## Independent Auditor's Report

Board of Directors  
Urschel Laboratories Employee Stock Ownership Plan  
Chesterton, Indiana

### ***Opinion***

We have audited the financial statements of Urschel Laboratories Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Urschel Laboratories Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Urschel Laboratories Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Urschel Laboratories Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Urschel Laboratories Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Urschel Laboratories Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i-schedule of assets held at end of year as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

## **Note 1 - Description of Plan**

The following brief description of the Urschel Laboratories Employee Stock Ownership Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

### **General**

Urschel Laboratories, Inc. (the Company) established the Plan effective March 1, 2015. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended and is subject to the applicable provisions of Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the ESOP committee of the Company. TI-TRUST, Inc. is the Plan's trustee (Trustee).

In 2016, the Plan purchased Urschel Laboratories, Inc. common stock using the proceeds of a note (Note 6) and holds the common stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under IRC.

The borrowing is collateralized by the unallocated shares of stock and is guaranteed by the Company. The lender has no rights against shares of the stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to:

- 1.Accounts of employees with vested rights in allocated common stock (allocated).
- 2.Common stock not yet allocated to employees (unallocated).

### **Eligibility**

Any person hired after February 29, 2016, will become eligible to participate in the Plan upon completion of one year of service and are 18 years of age. An employee will be credited for one year of service if they have worked at least 1,000 hours during a twelve-consecutive month period.

### **Entry Date**

Employees may enter the Plan the first day of January of each Plan year following the date on which he or she meets the Plan's eligibility requirements.

## Contributions

The Board of Directors of the Company determines the Plan contribution amount annually. The Company is obligated to make adequate cash contributions, which aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make payments of principal and interest on its loan as determined by the Trustees. Discretionary contributions and dividends will be made to the Plan in accordance with the Plan document. Discretionary contributions during the plan year ended December 31, 2024 were \$7,350,130. Employee contributions are not permitted.

The discretionary contribution will be allocated to participants pro rata share of compensation to total eligible compensation. With the exception of a participant who terminates due to death, disability or retirement, participants must be actively employed on the last day of the Plan year and have completed at least 1,000 hours of service during a Plan year to share in the Company contributions.

## Voting Rights

The Trustee of the Plan will vote all Company stock held by it as part of the Plan assets at the direction of the administrator, in limited circumstances the participant or beneficiary will be entitled to direct the Trustee as to the manner in which voting rights on shares of Company stock which are allocated to their account are to be exercised. If a participant does not timely exercise their right to vote Company stock, the Trustee, at the direction of the administrator, will vote such Company stock.

## Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure the participant has the ability to ultimately obtain cash.

## Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts.

Each participant's account is credited with the allocation of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participant's non-vested accounts. Allocations are based on participant compensation, points or account balances, as defined. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Contributions and interest expense are allocated based on points accumulation and participant salaries. Dividend earnings (if any) of the Plan are allocated based on the number of shares a participant holds.

### Vesting

Vesting is based on years of credited services as set forth in the following table:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 3	0%
3 Years or More	100%

A year of service is any Plan year in which an employee has 1,000 or more hours of service. Participants are 100% vested in their account balances upon attainment of age 65, death, or permanent disability.

### Forfeitures

At December 31, 2024 and 2023, there was no balance in the forfeited non-vested account as all forfeitures are used in the same year they are forfeited. Plan forfeitures are allocated to each participant's account based upon the allocation method of the current year contribution for the Plan year. For the year ended December 31, 2024, forfeited non-vested accounts totaling 198 shares were allocated to eligible participants.

### Payment of Benefits

Participants will receive a lump-sum amount equal to the value of their vested interest as defined in the plan document upon retirement, termination of employment, death or disability. Participants with account balances less than \$1,000 may be paid out as soon as administratively feasible. Participants with accounts between \$1,000 and \$5,000 may be distributed to a qualified Individual Retirement Account (IRA) as soon as administratively feasible with or without the consent of the Participant. Effective January 1, 2024, the \$5,000 threshold was increased to \$7,000.

Distributions can be made in a single lump sum payment, stock distributions or in substantially equal annual installments over five years if the vested account balance is equal to or less than \$1,380,000. For vested balances over \$1,380,000 the company may extend the payment out for an additional year over the 5 years for every \$275,000 over the \$1,380,000 up to an additional 5 years.

