Independent Auditor's Report

To the Board of Trustees
Seafarers Officers and Employees Welfare Fund

Opinion

We have audited the financial statements of the Seafarers Officers and Employees Welfare Fund (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023, and the statements of benefit obligations as of December 31, 2024 and 2023, and the related statements of changes in benefit obligations for the years ended December 31, 2024 and 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years ended December 31, 2024 and 2023, and the benefit obligations as of December 31, 2024 and 2023, and the changes in benefit obligations for the years ended December 31, 2024 and 2023, in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are issued or are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information listed in the table of contents as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

The Board of Trustees
Seafarers Officers and Employees Welfare Fund

In our opinion, the information in the accompanying supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Seafarers Officers and Employees Welfare Fund

Notes to Financial Statements

Note 1. Description of Plan

The following brief description of the Seafarers Officers and Employees Welfare Fund (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan, a multiemployer benefit plan, which commenced operations on January 1, 1984, was established on July 1, 1980 under the provisions of an Agreement and Declaration of Trust (Trust), as amended, between the Seafarers Officers and Employees Welfare Plan and various related party employers. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation

Employees and their dependents are eligible for benefits on the day following the completion of the service waiting period (30 days).

Pensioners and their dependents are eligible for benefits provided the pensioner has at least 25 years of eligibility service under the Seafarers Officers and Employees Pension Plan (Pension Plan) of which 18 years must specifically be under the Pension Plan. The remaining years may be years that were credited as a result of a reciprocal agreement. The pensioner must have been credited with at least 1,600 hours of eligibility service in the 12 consecutive calendar months immediately preceding their 55th birthday or their application for benefits from the Pension Plan, whichever is later.

Health care benefits can be extended through COBRA for up to 18 months via premium payments as set by the Plan.

Contributions

The Plan provides that each contributing employer shall pay into the Plan such amounts as are determined to be necessary to provide medical benefits specified by the Plan for the participants employed by each employer.

Benefit Payment Reimbursements

The Plan provides that each contributing employer shall reimburse the Plan for actual claims incurred and premiums paid for dental, life insurance, short-term disability benefits, and accidental death and dismemberment benefits for the participants employed by each employer.

Benefits

The Plan provides certain health benefits (medical, vision, dental, and prescription drugs), life insurance, short-term disability benefits, and accidental death and dismemberment benefits to eligible employees and their dependents. Pensioners are entitled to similar health benefits (in excess of Medicare coverage). The Plan also provides continuation of certain benefits upon termination of employment through the Consolidated Omnibus Budget Reconciliation Act (COBRA).

Seafarers Officers and Employees Welfare Fund

Notes to Financial Statements

Insured Benefits

The Plan fully insures the life insurance benefits (basic, supplemental, and dependent), accidental death and disability benefits (basic, supplemental, and spousal), and short-term disability benefits. Premiums for insurance programs are paid to the insurance company from the Trust.

Third-Party Administrators

The Trust utilizes third-party administrators for the administration of the Plan's self-insured medical and prescription drug arrangements under the terms of the applicable administrative service agreement. However, the responsibility for payment of benefits is retained by the Plan and Trust.

Note 2. Summary of Significant Accounting Policies Basic of Accounting

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, claims incurred but not reported, eligibility credits, claims payable and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Cash

The Plan considers all non-interest-bearing cash deposits to be cash.

Employers' Contributions Receivable

Employers' contributions receivable are based upon the amounts deemed due from the employers at the end of the year based upon their contribution reports. An allowance for doubtful accounts is recorded when the delinquencies are referred to plan counsel.

Seafarers Officers and Employees Welfare Fund

Notes to Financial Statements

Payment of Benefits

Benefit payments are recorded when paid.

Refunds and Rebates

Prescription refunds are recorded when earned. Refunds due at year-end are recorded as a receivable on the statements of net assets available for benefits, with the offset being netted against prescription benefits paid.

Income Taxes

The Plan files an annual Form 990, *Return of Organization Exempt from Income Tax*, with the Internal Revenue Service (IRS).

Reclassifications

Certain reclassifications have been made to the 2023 financial statements to conform to the 2024 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Management's Review of Subsequent Events

Management has evaluated subsequent events for the Plan through October 8, 2025, the date the financial statements were available to be issued.

Note 3. Postretirement and Postemployment Benefit Obligations

The postretirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed to employee service rendered to December 31st. Postretirement benefits include future benefits expected to be paid to or for (1) currently retired or terminated employees and their beneficiaries and dependents, and (2) active employees and their beneficiaries and dependents after retirement from service with the participating employers. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's service in the industry rendered to the valuation date.

