INDEPENDENT AUDITOR'S REPORT

BAE Systems Administrative Committee

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of BAE Systems Employees' Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

BAE SYSTEMS EMPLOYEES' RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2024 AND 2023, AND FOR THE YEAR ENDED DECEMBER 31, 2024

1. PLAN DESCRIPTION

The following description of the BAE Systems Employees' Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan. In the event of any conflict between this description and the Plan document, the Plan document shall govern.

General—The Plan is a defined benefit plan covering eligible employees of BAE Systems Inc. (the "Company" or the "Employer"), and certain adopting affiliates. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan's assets are held in the BAE Systems Master Pension Investment Trust (the "Master Trust") and the trustee is The Northern Trust Company.

Eligibility—The Plan applies to certain employees who were hired or rehired with a participating division of the Company on or before December 31, 2009. For a majority of the population, the plan closed to new entrants on December 31, 2009. For Advanced Information Technologies participants, the close date was December 31, 2010. For GDE Hourly participants, the plan closed December 31, 2018. Eligibility can vary depending on legacy pension plans that have been previously merged into the Plan.

Purchase of Annuity Contracts—Effective June 1, 2023, the Plan entered into a commitment agreement with MetLife to purchase a non-participating single premium group annuity contract in order to transfer the administration and obligations associated with certain Plan participants to MetLife. Funds under the contract that have been allocated and applied to purchase annuities (that is MetLife is obligated to pay the related pension benefits) are excluded from the Plan's assets. The receivable amount as of December 31, 2023 of \$21,536,672 was received in February 2024.

Terminated Vested Lump Sum Window - On June 26, 2023, a Board of Resolution was executed to offer a temporary one-time lump sum window for certain terminated vested participants with a payment date of June 17, 2024. The lump sum window resulted in \$127M of benefit payments and reduced the Plan's actuarial present value of accumulated plan benefits (see Note 4).

Vesting—Generally, a participant becomes 100% vested upon completion of five years of service. Vesting service is defined in the Plan document and measured based upon the period of employment with the Company. Employee contributions, if any, are always 100% vested with credited interest. Vesting provisions can vary depending on legacy pension plans that have been previously merged into the Plan.

Employee Contributions—The Plan previously permitted employee contributions. Effective January 1, 2013, no participants are permitted to make new employee contributions to the Plan.

Pension and Death Benefits—Pension benefits are based on rules set forth in the Plan document that may take into account the participant's contributions, if any, plus interest, the participant's final average compensation, and the participant's credited service. Pension benefits are frozen for certain groups of participants.

The normal form of benefit for married participants is a 50% joint and survivor annuity unless noted otherwise in the Plan document. The normal form of benefit for unmarried participants is a life annuity.

If a participant dies after commencement of their pension, their beneficiary receives a benefit only if payments continue after death under the form of distribution the participant is receiving. If death occurs before a participant's pension commences, the Plan provides a pre-retirement survivor annuity to married participants. Death benefits for unmarried participants whose death occurs before their pension commences are governed by the terms of the Plan.

Funding Policy—The Company makes contributions as required to maintain funding standards as provided by ERISA, as modified by the Pension Protection Act of 2006 (PPA), using the projected unit credit actuarial cost method. The Company met the minimum funding requirements of ERISA for the year ended December 31, 2024.

Administrative Expenses—ERISA allowable administrative expenses incurred by the Plan may be paid from the Plan. Generally, trustee fees, actuarial fees to the extent allowable by law, audit fees, investment management fees and the Pension Benefit Guaranty Corporation (PBGC) premiums are paid from the Plan.

