INDEPENDENT AUDITORS' REPORT

To the Collegiate School, Inc.
Collegiate School Retirement Plan Committee
as Plan Administrator for the
Collegiate School Defined Contribution Retirement Plan
and
Plan Participants and Beneficiaries

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Collegiate School Defined Contribution Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

COLLEGIATE SCHOOL DEFINED CONTRIBUTION RETIREMENT PLAN

Notes to Financial Statements December 31, 2024 and 2023

NOTE A - DESCRIPTION OF THE PLAN

The accompanying financial statements and supplemental schedule are those of the Collegiate School Defined Contribution Retirement Plan (the "Plan"), and users of those statements and supplemental schedule are directed to the Independent Auditors' Report on pages 1 through 4. Likewise, the brief description of the Plan contained herein is provided solely for purposes of general information, and interested persons should refer to the Plan agreement for a more complete description of the Plan's provisions. A copy of the Plan agreement can be obtained from the Collegiate School, Inc. (the "School"), which is the administrator of the Plan.

[1] General:

The Plan is a defined contribution plan covering all employees of the School who normally work more than 20 hours per week and are contracted for more than 1,000 hours of service during a period of 12 months, except students. The Plan is designed to meet the requirements of Section 403(b) of the Internal Revenue Code (the "Code") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). TIAA and CREF are the insurance companies for the Plan's non-mutual fund investments. TIAA, FSB was the custodian for the portion of the Plan's investments in mutual funds through July 15, 2023. Subsequent to July 15, 2023, TIAA Trust, N.A. served as custodian of the Plan's investments in mutual funds. TIAA is the Plan's recordkeeper. The Plan administrator controls and manages the operation and administration of the Plan.

[2] Eligibility for participation:

Employee elective deferrals: Eligible employees may participate in the Plan immediately following their employment commencement date.

Mandatory employee contributions: Prior to September 1, 2023, benefit-eligible employees were required to participate in the Plan through mandatory employee deferrals after one year of service. The Plan defined "one year of service" as a 12-month period during which the employee was credited with at least a 0.6 full-time equivalency. Beginning September 1, 2023, benefit-eligible employees are required to make mandatory employee contributions following their employment commencement date and work at least 20 hours per week.

Employer contributions: Employees who participate in the Plan through mandatory employee contributions are eligible to receive contributions from the School.

[3] Contributions:

Employee elective deferrals: Participants may elect to contribute up to 100% of their pre-tax annual compensation, as defined by the Plan, subject to the Internal Revenue Service ("IRS") limit. "Catch-up" contributions are permitted under the Plan if a participant has attained the age of 50 before the end of the Plan year, in an amount of up to \$7,500 in 2024 and 2023, respectively. In no event, however, may a participant's pre-tax contributions exceed any statutory limitations. Participants may also contribute amounts to their accounts representing distributions from other qualified defined benefit or defined contribution plans, although the Plan does not allow for after-tax Section 403(b) contributions. Participants direct the investment of their employee elective deferrals.

Mandatory employee contributions: Participants who have satisfied the service requirement are required to contribute 3% of their pre-tax annual compensation to the Plan. Participants direct the investment of their mandatory employee contributions.

COLLEGIATE SCHOOL DEFINED CONTRIBUTION RETIREMENT PLAN

Notes to Financial Statements December 31, 2024 and 2023

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[3] Contributions: (continued)

Employer contributions: The School makes contributions to eligible participants' accounts, based upon their years of service with the School. With seven years of service or less, the School will contribute 7% of a participant's eligible pre-tax annual compensation, as defined by the Plan. Once more than seven years of service is reached, the contribution increases to 12%. In addition, the Head of School and Chief Financial and Operating Officer can receive the additional 5% as a condition of their employment. Participants direct the investment of their employer contributions.

