---	----

Independent Auditors' Report

The Trustee and The Board of Directors
I2C Synergy, Inc. Employee Stock Ownership Plan
Warminster, Pennsylvania

Opinion

We have audited the financial statements of I2C Synergy, Inc. Employee Stock Ownership Plan (the Plan), (formerly known as Diversified Lighting Associates, Inc. Employee Stock Ownership Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprises the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the year ended December 31, 2024 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

I2C Synergy, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

(1) Plan Description and Basis of Presentation

The following brief description of the I2C Synergy, Inc. Employee Stock Ownership Plan (the Plan), provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

Effective January 1, 2024, the Plan name was changed from Diversified Lighting Associates, Inc. Employee Stock Ownership Plan to I2C Synergy, Inc. Employee Stock Ownership Plan.

Diversified Lighting Associates, Inc. was renamed I2C Synergy, Inc. (the Company) in 2018.

General

The Company established the Plan effective January 1, 2012, for eligible employees of the Company and its participating affiliated companies to provide a means for them to acquire an equity interest in the Company. The Plan is a stock bonus plan under Section 401(a) of the Internal Revenue Code of 1986, as amended (IRC), and is designated to comply with Section 4975(e)(7) of the IRC and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The ESOP Trustee and the Company's Board of Directors are responsible for oversight of the Plan.

In December 2012, the Plan purchased 5,000 shares of common stock from the Company for an aggregate purchase price of \$4,000,000 or \$800 per share. \$3,400,000 (4,250 shares) was financed by a loan issued to the Company and \$600,000 was paid in cash.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to

- a. the accounts of employees with rights in allocated common stock (allocated), and
- b. common stock not yet allocated to employees (unallocated).

Eligibility

All full-time, non-bargaining unit employees of the Company become eligible to participate in the Plan after completing 90 days of service and attainment of 18 years of age. Entry into the Plan occurs on January 1st immediately after fulfillment of the eligibility requirements. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year.

Notes to Financial Statements

December 31, 2024 and 2023

(1) Plan Description and Basis of Presentation, Continued

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividend and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

Payment of Benefits

Distributions on account of death, disability, or retirement are made in a lump sum in the Plan year following the event. Distributions for other separations from service commence in the fifth Plan year following the separation from service and are made in five annual installments. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock. Under the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts.

Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings or losses are allocated to each participant's account based on the ratio of the participant's account balance.

Notes to Financial Statements

December 31, 2024 and 2023

(1) Plan Description and Basis of Presentation, Continued

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants begin vesting after two years of service and vest at the rate of 20 percent per year. They are 100 percent vested after six years of service.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they can have the opportunity to move part of the value investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account.

Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25% of the participants' cumulative Company stock account shares, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Diversification elections shall only be permitted if the fair market value of the participant's Company stock account exceeds \$500. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during December 2024 totaled \$16,918.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock and (b) stock not yet allocated to employees, including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The common stock of the Company is stated at estimated fair value. Estimated fair values is determined by an annual independent appraisal. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is accrued on the ex-dividend date. Realized gains and losses from transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 7, 2025, the date the financial statements were available to be issued.

Notes to Financial Statements

December 31, 2024 and 2023

(3) Investments

The Plan's investment in I2C Synergy, Inc. shares at December 31, 2024 and 2023 is as follows:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	4,252	748	3,992	1,008
Cost	\$ 3,401,600	\$ 598,400	\$ 3,193,600	\$ 806,400
Fair value	\$ 17,808,164	\$ 3,121,836	\$ 12,070,406	\$ 3,039,594

(4) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

I2C Synergy, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

(4) Fair Value Measurements, Continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Money market account: Valued at the daily closing price as reported by the fund. The money market fund held by the Plan is an open-end fund that is registered with the Securities and Exchange Commission. This fund is required to publish its daily net asset value and to transact at that price. The money market fund held by the Plan is deemed to be actively traded.

