Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **BROWN PLUS ACCOUNTANTS AND ADVISORS**

(2) EIN: **25-1644159**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount

Independent Auditor's Report

Plan Administrator
Mutual Benefit Insurance Company Retirement Plan
Huntingdon, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Mutual Benefit Insurance Company Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and statements of accumulated Plan benefits as December 30, 2024 and 2023, and the related statement of changes in net assets available for benefits and statement of changes in accumulated Plan benefits for the year ended December 30, 2024 and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 30, 2024 and 2023, and for the year then ended December 30, 2024, stating that the certified investment information, as described in Note 2 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Mutual Benefit Insurance Company Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from issuance.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of assets held at end of year is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to, or is derived from, the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The Plan is a defined benefit pension plan covering substantially all employees of Mutual Benefit Insurance Company (the Company) and related entities, who have completed one year of service and attained age 21. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Any employee hired on or after February 1, 2011 is not eligible to participate in the Plan. Additionally, any former participants who are subsequently reemployed on or after February 1, 2011 are not eligible to become participants of the Plan.

Pension benefits:

Under the Plan, employees with five or more years of service are entitled to monthly pension benefits beginning at normal retirement age (65). The formula for normal retirement benefits is based on 1.2% of the average monthly compensation for each year of service prior to December 30, 1997, plus 1.0% of the average monthly compensation for each year of service after December 30, 1997, but before December 31, 2006, and .75% of the average monthly compensation for each year after December 30, 2006. Additionally, the employee receives .50% of average monthly compensation in excess of one-twelfth of covered compensation for each year of service after December 30, 1997 (not in excess of 35 years). As of December 30, 2006, all participants have at least a minimum normal retirement benefit equal to their accrued benefit.

An employee will automatically receive the value of his or her accumulated Plan benefits as a joint and 50% survivor annuity, if married, or a life annuity, if not married. An employee may elect not to take these annuities and to receive a monthly pension payable from various Plan options.

Early retirement:

Early retirement is permitted at age 55 with 15 years of credited service with actuarially reduced payments.

Disability benefit:

Any member who becomes disabled is entitled to receive a monthly payment if such disability occurs before his/her normal retirement date. The benefit will be the member's accrued benefit on the day before the participant's disability begins.

Death benefit:

Preretirement - For death of a participant during the period when eligible for a vested benefit, a benefit is payable to the surviving spouse equal to 50% of the amount which would have been payable to the participant under an actuarially equivalent Joint and Survivor Annuity beginning on the day the participant would have been first eligible to retire. If the participant has a transfer value (as defined in the Plan agreement), and is not married, the value of his or her lump-sum distribution (calculated as if he or she had retired) will be paid to his or her beneficiary as instructed by the annuity form.

Postretirement - None except as provided by the annuity form elected.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 30, 2024 (with comparative information at December 30, 2023)

1. Description of Plan and summary of significant accounting policies (continued):

Vested benefits:

All participants are 100% vested in their accrued benefits.

Funding policy:

The Company's funding policy is to contribute such amounts as are actuarially determined to provide assets sufficient to meet benefit payments. No contributions are made by employees. The minimum required Company contribution for 2024 was \$0. The Company elected to contribute \$707,608 in 2024. There was \$132,000 employer contribution receivable at December 30, 2024. There was no employer contribution receivable at December 30, 2023.

Plan termination:

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Basis of presentation:

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment valuation:

Mutual funds are stated at fair value as determined by quoted market prices. Pooled separate accounts are valued at net asset value (NAV) as determined by the issuers, which is fair value. Pooled separate accounts may be redeemed on a daily basis. There is no significant notice period associated with this category.

Payment of benefits:

Benefits to participants are recorded when paid.

Actuarial present value of accumulated Plan benefits:

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) present employees or their beneficiaries and (c) beneficiaries of employees who have died. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date.

