REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Plan Administrator and Participants of
Washington Gas Light Company Savings Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit

We have performed audits of the financial statements of Washington Gas Light Company Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other matter – supplemental schedules required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

WASHINGTON GAS LIGHT COMPANY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of the Savings Plan

The following description of the Washington Gas Light Company Savings Plan (“Plan” or “Savings Plan”) provides only general information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”) and the Internal Revenue Code (“IRC”). Participants should refer to the plan document for a more complete description of the Plan’s provisions, copies of which may be obtained from the Plan Administrator as defined below.

General

The Plan is a defined contribution plan covering all management employees of Washington Gas Light Company (“Company” or “Plan Sponsor”) and certain of its affiliates. Employees are eligible to participate in the Plan on the date they become an employee. The Company is an indirect, wholly owned subsidiary of, among other entities, AtlaGas Ltd. (“AtlaGas”) and WGL Holdings, Inc. (“WGL”).

The assets of the Plan, excluding the notes receivables, are held and invested on a commingled basis in the Washington Gas Light Company Savings Plan and Washington Gas Light Company Capital Appreciation Plan/Union Employees’ Savings Plan Trust (the “Master Trust”) under an agreement between the Company and Empower Trust Company, LLC (the “Trustee”). Empower Retirement, LLC serves as recordkeeper (the “Recordkeeper”) of the Plan. The Savings Plan is administered by the Washington Gas Light Company Benefits Plan Committee (the “Plan Administrator”).

Contributions

The Savings Plan permits employees to contribute on both an after-tax and pre-tax basis. Under the pre-tax provision of the Savings Plan, employees can elect to contribute a portion of their pre-tax base compensation, as defined by the Plan, up to the Internal Revenue Service (“IRS”) limit, which increased from \$22,500 in 2023 to \$23,000 in 2024. The Company provides as a pre-tax matching contribution of 100% of the first 4% of a participant's base compensation contributed. Participants age 50 and older (by year end) are eligible to make catch-up contributions of \$7,500 for both 2023 and 2024. There is no employer match for catch-up contributions.

Under the after-tax provision of the Savings Plan, employees may contribute as a basic (match-qualifying) contribution up to 4% of their base compensation. The Company contributes as an after-tax matching contribution 100% of the first 3% of base compensation that an employee contributes. The Plan also includes an after-tax provision for additional voluntary contributions,

WASHINGTON GAS LIGHT COMPANY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS (continued)

up to 10% of base compensation on an after-tax basis, for which the Company provides no matching contribution. Accordingly, on an after-tax basis, employees may contribute up to 14% of base compensation by making both basic and voluntary contributions. Employees may not contribute more than 50% of their total base compensation in pre-tax and after-tax contributions subject to the IRS dollar limits described above. In addition, employees may not contribute more than 75% of their total base compensation in pre-tax, after-tax and “catch-up” contributions subject to the IRS dollar limits described above.

Effective January 1, 2019, participants can also make Roth after-tax contributions to the Plan. The Company provides a matching contribution of 100% of the first 4% of a participant's base compensation contributed, subject to the IRS limits described above when added to the pre-tax contributions. Roth after-tax contributions will not reduce current taxable income. Roth after-tax contributions and related earnings may be distributed tax-free if the distributions are made after the participant is age 59½ (or after death or disability) and after the participant has had a designated Roth account in the Plan for at least 5 years. The contribution caps of 50% and 75% of total base compensation described above will not change as a result of the Roth.

For employees contributing under the pre-tax, Roth, and after-tax portions, match-qualifying contributions are considered made under the pre-tax provision of the Savings Plan. The Company may, at its discretion, make an additional supplemental contribution to those participants who are employed by the Company at the end of the Plan year. In addition, the Company may, at its discretion, adjust contributions to participants to satisfy the non-discrimination requirements of the IRC.

Certain management employees are eligible to receive an employer supplemental contribution, referred to as the Savings Plan with Enhanced Benefit, ranging from 4% to 6% of base compensation, depending on years of service. These amounts are credited to the participant's account each pay period.