401(h) Accounts—Certain of the Plan's net assets are restricted to fund a portion of postretirement health benefits for retirees and their beneficiaries. The Plan includes a medical benefit (health and welfare) component, in addition to normal retirement benefits, to fund a portion of the postretirement obligations for retirees and their beneficiaries, in accordance with Section 401(h) of the Internal Revenue Code (the "Code"). Separate accounts have been established and maintained in the Master Trust for the net assets related to the health and welfare component (the "401(h) Accounts"). In accordance with Section 401(h) of the Code, the Master Trust's investments in the 401(h) Accounts may not be used for, or diverted to, any purpose other than providing health and welfare benefits for retirees and participants. Any assets transferred to the 401(h) Accounts from the defined benefit pension plan in a qualified transfer of excess pension plan assets (and any income allocable thereto) that are not used during the plan year are to be transferred back out of the 401(h) Accounts to the pension plan. The related obligations for health and welfare benefits are not included in this Plan's accumulated plan benefits but are reflected as obligations in the financial statements of the BAE Systems Retiree Welfare Benefit Plan. Plan participants do not contribute to the 401(h) Accounts. Employer contributions or qualified transfers to the 401(h) Accounts are determined annually at the discretion of the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with United States generally accepted accounting principles (US GAAP).

Use of Estimates—The preparation of the financial statements in accordance with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan provides for investments in various investment securities through the Master Trust, which, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the Plan's interest in the Master Trust as reported in the statements of net assets available for benefits. One individual investment in the Master Trust, State Street S&P 500 Flagship Securities Lending Fund, accounted for approximately 10.8% of the Master Trust's net assets. No individual investment in the Master Trust accounts for more than 10% of the Master Trust's net assets as of December 31, 2023.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Investments Valuation and Income Recognition—As further discussed in Note 5, the Plan participates in the Master Trust. Investments of the Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 6 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments—Benefit payments are recorded when paid.

3. CERTIFIED INVESTMENT INFORMATION BY THE TRUSTEE

The audit of the Plan's financial statements did not extend to the following investment information of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included in the Plan's financial statements that were prepared by or derived from information prepared by The Northern Trust Company, the trustee, and furnished to the Employer. The Employer has obtained certifications from the trustee that such investment information is complete and accurate.

4. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those estimated future periodic payments that are attributable under the Plan's provisions for Plan compensation earned and credited service rendered by the employees from their date of eligibility to the valuation date. Accumulated plan benefits include benefits expected to be paid to retired, terminated, and disabled employees or their beneficiaries, (b) beneficiaries of those who have died, and (c) present employees or their beneficiaries. Benefits for retired, terminated, and disabled employees or their beneficiaries are based on each former employee's Plan compensation earned and credited service prior to his or her termination or retirement date. Accumulated plan benefits for active employees are based on each employee's Plan compensation earned and credited service up to the valuation date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included to the extent they are deemed attributable to employee service prior to the valuation date.

The actuarial present value of accumulated plan benefits has been determined by an independent actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits presented below are presented using end of year benefit information date. The actuarial present value of accumulated plan benefits below is measured as of January 1, 2025 and 2024. Had the valuations been performed as of December 31, 2024 and 2023, respectively, there would be no material differences. The effect of plan amendments on accumulated plan benefits are recognized during the year in which such amendments are effective. There were no amendments effective January 1 recognized in the below actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits was as follows:

	December 31,	
	2024	2023
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 1,697,618,216	\$ 1,571,732,433
Other participants	<u>1,210,520,595</u>	<u>1,430,274,593</u>
	2,908,138,811	3,002,007,026
Nonvested benefits	<u>18,579,967</u>	<u>21,333,901</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 2,926,718,778</u>	<u>\$ 3,023,340,927</u>

The changes in the actuarial present value of accumulated plan benefits were as follows:

	Year Ended December 31, 2024
Actuarial present value of accumulated Plan benefits at beginning of year	\$3,023,340,927
Increase/(decrease) during year attributable to:	
Interest accumulation	186,697,583
Benefits paid	(306,973,340)
Assumption changes	20,040,203
Other Changes	<u>3,613,405</u>
Net decrease	<u>(96,622,149)</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$2,926,718,778</u>

Benefits paid includes \$127M in benefit payments related to the terminated vested lump sum window (Note 1). The "Other Changes" component above represents the normal operation of the Plan. It consists of the increase due to ongoing benefit accruals (if any) and those items of plan experience that are not associated with plan asset performance or experience gains or losses associated with the terminated vested lump sum window.

