Report of Independent Auditors

The Plan Administrator
Norton Healthcare 403(b) Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of the Norton Healthcare 403(b) Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

**Shape the future
with confidence**

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements may have been affected by these conditions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matter described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit.

**Shape the future
with confidence**

Other Matters

Supplemental Schedules Required by ERISA

The supplemental schedules of delinquent participant contributions for the year ended December 31, 2024, and assets (held at end of year) as of December 31, 2024 (referred to as the “supplemental schedules”), are presented for purposes of additional analysis and are not required part of the financial statements but are supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedules.

Norton Healthcare 403(b) Retirement Savings Plan

Notes to Financial Statements

December 31, 2024

1. Description of Plan

The following description of the Norton Healthcare 403(b) Retirement Savings Plan (the Plan) provides only general information about the Plan's provisions. Participants should refer to the summary plan description for a more comprehensive description of the Plan's provisions, copies of which may be obtained from Norton Healthcare, Inc. and Affiliates (the Company and the Plan Administrator).

General

The Plan is a qualified defined contribution plan covers substantially all employees of the Company.

Principal Financial Group (Principal) (the Recordkeeper) and Delaware Charter Guarantee and Trust (d/b/a Principal Trust Company) (the Trustee) serve as the recordkeeper and trustee of the Plan, respectively.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each year, participants may elect to contribute up to the maximum allowed by the Internal Revenue Code (the Code). If automatically enrolled, a participant's deferral is set at 6% of eligible compensation and then increased by 1% annually up to 15% until changed by the participant. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions.

The Company provides matching contributions on a per pay period basis, up to 4% of a participant's compensation. The Company will fund an additional non-elective contribution of 2% for participants who have at least 20 years of service as of January 1, 2018, and who do not terminate at any time during the Plan year and remain employed as of the last day of the Plan year. At its discretionary, the Company may also authorize an additional matching contribution of the participant's annual contributions.

Norton Healthcare 403(b) Retirement Savings Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Participants direct their elective contributions into various investment options offered by the Plan and can change their investment options on a daily basis. Participants who are automatically enrolled have their contributions allocated to the Plan investment options based on their age until they change their election. The Company's contributions are allocated in the same manner as that of the participant's elective contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions, and allocations of Plan earnings. Each participant's account is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of his or her respective elected investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested in the employer contributions after three years of service. Vesting provisions apply to both the Company's matching and non-elective contributions.

Forfeitures

Upon termination of employment, participants forfeit their nonvested balances. If a participant is rehired within a five-year period, the forfeited contributions are reinstated. Forfeited balances of terminated participants' nonvested accounts are used to reduce future employer contributions. Unallocated forfeiture balances as of December 31, 2024 and 2023, were approximately \$5,160,000 and \$3,337,000, respectively, and forfeitures used to reduce employer contributions for the year ended December 31, 2024, were approximately \$5,623,000.

Participant Loans

Participants may borrow from their participant account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to fifteen years for the purchase of a primary residence. A participant may

1. Description of Plan (continued)

not have more than one loan outstanding at any point in time. The participant loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates at the date of issuance as determined quarterly by the Recordkeeper. Principal and interest are paid ratably through payroll deductions, unless the participant terminates employment, which allows for coupon repayments instead of payroll deductions. If the participant loan is not repaid, it will automatically be treated as a distribution to the participant three months after its due date. Participant loans deemed to be distributions were approximately \$149,000 for the year ended December 31, 2024.

Payment of Benefits

Upon separation from service with the Company due to death, disability, retirement, or any other reason, a participant whose vested account balance is greater than \$1,000 and less than \$5,000 may receive a lump-sum distribution equal to his or her vested account balance. Participant accounts with balances between \$1,000 and \$5,000 are subject to the automatic individual retirement account rollover requirements. A participant whose vested account balance exceeds \$5,000 may elect to receive a lump-sum payment equal to the vested value of the participant's account or receive installment payments on a monthly, quarterly, semiannual, or annual basis. Participants whose vested account balance is less than \$1,000 will automatically receive a lump-sum distribution.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS), and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan's provisions. Administrative expenses paid by the Plan include recordkeeping and trustee fees. Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses of the Plan are paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Norton Healthcare 403(b) Retirement Savings Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Contributions

Contributions from Plan participants and the matching contributions from the employer are recorded in the year in which the employee contributions are withheld from compensation.

