Independent Auditor's Report

To the Plan Administrator of
The Nassau Companies of New York Savings and Investment Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Nassau Companies of New York Savings and Investment Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C)"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a significant likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of The Nassau Companies of New York Savings and Investment Plan (the “Plan”) provides only general information. Participants should refer to the Plan document and Summary Plan Description for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution profit sharing plan under Section 401(k) of the Internal Revenue Code (“IRC”) and is sponsored by The Nassau Companies of New York (“NCNY”, the “Company” or the “Employer”) and any participating employer. The Plan is subject to the provisions of the IRC and Employee Retirement Income Security Act of 1974 (“ERISA”).

Eligibility

Any new employees who do not make an election are automatically enrolled immediately, with deductions of 5% of pre-tax compensation starting with the first pay cycle. Such employees may stop deductions at any time after the automatic enrollment. The default investment for these contributions is one of the Fidelity Freedom Fund investment options within the Plan, which determines the mix of investments according to the anticipated retirement date (assumed to be based on age 65) of the employee.

Contributions

Participants may elect to contribute between 1% and 60% of eligible compensation on a pre-tax, after-tax or Roth basis, or any combination thereof, and invest in any of the available investment options.

Participant contributions and employer matching contributions are recorded in the period during which payroll deductions are made from the participant’s eligible compensation.

The following contributions may be made:

- Basic contributions, as defined by the Plan document, are participant contributions made through payroll deductions of not less than 1% but not exceeding 6% of the participant’s eligible compensation and may be contributed as any combination of pre-tax, after-tax or as Roth contributions, provided that the amounts do not exceed the annual IRS limits.
- Supplemental contributions, as defined by the Plan document, are participant contributions made through payroll deductions in excess of the 6% basic contribution limit but not exceeding 60% of the participant’s eligible compensation and may be contributed as any combination of pre-tax, after-tax or as Roth contributions.
- Participants who are at least 50 years of age, or will attain age 50 by December 31 of the Plan year, are allowed to make additional pre-tax contributions, known as “catch up contributions”, over and above the standard Internal Revenue Service (“IRS”) deferral limits for that Plan year so long as they are limited by certain Plan-based or IRS limits during the Plan year. The catch up contributions cap was \$7,500 and \$7,500 for the Plan years ended 2024 and 2023, respectively.
- Rollover contributions from another IRS qualified plan are allowed.
- Employer matching contributions, which are made only to the accounts of those participants who make basic contributions, are equal to 100% of a participant’s basic contributions up to a maximum of 5% of eligible compensation for all Plan participants.

Participants may direct the investment of their contributions and Employer contributions into various investment options offered by the Plan.

Participant accounts

Each participant's account is credited with the participant's contributions, the allocation of the Employer's contributions and Plan earnings, if any. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. Earnings are reinvested in the same investment vehicle and are credited to the respective participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Plan participants are immediately vested in their own contributions plus actual earnings thereon.

A participant whose employment with the Company commenced after January 1, 2018 is not vested in any Employer matching contributions until after completing three full years of service. Participants who commenced employment prior to January 1, 2018 will continue to be fully vested in their matching Employer contributions.

Benefit payments

The following options are available upon termination of service, retirement or disability:

- If the value of an account balance is greater than \$7,000, a participant may elect to receive a lump sum distribution, roll over the account balance to an IRA or other qualified plan or retain amounts in the Plan until normal retirement age.
- If the value of an account balance is between \$1,000 and \$7,000 and the participant does not elect to receive a lump sum distribution or roll over the account balance to an IRA or other qualified plan, it will be automatically transferred to an IRA with Fidelity from which they can obtain cash or roll it over to another IRA or another employer's qualified retirement plan.
- If the value of an account balance does not exceed \$1,000 and the participant does not elect to receive a lump sum or roll over the account balance to an IRA or other qualified plan, it will be automatically distributed to the participant.

Terminated participants are allowed to take partial withdrawals until normal retirement age, when any account balance will be paid in a lump sum.

Upon death, the value of a participant's account becomes payable to his or her beneficiary. If the participant (i) is not married, (ii) does not have children, and (iii) has not designated a beneficiary, his or her account balance will be paid to their estate. Spousal beneficiaries have the same payment options available to retirees. Non-spousal beneficiaries may elect to receive a lump sum distribution or roll over the account balance to an IRA.