MUTUAL BENEFIT INSURANCE COMPANY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 30, 2024 (with comparative information at December 30, 2023)

1. Description of Plan and summary of significant accounting policies (continued):

Actuarial present value of accumulated Plan benefits:

The actuarial present value of accumulated Plan benefits is actuarially determined and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations were as follows:

	2024	2023
Discount rate	6.50%	6.50%
Mortality	Pri-2012 total dataset (from RP2024 study) with Principal Mortality Improvement Scale (PFG2024) based on MIM-2021-v4 study and Principal-selected assumptions	Pri-2012 total dataset (from RP2023 study) with Principal Mortality Improvement Scale (PFG2023) based on MIM-2021-v3 study and Principal-selected assumptions
Retirement	65 years	65 years

The foregoing actuarial assumptions are based on the assumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

Use of estimates:

The preparation of financial statements in accordance with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from these estimates.

2. Investments and information certified by Principal Trust Company:

The Plan's investments are held by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the custodian of the Plan as of December 30, 2024 and 2023. Investment information disclosed in the accompanying financial statements and schedule of assets held at end of year, specifically investments held at December 30, 2024 and 2023 and net appreciation in fair value of investments and dividend income for the year ended December 30, 2024, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Principal Trust Company.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 30, 2024 (with comparative information at December 30, 2023)

3. Fair value measurement:

The Plan ranks investments required to be reported at fair value in a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset. Observable inputs reflect the assumptions market participants would use in pricing the asset based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the Plan's own assumptions about the assumptions that market participants would use in pricing the asset developed based on the best information available in the circumstances. The three levels of the fair value hierarchy are described below:

Level 1 – Quoted prices in active markets for identical investment.

Level 2 – Other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3 – Significant unobservable inputs (including the Plan's own assumptions in determining the fair value of investments).

See Note 1 for a description of the valuation methodologies used for assets measured at fair value.

Fair value measurements of investments in certain investments that calculate net asset value per share as of December 30, 2024 and 2023 were as follows:

<u>2024</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total fair value</u>
Pooled separate accounts, fixed income	<u>\$ 4,479,790</u>	<u>\$ 12,248,120</u>	<u>\$ -</u>	<u>\$ 16,727,910</u>

3. Fair value measurement (continued):

<u>2023</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total fair value</u>
Pooled separate accounts, fixed income	<u>\$ 4,902,081</u>	<u>\$ 12,563,424</u>	<u>\$ -</u>	<u>\$ 17,465,505</u>
Mutual funds:				
Large cap equity	4,412,753	-	-	4,412,753
Mid cap equity	2,130,850	-	-	2,130,850
International equity	2,386,626	-	-	2,386,626
Fixed income	<u>3,386,304</u>	<u>-</u>	<u>-</u>	<u>3,386,304</u>

Total	<u><u>\$ 17,218,614</u></u>	<u><u>\$ 12,563,424</u></u>	<u><u>\$ -</u></u>	<u><u>\$ 29,782,038</u></u>

Plan management has determined that investments in pooled separate accounts have a readily determinable fair value, that is, the NAV is published and available to current investors and is the basis for current transactions, and therefore, have been classified within the fair value hierarchy as of December 30, 2024 and 2023.

4. Plan termination:

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All non-vested benefits.

MUTUAL BENEFIT INSURANCE COMPANY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 30, 2024 (with comparative information at December 30, 2023)

4. Plan termination (continued):

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for by the then existing assets and the PBGC while other benefits may not be provided for at all.

5. Income tax status:

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 8, 2012, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan was restated effective December 31, 2021, and accordingly, the IRS determined and informed Principal Life Insurance Company in a letter dated March 30, 2018, that the volume submitter plan from which the Plan was restated and adopted is designed and in accordance with applicable sections of the IRC. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 30, 2024 there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Generally, the statute of limitations for the IRS to assess taxes on a plan expires three years from the due date of the return or the date on which it was filed, whichever is later.

6. Administrative expenses:

Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Fees related to the administration of distributions are charged directly to the participant's account and are included in administrative expenses. Investment related and recordkeeping expenses are included in total investment income, as they are paid through revenue sharing, rather than direct payment.

MUTUAL BENEFIT INSURANCE COMPANY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 30, 2024 (with comparative information at December 30, 2023)

7. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions will occur in the near term and such changes could be material to the financial statements.

