(1) Name: **MAILLIE LLP**

(2) EIN: **23-1518888**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		3000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		☒	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?..... ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

Virtua Pension Equity Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Virtua Pension Equity Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Virtua Pension Equity Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note E to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

To the Virtua Audit and Compliance Committee of the
Board of Trustees and the Participants
Virtua Pension Equity Plan
Marlton, New Jersey

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Virtua Pension Equity Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Virtua Pension Equity Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

To the Virtua Audit and Compliance Committee of the
Board of Trustees and the Participants
Virtua Pension Equity Plan
Marlton, New Jersey

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Virtua Pension Equity Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Virtua Pension Equity Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule of Assets (Held at End of Year) and Schedule of Reportable Transactions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

To the Virtua Audit and Compliance Committee of the
Board of Trustees and the Participants
Virtua Pension Equity Plan
Marlton, New Jersey

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

VIRTUA PENSION EQUITY PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Virtua Pension Equity Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Agreement for more complete information.

General

The Plan is a noncontributory defined benefit pension plan and trust covering substantially all eligible employees of the Memorial Health Alliance, Inc. ("Alliance"), Virtua-Memorial Hospital of Burlington County, Virtua Health and Rehab at Mt. Holly, Inc., Virtua Health and Rehab at Berlin, Inc., Virtua Community Nursing Services, Inc., Virtua-West Jersey Health System (WJHS) and Helene Fuld School of Nursing.

Virtua Health, Inc. ("Virtua"), the Plan Sponsor, is a nonprofit corporation incorporated in New Jersey in 1997 to establish, operate, maintain and conduct a regional health network serving Burlington, Camden, Mercer, Ocean and Gloucester Counties in New Jersey and Philadelphia, Pennsylvania. Virtua functions as a community-based and governed regional integrated health care network for local area networks, initially consisting of WJHS and Alliance, a nonprofit corporation.

The Human Resources Department (the "Plan Administrator") controls and manages the operation and administration of the Plan. As fiduciary the Virtua Health Finance and Investment Committee ("the Committee") is charged with the responsibility for the investment of the assets of the Plan. To fulfill its fiduciary obligations with respect to the Plan, the Committee employs a logical and diligent process to meet investment objectives and risk tolerances for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Russell Investments serves in a fiduciary role under ERISA and Department of Labor Fiduciary Rule guidelines to provide certain investment services for the Plan. Russell Investments also serves as the trustee of the Plan.

Effective June 1, 1999, West Jersey Health System Retirement Plan merged into the pension plan of Memorial Health Alliance, Inc., and the name of the Plan was changed to the Pension Plan of Virtua Health, Inc. Participants previously covered under the West Jersey Health System Retirement Plan will remain covered under those provisions. Similarly, participants previously covered under the Memorial Health Alliance Pension Plan remain covered under those provisions.

Effective January 1, 2000, employees of West Jersey Physicians Associates became eligible to participate in the Plan. These employees may be covered under the provisions of West Jersey Health System Retirement Plan or the Pension Plan of Memorial Health Alliance, Inc.

The Plan was amended and restated effective January 1, 2003, and the name was changed from the Pension Plan of Virtua Health, Inc. to the Virtua Pension Equity Plan.

Also, effective January 1, 2003, the Plan's benefit formulas were frozen and future benefits are accrued under a pension equity formula. Effective August 31, 2003, JNESO union participants ceased accruing benefits under the Plan.

See independent auditors' report.

VIRTUA PENSION EQUITY PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE A - DESCRIPTION OF THE PLAN (Continued)

Effective December 31, 2019, non-union participants ceased accruing benefits under the Plan.

Effective January 1, 2004, all participants who had not attained age 50 with at least ten years of benefit service no longer accrued benefits under this Plan. Non-bargaining units' employees who had attained the age of 50 as of January 1, 2004, with ten years or more of benefit service continue to participate in the Plan and receive benefits under the pension equity formula. Health Professionals and Allied Employees union employees who attained age 50 with at least ten years of benefit service by January 1, 2004, were able to choose between accruing benefits in this Plan under the legacy formula for Memorial Health Alliance participants or continuing to accrue benefits under the pension equity formula and earning additional employer-provided benefits from a defined contribution plan.

Virtua has agreed to voluntarily contribute such additional amounts as necessary to provide assets sufficient to meet the benefits to be paid to Plan members. Virtua's present intention is to make annual contributions in amounts sufficient to fund the Plan's current-year service cost and the initial past service cost plus interest over a period of 30 years. The Plan has met the ERISA's minimum funding requirements.