[4] Participant accounts:

The activity in each participant's account includes: (i) the participant's contributions; (ii) the School's contributions; (iii) benefit payments or withdrawals; (iv) allocations of the earnings or losses on Plan assets; and (v) allocated administrative expenses, if any. Allocations are based on participant earnings, account balances, or eligible compensation, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

[5] Vesting:

All contributions to the Plan, plus actual earnings thereon, for employees hired prior to September 1, 2023 are vested to participants immediately when made. Employees hired on or after September 1, 2023 are subject to a one-year cliff vesting schedule. Employer contributions given to the Head of School are not subject to a vesting schedule and are immediately vested.

[6] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus 1%, as defined, determined at the time the loan is issued. Interest rates on outstanding loan balances range from 4.25% to 9.50% at December 31, 2024 and 2023. Principal and interest are paid ratably through payroll deductions. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred.

[7] Plan loans:

Participants were able to enter into a loan agreement with TIAA, with the collateral for the loan being held within the borrowing participant's TIAA General Supplemental Retirement Annuity Traditional Annuity accumulation. The remaining loan repayments are made outside of the Plan, and loan balances do not represent Plan assets. Principal and interest are paid ratably by the participant to TIAA, and each payment reduces the amount collateralized. Interest rates on outstanding loan amounts as of December 31, 2024 and 2023 range from 4.00% to 5.56%, respectively. Plan loan balances outstanding from participants to TIAA were approximately \$99,000 and \$97,000 as of December 31, 2024 and 2023, respectively. The collateral must be 110% of the loan. As of December 31, 2024 and 2023, approximately \$109,000 and \$106,000, respectively, of Plan assets were pledged as collateral for such loans made by TIAA.

During 2024, approximately \$46,000 of Plan assets were distributed from the Plan, included as distributions, representing payout of collateral for defaulted loans of this type, which consist of employer and rollover components of participants' accounts for participants who are still employed by the School. There were no Plan assets distributed from the Plan in 2023 that represented payout of collateral for defaulted loans.

COLLEGIATE SCHOOL DEFINED CONTRIBUTION RETIREMENT PLAN

Notes to Financial Statements December 31, 2024 and 2023

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[7] Plan loans: (continued)

These Plan loans are no longer offered by TIAA, and all existing collateralized loans will remain in effect until they are repaid. The Plan now provides for notes receivable from participants, as noted above.

[8] Payment of benefits:

Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump sum, partial payments, installment payments, or purchase an annuity contract equal to the total value of the participant's vested interest in his or her account as of the most recent valuation date. During employment, a participant may also request to receive a hardship withdrawal of his or her elective deferral to satisfy an immediate and heavy financial need.

[9] Plan termination:

Although it has not expressed any intention to do so, the School has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements are prepared using the accrual method of accounting.

Investments held by a defined contribution plan are required to be reported at their fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

[2] Investment valuation and income recognition:

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements. Participants direct their contributions, as well as the School's contributions, into any of four investment alternatives: (i) fixed annuity accounts; (ii) variable annuity accounts; (iii) a pooled separate account; and (iv) mutual funds. (See Notes D and E for further discussions concerning each of these investment alternatives.)

Purchases and sales of investment securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) in the value of investments includes the Plan's gains and losses on investments bought and sold, as well as those held during the year.

[3] Payment of benefits:

Benefits are recorded when paid.

COLLEGIATE SCHOOL DEFINED CONTRIBUTION RETIREMENT PLAN

Notes to Financial Statements December 31, 2024 and 2023

NOTE B - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

[4] Plan expenses:

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the School. Expenses that are paid by the School are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in the net appreciation (depreciation) of fair value of investments.