The significant actuarial assumptions used in the valuations as of December 31, 2024 and 2023, were as follows:

Mortality basis:	Pri-2012 Mortality Table (adjusted White and Blue Collar) with generational projections using November 2024 Aon Endemic Projection Scale MP-2021 as of December 31, 2024
	Pri-2012 Mortality Table (adjusted White and Blue Collar) with generational projections using Scale MP-2021 as of December 31, 2023
Discount rate:	6.5% at December 31, 2024 and December 31, 2023
Rates of retirement beginning at age 55:	Scale varies based on age & company (starting with 4–15% at age 55 to 100% at age 70) as of December 31, 2024. These changed from a scale varying based on age & company (starting with 2–10% at age 55 to 100% at age 70) as of December 31, 2023.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. INTEREST IN THE MASTER TRUST

The purpose of the Master Trust is the collective investment of the assets of participating plans sponsored by the Company. The Northern Trust Company, trustee, holds the assets of the Master Trust. The net assets and net investment income and gains and losses of the Master Trust are allocated based on each plan's divided interest in the Master Trust at the end of every month.

The Plan has a divided interest in the Master Trust's net assets as of December 31, 2024 and 2023. The net assets of the Master Trust and the Plan's interest in the Master Trust as of December 31, 2024, are as follows:

6. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1—Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2—Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs to the valuation methodology include the following:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets or liabilities in markets that are not active
- observable inputs other than quoted prices of the asset or liabilities
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3—Inputs to the valuation methodology are unobserved and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets and liabilities in the Master Trust measured at fair value:

Short-Term Investment Funds—Held in short-term money market common collective trusts. Fair value is determined as the net asset value of units of the funds. The net asset value per share is determined and published and is the basis for current transactions. The funds' primary objective is to operate with a stable NAV of \$1.00. These instruments are classified as Level 2 in the fair value hierarchy.

Common Stock—Valued at the closing price reported on the active market on which the individual securities are traded. To the extent these securities are actively traded, and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy. Restricted securities issued by nonpublic entities, if any, are valued by reference to comparable public entities or fundamental data relating to the issuer, or both. These instruments are classified as Level 3 in the fair value hierarchy.

Preferred Stock—Securities traded on a national securities exchange (or reported on the NASDAQ national market) are stated at the last reported sales price on the day of valuation. To the extent these securities are actively traded, and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

US and Foreign Government Securities—Valued using pricing models maximizing the use of observable inputs for similar securities.

Registered Investment Companies—The open-ended mutual funds publish their daily net asset value and transact at that price. These funds are valued at the daily closing price as reported by the fund, deemed to be actively traded and classified as Level 1. The privately-held mutual funds are not actively traded funds. The net asset values of these funds are calculated daily and the value at which purchases and sells will be conducted. As the private-held funds are not publicly available, they are classified as Level 2.

Corporate Debt Instruments, Municipal Bonds—Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote, if available.

Loans Secured by Mortgages—Residential—Valued on the basis of their future principal and interest payments discounted at prevailing interest rates for similar investments.

Partnership Funds—Valued at fair value by using the net asset values provided by the general partners in their financial reports and are updated, if necessary, using analytical procedures, appraisals, public market data and/or inquiry of the general partners. The net asset value, as provided by the general partners, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the partnership less its liabilities. This practical expedient is not used when it is determined to be probable that the partnership will sell the investment for an amount different than the reported net asset value. Were the Plan to initiate a full redemption of the funds, the general partner reserves the right to temporarily delay withdrawal from the partnership in order to confirm that securities liquidations will be carried out in an orderly business manner.