The actuarial present value of the expected postretirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Seafarers Officers and Employees Welfare Fund

Notes to Financial Statements

The following are other significant actuarial assumptions used in the valuations as of December 31, 2024 and 2023:

Mortality:	2024: RP-2019 2023: RP-2019
Investment return (discount rate)	2024: 4.50% 2023: 4.50%
Health care cost-trend rate	2024: 6.50% 2023: 6.50%
Average retirement age:	62

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

The health care cost-trend rate assumption has a significant effect on the amounts reported in the accompanying financial statements. If the assumed rates increased by 1% the effect would increase the postretirement obligation as of December 31, 2024 and 2023 by \$3,531,000 and \$3,095,000, respectively.

The Plan's deficiency of net assets available for benefits over benefit obligations at December 31, 2024 and 2023, relates primarily to the postretirement benefit obligation, the funding of which is not covered by the contribution rate provided by the current bargaining agreement. It is anticipated that the deficiency will be funded through future increases in contribution rates, cost containment and other items under consideration.

Note 4. Claims Incurred but not Reported

Plan obligations at December 31 for claims incurred but not reported are estimated by the Plan's actuary in accordance with accepted actuarial principles based on claims data provided by the Plan's third-party claims administrators. These amounts are paid by the Plan only if claims are submitted and approved for payment.

Seafarers Officers and Employees Welfare Fund

Notes to Financial Statements

Note 5. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Common stocks: Valued using quoted market prices in active markets.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Registered investment companies: Registered investment companies, which include exchange - traded funds, are valued at the daily closing price as reported by the fund. The registered investment companies held by the Plan are deemed to be actively traded.

Interest-bearing cash: Interest-bearing cash, including a bank deposit program, is stated at cost, which approximates fair value.

Notes to Financial Statements

The following table sets forth, by level, the Plan's assets that were accounted for at fair value on a recurring basis as of December 31, 2024 and 2023:

	2024	2023
Level 1:		
U.S. Government	\$ 3,903,570	\$ 2,416,032
Stocks	228,770	30,961
Registered investment companies	3,494,764	2,563,497
Level 2:		
Corporate bonds	1,170,381	909,845
Interest-bearing cash	7,746	6,534
Investments at fair value	<u>\$ 8,805,231</u>	<u>\$ 5,926,869</u>

Note 6. Administrative Expenses

All administrative expenses are paid by the Plan.

Note 7. Tax Status

The Trust established under the Plan to hold the Plan's assets is qualified pursuant to Section 501(c)(9) of the Internal Revenue Code, and, accordingly, the Trust's net investment income is exempt from federal income taxes. The Trust has obtained a favorable tax determination letter from the Internal Revenue Service (IRS) and the plan sponsor believes that the Trust, as amended, continues to qualify and to operate as designed.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Plan Termination

In the event of termination of the Trust Agreement, the Trustees will pay those benefits still due and actually accrued and all unpaid expenses, and will carry out the provisions of the Plan, except with respect to the collection of future contributions. Employees' eligibility shall continue; benefits then in effect shall be frozen and shall be paid out until, in the judgment of the Trustees, the available Plan is deemed too small to warrant continuation, in which case the remaining assets shall be disposed of pursuant to a plan unanimously adopted and made operative in accordance with applicable law.

Notes to Financial Statements

Note 9. Related Party Transactions and Party in Interest Transactions

The Plan is related to a family of jointly - administered, collectively - bargained employee benefit plans connected to the Seafarers International Union of North America - Atlantic, Gulf, Lakes and Inland Waters, through one or more of its divisions, regions or other jurisdictions. Since these plans co - exist in the same premises, utilizing each other's resources, equipment, and personnel to effectuate cost - savings and to minimize duplication of efforts, interfund relationships have been established on a continuing basis.

The Plan paid \$17,196 and \$17,899 to the Seafarers Vacation Fund in 2024 and 2023, respectively, for a shared administrative expense. The Plan paid the Seafarers Officers and Employees Pension Fund \$84,992 and \$84,761 in 2024 and 2023, respectively, for its share of allocated salary and related payroll taxes for employees, whose time was partially spent on the Plan. The Plan paid \$10,333 and \$11,173 in 2024 and 2023, respectively, to Seafarers Maryland Building Corporation for the month - to - month rental of office space.

Certain Plan assets are investments held by the custodian of the Plan. As described in Note 1, the Plan has several arrangements with service providers. These transactions are party-in-interest transactions under ERISA.

Note 10. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Market risks include global events, which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, health care inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 11. Concentrations of Credit Risk

Financial instruments that subject the Plan to concentrations of credit risk include cash, a money market fund, and employers' contributions receivable. While the Plan attempts to limit any financial exposure by maintaining accounts at several financial institutions, its deposit balances may, at times, exceed federally insured limits. The Plan has not experienced any losses in such accounts.

In 2024 and 2023, contributions from three employers represented 91%, of the total contributions revenue.
