INDEPENDENT AUDITORS' REPORT

To the Plan Trustees of
The Mount Sinai Medical Center 403(b) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of The Mount Sinai Medical Center 403(b) Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules ("DOL") and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institutions").

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Part IV, Line 4i - Schedule of Assets (Held At End of Year) as of December 31, 2024, and Schedule H, Part IV, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

THE MOUNT SINAI MEDICAL CENTER 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

The following description of The Mount Sinai Medical Center 403(b) Retirement Plan (the “Plan” or “MS”) provides general information about the Plan’s provisions. The Plan covers employees of the Mount Sinai Hospital (the “Hospital”) and certain affiliates, including the eligible faculty and staff of Queens Hospital Center and Elmhurst City Hospital Center, the Mount Sinai Medical Center, Inc. and the Icahn School of Medicine at Mount Sinai (formerly the Mount Sinai School of Medicine), The Mount Sinai Hospital, Mount Sinai Care, LLC, Icahn School of Medicine Research at Mount Sinai LLC, and Mount Sinai Hospital of Queens (the “Affiliates”). Effective December 31, 2017, the Plan was restated to include the eligible faculty and staff of The St. Luke’s-Roosevelt Hospital Center, Beth Israel Medical Center and The New York Eye and Ear Infirmary as affiliates, under the Plan. On December 31, 2017, the merger of three plans, the Continuum Health Partners, Inc. 403(b) Plan (“CHP”), the New York Eye and Ear Infirmary Exempt Employees Defined Contribution Plan (“NYEEI”), and the St. Luke’s Roosevelt Hospital Center Section 403(b) Tax Sheltered Annuity Plan for Selected Officers of Columbia University (“SLR”) took place. The Hospital and the Affiliates are the Plan Sponsors and participants should refer to the plan document and summary plan description for a more complete description of the Plan’s provisions, copies of which may be obtained from the Plan Sponsors.

General - The Plan is a defined contribution plan established to provide retirement income benefits to certain employees of the Mount Sinai Hospital and the Affiliates (the “Company” and “Plan Sponsor”) under Section 403(b) of the Internal Revenue Code (IRC), as amended. The Plan is subject to the Provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Plan Administration - The Plan is administered by the Plan Sponsor. The Plan’s assets are held by MONY Life Insurance Company, Transamerica Financial Life Insurance Company, Empower Annuity Insurance Company, State Street Bank and Trust Company, and TIAA and CREF (which also extends with respect to those investments held by TIAA, FSB, as directed trustee or custodian that are record kept by TIAA) (the “Trustees”), who are responsible for the custody and management of the Plan’s assets. The Board of Trustees of the Mount Sinai Hospital (the “Board”) is responsible for the general administration of the Plan regarding all filings with any governmental entity and is responsible for all non-fiduciary matters under the Plan. The Plan Administrator is authorized to designate a Benefit Committee to carry out the responsibilities of the Plan Administrator. The Benefit Committee is the named Trustee to carry out all of the fiduciary responsibilities under the Plan.

Eligibility - MS covers faculty and staff of the Hospital and the Affiliates, union and non-union, part-time, per diem status or regular or temporary status employees. The employee becomes eligible to participate in the Plan, with respect to making salary deferral contributions, on the date of hire or as soon as administratively feasible. Independent contractors, agents, non-resident aliens with no U.S. source income and leased employees are not eligible to participate in the Plan.

SLR covers employees who entered the Plan prior to December 31, 2013. As of January 1, 2014, entry into SLR was frozen and no further contributions were permitted into SLR. As a result, any employee hired January 1, 2014 and forward is not allowed entrance into SLR.

Effective January 1, 2023, CHP covers employees of CHP or those who joined the payroll of NYEEI after December 31, 2022 other than leased employees, per-diem employees or temp pool employees, and employees who are classified as Housestaff. All eligible employees are able to participate in the Plan immediately for purposes of making salary deferral contributions. A participant becomes eligible to receive non-elective contributions immediately upon completion of one year of service and attainment of twenty-one years of age. To attain one year of service, an employee must complete 1,000 hours within twelve months.