Real Estate Fund: Valued at the NAV as a practical expedient of shares held at year- end. The fund can be valued using market inputs and NAV of shares held at year- end. For real estate investments, for each calendar year, the fund follows a valuation policy whereby underlying investment fair values are determined quarterly by one self-contained appraisal report and three limited restricted appraisals, in accordance with the Uniform Standards of Professional Appraisal Practice.

Common Collective Trusts (CCTs)—Valued at the net asset value of units of a bank collective trust. The net asset value as provided by the trustee, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities.

Other—Includes derivative financial instruments such as interest rate contracts, swap and option contracts, and warrants. Over-the-counter financial derivative instruments derive their value from underlying asset prices, indices, reference rates and other inputs or a combination of these factors. These contracts are normally valued on the basis of broker-dealer information or pricing services providers. Depending on the product and the terms of the transaction, the value of the derivative contracts can be estimated by a pricing service provider using a series of techniques, including simulation pricing models. The pricing models use inputs observed from actively quoted markets such as issuer details, indices, spreads, interest rates, curves, dividends and exchange rates.

7. NET ASSET VALUE PER SHARE

The following table sets forth a summary of the Master Trust's investments whose values were estimated using a reported NAV at December 31, 2024 and 2023.

There are no participant restrictions for these investments; the redemption notice period is applicable only to the Master Trust.

Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Restrictions	Notice Period
Partnership funds ^(a)	\$ 116,321,740	\$ 3,100,778	Quarterly	None	None; 60-90 days

Total	<u>\$780,355,783</u>	<u>\$3,580,729</u>			

^(a) Partnership funds invest primarily in private equity and private real estate holdings.

^(b) Real estate fund is invested in real estate holdings.

^(c) Common collective trusts consist of funds focused on global asset allocation and providing exposure to floating rate debt.

8. DERIVATIVE INSTRUMENTS

The Master Trust may hold various instruments that meet the definition of a derivative under FASB ASC Topic 815, *Derivatives and Hedging*. Derivatives currently held by the Master Trust are not designated as hedging instruments and the gain or loss is recognized in the Change in Plans interest in the Master Trust in the accompanying statement of changes in net assets available for benefits. Such economic hedges address specific risks inherent in the Master Trust's net assets, and have not been designated for hedge accounting. The volume of activity is minimal based on the portfolio investment activity and net assets available for benefits as of December 31, 2024 and 2023.

9. INCOME TAX STATUS

The Plan received a favorable determination letter from the Internal Revenue Service (IRS) dated July 6, 2017, stating that the Plan and related Master Trust are designed in accordance with applicable sections of the Code and, therefore, the Plan and the related Master Trust are exempt from taxation. Although the Plan was amended after the receipt of the determination letter, one amendment was required by the IRS as a condition of the issuance of the determination letter, and the other amendments did not relate to the tax qualification requirements of the Code. The Plan and related Master Trust are designed in accordance with the applicable sections of the Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. In December 2016, the IRS began publishing a Required Amendments List for individually designed plans to be amended for each item on the list, as applicable, to retain its tax-exempt status. Plan Management believes the Plan and the related Master Trust are currently designed and operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

10. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits if the Plan is terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2024 and 2023:

12. EXEMPT PARTIES IN INTEREST TRANSACTIONS

As of December 31, 2024, the Plan participates in a Master Trust which contains assets managed by The Northern Trust Company, the trustee. Related transactions such as these qualify as exempt party-in-interest transactions. These transactions are exempt from the prohibited transaction rules. Fees paid by the Master Trust to the trustee for investment management services and contract administration fees that are allocated to the Plan are included in administrative expenses in the statement of changes in net assets available for benefits.

13. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 9, 2025, the date the financial statements are available to be issued.

Beginning May 1, 2025 for active employees age 65 or older, and July 1, 2025 for active employees age 59-1/2 or older, certain participants may commence their pension benefit while remaining actively employed by the Company.