[5] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to make estimates and assumptions that affect: (i) the reported amounts of net assets available for benefits at the date of the financial statements; (ii) the changes in net assets available for benefits during the reporting period; and (iii), when applicable, the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

[6] Tax status:

The Plan operates under an ERISA 403(b) Volume Submitter Plan sponsored by TIAA and is a tax-deferred annuity plan subject to the provisions of ERISA. TIAA received an advisory opinion from the IRS dated August 7, 2017, stating that the form of the Plan is acceptable under Section 403(b) of the Code. The Plan has been amended since the date of the letter. However, the Plan administrator believes that the Plan is currently designed and operating in accordance with the applicable requirements of Section 403(b) and therefore believes that the related custodial accounts and tax-deferred annuities are tax-exempt. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires the Plan's management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2024, there are no uncertain positions taken, or expected to be taken, that would require either recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

[7] Subsequent events:

The Plan has evaluated subsequent events through October 9, 2025, the date the financial statements were available to be issued.

COLLEGIATE SCHOOL DEFINED CONTRIBUTION RETIREMENT PLAN

Notes to Financial Statements December 31, 2024 and 2023

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, TIAA and CREF with respect to the Plan's annuity contracts issued by TIAA and/or CREF as of December 31, 2024 and 2023 and for the year ended December 31, 2024, and TIAA on behalf of TIAA, FSB with respect to the Plan's other investments held as directed trustee or custodian that were recordkept by TIAA as of December 31, 2023 and for the period January 1, 2023 to July 14, 2023 and TIAA on behalf of TIAA Trust, N.A. with respect to the Plan's other investments held as directed trustee or custodian that were recordkept by TIAA as of December 31, 2024 and for the period July 15, 2023 to December 31, 2024, have certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants and related activity in the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023, the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023, and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2024.

NOTE D - INVESTMENTS AND FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

TIAA Real Estate Account – This is a pooled separate account/insurance company separate account. This is a variable annuity product valued at net asset value ("NAV") per accumulation unit, as a practical expedient for measuring fair value, based on the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally utilizing external appraisals, which are estimates of property values based on the assessment of specialists and reported by TIAA. The TIAA Real Estate Account sometimes holds securities, as well, and these are generally priced using values obtained from independent pricing sources. Transactions out are limited to one per calendar quarter. The TIAA General Account provides the Real Estate Account with a liquidity guarantee.

COLLEGIATE SCHOOL DEFINED CONTRIBUTION RETIREMENT PLAN

Notes to Financial Statements December 31, 2024 and 2023

NOTE D - INVESTMENTS AND FAIR VALUE MEASUREMENTS (CONTINUED)

CREF Variable Annuity Accounts – These are variable annuity accounts that invest principally in equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objectives. Each CREF account is a separate portfolio with its own investment objective and strategies. Investments in a CREF Variable Annuity Account enable a unit-holder to acquire units whose accumulation unit value, or NAV used as a practical expedient to measure fair value, is calculated each business day. The value of a unit-holder's investment rises and falls with the returns on the underlying assets. Account investments are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing.

CREF Money Market Accounts – These are portfolio securities valued at their amortized cost bases. This valuation method does not factor in unrealized gains or losses on the account's portfolio securities. Amortized cost valuation involves first valuing a security at its cost, and thereafter assuming a constant amortization to maturity of any discount or premium, regardless of the impact of fluctuating interest rates on the security's market value.

Accumulation units in CREF accounts are transacted at the accumulated unit value. Participants will be locked out of a CREF account for 90 days if a purchase-sale-repurchase within that account is made within a 60-day period, other than for the CREF Money Market Account.

Mutual funds – Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission ("SEC"). These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Nuveen mutual funds – The funds invest principally in equity securities, fixed-income instruments, other mutual funds and short-term instruments in accordance with each fund's' investment objectives. Fund holdings are generally valued using market quotations or prices obtained from independent pricing services. Shares of Nuveen funds are value at NAV. Certain funds charge a 2% redemption fee on redemption of shares occurring within 60 days of the initial purchase date. The funds impose a restriction whereby a participant is locked out as fund for 90 days if the participant has a purchase, sale or repurchase within a fund and is made within a 60-day period, for the majority of these funds.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth the Plan's investments at each Plan year-end:

Investments at fair value	<u>\$ 36,687,335</u>	<u>\$ 458,587</u>	<u>\$ -</u>	<u>\$ 94,624,655</u>

(A) Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

(B) The strategy of these investments is generally embedded in the name of the particular account as reported in the supplemental schedule of assets (held at end of year).

