for the plan year.

Actuarial Equivalence (lump sums) The Actuarial equivalent lump sum present value of a Participant's Accrued Benefit shall be computed using applicable mortality and applicable interest rates, as of the year of commencement. The applicable mortality table is the IRC Section 417(e) Prescribed Mortality for the Plan Year in which the Participant's Annuity Starting Date occurs. The applicable interest rates are the segment rates under IRC 417(e) for the month of August preceding the first day of the Plan Year during which the Participant's Annuity Starting Date occurs.

Coordination with GM Pension Plan

For GM employees who became AAM employees on March 1, 1994:

- If the employee retires from AAM or GM on or before September 14, 1996, the GM Pension Plan will pay the full benefit for AAM and GM service. AAM will pay GM the lump sum value of the benefit for AAM service.
- The GM Pension Plan will recognize AAM service for eligibility.
- They are considered Transitioned Associates.
- Benefits will be determined based on total credited service with both AAM and GM and then allocated to the respective plans in proportion to service with each employer.
- AAM supplements will not be reduced by basic benefits for employees with 30+ years of credited service on March 1, 1994.
- AAM will pay a benefit until age 62 based on combined AAM/GM service to any mutually satisfactory retirement from AAM who does not qualify for normal, regular early or disability retirement under the GM plan.

Benefit Restrictions

As of September 29, 2009, the plan was placed under full benefit restrictions such that no lump sums may be paid from the plan and the plan continued under full accelerated payment restrictions for 2010 and 2011. There were no restrictions on benefit accruals during 2009 due to WRETA allowing a look back to prior AFTAPs. There were restrictions on accruals effective January 1, 2010, but these have since been lifted due to subsequent legislation (Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act of 2010) that allows using prior AFTAPs for this purpose. Restrictions on accruals were in place as of January 1, 2011 and as of January 1, 2012. However, the plan was re-certified as of September 14, 2012, allowing benefit accruals to resume and changing the restrictions on lump sums to partial distributions. The plan was certified on March 29, 2013 lifting restrictions on lump sum distributions.

Plan Changes since Prior Valuation

Effective for Annuity Starting Dates on or after January 1, 2024, participants, beneficiaries, and alternate payees may now elect a lump sum payment option in lieu of a monthly annuity.

The lump sum or immediate annuity may be taken by terminated vested participants at any age effective January 1, 2024.

Effective for Annuity Starting Dates on or after January 1, 2024, the mandatory cashout threshold has been increased to \$7,000.

2021 Retiree Annuity Purchase In November 2021, retirees and in-payment beneficiaries in all subplans with monthly benefits less than or equal to \$1,000, who were in-payment as of January 1, 2021, were settled through the purchase of an annuity contract. Assets and liabilities for the affected participants and beneficiaries were transferred to American International Group (AIG) for payments commencing January 1, 2022. Participants and beneficiaries were excluded if their benefit was impacted by a QDRO, they were disabled retirees who had not yet reached age 55, they had retiree medical coverage, they resided out of the US, or they had other administrative complexities.

Definitions

Accrued Benefit	Monthly single life annuity payable at age 65 equal to the sum of: <ul style="list-style-type: none">• \$20 times benefit service credited prior to June 1, 2005• \$21 times benefit service credited from June 1, 2005 to June 1, 2007• \$22 times benefit service credited from June 1, 2007 to June 1, 2008• \$23 times benefit service credited from June 1, 2008 to June 1, 2009• \$24 times benefit service credited after June 1, 2009
Year of Service	A consecutive 12-month period during which 1,000 hours of service are credited. Service for eligibility purposes continues beyond freeze date.
Benefit Service	One year of Benefit Service for each calendar year after April 1, 2000 during which the Participant has worked 1,801 hours. If employee became a participant on April 1, 2000, then benefit service is granted beginning on April 1, 1999. Partial credit is given for a calendar year in which less than 1,801 hours but more than 1,000 hours are worked. Service rendered prior to April 1, 1999 shall be disregarded. Benefit service will cease as of the freeze date noted above.
Normal Retirement Date	The first day of the month coincident with or next following attainment of age 65.

Benefits at Retirement

Normal Retirement Benefit

Eligibility: Termination of employment on Normal Retirement Date.

Benefit: The Accrued Benefit determined at Normal Retirement Date.

Early Retirement

Eligibility: Termination of employment after completion of 5 Years of Service and attainment of age 55, but before Normal Retirement Date.

Benefit: The Accrued Benefit at date of early retirement, reduced 6.0% for each year that early commencement precedes age 65.