THE MOUNT SINAI MEDICAL CENTER 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Contributions - Eligible participants of MS may elect to contribute from their compensation to the Plan, subject to the IRC limitations. If the employee was a participant in the employer contributions on December 31, 2012, they are automatically eligible to be credited with Hospital contributions as of January 1, 2013. If the employee is a participant in the employee contributions, but not the employer contributions on December 31, 2012, they are not automatically eligible to be credited with Hospital contributions under the Plan, but must complete 1,000 hours of service in a twelve-month period (a year of service). If the employee is not a participant in the Plan or the employer contributions on December 31, 2012, in order to become eligible and be credited with the Hospital contribution under the Plan, the employee must be eligible and complete the service requirement noted above. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions limited in total each year to \$7,500. Participants direct the investment of their contributions into various investment options offered by the Plan.

Contributions are made by the Hospital and Affiliates and are not contingent on whether a participant makes any elective deferrals in that year. The employer contributions range from 3% to 10% of pay according to the base pay scale established. For certain participating union groups, the employer contribution level is set by the terms of the respective collective bargaining agreement. All contributions are subject to certain limitations of the IRC.

Participants can direct their elective contributions into various investment options offered by the Plan and can change their investment options at any time. If an employee is not enrolled to direct the employer contribution to be invested according to their election, the employee is automatically enrolled and the contributions are invested in a qualified default investment alternative fund until the participant changes his or her election. The Hospital's or the Affiliates' contributions are allocated in the same manner as that of the participant's elective contributions.

As of January 1, 2014, entry into SLR was frozen and no further contributions were permitted into SLR.

Effective January 1, 2024, the Plan was amended to allow participants to make Roth contributions.

Eligible participants of CHP and NYEEI may elect to contribute from their compensation to the respective Plans, subject to the IRC limitations for 403(b) plans. The CHP and NYEEI Sponsors will make matching contributions equal to the employees' salary deferral contributions up to 3% of eligible compensation. An eligible employee of CHP and NYEEI will also receive an additional employer contribution ranging from 3% - 6% based on the employee's occupation level and site location.

Participant Accounts - Individual accounts are established for each plan participant. Each participant's account is credited with the participant's contribution and an allocation of (a) the Hospital's or Affiliates' contributions, if any, (b) Plan earnings/losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting - All participants of MS, SLR, CHP, and NYEEI are vested immediately in their contributions plus actual earnings thereon. For MS and CHP, Hospital and Affiliates' contributions and investment earnings become vested when participants have completed 3 years of service. A year of service for vesting purposes is a calendar year in which the participant has been credited with at least 1,000 hours of service.

THE MOUNT SINAI MEDICAL CENTER 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

MS and CHP, Hospital and Affiliates' participants are 100% vested in employer contributions and investment earnings after completing three years of service. If less than the required years of service and hours in each year had been completed at the time of the termination of employment, employer contributions and investment earnings will be forfeited. If a participant is rehired within a five-year period, the forfeited contributions are reinstated. If the break in service is greater than five years, the years of service will not be reinstated and a participant must meet the three-year vesting requirement following rehire.

SLR participants are immediately vested in all Hospital contributions.

NYEEI participants are 100% vested in the discretionary non-elective hospital contributions after completing 1 year of service.

Payment of Benefits - Participants may receive all or a portion of their vested account balance resulting from Plan Sponsor contribution upon termination of employment. Participants may receive all or a portion of their vested account balance resulting from participant elective contributions upon termination of employment, upon becoming disabled, upon reaching 59½ years of age, due to hardship or meeting eligibility for a qualified reservist distribution.

Hardship Withdrawals - The Plan provides for hardship withdrawals from the participants' salary deferral contribution account with Benefit Committee approval. The withdrawal is not to exceed an amount required to meet an immediate need created by hardship, and then only to the extent that such immediate need cannot be satisfied by other sources reasonably available to the participant. Permissible circumstances for hardship withdrawals include medical expenses, purchase of a home, tuition payments, amounts necessary to prevent eviction from the participants' personal residence, and such other circumstances as the Plan Administrator may determine in accordance with Internal Revenue Service ("IRS") rules and regulations.