Payment of Benefits

Benefit payments are recorded when paid.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred and credited to the participant's account. No allowance for credit losses has been recorded as of December 31, 2024 or 2023. If a participant ceases to make loan repayments and the Recordkeeper deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded (deemed distributions on the statement of changes in net assets available for benefits).

Norton Healthcare 403(b) Retirement Savings Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan (except for the fully benefit-responsive guaranteed investment contract) are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

The Company's Retirement Committee (the Retirement Committee) is responsible for determining the Plan's valuation policies and analyzing information provided by the trustee that is used to determine the fair value of the Plan's investments. The Retirement Committee includes Company Finance and Human Resources personnel as well as a Company physician.

The Plan invests in a fully benefit-responsive guaranteed investment contract. Contract value is the relevant measurement attributable to the fully benefit-responsive guaranteed investment contract because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the fully benefit-responsive guaranteed investment contract represents contributions plus earnings less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's net gains and losses on investments bought and sold as well as held during the year.

Norton Healthcare 403(b) Retirement Savings Plan

Notes to Financial Statements (continued)

3. Investments

All investment information and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments at fair value, the guaranteed investment contract at contract value and notes receivable from participants held at December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

4. Fair Value Measurements

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets and liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in markets that are not active
 - Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
 - Inputs that are derived principally from or corroborated by observable market data, correlation, or other means
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management’s own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

Norton Healthcare 403(b) Retirement Savings Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31 (in thousands):

	<u>2024</u>	<u>2023</u>	<u>Level</u>
Mutual funds	\$ 2,133,506	\$ 1,774,381	1

Mutual funds are valued based on unadjusted observable market quotations for the fund. Mutual funds are priced daily at the close of business.

5. Fully Benefit-Responsive Guaranteed Investment Contract

The Plan invests in the Norton Healthcare Fixed Income Option, a fully benefit-responsive guaranteed investment contract with Principal Life Insurance Company (Principal Life), the issuer. Principal Life maintains the contributions to the guaranteed investment contract in a general account.

The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value, as reported to the Plan by the Trustee. Contract value represents contributions made under the contract plus earnings less participant withdrawals and administrative expenses. There were no reserves against contract value for credit risk of the contract issuers or otherwise.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yield and crediting interest rate for the Norton Healthcare Fixed Income Option was 2.30% from January 1, 2023 – December 31, 2023; 2.75% from January 1, 2024 – June 30, 2024; and 2.95% from July 1, 2024 – December 31, 2024. The methodology for the calculation of the interest crediting rate is defined in Article I, Section II of the contract under the term "Composite Crediting Rate." Under the terms of the existing contract, the crediting rate is currently reset on a semiannual basis.

Norton Healthcare 403(b) Retirement Savings Plan

Notes to Financial Statements (continued)

5. Fully Benefit-Responsive Guaranteed Investment Contract (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the Company or other events (e.g., divestitures or spin-offs of a subsidiary), which cause a significant withdrawal from the Plan; or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such events that would limit the Plan's ability to transact at contract value with participants is probable.

The guaranteed investment contract does not permit Principal Life to terminate the agreement prior to the scheduled maturity date.

The issuer may be in default if it breaches a material obligation under the investment contract, makes a material misrepresentation, has a decline in its long-term credit rating below a threshold set forth in the contract, or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Plan were unable to obtain a replacement investment contract, withdrawing participants may experience losses if the value of the Plan's assets no longer covered by the contract is below contract value. The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance the Plan may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value. The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro rata based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of

Norton Healthcare 403(b) Retirement Savings Plan

Notes to Financial Statements (continued)

6. Risks and Uncertainties (continued)

investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Tax Status

The underlying volume submitter plan has received an advisory letter from the Internal Revenue Service (IRS) dated March 31, 2017, stating that the form of the plan is qualified under Section 401 of the Internal Revenue Code (the Code) and, therefore, the related trust is tax-exempt. The plan administrator has determined that it is eligible to, and has chosen to, rely on the current IRS volume submitter advisory letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Related-Party and Party-In-Interest Transactions

The Plan holds units of mutual funds and a guaranteed investment contract managed by Principal. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

Norton Healthcare 403(b) Retirement Savings Plan

Notes to Financial Statements (continued)

9. Reconciliation of Financial Statements to the Form 5500

For the 2024 plan year, the Form 5500 was transitioned from the historical cash basis reporting to accrual basis reporting, with the intent to continue utilizing the accrual basis for the foreseeable future.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31 (in thousands):
