## INDEPENDENT AUDITORS' REPORT

Board of Directors  
Dorcas International Institute of Rhode Island 403(b) Retirement Plan  
Providence, Rhode Island

### **Report on the Audit of the Financial Statements**

#### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We have performed audits of the accompanying financial statements of Dorcas International Institute of Rhode Island 403(b) Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Dorcas International Institute of Rhode Island 403(b) Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

#### ***Opinion***

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Dorcas International Institute of Rhode Island 403(b) Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Dorcas International Institute of Rhode Island 403(b) Retirement Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

***Auditors' Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

Board of Directors  
Dorcas International Institute of Rhode Island 403(b)  
Retirement Plan

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Dorcas International Institute of Rhode Island 403(b) Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Dorcas International Institute of Rhode Island 403(b) Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

***Other Matter — Supplemental Schedule Required by ERISA***

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Board of Directors  
Dorcas International Institute of Rhode Island 403(b)  
Retirement Plan

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**DORCAS INTERNATIONAL INSTITUTE OF RHODE ISLAND 403(B) RETIREMENT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 1 DESCRIPTION OF PLAN**

The following description of the Dorcas International Institute of Rhode Island 403(b) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

**General**

The Plan is a defined contribution plan covering all employees of Dorcas International Institute of Rhode Island 403(b) (the Organization). Employees are eligible to enroll in and begin making elective contributions to the Plan on the date they begin working for the Organization. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors is responsible for oversight of the Plan. The Finance Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Organization's Board of Directors.

**Contributions**

Participants may contribute up to 100% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans (rollovers).

On the first day of the month coinciding with or immediately following completion of one year of service (1,000 hours), employees are eligible for the discretionary employer matching contributions and discretionary contribution if the employer elected to contribute to the Plan during the plan year. For the year ended December 31, 2024, the Organization made a 3% discretionary contribution to all eligible participants. No discretionary matching contributions were made for the year ended December 31, 2024. All contributions are subject to certain Internal Revenue Service (IRS) limitations.

**Participant Accounts**

Each participant's account is credited with the participant's contributions, Organization matching and discretionary contributions and allocation of plan earnings. Allocations of Organization contributions, investment income and administrative expenses are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Investment Options**

Participants may direct their contributions into any of the funds offered by the Plan, which are held at Teachers Insurance and Annuity Association and College Retirement Equities Fund (TIAA and CREF). These funds include a variety of investment options with various objectives and degrees of financial risk.

**DORCAS INTERNATIONAL INSTITUTE OF RHODE ISLAND 403(B) RETIREMENT PLAN  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2024 AND 2023**

**NOTE 1 DESCRIPTION OF PLAN (CONTINUED)**

**Vesting**

Participants are immediately vested in their deferral and rollover contributions, including the earnings on those amounts. Vesting in the Organization contributions portion of their accounts is based on years of continuous service. Participants are fully vested in discretionary employer contributions upon the completion of two years of service. Participants are also fully vested upon reaching normal retirement age, death or total disability.

**Payment of Benefits**

Upon retirement, disability, death or termination of employment, the participant shall become entitled to the total value of his or her vested account. Distributions will be paid by lump sum, installments over a number of years or purchase of an annuity, based upon election of the participant as defined in the Plan or Internal Revenue Code (the Code). If a participant terminates employment for any reason and his or her vested account balance does not exceed \$5,000, the plan administrator may distribute such amount in a lump-sum payment to the participant or rollover into an individual retirement account without consent of the participant.

The Plan also provides for in-service withdrawals by participants who have attained the age of 59½ from vested accounts only. In addition, upon financial hardship, a participant is entitled to the value of his or her deferral accounts which is payable immediately in a lump-sum distribution.

**Forfeitures**

Forfeitures of discretionary employer contributions are used to either pay expenses of the Plan or reduce the Organization's future contributions. Forfeited nonvested discretionary accounts totaled \$4 and \$7,900 at December 31, 2024 and 2023, respectively. In 2024, \$8,139 was used to reduce employer contributions or pay expenses.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution retirement plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Certain individual contracts included in the Plan's investment in the TIAA Traditional Annuity are considered to be fully benefit-responsive.

**DORCAS INTERNATIONAL INSTITUTE OF RHODE ISLAND 403(B) RETIREMENT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

**Investment Valuation and Income Recognition**

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Finance Committee of the Organization determines the Plan's valuation policies and procedures utilizing information provided by TIAA and CREF. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Payment of Benefits**

Benefits to participants are recorded when paid.

**Plan Expenses**

Certain expenses of maintaining the Plan are paid by the Organization. Investment-related expenses are included in net appreciation in fair value of investments.

**Risks and Uncertainties**

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and those changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

**Subsequent Events**

Subsequent events were evaluated through October 6, 2025, the date the financial statements were available to be issued.

**DORCAS INTERNATIONAL INSTITUTE OF RHODE ISLAND 403(B) RETIREMENT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 3 CERTIFICATION BY THE CUSTODIANS**

Information presented in the accompanying statements and schedule as of December 31, 2024 and 2023, and for the year ended December 31, 2024 for investments and investment income was derived, from information certified to be complete and accurate by TIAA and CREF, the custodians, as permitted by the election made by the plan administrator under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**NOTE 4 FAIR VALUE MEASUREMENTS**

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Assets valued using the net asset value practical expedient are not required to be reported within the hierarchy.

