INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
TBG Partners Employee Stock Ownership Plan
Austin, Texas

Opinion

We have audited the financial statements of TBG Partners Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of TBG Partners Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of TBG Partners Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about TBG Partners Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of TBG Partners Employee Stock Ownership Plan internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about TBG Partners Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Emphasis of Matter

As discussed in the footnote to the financial statements, investments amounting to \$10,500,160 and \$12,100,720 as of December 31, 2024 and 2023, respectively, have been reported at estimated fair values as determined by independent appraisals which have been reviewed and approved by Plan management. These amounts represent approximately 100% of the total assets as of December 31, 2024 and 2023. Our opinion is not modified with respect to this matter.

Notes to Financial Statements

December 31, 2024 and 2023

Plan Description

The following description provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

TBG Partners Employee Stock Ownership Plan is a defined contribution plan established January 1, 2005, covering virtually all active employees of The Broussard Group, Inc. dba TBG Partners (the Sponsor) who have completed one year and 1,000 hours of service. The Plan is for the exclusive benefit of its participants and their beneficiaries. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan operates as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code and provisions of ERISA.

During 2021, the Plan purchased the remaining 21,000 shares from the remaining shareholders for \$58.25 per share on August 31, 2021. The Plan finalized the purchase with a note payable to the Company. As of December 31, 2023, the loan was repaid.

Contributions

The Plan does not allow for participant contributions. The Plan Sponsor may contribute to the Plan cash or stock as determined each year by its Board of Directors. The contribution to the Plan was \$739,697 in 2024 and \$1,037,970 in 2023. Contributions are allocated to participants based on participant covered compensation, as defined by the Plan, for the period. The Plan Sponsor, at the discretion of its Board of Directors, may elect to make S corporation distributions to the Plan. S corporation distributions are allocated based on shares owned at the previous anniversary date. There were no S corporation distributions made to the Plan in 2024 or 2023.

Participant Accounts

Each participant's account is credited with allocations of a) the Plan Sponsor contributions, b) Plan Sponsor S corporation distributions, c) forfeitures of terminated non-vested account balances, and d) Plan earnings. Allocations of Plan Sponsor contributions and forfeitures are based on the participant's covered compensation, as defined by the Plan document. Allocations of S corporation distributions are based on shares owned at the previous anniversary date. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

A participant's interest in the contributions the Plan Sponsor makes to the Plan becomes 100% vested upon attaining the Plan's normal retirement age, if employment is terminated due to death or disability, or following 6 years of employment in accordance with specific vesting schedules based on years of service as required by the Department of Labor Rules and Regulations.

Forfeitures

Company stock accounts that have been forfeited by participants who have terminated prior to becoming fully vested are allocated to the participants. During 2024 and 2023, participant forfeitures were approximately \$54,000 and \$20,000, respectively.

Notes to Financial Statements

December 31, 2024 and 2023

Plan Description (continued)

Put Options

Under the terms of the Plan and federal income tax regulations, any Company stock that is distributed and held by participants will include a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants. The put price is representative of the fair value of the stock. The Company can, at its discretion, pay for the purchase of the Company stock in a single sum or in installments with interest over a period not to exceed five years.

Voting Rights

Shares of Company stock held in the Trust shall be voted by the Trustee in most instances. In certain extraordinary situations, such as a corporate merger, Treasury Regulations may require pass-through of voting rights in Company stock which has been fully paid for to Plan participants and beneficiaries.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who are at least age 55, and with at least 10 years of participation in the Plan, may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Summary of Significant Accounting Principles

Basis of Accounting

The financial statements of TBG Partners Employee Stock Ownership Plan (the Plan) are prepared following the accrual method of accounting.

Payment of Benefits

Payment of the vested account balance takes place in the Plan year following the year the participant reaches normal or early retirement age, dies, or is disabled. Participants terminating for reasons other than retirement, death, or disability, with accounts in excess of \$5,000, will receive distribution in equal installments over five years. The Plan agreement allows for this time to be increased by one year up to five additional years for each \$210,000 by which the total balance of the participant's accounts exceeds \$1,070,000. For participant accounts of \$5,000 or less, distributions will take place as soon as administratively feasible after the close of the Plan year.

Cash

Cash in bank checking accounts, money market accounts, and certificates of deposit are considered to be cash equivalents.

TGB PARTNERS EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2024 and 2023

Summary of Significant Accounting Principles (continued)

Investment Valuation and Income Recognition

The Plan's investment in the sponsor Company's common stock is presented at fair value. Changes in the fair value is recognized annually and reported as unrealized depreciation on the statements of changes in net assets available for benefits. See Fair Value Measurements footnote for discussion of fair value measurements.

Benefit Payments

Benefit payments are recorded when paid. Under the provisions of the Plan, the Plan Sponsor is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

New Accounting Pronouncements

Management is not aware of any new accounting pronouncements that have been released, and are not yet effective, which will have a significant impact to its financial position or results of operations in future periods.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. The Company believes the most significant estimate and assumption is associated with the appraisal of the fair value of the stock. Actual results could differ from those estimates.

Concentration of Credit Risks

Concentration of credit risk with respect to investments is reduced as a result of diversity of the underlying investments.

Investments

The Plan's investments are as follows at December 31:

Fair Value Measurements

In accordance with U.S. generally accepted accounting principles, the Plan utilizes a fair value hierarchy that prioritizes the inputs for the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023:

Sponsor Company Stock: The Sponsor Company common stock held by the Plan is valued at fair value based on an independent appraisal. The appraiser used an income approach based on discounted future returns method in determining the value of the stock. The discounted future returns method uses present value of projected future earnings, plus the present value of the terminal value. The future returns are based on management estimates based on historical data adjusted for anticipated trends.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Tax Status

The Plan is a defined contribution plan qualified as an Employee Stock Ownership Plan as defined in Section 4975(e)(7) of the Internal Revenue Code. The Plan is not aware of any tax positions that would have a significant impact on its financial position. Its federal tax returns for the last four years remain subject to examination. During 2019, the Plan and Trust was amended and restated to formally incorporate the applicable requirements of the Listing of Required Modifications.

The IRS has determined and informed the Plan Sponsor that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan. In the event of termination or partial termination of the Plan, all amounts credited to a participant's account become fully vested.

Loans Payable

On August 31, 2021, the Plan entered into a Stock Purchase Agreement in which it purchased the remaining 21,000 outstanding shares of TBG Partners common stock for \$1,223,250 from the Broussard Group, Inc. This transaction was financed through a loan from the Company (Loan). The loan, secured by unallocated shares of common stock held by the Plan, is to be repaid over a period of 3 years using annual Company contributions commencing on December 31, 2021. As the Plan makes each payment of loan principal plus interest accrued at 1.80% per annum, shares of stock will be allocated to the participants' accounts.

The Plan made the final debt payment consisting of principal and interest totaling \$386,793 on December 31, 2023.

Subsequent Events

The Plan evaluated subsequent events through October 9, 2025, the date the financial statements were issued.