### Diversification

Diversification is offered to participants so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. For statutory diversifications, participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account into an account in his or her name in another tax-qualified plan as defined in the plan document. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of their vested account balance less amounts previously transferred. In the sixth year, the percentage changes to 50% less amounts previously transferred. There are currently no employees eligible to diversify during 2024.

## **Plan Termination**

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. If the Plan is terminated, or if employer contributions are completely discontinued, all amounts credited to participants' accounts will become 100% vested. Upon termination of the Plan, the Board of Directors directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale will be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

## **Note 2 - Significant Accounting Policies**

### **Basis of Accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

### **Use of Estimates**

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

### **Allocations**

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

### **Investment Valuation and Income Recognition**

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year. The Plan sponsor determines the Plan's valuation policies utilizing information provided by the Board of Directors.

The classification of investment earnings reported above and in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Notes to Financial Statements

December 31, 2024 and 2023

---

## Payments of Benefits

Benefit payments to participants are recorded upon distribution.

## Administrative Expenses

Administrative expenses are paid by the Company or the Plan as provided in the Plan document. Expenses paid by the Plan Sponsor are excluded from these financial statements.

## Subsequent Events

The Plan sponsor has evaluated subsequent events through August 6, 2025, the date which the financial statements were available to be issued.

## Note 3 - Investments

The Plan's investment in Company common stock at December 31, 2024 and 2023 are as follows:

	2024		
	Allocated	Unallocated	Total
Number of shares	180,000	820,000	1,000,000
Cost	\$ 32,400,000	\$ 147,600,000	\$ 180,000,000
Fair value	\$ 76,474,800	\$ 348,385,200	\$ 424,860,000
	2023		
	Allocated	Unallocated	Total
Number of shares	160,000	840,000	1,000,000
Cost	\$ 28,800,000	\$ 151,200,000	\$ 180,000,000
Fair value	\$ 58,252,800	\$ 305,827,200	\$ 364,080,000

**Note 4 - Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Company Common Stock – The fair value of the Company common stock held in the Plan is valued at estimated fair value based upon an independent appraisal. The appraisal was based upon a combination of the discounted cash flows method and guideline public comparables techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, discount rates, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities, including discounts.

Money Market Mutual Fund – Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at the price. The mutual funds held by the plan are deemed to be actively traded.

### Note 5 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated August 4, 2017, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Subsequent to the issuance of the determination letter, the Plan was amended. However, the Company, Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and therefore believe the Plan is qualified and the related trust continues to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 6 - Acquisition Indebtedness**

In February 2016, the Plan entered into a \$180,000,000 term loan agreement with the Company. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year’s payments, plus all future years’ principal and interest payments. This resulted in 20,000 shares being released and allocated for the Plan year ended December 31, 2024.

The balance due on the note payable as of December 31, 2024 and 2023, was \$161,495,000 and \$163,669,830, respectively. The loan agreement bears interest at 2.62% with payments annually of \$6,474,729 including interest and matures on December 31, 2065. The scheduled amortization of the loan for the next five years and thereafter is as follows:

Years Ended December 31,	Amount
2025	\$ 2,243,560
2026	2,302,341
2027	2,362,662
2028	2,413,468
2029	2,487,797
Thereafter	149,685,172
Total	\$ 161,495,000

Interest paid to the Company totaled \$4,299,898 for the year ended December 31, 2024.

**Note 7 - Related Party and Parties-in-Interest Transactions**

Certain Plan investments are shares of common stock of Urschel Laboratories and the Plan has acquisition indebtedness (Note 6) due to the Company. These transactions are related party and party-in-interest transactions.

**Note 8 - Risks and Uncertainties**

The Plan’s investments consist primarily of the Company’s common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

**Note 9 - Right of First Refusal**

Company stock that has been distributed to a participant and not immediately repurchased by the Company or Trust, may be subject to a right of first refusal if so, determined by the Company. Prior to any subsequent transfer, the shares must first be offered by written offer to the Company, and then, if refused by the Company, to the Trust at fair market value as determined by an independent appraiser appointed by the Board of Directors.

**Note 10 - S-Distributions**

To the extent that S-distributions are not used by the Plan for debt service, participants are given the right to take a distribution of such S-distributions in cash or leave the funds in the Plan to be invested in Company stock, as provided by the Plan.

**Note 11 - Plan Amendments**

Effective January 1, 2024, the Plan was amended to increase the threshold for small account balances from \$5,000 to \$7,000.