The CREF Stock Account seeks a favorable long-term rate of return through capital appreciation and investment income by investing primarily in a broadly diversified portfolio of common stocks. Under normal circumstances, the account invests at least 80% of its assets in equity securities of foreign and domestic companies.

The CREF Core Bond Account seeks a favorable long-term rate of return, primarily through high current income consistent with preserving capital. Under normal circumstances, the account invests at least 80% of its assets in a broad range of fixed-income securities. The majority of the account's assets are invested in U.S. Treasury and other governmental agency securities, corporate bonds and mortgage-backed or other asset-backed securities.

The CREF Equity Index Account seeks a favorable long-term rate of return from a diversified portfolio selected to track the overall market for common stocks publicly traded in the United States, as represented by a broad stock market index. The account buys most, but not necessarily all, of the securities in its benchmark, the Russell 3000 Index, and will attempt to create a portfolio that closely matches the overall investment characteristics of this index.

The CREF Global Equities Account seeks a favorable long-term rate of return through capital appreciation and income from a broadly diversified portfolio that consists primarily of foreign and domestic common stocks. Under normal circumstances, the account invests at least 80% of its assets in equity securities of foreign and domestic companies.

The CREF Growth Account seeks a favorable long-term rate of return, mainly through capital appreciation, primarily from a diversified portfolio of common stocks that present the opportunity for exceptional growth. Under normal circumstances, the account invests at least 80% of its assets in common stocks and other equity securities. The account invests primarily in large, well-known, established companies, particularly those with new or innovative products, services or processes that may enhance future earnings prospects.

NOTE D - INVESTMENTS AND FAIR VALUE MEASUREMENTS (CONTINUED)

The CREF Social Choice Account seeks a favorable long-term rate of return that reflects the investment performance of the financial markets while giving special consideration to certain social criteria. The account is balanced, with assets divided between domestic and foreign stocks and other equities (about 60%) and bonds and other fixed-income securities, including money market instruments (about 40%). The account invests only in companies that are suitable from a financial perspective and whose activities are consistent with certain environmental, social and governance criteria.

The CREF Inflation-Linked Bond Account seeks a long-term rate of return that outpaces inflation, primarily through investments in inflation-indexed bonds and fixed-income securities whose returns are designed to track a specified inflation index over the life of the bond. Under normal circumstances, the account invests at least 80% of its assets in U.S. Treasury inflation-indexed securities.

(C) The TIAA Real Estate Fund seeks to obtain favorable long-term total return through capital appreciation and current income by investing primarily in equity securities of companies engaged in the real estate industry.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

NOTE E - INVESTMENT AT CONTRACT VALUE

The TIAA Traditional Annuity is a fixed-rate annuity contract that is fully and unconditionally guaranteed by TIAA. The guarantees and returns of the TIAA Traditional Annuity are backed by TIAA's claims-paying ability. Liquidity restrictions apply to the TIAA Traditional Annuity under certain types of annuity contracts. The TIAA Traditional Annuity provides a guarantee of principal, a guaranteed minimum rate of interest (generally 3%, or for Retirement Choice ("RC") and Retirement Choice Plus ("RCP"), between 1% and 3%), and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the "declaration year," which begins each March 1. Additional interest is not guaranteed for future years. Contributions to a participant's account purchase a guaranteed amount of lifetime annuity income.

When a participant's account in the TIAA Traditional Annuity is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside of the Plan and does not represent an obligation of the Plan. The TIAA Traditional Annuity is fully benefit responsive and is reported at contract value. The contract value equals the accumulated cash contributions, interest credited to the contracts, and transfers, if any, less any withdrawals and transfers. The TIAA Traditional Annuity is not available for sale or transfer on any securities exchange.