Employees hired after January 1, 2001 are automatically enrolled in the Savings Plan within 40 days of employment at 4% of the employee's pre-tax base compensation. The employee may opt-out of Plan participation by following the procedures of the Plan Administrator to notify the Recordkeeper.

The Savings Plan allows employees to make rollover contributions of funds from other similar qualified plans from previous employers. The rollover contributions must satisfy the requirements of the IRC.

Effective January 1, 2021, the Plan introduced an automatic escalation feature. Each year on a participant's service anniversary with Washington Gas Light Company, their pretax contribution

WASHINGTON GAS LIGHT COMPANY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS (continued)

will be automatically increased by 1% per year until the participant's combined pretax and Roth contribution totals 10%. The increase will occur as soon as administratively possible following the participant's anniversary. If a participant does not want their contribution rate to change or wants to contribute a different amount, they may opt out prior to their service anniversary date.

Vesting

Participants are 100% vested at all times in the amounts credited to their accounts.

Participant Accounts

A separate account is maintained for each participant in the Savings Plan. Each participant's account is properly adjusted for the participant's contributions, the Company's matching contribution, any applicable Employer Supplemental Contributions, participant withdrawals, plan expenses, allocations of the Master Trust's earnings or losses on investments and other investment income. The Recordkeeper maintains participant accounts, records contributions, and performs the allocations to the participants in accordance with the Plan document.

Investments

Participants direct the investment of their accounts into various investment options offered by the Plan. If an employee does not make an affirmative investment election, the contributions are deposited in a default investment fund that is designated in the Plan document. The participant can transfer these contributions to another available Plan investment at any time.

The Savings Plan offers various collective trust funds as investment options including LifePath Portfolio Index funds, a large cap index fund, a Russell 2500 index fund, a small/mid cap growth fund, two international funds, a fixed income fund, and a stable value fund.

Distributions Upon Termination

When an employee terminates employment with the Company, the employee (or employee's beneficiary where termination is due to death) is eligible to receive 100% of his/her account balance as of the latest valuation date. The employee (or employee's beneficiary) may elect to receive the distribution in either a lump-sum (if the account balance is \$5,000 (increase to \$7,000 or less effective April 1, 2024) or less, the distribution payment will be made in a lump sum) or if the termination is due to retirement, disability, or death, annual payments not to exceed ten years, and they may postpone the commencement of benefit distribution to some later date as may be permitted by the required minimum distribution rules.

WASHINGTON GAS LIGHT COMPANY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS (continued)

In-Service Withdrawals

Participants can make withdrawals of after-tax employee contributions, rollover contributions and matured Company contributions (as defined in the Plan document) once every six months. Participants can make withdrawals of pre-tax, Roth, and catch-up contributions in the event of financial hardship (as defined in the Plan document) or after attaining age 59-1/2. Former participants in the Washington Gas Energy Services 401(k) Plan and Trust are also permitted to make additional withdrawals at age 59-1/2 from amounts contributed before January 1, 2014.

Notes Receivable from Participants

Employees may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or one-half of the participant's pre-tax, Roth, catch-up, Savings Plan with Enhanced Benefit, and Company match contributions. Participants can only have one loan outstanding at a time. The loan feature provides additional liquidity to participants. Repayment of loans, including applied interest ranging from 4.25% to 9.50%, are done via payroll deduction and cannot exceed five years, with the exception of loans for the purchase of the participant's principal residence, in which case the repayment period cannot exceed 25 years. The loans are secured by the balance in the participant's Plan account and new loans bear an interest rate of one percent above the prime rate published by the Wall Street Journal on the last business day of the month immediately preceding the month in which the loan is issued. If repayment is not made by a participant within 90 days of a missed payment, the loan is considered in default and could be treated as a taxable distribution to the participant. The outstanding balances of loans made to participants are shown on the Statements of Net Assets Available for Benefits as notes receivable from participants.

Amendment or Termination

The Savings Plan may be amended or terminated by the Company at any time, for any lawful reason, without advance notice. Upon termination, all amounts credited to participants will be distributed in accordance with the provisions of the Plan document.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States ("GAAP").