Late Retirement

Eligibility: Termination of employment after Normal Retirement Date.

Benefit: The Accrued Benefit determined at Late Retirement Date.

Deferred Vested Retirement

Eligibility: Termination of employment after completion of 5 Years of Service and before eligibility for retirement.

Benefit: The full Accrued Benefit is payable at age 65. The benefit payable at Normal Retirement Date is payable upon request as early as age 55, reduced for early commencement as described in the Early Retirement section above.

Effective for Annuity Starting Dates on or after January 1, 2024, an immediate annuity may be elected by a deferred vested participant at any age. Annuities reduced for early commencement to ages less than those with plan early commencement reduction factors are reduced by the plan actuarial equivalence. See the Alternative Forms of Payment – Lump Sum section below for detail on how the lump sum is calculated.

Preretirement Surviving Spouse's Benefit

Eligibility: Married Participants who die after having completed 5 Years of Service and before having commenced benefits.

Benefit: A pension beginning on the spouse's benefit commencement date and payable for the life of the spouse. The spouse's benefit commencement date is the later of (a) the first day of the month following the Participant's death and (b) the earliest date on which the Participant could have elected to begin receiving a pension. The amount of the spouse's pension is 50% of the pension (based on the pension accrued by the Participant at death) that would have been payable to the Participant commencing on the spouse's benefit commencement date under the normal form of payment applicable to a married Participant. Effective for annuity starting dates on or after January 1, 2024, the surviving spouse of a Participant may elect to receive their survivor benefits as an immediate annuity regardless of age.

Normal Form of Payment

- (a) Single Participants and Participants Married less than 1 year: Straight Life Annuity.
- (b) All other: 50% Joint and Survivor Annuity. The benefit payable to the Participant is 93% of the Accrued Benefit otherwise payable, if the Participant and spouse are within 5 years of age. If the age difference is greater than 5 years, the reduction shall be the actuarial equivalent of the Straight Life Annuity form of payment, computed using the Uninsured Pensioner's Mortality Table of 1994 and an interest rate assumption of 8%.

Alternate Forms of Payment

- (a) 75% Joint and Survivor Annuity
- (b) Lump Sums: Effective for Annuity Starting Dates on or after January 1, 2024, a Participant may elect a single lump sum payment. This benefit is available to active participants and terminated vested participants, who have not yet commenced their benefit. If the participant has met early, normal or late retirement eligibility, or is deferred vested and is age 55 or older at the Annuity Starting Date, the lump sum is the greater of the present value of (A) the actuarial equivalent present value of the accrued benefit payable as of normal retirement date and (B) the actuarial present value of the accrued benefit payable as of the benefit commencement date reflecting plan early reduction factors. If the participant is has not met either of the requirements listed above, the lump sum is the present value of the deferred to age 65 accrued benefit.

Effective for annuity starting dates on or after January 1, 2024, lump sums are the only payment option for Participants, Alternate Payees and Beneficiaries with lump sum values that do not exceed \$7,000.

Maximum Benefit

No benefit payable to a Participant can exceed the IRC Section 415 limit for the plan year.

Actuarial Equivalence (lump sums)

The Actuarial equivalent lump sum present value of a Participant's Accrued Benefit shall be computed using applicable mortality and applicable interest rates, as of the year of commencement. The applicable mortality table is the IRC Section 417(e) Prescribed Mortality for the Plan Year in which the Participant's Annuity Starting Date occurs. The applicable interest rates are the segment rates under IRC 417(e) for the month of August preceding the first day of the Plan Year during which the Participant's Annuity Starting Date occurs.

Benefit commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55.
- Retirement benefit Upon termination of employment
- Late Retirement Terminated vested participants over age 65 are assumed to receive an actuarial increase through age 70 ½ with interest rates and mortality under IRC §417(e).

Form of payment

Active participants upon termination: 75% elect lump sum, 25% elect annuity

Terminated Vested participants upon retirement: 50% elect lump sum, 50% elect annuity

Lump sums were valued using the substitution of annuity form under IRS Regulation §1.430(d)-1(f)(4).

Percent married

Salaried: 85% of males; 40% of females.

Hourly: 75% of males; 25% of females.

Colfor and MSP Hourly: 76.5% of males; 49.5% of females.

Percent electing joint and survivor coverage

Of those assumed to elect an annuity:

Salaried: 100% of married males; 50% of married females

Hourly: 100% of married males; 33.3% of married females

Colfor and MSP Hourly: 100% of married males; 100% of married females

Spouse's age

Wives 3 years younger than husbands.