Distributions are subject to the applicable provisions of the Plan document. Benefit payments are recorded when they have been approved for payment and paid by the Plan.

Notes receivable from participants

A participant may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 (reduced by the highest outstanding balance of loans during the one-year period immediately prior to the loan application) or one half of the participant's vested account balance, whichever is less. Loans are treated as a transfer from/to the investment fund to/from the participant loan account. A loan is collateralized by the balance in the participant's account and bears interest at a rate commensurate with market rates for similar loans. Loan terms generally range from 1 to 4½ years; however, when proceeds are used for the purchase of a primary residence, terms may be up to 30 years. Principal and interest are paid ratably through semi-monthly payroll deductions beginning in the month following receipt of the loan. Participants are limited to two outstanding loans.

2. Summary of Accounting Policies

Basis of accounting and use of estimates

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of GAAP financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefit Plan Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, trustee and insurance companies. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Administrative expenses

Costs and expenses related to the Plan are paid from the Trust Fund from 12b-1 fees to the extent not paid by the Company. The Company currently pays direct fees and expenses related to the Plan that exceed the amount it receives from Fidelity Investment Institutional Operations Company, Inc. Participants pay fees for loan initiation, withdrawals and short-term trading. Other expenses of the mutual funds are reflected in the investment results.

Risks and uncertainties

The Plan provides for various investment options in mutual funds and a common/collective trust. All investment options are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in value in the near term could materially affect the Plan's financial statements and participant account balances.

3. Investments

Fair value of financial instruments

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under Accounting Standards Codification (“ASC”) 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument’s fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2024 and 2023.

Mutual funds: Valued at the net asset value (“NAV”) of shares held by the Plan at year end.

Common/collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

**The Nassau Companies of New York
Savings and Investment Plan
Notes to Financial Statements**

The following tables set forth by level, within the fair value hierarchy, the Plan’s fair value measurements at December 31, 2024 and 2023.

Fair values of assets by type and level:

	As of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 86,561,082	\$ —	\$ —	\$ 86,561,082
Common/collective trusts [1]				140,413,463
Total investments at fair value				\$ 226,974,545

	As of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 71,254,732	\$ —	\$ —	\$ 71,254,732
Common/collective trusts [1]				137,952,812
Total investments at fair value				\$ 209,207,544

[1] The T. Rowe Price Trust Company investments as of December 31, 2024 and 2023, which are included in the common/collective trust funds, are valued using NAV and can be redeemed daily. The funds do not have any unfunded commitments nor include circumstances in which an otherwise redeemable investment might not be redeemable (for instance, investment that is subject to a lockup period). The significant instrument strategies of the funds are as described in the financial statements provided by each fund. In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

4. Related Party Transactions

Investments in funds managed by the trustee of the Plan, or an affiliate of the trustee, qualify as party in interest transactions. Plan assets include investments in funds managed by Fidelity Management Trust Company (“FMTC”) and Fidelity Management Research Corporation (“FMRC”). FMTC is the Plan trustee and also a wholly owned subsidiary of FMRC.

Participants of the Plan are allowed to take loans collateralized against their account balances. (See “Notes receivable from participants” under Note 1).

Personnel and facilities of the Employer have been used to perform administrative functions for the Plan at no charge to the Plan. These transactions are exempt from detailed reporting under Title I of ERISA.

5. Plan Termination

Although the Company has not expressed any intent to do so, it has the right under the Plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the IRC and ERISA. If a Plan termination were to occur, participants would become 100% vested in their full account balance.

6. Income Tax Status

The Plan adopted the Fidelity volume submitter plan. The IRS has determined, and informed Fidelity by a determination letter dated June 30, 2020, that this Plan was designed in accordance with applicable sections of the IRC. The Plan administrator and the Plan's counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan continues to be qualified and the related trust continues to be tax exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Certified Investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2024 and 2023 and investment income and interest income on notes receivable from participants for the year ended December 31, 2024, that are disclosed in the accompanying financial statements and supplemental schedule, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by FMTC, the trustee of the Plan.

8. Subsequent Events

The Plan has been evaluated for subsequent events through October 6, 2025, the date the financial statements were available to be issued. There have been no events that have occurred that would require adjustments to the financial statements and no significant subsequent events that require additional disclosure.