I2C Synergy, Inc. common stock: The stock of I2C Synergy, Inc. is not actively traded and significant other observable inputs are not available. Thus, the fair value of the I2C Synergy, Inc. stock was determined by an independent valuation firm using accepted valuation methods (discounted cash flows and comparison to public companies in a similar market). The inputs used in the valuation of the Company stock included historical operating results and projected operating financial data, the economic outlook and the industry review. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. Additional information on the Company's financial operating results can be obtained from its reviewed financial statements. Plan management, the Plan Trustees and the Company's Board of Directors review and approve the appraisal before it is finalized. As of December 31, 2024 and 2023, the stock was valued at \$4,186 per share and \$3,022 per share, respectively, and is categorized as level 3.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Description	Assets at Fair Value as of December 31, 2024

There were no significant transfers among investment levels during the years ended December 31, 2024 and 2023.

The following table sets forth a summary of the changes in fair value of the Plan's level 3 investments for the years ended December 31:

	2024	2023
Balance, beginning of year	\$ 15,110,000	\$ 13,540,000
Unrealized gains relating to investments held at the reporting date	5,820,000	1,570,000
Ending balance	\$ 20,930,000	\$ 15,110,000

(5) Loan Payable

In December 2012, the Plan entered into a \$3,400,000 term loan agreement with the Company. The proceeds of the loan were used to purchase 4,250 shares of the Company's common stock. Unallocated shares are collateral for the loan. The loan is payable in annual installments of principal of \$226,666, together with interest in the amount of 2.40% per annum on the outstanding principal balance each December through the December 2027 maturity date. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 260 shares being released and allocated for the plan year ended December 31, 2024. The scheduled amortization of the loan for the next three years is \$226,666.

As a result of the paydown of the loan to the Company during years 2024 and 2023, 260 and 266 shares of I2C Synergy, Inc. common stock, respectively, were transferred to the allocated category.

(6) Related Party and Party in Interest Transactions

The Plan invests in Company common stock and has indebtedness to the Company. Certain expenses for the operation of the Plan, such as the record keeper fees, are paid by the Company, and are excluded from the financial statements. These are related party and party-in-interest transactions.

I2C Synergy, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

(7) Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of Company common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

(8) Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the interest of each participant in the trust fund shall immediately become fully vested and shall not thereafter be subject to forfeiture. The total amount of an affected participant's account may be paid in a lump sum or may be retained in trust for disposition under the terms of the Plan.

(9) Tax Status

The Internal Revenue Service (IRS) determined and informed the Company on October 27, 2015, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC and as such is exempt from federal taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Independent Auditors' Report

The Trustee and The Board of Directors
I2C Synergy, Inc. Employee Stock Ownership Plan
Warminster, Pennsylvania

Opinion

We have audited the financial statements of I2C Synergy, Inc. Employee Stock Ownership Plan (the Plan), (formerly known as Diversified Lighting Associates, Inc. Employee Stock Ownership Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprises the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the year ended December 31, 2024 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

I2C Synergy, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

(1) Plan Description and Basis of Presentation

The following brief description of the I2C Synergy, Inc. Employee Stock Ownership Plan (the Plan), provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

Effective January 1, 2024, the Plan name was changed from Diversified Lighting Associates, Inc. Employee Stock Ownership Plan to I2C Synergy, Inc. Employee Stock Ownership Plan.

Diversified Lighting Associates, Inc. was renamed I2C Synergy, Inc. (the Company) in 2018.

General

The Company established the Plan effective January 1, 2012, for eligible employees of the Company and its participating affiliated companies to provide a means for them to acquire an equity interest in the Company. The Plan is a stock bonus plan under Section 401(a) of the Internal Revenue Code of 1986, as amended (IRC), and is designated to comply with Section 4975(e)(7) of the IRC and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The ESOP Trustee and the Company's Board of Directors are responsible for oversight of the Plan.

In December 2012, the Plan purchased 5,000 shares of common stock from the Company for an aggregate purchase price of \$4,000,000 or \$800 per share. \$3,400,000 (4,250 shares) was financed by a loan issued to the Company and \$600,000 was paid in cash.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to

- a. the accounts of employees with rights in allocated common stock (allocated), and
- b. common stock not yet allocated to employees (unallocated).

Eligibility

All full-time, non-bargaining unit employees of the Company become eligible to participate in the Plan after completing 90 days of service and attainment of 18 years of age. Entry into the Plan occurs on January 1st immediately after fulfillment of the eligibility requirements. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year.