Terminated vested participant benefit commencement date

Salaried Cash Balance: It is assumed active participants who terminate with vested benefits commence their benefits at age 55 (or at termination if later).

All Other Benefit Structures: It is assumed terminated vested participants commence their benefits at age 60.

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Actuarial Methods

Valuation date First day of plan year

Funding target Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets Smoothed Value of Assets: Average of market values (adjusted for contributions, benefit/expense payments, and expected investment returns) as of valuation date and prior two valuation dates.

Benefits not valued Except as noted here, all benefits described in the summary of plan provisions section were valued. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any other significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$7,000) in a single lump sum payment. Such lump sums are not explicitly valued; rather, such participants' benefits are valued using the benefit choice assumptions described above.

For the Hourly plan structure, the Mutually Satisfactory Retirement ("MSR") provision was not valued as it is assumed not to be triggered. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any other significant benefits required to be valued that were not.

Sources of Data and Other Information

WTW used asset data supplied by the trustee and participant data as of January 1, 2024 provided by AAM's third party administrator. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with AAM, assumptions or estimates were made by the WTW actuaries when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

Additional information about the data review and assumptions is outlined in our email sent to AAM on August 14, 2024. A summary of assumptions is as follows:

Data carried from prior year valuations: certain data fields are generally carried from the prior valuation when the information is not provided on the current year source file(s), including: beneficiary birth date, beneficiary gender, and the portion of vesting service attributable to service with General Motors ("GM") for "Active Transfer" records. For current year records provided with an "Active Transfer" valuation status, VestingServiceGM information is carried from the prior year and increased by 1 year of service. Note, beginning with the 1/1/2022 census data, WTW calculated and reflected a one-time estimate of the VestingServiceGM for "Active Transfer" records (a file with documentation of those estimates was originally provided to AAM on August 12, 2022) and WTW has continued to rely on those estimates as the underlying source of the VestingServiceGM data for the current valuation, and WTW intends to continue to do so for future valuations absent better information being available in the future.

Disabled Retirees: It was assumed that any record previously provided as a disabled retiree will remain disabled as long as they continue to be receiving benefits.

Date of Payment Change: assumed to be age 62 if not provided in the source file.

Beneficiary gender and beneficiary birth date: for surviving beneficiaries of deceased participants and contingent annuitants of living participants, if not provided on source files or carried from prior year, beneficiary gender is assumed to be the opposite of the participant gender, and beneficiary birth date is assumed to be +/-3 years relative to the participant birth date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using "annuity substitution" with the same "stabilized" segment rates

used for calculation of the funding target for minimum funding purposes.

Cash balance interest crediting rate

The plan credits interest to cash balance accounts using the 10-year Treasury average rate from November of the preceding plan year. The selected assumption uses the current rate for the initial year. If the current and long-term assumptions (based on capital market assumptions) are within 25 basis points, the future expected rates will be set equal to the initial year's rate. Should the current and long-term rates differ more than 25 basis points, the assumption for the interest crediting rate will grade from the initial year's rate to the long-term rate, linearly over 30 years.

Plan-related expenses

Plan-related expenses expected to be paid from the trust during the plan year are determined by taking the previous year's actual administrative expenses adjusted for changes in the PBGC premium and other known changes in administrative expenses from the prior year.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Disabled mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination

Termination rates were based on a past experience study, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Retirement

Retirement rates were based on a past experience study, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Form of payment

The percentage of retiring participants assumed to take lump sums is based on experience and assumptions for other plan sponsors in similar industries with similar plan designs, as there is not yet significant experience for this option in the AAM Pension Plan. The percentage of terminated vested participants assumed

to elect lump sums is lower to reflect the fact that some have been offered lump sums in limited time lump sum windows in the past.

The percentage of retiring participants assumed to take a joint and survivor annuities, and the assumed survivor percentages, are based on observed experience from a past experience study.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.
- The mortality table used to calculate the funding target and target normal cost was updated to the IRS generational tables for 2024 including PRI-2012 base table and the adjusted MP-2021 projection scale, as required by IRC §430.
- The long-term cash balance interest crediting rate was changed from 4.00% to 4.50% for funding target.
- Form of payment assumptions have been updated to reflect the plan change allowing lump sum distributions effective January 1, 2024.
- An assumption was added for actuarial increases for late commencements for terminated vested participants over age 65 as of the valuation date.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