8. Related party transactions:

Certain Plan investments are managed by Principal Life Insurance Company. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net depreciation in fair value of investments.

9. Concentrations:

Four investments accounted for approximately 56% and 59% of total investments at December 30, 2024 and 2023, respectively.

10. Subsequent events:

The Plan has evaluated subsequent events through September 10, 2025, the date which the financial statements were available to be issued.

Assumptions prescribed by law

Mortality	Before benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.
	During benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

Assumptions selected by actuary

Inflation	<p>2.40% increase per year.</p> <p>Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.</p>
Asset return	<p>6.00% for the current plan year.</p> <p>The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.</p>
Expected expense	<p>The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets. This is the best estimate available of upcoming year's expenses.</p>
Retirement	<p>Active and inactive participants are assumed to retire at normal retirement age as defined in Plan provisions.</p> <p>We don't have the plan experience necessary to directly set this assumption. Therefore, we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design. As we gain plan experience, we will monitor and make appropriate adjustments in the future.</p>
Upcoming year salary increase	<p>The preceding year's salary is increased by 4.25% at each age. Note: not used for Plan accounting calculations.</p> <p>Expected salary increase is composed of salary inflation, a real wage growth and a merit increase. We don't have the plan experience necessary to directly set this assumption. Therefore, we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design. As we gain plan experience, we will monitor and make appropriate adjustments in the future.</p>
Disability	<p>None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.</p>
Marriage	<p>80% married; husbands are 0 years older than wives.</p> <p>This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.</p>

Withdrawal

Actuary's Turnover Table T-3

Selected rates of withdrawal are shown below:

Age	Rate of withdrawal
25	5.27%
40	3.84%
55	0.33%

We don't have the plan experience necessary to directly set this assumption. Therefore, we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design. As we gain plan experience, we will monitor and make appropriate adjustments in the future.

Wage base increase

3.50% per year.

Our Wage Base increase assumption are based on inflation and the real wage differential forecast from Social Security Trustee Report. Based on average annual real wage growth forecast from the Social Security Trustee report and historical averages, our best estimate places this assumption at 3.50%.

Compensation limit increase

2.40% increase per year used in the calculation of the IRC 404 maximum deduction cushion. See [Calculated deduction](#) in Rules and regulations.

Compensation limit increase is consistent with the inflation assumption.

Form of benefit

Participants are assumed to receive their benefits on the normal form at the assumed retirement age.

We don't have the plan experience necessary to directly set this assumption. Therefore, we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design. As we gain plan experience, we will monitor and make appropriate adjustments in the future.

Methods prescribed by law

Liability measure

Funding target is the present value of the benefits accrued on the valuation date.

Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

Methods selected by plan sponsor

Asset method	Market value
Segment rates	24-month average with no weighting to prior law basis. Use rates where October is the last month included in the average.
PBGC premium basis	Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 12/31/2022 plan year and the method must be used for five years before a change can be made.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
5.50%	5.76%	5.83%

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	<p>A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.</p> <p>The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post-retirement death benefits for non-retired participants except as noted in the Plan provisions.</p>

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality Based on Pri-2012 Total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2023).

Mortality base rates

Before benefit payment period

Employee amount-weighted, male and female

During benefit payment period

Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement

Principal 2023 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2023
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2029/2029
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2023
COVID-19 or Excess load	None ¹

¹Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

See [Mortality documentation](#) for rationale and additional information.

Interest rate used to value liabilities	6.50% The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.
Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses. Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer. Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Lump sums in excess of SAFO - aren't allowed.

Conversion – greater of the deferred or immediate rate with early retirement factor based on the applicable interest rate and applicable mortality table as set forth in Code Section 417. The applicable interest rate uses the calendar month preceding the first day of the stability period which is the plan year.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Schedule SB, Line 24 – Change in Actuarial Assumptions
Mutual Benefit Insurance Company Retirement Plan
EIN 23-6200024 Plan No. 001

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has increased from 5.75% to 6.00%.