I2C Synergy, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

(1) Plan Description and Basis of Presentation, Continued

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividend and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

Payment of Benefits

Distributions on account of death, disability, or retirement are made in a lump sum in the Plan year following the event. Distributions for other separations from service commence in the fifth Plan year following the separation from service and are made in five annual installments. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock. Under the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts.

Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings or losses are allocated to each participant's account based on the ratio of the participant's account balance.

(1) Plan Description and Basis of Presentation, Continued

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants begin vesting after two years of service and vest at the rate of 20 percent per year. They are 100 percent vested after six years of service.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they can have the opportunity to move part of the value investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account.

Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25% of the participants' cumulative Company stock account shares, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Diversification elections shall only be permitted if the fair market value of the participant's Company stock account exceeds \$500. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during December 2024 totaled \$16,918.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock and (b) stock not yet allocated to employees, including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The common stock of the Company is stated at estimated fair value. Estimated fair values is determined by an annual independent appraisal. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is accrued on the ex-dividend date. Realized gains and losses from transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 7, 2025, the date the financial statements were available to be issued.

Fair value	\$ 17,808,164	\$ 3,121,836	\$ 12,070,406	\$ 3,039,594

(4) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities inactive markets inputs other than quoted prices that are observable for the asset or liability; and
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(4) Fair Value Measurements, Continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Money market account: Valued at the daily closing price as reported by the fund. The money market fund held by the Plan is an open-end fund that is registered with the Securities and Exchange Commission. This fund is required to publish its daily net asset value and to transact at that price. The money market fund held by the Plan is deemed to be actively traded.

I2C Synergy, Inc. common stock: The stock of I2C Synergy, Inc. is not actively traded and significant other observable inputs are not available. Thus, the fair value of the I2C Synergy, Inc. stock was determined by an independent valuation firm using accepted valuation methods (discounted cash flows and comparison to public companies in a similar market). The inputs used in the valuation of the Company stock included historical operating results and projected operating financial data, the economic outlook and the industry review. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. Additional information on the Company's financial operating results can be obtained from its reviewed financial statements. Plan management, the Plan Trustees and the Company's Board of Directors review and approve the appraisal before it is finalized. As of December 31, 2024 and 2023, the stock was valued at \$4,186 per share and \$3,022 per share, respectively, and is categorized as level 3.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Total assets at fair value	\$ 119,222	\$ -	\$ 15,110,000	\$ 15,229,222

There were no significant transfers among investment levels during the years ended December 31, 2024 and 2023.

The following table sets forth a summary of the changes in fair value of the Plan's level 3 investments for the years ended December 31:

	2024	2023
Balance, beginning of year	\$ 15,110,000	\$ 13,540,000
Unrealized gains relating to investments held at the reporting date	5,820,000	1,570,000
Ending balance	\$ 20,930,000	\$ 15,110,000

(5) Loan Payable

In December 2012, the Plan entered into a \$3,400,000 term loan agreement with the Company. The proceeds of the loan were used to purchase 4,250 shares of the Company's common stock. Unallocated shares are collateral for the loan. The loan is payable in annual installments of principal of \$226,666, together with interest in the amount of 2.40% per annum on the outstanding principal balance each December through the December 2027 maturity date. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 260 shares being released and allocated for the plan year ended December 31, 2024. The scheduled amortization of the loan for the next three years is \$226,666.

As a result of the paydown of the loan to the Company during years 2024 and 2023, 260 and 266 shares of I2C Synergy, Inc. common stock, respectively, were transferred to the allocated category.

(6) Related Party and Party in Interest Transactions

The Plan invests in Company common stock and has indebtedness to the Company. Certain expenses for the operation of the Plan, such as the record keeper fees, are paid by the Company, and are excluded from the financial statements. These are related party and party-in-interest transactions.

(7) Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of Company common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

(8) Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the interest of each participant in the trust fund shall immediately become fully vested and shall not thereafter be subject to forfeiture. The total amount of an affected participant's account may be paid in a lump sum or may be retained in trust for disposition under the terms of the Plan.

(9) Tax Status

The Internal Revenue Service (IRS) determined and informed the Company on October 27, 2015, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC and as such is exempt from federal taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