There are no other subsequent events requiring adjustment to or disclosure in the financial statements.

Maximum Benefit	\$275,000 for 2024, with no assumed future increases
Value of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% or more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2022 Plan Year	4.50%
2023 Plan Year	6.50%
Trust Expenses Included in Target Normal Cost	Target Normal Cost expense load for 2024 is \$7,740,000.
Valuation Date	January 1, 2024
Actuarial Cost Method	Standard unit credit cost method
Rationale for Assumptions	"2020 Assumption Study" dated November, 2020 "December 31, 2023 Discount Rate Update" dated January, 2024 "2024 Phase I assumptions" dated February, 2024

Changes in Assumptions Since Prior Year

The interest rate assumption changed from the full yield curve with no lookback as of December 2022 to the full yield curve with no lookback as of December 2023.

The mortality table changed from the IRS 2023 Static Mortality Table to the IRS Generational 2024 Mortality Table

The expected plan-related expenses included in target normal cost decreased from \$16,350,000 in 2023 to \$7,740,000 in 2024, to better reflect actual plan-related expenses paid from plan assets.

The expected rate of return on assets (used in calculating the actuarial value of assets) changed from 4.50% in 2022 to 6.50% in 2023.

The assumptions for inflation and salary scale were updated to better reflect anticipated experience.

Statement by Enrolled Actuary	
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 7 — Explanation of Discrepancy in Prior Year Funding Standard Carryover Balance or Prefunding Balance

Line 7 of the 2024 Schedule SB does not match line 13 of the 2023 Schedule SB as a result of the merger of the BAE Systems Land & Armaments Employees Pension Plan ("EPP", EIN: 54-1693796, PN: 114) and the Pension Agreement Between U.D.L.P. Ground Systems Division – York and United Steel Workers of America Local union No. 7687 ("CSD Hourly", EIN: 54-1693796, PN: 102) into the BAE Systems Employees' Retirement Plan ("ERP Plan") effective December 31, 2023. Upon the merger, the Funding Standard Carryover Balances of the three merging plans were added together, as were the Prefunding Balances of the three merging plans. On lines 7 through 13 of the 2024 Schedule SB, the amounts reported are the totals of the amounts for the three merging plans. In order to reconcile to the 2023 Schedule SB for the three merging plans, the tables below give the amounts for each individual plan.

Maximum Benefit	\$275,000 for 2024, with no assumed future increases
Value of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% or more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2022 Plan Year	4.50%
2023 Plan Year	6.50%
Trust Expenses Included in Target Normal Cost	Target Normal Cost expense load for 2024 is \$7,740,000.
Valuation Date	January 1, 2024
Actuarial Cost Method	Standard unit credit cost method
Rationale for Assumptions	"2020 Assumption Study" dated November, 2020 "December 31, 2023 Discount Rate Update" dated January, 2024 "2024 Phase I assumptions" dated February, 2024

Changes in Assumptions Since Prior Year

The interest rate assumption changed from the full yield curve with no lookback as of December 2022 to the full yield curve with no lookback as of December 2023.

The mortality table changed from the IRS 2023 Static Mortality Table to the IRS Generational 2024 Mortality Table

The expected plan-related expenses included in target normal cost decreased from \$16,350,000 in 2023 to \$7,740,000 in 2024, to better reflect actual plan-related expenses paid from plan assets.

The expected rate of return on assets (used in calculating the actuarial value of assets) changed from 4.50% in 2022 to 6.50% in 2023.

The assumptions for inflation and salary scale were updated to better reflect anticipated experience.

Schedule SB, Part V — Summary of Plan Provisions

Participants in the Employees' Retirement Plan are eligible to earn benefits under one of several legacy plan provisions. All new hires since January 1, 2003 participate in the New Retirement Plan; current participants were also given the choice to participate in the New Retirement Plan in 2003.

Effective April 1, 2006 the Employees' Retirement Plan is closed to new entrants.