In 2012, Virtua amended the Plan to temporarily allow vested participants who are no longer employed by Virtua to receive a lump-sum payment of their pension benefit based on the present value of the benefit due under the Plan. Acceptances amounted to approximately \$34 million of \$66 million eligible. Lump-sum payments were paid in December 2012. As a result, the Plan recognized a portion of the past losses that would have been amortized in future years. The benefits of this initiative to Virtua are a reduction in the size of the Plan and the associated market volatility risks, as well as a reduction to future Plan expenses.

In 2015, Virtua restated and amended the Plan to incorporate prior amendments, to provide an in-service distribution option for certain participants, to provide an unlimited lump sum payment option and to modify provisions relating to missing participants and to reflect the requirements of the 2013 Cumulative list of Changes in Plan Qualification Requirements.

Should the Plan terminate at some future time, its net assets will generally not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Information about the Plan Agreement, the vesting and benefit provisions and the PBGC's benefit guarantee is contained in the Plan document. A copy of this Plan document is available from the Plan Administrator.

VIRTUA PENSION EQUITY PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

Investments in common/collective trusts are measured at net asset value, as a practical expedient. Net asset value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a settlement-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Expenses

Administrative expenses of the Plan are paid by the Plan as provided in the Plan document. Virtua provides accounting and other administrative services to the Plan at no charge.

Date of Management's Review

Management has evaluated subsequent events through October 7, 2025, the date which the financial statements were available to be issued.

VIRTUA PENSION EQUITY PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

NOTE C - FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by Virtua. Virtua's funding policy is to make cash contributions to the Plan in amounts as determined by Virtua in consultation with an independent actuary. Virtua met the minimum funding requirements of ERISA for the years ended December 31, 2024 and 2023. To the extent that these requirements are fully covered by assets in the trust, the sponsors may elect not to make any contribution in a particular year. As of January 1, 2024, the amount of this funding balance was \$13,929,593. For the years ended December 31, 2024 and 2023, Virtua elected to make a contribution to the plan in the amount of \$14,000,000 and \$8,000,000, respectively.

NOTE D - ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to their freeze date or the valuation date, whichever is applicable. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries; (2) beneficiaries of employees who have died; and (3) present employees or their beneficiaries. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Effective January 1, 2003, the Plan's current benefit formulas were frozen and future benefits are accrued under a pension equity formula.

The frozen benefits for retired or terminated employees or their beneficiaries that were covered under the Memorial Health Alliance Pension Plan were based on 1% of the participant's final average compensation up to the participant's covered compensation plus 1.5% of the participant's final average compensation in excess of the participant's covered compensation for each year of credited service as of December 31, 2002, not to exceed 35 years.

The frozen benefits for retired or terminated employees or their beneficiaries that were covered under the West Jersey Health System Retirement Plan prior to January 1, 1994, were based on accrued benefits through 1985 plus a career average plan for subsequent services. The benefit formula changed effective January 1, 1994, incorporating both a past service update and a change in the future service formula. Subsequent benefits under the Plan are based on a formula that considered the greater of accrued benefits as of December 31, 1993, or a benefit determined using the highest five-year average compensation.

VIRTUA PENSION EQUITY PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

NOTE D - ACCUMULATED PLAN BENEFITS (Continued)

The pension equity formula credits 1% for each year of service after January 1, 2003, while the participant is under age 50 or has fewer than 15 years of service and 2% for each year of service after January 1, 2003, while the participant has attained age 50 and has at least 15 years of service. A participant's account equals the sum of pension equity benefit percentages times the participant's average compensation. The total accrued benefit equals the pension equity accrued benefit plus the frozen accrued benefit.

Benefits payable under all circumstances--retirement, death, disability and termination of employment--are included to the extent they are deemed attributable to employee service rendered to their freeze date or the valuation date, whichever is applicable.

The actuarial present value of accumulated plan benefits was determined by independent actuaries, and it is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The accumulated plan benefit information is determined as of the beginning of the Plan year and is as follows at January 1, 2024:

ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Vested benefits

Participants and/or beneficiaries currently receiving benefits	\$ 38,348,867
Other participants	58,713,554
TOTAL VESTED BENEFITS	97,062,421

Nonvested benefits	-
--------------------	---

TOTAL ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS	\$ 97,062,421

The accumulated plan benefit information is determined as of the beginning of the Plan year and is stated as follows at January 1, 2023:

ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Vested benefits

Participants and/or beneficiaries currently receiving benefits	\$ 109,974,315
Other participants	73,482,240

VIRTUA PENSION EQUITY PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE D - ACCUMULATED PLAN BENEFITS (Continued)

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended January 1, 2024, are stated as follows:

ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN	
BENEFITS JANUARY 1, 2023	\$ 183,456,555
Changes during the year due to:	
Actuarial losses	2,090,393
Actual benefits paid	(86,494,328)
Decrease in the discount period	8,167,498
Assumption changes	<u>(10,157,697)</u>
 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS JANUARY 1, 2024	 \$ <u>97,062,421</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended January 1, 2023, are stated as follows:

ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN	
BENEFITS JANUARY 1, 2022	\$ 190,317,088
Changes during the year due to:	
Actuarial losses	4,263,589
Actual benefits paid	(21,560,380)
Decrease in the discount period	<u>10,436,258</u>
 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS JANUARY 1, 2023	 \$ <u>183,456,555</u>

The significant actuarial assumptions used in the January 1, 2024 valuations were as follows:

- Interest rate: A rate of 7.00% was used to compute the Plan's present value of accumulated plan benefits. (5.80% rate for January 1, 2023 valuation)
- Mortality: Pri-2012 with Scale MP-2021. This is consistent with the mortality tables used in the prior year.
- Retirement age: Rates varying by age; average age 63
- Investment return: 7.0%. (5.80% return for January 1, 2023 valuation)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

VIRTUA PENSION EQUITY PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

NOTE F - EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are investment funds managed by Russell Investments Trust Company Commingled Employee Benefit Funds Trust. Russell Investments Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for the investment management services were \$175,352 and \$267,112 for the years ended December 31, 2024 and 2023, respectively.

NOTE G - FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed Virtua by a letter dated November 2, 2011, that the Plan was designed in accordance with the applicable regulations of the Internal Revenue Code requirements. During 2013, the Plan had a certain operational issue occur related to the payment of minimum required distributions to certain Plan participants and beneficiaries for the period from 2002 through 2013. In order to prevent the Plan from incurring a qualification defect, the Plan Sponsor filed a corrective action plan in accordance with the acceptable correction methods of the Employee Plans Compliance Resolution System (EPCRS). The Plan Sponsor is in the process of taking necessary corrective steps. The Plan submitted a request to the Internal Revenue Service in March 2015 requesting a determination letter on the qualification of the plan. The Plan received a favorable determination letter on September 22, 2016. The plan has been amended since receiving the determination letter. The Plan sponsor believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code, therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. There were no penalties or interest for the year ended December 31, 2024.

NOTE H - PLAN TERMINATION

Virtua has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

VIRTUA PENSION EQUITY PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

NOTE H - PLAN TERMINATION (Continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

NOTE J - FAIR VALUE MEASUREMENT

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

VIRTUA PENSION EQUITY PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

NOTE J - FAIR VALUE MEASUREMENT (Continued)

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value (these are often based on internal models and there is rarely a two-way market). The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Investments held in the Plan primarily consist of investment funds under the common/collective trust. These assets are recorded at fair value on a recurring basis. These are measured at fair value using the net asset value ("NAV") per share (or its equivalent) as a practical expedient and are excluded from the fair value hierarchy. These investments under the common/collective trust are typically valued using the NAV provided by the issuer of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus liabilities and divided by the number of shares or units outstanding. The following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of December 31, 2024 and 2023.

Common/collective trusts: Valued by the issuer of the common/collective trust funds based on the NAV of its underlying investments. The underlying investments are valued by the issuer using quoted market prices on active markets and provide for daily redemptions. As of December 31, 2024 and 2023, the Plan's investments in common/collective trust funds have no unfunded commitments.

NOTE K - GROUP ANNUITY CONTRACT WITH NATIONWIDE LIFE

On September 7, 2023, Virtua purchased annuities for approximately \$66.3 million from Nationwide Life & Annuity Insurance Company for retirees and beneficiaries under the Virtua Pension Equity Plan who were in pay as of May 1, 2023. The annuitized benefits were generally under \$1,000 each month and have been paid directly by Nationwide beginning November 1, 2023. Approximately 1,900 payees are impacted. The impacted payees were removed from the accumulated plan benefits as of the January 1, 2024 measurement date. Effective November 1, 2023, the Plan was so amended.

VIRTUA PENSION EQUITY PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

NOTE L - SUBSEQUENT EVENTS

Virtua had no minimum 2024 plan year funding requirement due by the September 15, 2025 deadline. Virtua opted, however, to make a \$14.0 million plan contribution for the purpose of increasing plan assets to the estimated benefit obligation of approximately \$104.4 million. It is Virtua's intention to proceed with terminating the plan in the manner specified by regulation.