Forfeitures - Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures can be used to reduce employer contributions to the Plan or reduce Plan administrative expenses. Forfeited, non-vested amounts totaled \$279,537 and \$145,308 at December 31, 2024 and 2023, respectively. For the 2024 Plan year, \$787,021 of forfeitures were utilized to reduce employer contributions.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by defined contribution plans are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions in net assets available for benefits during the reporting period. Actual results, as determined at a later date, could differ from those estimates.

THE MOUNT SINAI MEDICAL CENTER 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the recordkeeping, administration of notes receivable from participants and withdrawals are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments. Professional fees of the Plan are paid by the Hospital and Affiliates.

Notes Receivable from Participants - Participants may borrow from voluntary employee contributions and investment earnings against their accounts. Employer contributions and any investment earnings thereon, applicable to contributions made prior to July 1, 2000 can be accessed as part of the loan. Employer contributions made and investment earnings that accrue on or after July 1, 2000 are not available for a loan transaction. Participants may borrow from their accounts in increments of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1-5 years or up to 20 years for the purchase of a primary residence. The \$50,000 limit is reduced by the participant's highest outstanding loan balance during the preceding 12-month period. The loans bear interest at a rate commensurate with local prevailing rates at the date of issuance as determined quarterly by the Plan Administrator. The total notes receivable from participants is \$41,284,307 and \$34,216,809 at December 31, 2024 and 2023, respectively. Refer to Note 8 for discussion on Plan loans.

Principal and interest is paid ratably on a monthly basis by the participants. If a participant with an account balance terminates employment with the Hospital or the Affiliates, he or she still has a right to receive a loan under the Plan.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant cease to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation and Income Recognition - The Plan's investments are recorded at fair value (except for fully benefit-responsive contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefit Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, Trustees and insurance companies. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties - Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the financial statements.

THE MOUNT SINAI MEDICAL CENTER 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

The Plan may invest in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by sub-prime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Concentration of Investment Risk - The Plan's investment in two funds comprised approximately 29% and 28% of total investments at December 31, 2024 and 2023, respectively.

Subsequent Events - The Plan Administrator has reviewed and evaluated all events and transactions from December 31, 2024 through October 9, 2025, the date the financial statements were available to be issued. The effect of those events and transactions that provide additional pertinent information about conditions that existed at the Statements of Net Assets Available for Benefits date have been recognized in the accompanying financial statements.

Note 3 - Certified Investment Information:

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, the Trustees, qualified institutions, have certified that the following information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- a) Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023.
- b) Investment income, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2024.
- c) Investment information included in the Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, as shown on the ERISA-required supplemental schedule of assets (held at end of year).

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified information, except for comparing such certified investment information to the related information included in the financial statements and ERISA-required supplemental schedule of assets (held at end of year).

Note 4 - Fair Value Measurements:

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

THE MOUNT SINAI MEDICAL CENTER 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

- *Mutual Funds* - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- *TIAA Real Estate Fund* - Valued at the quoted market prices held by the Plan at year end. TIAA Real Estate Fund held by the Plan are deemed to be actively traded.
- *CREF Registered Investment Companies* - Valued at the quoted market prices held by the Plan at year end. CREF Registered Investment Companies held by the Plan are deemed to be actively traded.
- *Pooled Separate Accounts* - Valued at their "accumulation unit value" (AUV). The separate account is valued daily as the number of accumulation units held multiplied by the AUV. The AUV is first established when a new fund starts and is then determined daily based on the net asset value of shares of the underlying fund, the fund's dividend and the contract's separate account charges. There are no unfunded commitments at December 31, 2024 and 2023.
- *TIAA Traditional Annuity Account Non-Benefit Responsive* - The TIAA Traditional Annuity Non-benefit Responsive contracts are valued at fair value. The non-benefit responsive contracts include the Retirement Annuity ("RA"), Group Retirement Annuity ("GRA"), and Retirement Choice ("RC"). The TIAA Traditional Annuity accounts are not available for sale or transfer on any securities exchange. The accounts are invested in corporate and government bonds, preferred stock, mortgage and asset backed securities, commercial mortgages, private equity, limited partnership fund investments, REIT common stock, other common stock, real estate and cash. Insurance regulations limit the proportion of investments that can be allocated to certain asset classes. Specifically, regulations limit holding of below-interest-grade bonds to 10 percent of the portfolio; emerging market debt to 4 percent, U.S. common stock and other non-preferred equity securities to 20 percent, and U.S. real estate to 20 percent. Regulations also require TIAA to maintain certain minimum amounts of capital. These capital requirements vary by the amount and type of risk. For instance, emerging market bonds, equities and real estate require