**DORCAS INTERNATIONAL INSTITUTE OF RHODE ISLAND 403(B) RETIREMENT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)**

The following is a description of the valuation methodology used for assets measured at fair value:

*Fixed Annuity Contracts:* Following guidance provided by TIAA and CREF, management has determined that contract value approximates fair value for its fixed annuity contracts that are not fully benefit-responsive. Therefore, the non-fully benefit-responsive TIAA Traditional Annuity account balances are reported at contract value. Contract value represents the accumulation of contributions made under the contract, plus guaranteed and additional interest, less funds used to pay benefits and administrative expenses of the contract.

The conclusion that contract value approximates fair value for the non-fully benefit-responsive TIAA Traditional Annuity is supported by two approaches, 1) the theoretical transfer of assets owned by a pension plan, and 2) a quantitative model based on assumptions of future interest rates and related discounted cash flows.

Differences in the credit spreads from corporate bonds are assumed to represent the overall illiquidity of the TIAA Traditional Annuity, and those associated U.S. Treasury yields represent a credit spread for a highly rated insurance company. Thus, the interest rate used to discount future cash flows under a TIAA Traditional Annuity contract would approximate the contract's crediting rate, and the present value would, therefore, approximate current contract value.

Because participants transact at contract value, the fair value approaches and assumptions related to the TIAA Traditional Annuity are only reviewed annually for financial reporting purposes. In determining the reasonableness of the fair value methodology, the Organization's Finance Committee reviews the crediting rates on existing contracts held by the Plan, current economic conditions and rates of return, the financial status of TIAA and CREF and similar factors that could impact the above approaches.

*Pooled Separate Accounts:* Pooled separate accounts are stated at their net asset values as reported by the investment manager of the fund based on the fair value of the underlying assets and liabilities at the measurement date. The net asset value is used as a practical expedient to estimate fair value.

*Variable Annuities:* Variable annuity contracts are stated at their net asset value as reported by independent pricing sources based on the fair value of the underlying assets and liabilities at the measurement date. The net asset value is used as a practical expedient to estimate fair value.

There have been no changes in the methodologies used at December 31, 2024 and 2023.

**DORCAS INTERNATIONAL INSTITUTE OF RHODE ISLAND 403(B) RETIREMENT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)**

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	2024				Total

- a) Certain investments that are measured using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

There were no transfers between levels of investments during the year ended December 31, 2024.

Investments in pooled separate accounts and variable annuities provide for daily liquidity and have no redemption feature, unfunded commitments, or other restrictions.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2024 AND 2023**

**NOTE 5 FIXED ANNUITY CONTRACTS**

The TIAA Traditional Annuity consists of guaranteed fixed annuity contracts that, during the accumulation phase, provide a guarantee of principal, a guaranteed minimum interest rate and the potential for additional discretionary interest if declared by TIAA. Additionally, the discretionary rate applied to contributions received during a reporting period may differ from the discretionary rate applied to account balances at the end of the prior reporting period. Such contracts may be converted to an annuity based on the accumulation in the account. Participants who elect to direct their contributions to this account enter into individual contracts with TIAA that provide various options.

As a result, the TIAA Traditional Annuity consists of certain individual participant contracts that are considered to be fully benefit-responsive and others that are not considered to be fully benefit-responsive because provisions in the contract contain liquidity restrictions that can limit the participant’s ability to make withdrawals from the contract. The portion of the TIAA Traditional Annuity that is fully benefit-responsive is presented on the face of the statements of net assets available for benefits at contract value. The portion of the TIAA Traditional Annuity that is not considered to be fully benefit-responsive is presented on the face of the statements of net assets available for benefits at fair value, which management has determined to approximate contract value.

As of December 31, 2024 and 2023, the portions of the TIAA Traditional Annuity that were fully benefit-responsive and non-fully benefit-responsive were as follows:

	<u>2024</u>	<u>2023</u>
Fully Benefit-Responsive	\$ 172,070	\$ 286,891
Non-Fully Benefit-Responsive	199,298	191,978
Balance - End of Year	<u>\$ 371,368</u>	<u>\$ 478,869</u>

The investment contracts were credited with interest rates ranging from 4.75% to 5.50% for the year ended December 31, 2024. Such interest rates are reviewed on an annual basis for resetting.

**NOTE 6 PARTY-IN-INTEREST TRANSACTIONS**

Certain plan investments are managed by affiliates of TIAA and CREF. TIAA and CREF are custodians as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Other parties-in-interest include professional service firms who provide services to the Plan. Certain employees of the Organization who participate in the Plan perform administrative services to the Plan at no cost to the Plan.

**DORCAS INTERNATIONAL INSTITUTE OF RHODE ISLAND 403(B) RETIREMENT PLAN  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2024 AND 2023**

**NOTE 7 INCOME TAX STATUS**

The Plan has adopted a 403(b) prototype plan document. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the Plan administrator believes the Plan was compliant and the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**NOTE 8 PLAN TERMINATION**

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.