WASHINGTON GAS LIGHT COMPANY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS (continued)

Use of Estimates

In conformity with GAAP, the Plan Administrator makes estimates and assumptions in the preparation of the Plan's financial statements that affect certain reported amounts and disclosures. Actual results could differ materially from those estimates.

Investment Valuation and Income Recognition

Investments held by the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 6 for disclosures provided for fair value measurements of Plan investments.

Purchases and sales of securities in the Master Trust are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis. Net realized and unrealized gains and losses from security transactions are reported using the historical cost based on a first-in, first-out methodology.

Management fees and operating expenses charged to the Master Trust for investments in common collective trusts are deducted from income earned on a daily basis, and although indirectly captured, are not separately reported in the financial statements. Management fees and operating expenses are reflected as a reduction of investment return for such investments.

Distributions

Distributions are recorded when paid to participants.

Administrative Expenses

Except for those expenses the Employer may elect to pay, expenses incurred in administering the Plan are typically allocated on a per capita basis and deducted from participants' and beneficiaries' individual accounts. Such administrative expenses shall include, but are not limited to, recordkeeping, auditing, annual reporting, legal and investment services. If applicable, transaction fee expenses associated with loans and distributions shall be deducted from participants' accounts on a quarterly basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 or 2023. If a participant ceases to

WASHINGTON GAS LIGHT COMPANY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS (continued)

make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded (See Note).

Note 3 - Recent Accounting Pronouncements

Accounting Standards Adopted in the Current Plan Year

There were no new accounting standards adopted in the current Plan year.

Recently Issued Accounting Standards, Not Yet Adopted

There were no new accounting standards not yet adopted in the current Plan year.

Note 4 - Tax Status

The IRS has determined and informed the Company by a letter dated March 26, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRS. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Master Trust

The Plan's investments are held in the Master Trust along with the Washington Gas Light Company Capital Appreciation Plan/Union Employees' Savings Plan.

The Plan's ownership interest in the net assets of the Master Trust does not represent an undivided interest. The Master Trust's net assets are allocated among the two participating plans by assigning to each plan those transactions (primarily contributions and benefit payments) that can be specifically identified and attributed to a participant account and those transactions (primarily net investment income, including realized and unrealized gains and losses) that are

WASHINGTON GAS LIGHT COMPANY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS (continued)

allocated to a participant's account based upon a participant's proportionate share of each fund held by the Master Trust.

The Master Trust is composed of 17 investment funds. Funds are allocated to the participating plans in accordance with the Plan provisions and participant allocation elections. The following table presents the fair value of the investments of the Master Trust as of December 31, 2024 and 2023.

NOTES TO FINANCIAL STATEMENTS (continued)

Note 6 - Fair Value Measurements

The fair value of financial assets and liabilities is measured in accordance with ASC Topic 820. Under ASC Topic 820, fair value is defined as the exit price, representing the amount that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 establishes a framework for measuring the fair value of financial assets and liabilities. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.
- Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Many fund managers provide their investors with a calculated Net Asset Value (NAV) per share (or its equivalent) that can be used as a practical expedient to measure fair value if the investments do not have a readily determinable fair value and the NAV of the investment is calculated using the measurement principles of ASC Topic 946, *Financial Services - Investment Companies*. In accordance with ASC Topic 820 *Fair Value Measurement*, certain investments held by the Master Trust that are measured at fair value using NAV per share as a practical expedient need not be classified in the fair value hierarchy. In 2015, Accounting Standards Update ("ASU") 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* was implemented. These investments are disclosed as a reconciliation item to the investments classified within the hierarchy to the total fair value of the Master Trust's investments.

The following tables present the fair value of the investments in the Master Trust by general type and their level within the fair value hierarchy as of December 31, 2024 and 2023:

⁽¹⁾In accordance with Subtopic 820-10, these investments are measured at fair value using NAV per share as a practical expedient and, therefore, have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the total Master Trust investments at fair value presented in Note 5.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Collective trust funds measured at NAV

Investments held by the Master Trust in collective trust funds are valued at NAV, which is used as a practical expedient to estimate fair value. The NAV is based upon the underlying net assets held by the fund which have been calculated in a manner consistent with ASC Topic 946. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. There are no unfunded commitments with respect to any of these funds in which the Master Trust invests. The funds reserve the right to suspend redemptions under certain conditions. The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2024 and 2023, respectively:

¹LifePath Portfolio index funds have the investment objective of providing for retirement outcomes consistent with investor preferences throughout the savings and drawdown phase based on quantitatively measured risk that investors on average may be willing to accept. LifePath index funds are broadly diversified across global asset classes with asset allocations generally becoming more conservative over time. There are no restrictions on participant-initiated redemptions. Plan-initiated withdrawal requires 3 business days' notice. The trustee may suspend withdrawals when certain events occur or conditions exist.