THE MOUNT SINAI MEDICAL CENTER 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

significantly higher capital than investment grade bonds. Certain contracts issued for the TIAA Traditional Annuity accounts contain liquidity restrictions on transfers and withdrawals, which could impact the value realized upon exiting the contract. The Retirement Annuity and Group Retirement contracts require cash withdrawals and transfers to be spread over 10 annual installments. Some contracts permit withdrawal over 5 annual installments after termination of employment. The Group Retirement and Retirement Choice contracts provide for a 2.5% withdrawal fee if a participant separates from service and elects to withdraw accumulations within 120 days of separation. Accordingly, transactions in similar investment instruments are not observable.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments carried at fair value are as follows:

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2024 and 2023, there were no significant transfers in or out of levels 1, 2, or 3.

THE MOUNT SINAI MEDICAL CENTER 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 5 - Group Annuity Contracts:

The Plan holds traditional investment contracts with Transamerica Financial Life Insurance Company Inc. (“TFLIC”), Prudential Insurance Company of America (“Prudential”), and Empower Annuity Insurance Company (“Empower”), (collectively the “Issuers”). These contracts, referred to as group annuity contracts, meet the fully benefit-responsive investment criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of these contracts totaled \$421,102,406 and \$476,563,219 at December 31, 2024 and 2023, respectively.

The traditional investment contracts held by the Plan are guaranteed investment contracts. The Issuers are contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the Issuers but may not be less than 3 percent. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan’s ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuers’ abilities to meet their financial obligations. The Issuer’s abilities to meet its contractual obligations may be affected by economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the Issuers. These events may be different under each contract. Examples of such events include the following:

1. The Plan’s failure to qualify under Section 401(a) of the IRC.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan’s prohibition on competing investment options.
5. Bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan’s normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the Issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events that allow the Issuers to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan’s investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

Note 6 - TIAA Fully Benefit-Responsive Contracts:

The Plan holds TIAA Traditional Annuity Account (“Traditional Annuity”) investment contracts and a TIAA Stable Value (“Stable Value”) investment contract that are both comprised of traditional investment contracts. These fully benefit-responsive contracts consist of the Supplemental Retirement Annuity (“SRA”), Group Supplemental Retirement Annuity (“GSRA”), and Retirement Choice Plus (“RCP”). These contracts meet the fully benefit-responsive investment criteria and therefore are reported at contract value.

Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract cannot be terminated before the scheduled maturity date. The contract value of these fully benefit-responsive contracts totaled \$1,185,323,977 and \$1,140,006,676 at December 31, 2024 and 2023, respectively.

The Traditional Annuity contracts offer the opportunity for higher returns through additional amounts that may be declared on a year-by-year basis by the TIAA Board of Trustees. The accounts are backed by the financial strength and claims paying ability of TIAA. The Traditional Annuity contracts invest in individual bonds, commercial mortgages, real estate, stocks and other assets selected by specialized teams that target different sectors of the marketplace. The portfolio follows specific guidelines with respect to major asset classes, sectors, industries, property types, geographic regions, individual issuers/borrowers, foreign holdings, liquidity, quality and derivatives. The account does not allow for lump-sum cash withdrawals from the Traditional Annuity and transfers must be spread over a period of 10 annual installments.

The Stable Value is a fixed rate group annuity contract issued by TIAA. The contract provides a guaranteed minimum rate of interest of between 1% and 3% (before deductions for contract fees) with the potential for crediting of additional interest above the guaranteed minimum if approved by the TIAA Board of Trustees. Additional amounts of interest are not guaranteed. Stable Value is immediately liquid to a participant for withdrawals and transfers and does not have withdrawal restrictions (except that immediate transfers cannot be made to competing investment options pursuant to the contract’s “equity wash” provisions). In addition, transfers into Stable Value may not be made for 30 days following a transfer out. The contract is backed by the financial strength and claims paying ability of TIAA. With respect to the Stable Value, declared crediting rates are reviewed and may be reset every six months (on January 1 and July 1). The average crediting rate was approximately 3.00% and 1.70% for 2024 and 2023, respectively.