The TIAA Traditional Annuity within the Supplemental Retirement Annuity ("SRA"), Group Supplemental Retirement Annuity ("GSRA") and RCP contracts have no liquidity restrictions. The TIAA Traditional Annuity holdings within the Retirement Annuity ("RA") and RC contracts have liquidity restrictions. The RA contract does not allow lump-sum cash withdrawals, and transfers must be spread over a period of ten annual installments, referred to as a Transfer Payout Annuity ("TPA"). The TPA has restrictions.

For the RC contracts, transfers and withdrawals from the TIAA Traditional Annuity are limited. Withdrawals must be taken in 84 monthly installments made in 120 days following termination of employment, referred to as a TPA, except that a lump-sum distribution is available if permitted under the Plan in the 120-day period following termination of employment, with a 2.5% surrender charge. The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. The TPA allows participants to transfer or withdraw their TIAA Traditional Annuity in ten annual installments.

Notes to Financial Statements December 31, 2024 and 2023

NOTE E - INVESTMENT AT CONTRACT VALUE (CONTINUED)

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Code or the failure of the trust to be tax-exempt under Section 501(a) of the Code;
2. Premature termination of the contracts;
3. Plan termination or merger;
4. Changes to the Plan's prohibition on competing investment options; and
5. Bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines;
2. A breach of material obligation under the contract;
3. A material misrepresentation; and
4. A material amendment to the agreements without the consent of the issuer.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

NOTE F - RISKS AND UNCERTAINTIES

The Plan's investments are included in various investment alternatives made available by TIAA, CREF and TIAA Trust, N.A. Investment securities are exposed to various risks, such as interest-rate, market, credit, liquidity and market-perception risks, as well as risks related to the financial strength of the insurance companies. Due to the level of risk associated with any investment, it is at least reasonably possible that changes in the values of the Plan's investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuations of investments at December 31, 2024 and 2023 may not necessarily be indicative of amounts that could be realized in a subsequent market exchange.

COLLEGIATE SCHOOL DEFINED CONTRIBUTION RETIREMENT PLAN

Notes to Financial Statements December 31, 2024 and 2023

NOTE G - RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

A substantial portion of the investments are fixed and variable annuities, a pooled separate account and mutual funds sponsored by TIAA, CREF and TIAA Trust, N.A. TIAA is the Plan's recordkeeper, TIAA and CREF are the Plan's insurance companies, and TIAA Trust, N.A. is the custodian of certain Plan investments; therefore, transactions related to these investments qualify as party-in-interest transactions. Service fees paid by the Plan were approximately \$54,000 and \$52,000 for the years ended December 31, 2024 and 2023, respectively. The Plan also pays investment advisory fees. As service providers to the Plan, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to these service providers were approximately \$38,000 and \$45,000 for the years ended December 31, 2024 and 2023, respectively.

The custodian provides certain administrative services to the Plan and receives revenue from mutual fund providers for services the custodian provides to the funds. This revenue is used to offset certain amounts owed to the custodian for its administrative services to the Plan. If the revenue received by the custodian from such mutual fund service providers exceeds the amounts owed, the custodian remits the excess to the Plan pursuant to the service agreement. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants, depending on the Plan's provisions.

For the years ended December 31, 2024 and 2023, respectively, approximately \$58,000 and \$46,000 were received and were included in net realized and unrealized appreciation (depreciation) in investments in the statements of changes in net assets available for benefits, and approximately \$38,000 and \$45,000 for the years ended December 31, 2024 and 2023, respectively, were used to pay Plan expenses. There were remaining balances of approximately \$50,000 and \$30,000 at December 31, 2024 and 2023, respectively.

NOTE H - MUTUAL-FUND FEES

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads, or 12b-1 fees. 12b-1 fees are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940. These annual fees are deducted to pay for the marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.