² The large cap index fund's investment objective is to provide investment results that approximate the overall performance of the common stocks included in the Standard & Poor's® 500 Composite Stock Price Index ("S&P 500"). There are no restrictions on participant-initiated redemptions. In the case of plan-initiated withdrawal, the trustee may require notice of up to 15 business days. The trustee may take up to an additional 10 business days to distribute the proceeds unless a longer period is reasonably required and consistent with applicable law.

³ The Russell 2500 index fund's investment objective is to invest in a portfolio of assets whose performance before fees and expenses is expected to approximate the performance of the Russell 2500™ Index. There are no restrictions on participant-initiated redemptions. Plan-initiated withdrawal requires notice of 3 business days. The trustee may suspend withdrawals when certain events occur or conditions exist.

⁴ The small mid cap growth fund seeks long term capital appreciation. The fund's benchmark is the Russell 2500™ Index. There are no restrictions on participant-initiated redemptions. Plan-initiated partial withdrawal requires 10 business days' notice. Plan-initiated total withdrawal requires 60 business days' notice. The trustee may suspend withdrawals when certain events occur or conditions exist.

⁵ The international index fund has an investment objective to invest in a portfolio of assets whose performance before fees and expenses is expected to approximate the performance of the MSCI ACWI ex USA Net Dividend Return Index, a free float-adjusted market capitalization index designed to measure the combined equity market performance of developed and emerging markets countries. There are no restrictions on participant-initiated redemptions. Plan-initiated withdrawal requires 3 business days' notice. The trustee may suspend withdrawals when certain events occur or conditions exist.

⁶ The international equity fund seeks to earn long-term total returns above the MSCI All Country World Ex - U.S. (net) benchmark. There are no restrictions on participant redemptions. Plan-initiated withdrawal requires 10 business days prior written notice to the trustee. Proceeds are normally distributed no later than 1 or 2 business days following receipt, but the trustee may take up to an additional 7 calendar days to distribute funds to maintain fund liquidity. The trustee may delay an additional 30 calendar days if the Trustee determines that earlier distribution may have an adverse effect on the fund. The trustee may suspend withdrawals when certain events occur or conditions exist.

⁷ The stable value fund seeks to preserve capital and provide a stable level of return with low volatility. There are no restrictions on participant-initiated redemptions unless payments are being delayed to all fund unit holders. A notice period of up to 12 months may be imposed on plan-initiated withdrawal. The trustee may suspend redemptions at its discretion subject to legal and regulatory restrictions.

⁸ The fixed income fund seeks to outperform a benchmark, the Barclays U.S. Aggregate Bond Index, in a risk adjusted manner. There are no restrictions on participant-initiated redemptions. Plan-initiated withdrawal in excess of 20% of the Plan's investment requires 5 business days' notice. The trustee may suspend withdrawals when certain events occur or conditions exist..

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions, model-based valuation techniques or investment redemption restrictions may require the transfer of

WASHINGTON GAS LIGHT COMPANY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS (continued)

financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan and Master Trust evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2024, there were no transfers in or out of levels 1, 2 or 3.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 7 - Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to interest-rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 8 - Related-Party Transactions

The Plan issues loans to participants, which are secured by the balances in the participant's accounts. These transactions qualify as party-in-interest transactions and are exempt from the prohibited transactions rules.

Note 9 - Information Certified by the Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, Empower Trust Company, LLC has certified as being complete and accurate the investment information on the statements of net assets available for benefits at December 31, 2024 and 2023, the investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2024, and the information included in the supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2024.