Effective December 31, 2009, non-represented participants no longer accrue benefits in this plan.

Forms of Payment

For those participants with a qualified spouse at retirement, benefits must be paid in the form of a Joint and Survivor annuity unless the spouse consents to an optional form.

Single participants and married participants with spousal consent have the following options:

- (a) life annuity
- (b) 100% Joint and Survivor annuity; or 50% Joint and Survivor annuity (for married participants)
- (c) level income

For those participants who are vested upon termination and whose present value of accrued benefits is \$1,000 or less, a lump sum payment is made immediately, without participant or spousal consent.

Maximum Benefits

All benefits for any calendar year may not exceed the maximum limitation for that year as defined in the Internal Revenue Code. The Plan provides for adjusting the dollar limit automatically as such changes become effective.

Plan History

Effective January 1, 1999, the following plans were merged into the UDLP Salaried Employees Pension Plan. The plan was renamed the United Defense L.P. Employees Pension Plan. No benefit provisions were changed as a result of the merger and all benefits continue be determined based on the business unit specific formulas.

Schedule SB, line 24 — Change in Actuarial Assumptions

The expected plan-related expenses included in target normal cost decreased from \$16,350,000 in 2023 to \$7,740,000 in 2024, to better reflect actual plan-related expenses paid from plan assets.

The expected rate of return on assets (used in calculating the actuarial value of assets) changed from 4.50% in 2022 to 6.50% in 2023.

The assumptions for inflation and salary scale were updated to better reflect anticipated experience.

Schedule SB, line 7 — Explanation of Discrepancy in Prior Year Funding Standard Carryover Balance or Prefunding Balance

Line 7 of the 2024 Schedule SB does not match line 13 of the 2023 Schedule SB as a result of the merger of the BAE Systems Land & Armaments Employees Pension Plan ("EPP", EIN: 54-1693796, PN: 114) and the Pension Agreement Between U.D.L.P. Ground Systems Division – York and United Steel Workers of America Local union No. 7687 ("CSD Hourly", EIN: 54-1693796, PN: 102) into the BAE Systems Employees' Retirement Plan ("ERP Plan") effective December 31, 2023. Upon the merger, the Funding Standard Carryover Balances of the three merging plans were added together, as were the Prefunding Balances of the three merging plans. On lines 7 through 13 of the 2024 Schedule SB, the amounts reported are the totals of the amounts for the three merging plans. In order to reconcile to the 2023 Schedule SB for the three merging plans, the tables below give the amounts for each individual plan.

Forms of Payment

For those participants with a qualified spouse at retirement, benefits must be paid in the form of a Joint and Survivor annuity unless the spouse consents to an optional form.

Single participants and married participants with spousal consent have the following options:

- (a) life annuity
- (b) 100% Joint and Survivor annuity; or 50% Joint and Survivor annuity (for married participants)
- (c) level income

For those participants who are vested upon termination and whose present value of accrued benefits is \$1,000 or less, a lump sum payment is made immediately, without participant or spousal consent.

Maximum Benefits

All benefits for any calendar year may not exceed the maximum limitation for that year as defined in the Internal Revenue Code. The Plan provides for adjusting the dollar limit automatically as such changes become effective.

Plan History

Effective January 1, 1999, the following plans were merged into the UDLP Salaried Employees Pension Plan. The plan was renamed the United Defense L.P. Employees Pension Plan. No benefit provisions were changed as a result of the merger and all benefits continue be determined based on the business unit specific formulas.

Schedule SB, line 24 — Change in Actuarial Assumptions

The expected plan-related expenses included in target normal cost decreased from \$16,350,000 in 2023 to \$7,740,000 in 2024, to better reflect actual plan-related expenses paid from plan assets.

The expected rate of return on assets (used in calculating the actuarial value of assets) changed from 4.50% in 2022 to 6.50% in 2023.

The assumptions for inflation and salary scale were updated to better reflect anticipated experience.