The Traditional Annuity contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer and generally may not be less than 3%, but may be between 1% and 3% for some contracts. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date. The average yield and crediting interest rates for the Traditional Annuity contracts was approximately 5.625% and 6.250% for 2024 and 2023, respectively.

The Plan’s ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer’s ability to meet its financial obligations. The issuer’s ability to meet its contractual obligations may be affected by economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer.

NOTES TO FINANCIAL STATEMENTS

These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the IRC.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events that allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

Note 7 - Pooled Separate Accounts and TIAA Real Estate Fund:

The Plan entered into insurance contracts with TIAA and CREF and Empower. TIAA and CREF and Empower maintain the contributions in pooled accounts. The pooled accounts are credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by TIAA and CREF and Empower.

Note 8 - Plan Loans:

Participants may borrow from TIAA and CREF a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 45 percent of their account balance subject to annuity contract and Plan provisions. Loan terms range from one to five years in one-year increments (up to twenty years for the purchase of the participant's primary residence). The loans are secured by the participant's TIAA Traditional Annuity account balances in an amount equal to 110% of the outstanding loan balances. Loans bear interest at rates that may be fixed or variable depending upon the Plan, annuity contract provisions and state insurance regulations. Principal and interest is paid ratably by the participant outside of the Plan to TIAA and each payment will reduce amounts secured by the participant's TIAA Traditional Annuity accounts. The amount of such outstanding loans collateralized by Plan assets is \$7,337,179 and \$12,138,875 at December 31, 2024 and 2023, respectively. At December 31, 2024 and 2023, the interest rates on the loans ranged from 3.89% to 7.93% and mature through 2041. Deemed distributions totaled \$4,044,327 and \$4,657,889 for the years ended December 31, 2024 and 2023, respectively. The option to participate in Plan loans ended in 2021 once participant loans were available to Plan participants.

NOTES TO FINANCIAL STATEMENTS

Note 9 - Plan Termination:

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the IRC. Under no circumstances may the Plan Sponsor take ownership of any of the Plan's assets as a result of such termination. The Plan administrator believes that the Plan is currently designed and operating, in all material respects, in accordance with the applicable requirements of section 403(b) of the IRC and, therefore, believes that the Plan is qualified and the related accounts are tax exempt.

Note 10 - Tax Status:

The Plan has been designed to qualify under Section 403(b) of the IRC. The terms of the Plan have been prepared to conform with the sample language provided by the IRS in Revenue Procedure 2007-71. The Plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for Plan participants under Section 403(b).

Note 11 - Related-Party Transactions:

Certain Plan's assets are invested in funds managed by the Trustees of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA. Total amounts paid to parties-in-interest totaled \$1,931,404 for the year ended December 31, 2024.

Note 12 - Prohibited Transactions:

During the Plan year ended December 31, 2023, the Mount Sinai and the Mount Sinai Affiliates remitted late participant contributions to the Plan totaling \$8,663,802. As required by ERISA Section 2510.3-102, the Plan Sponsor is required to segregate employee contributions to the Plan from its general assets as soon as practicable, but in no event more than 15 business days following the end of the month in which the amounts are withheld from wages. The Company took the proper corrective actions, in accordance with DOL regulation, to compensate those participants' lost earnings totaling \$14,103 during 2025.

During the Plan year ended December 31, 2021, NYEEI remitted late participant contributions to the Plan totaling \$141,384. As required by ERISA Section 2510.3-102, the Plan Sponsor is required to segregate employee contributions to the Plan from its general assets as soon as practicable, but in no event more than 15 business days following the end of the month in which the amounts are withheld from wages. The Company took the proper corrective actions, in accordance with DOL regulation, to compensate those participants' lost earnings totaling \$533 during 2024.