Decrement timing

The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2023 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Funding policy

The company's funding policy is to contribute an amount at least equal to the minimum required contribution under ERISA. Virtua may increase its contribution above the minimum, if appropriate to its cash position and the plan's funded status.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with Virtua and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Virtua and its third-party administrator furnished participant data as of January 1, 2024 and information on plan provisions. Information on assets and contributions was supplied by the trustee. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data was not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with Virtua, the following assumptions were made for missing or apparently inconsistent data elements:

- Missing forms of payment for retirees were assumed to be a single life annuity.
- Where applicable, the following items were updated from the administrator's data based on information in the payment register: valuation status, pension amount, retirement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
----------------------	--

Rates of increase in:

Compensation	Assumed compensation increases were selected by the plan sponsor and reflect the current market environment on the measurement date.
--------------	--

National average wages (NAW) (e.g., Social Security wage bases)	The assumed NAW was selected by the plan sponsor and reflects the current market environment on the measurement date.
---	---

Increases in statutory limits (CPI)	The assumed CPI is selected by the plan sponsor and reflects the current market environment on the measurement date.
-------------------------------------	--

Plan-related expenses	Plan-related expenses are estimated by determining the expected actual expenses for the coming year, reflecting items like PBGC premiums.
------------------------------	---

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).

Source of Prescribed Methods

Funding methods The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430, and the base mortality table was updated to Pri-2012, as required.
- The interest rates used to calculate the funding target and target normal cost were updated to use the Full Yield Curve as of the month preceding the valuation date.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Name	Virtua Pension Equity Plan
Valuation Date	January 1, 2024
Enrolled Actuary	Jason Rohrer, FSA, EA
Enrollment Number	23-07974

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Decrement timing

The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2023 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Funding policy

The company's funding policy is to contribute an amount at least equal to the minimum required contribution under ERISA. Virtua may increase its contribution above the minimum, if appropriate to its cash position and the plan's funded status.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with Virtua and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Virtua and its third-party administrator furnished participant data as of January 1, 2024 and information on plan provisions. Information on assets and contributions was supplied by the trustee. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data was not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with Virtua, the following assumptions were made for missing or apparently inconsistent data elements:

- Missing forms of payment for retirees were assumed to be a single life annuity.
- Where applicable, the following items were updated from the administrator's data based on information in the payment register: valuation status, pension amount, retirement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
----------------------	--

Rates of increase in:

Compensation	Assumed compensation increases were selected by the plan sponsor and reflect the current market environment on the measurement date.
--------------	--

National average wages (NAW) (e.g., Social Security wage bases)	The assumed NAW was selected by the plan sponsor and reflects the current market environment on the measurement date.
---	---

Increases in statutory limits (CPI)	The assumed CPI is selected by the plan sponsor and reflects the current market environment on the measurement date.
-------------------------------------	--

Plan-related expenses	Plan-related expenses are estimated by determining the expected actual expenses for the coming year, reflecting items like PBGC premiums.
------------------------------	---

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation	• The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430, and the base mortality table was updated to Pri-2012, as required. • The interest rates used to calculate the funding target and target normal cost were updated to use the Full Yield Curve as of the month preceding the valuation date.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

Effective date	January 1, 2003
Eligibility for Participation	Participants as of December 31, 2003 shall continue to participate in the plan. No new employees will become eligible for the plan after December 31, 2003. Effective August 31, 2003, JNESO union employees no longer accrue benefits under the plan. Effective December 31, 2003, HPAE union employees who have not attained age 50 with 10 years of benefit service no longer accrue benefits under the plan. Effective January 1, 2004, nonunion employees who have not attained age 50 with 10 years of benefit service as of December 31, 2003 no longer accrue benefits under the plan. Nonunion employees who have attained age 50 with 10 years of benefit service as of December 31, 2003 continue to accrue benefits under the pension equity formula. Effective January 1, 2004, HPAE union employees who attained age 50 with 10 years of benefit service as of December 31, 2003 and have chosen so, continue accruing benefits under the pension equity formula. Effective December 31, 2019 non-union employees no longer accrue benefits under the plan.

Definitions

Plan year	Twelve-month period beginning on January 1.
Year of Service	A 12-consecutive-month period coincident with the Plan Year during which not less than 880 hours of service have been worked. For service prior to January 1, 2003, as determined under the plan provisions in effect prior to that date.

Plan Name:	Virtua Pension Equity Plan

Year of Benefit Service

All service during Plan Years after December 31, 2002 for which the Participant is eligible for pension equity benefit accruals and completes the following Hours of Service:

Hours of Service	Years of Benefit Service
Less than 441	0
441 to 879	0.5 year
880 or more	1 year

For purposes of determining a participant's Pension Equity Benefit Percentage, all Years of Credited Service earned under the prior provisions in effect as of December 31, 2002 are included as Benefit Service.

Compensation

W-2 wages received from a participating employer, excluding PTO sellback. Compensation considered shall be limited to the dollar limitation described in Code Section 401(a)(17), as indexed by the cost-of-living adjustment factor prescribed under Code Section 415(d).

Average Compensation

The average Compensation of a Participant for the 60 full consecutive months out of the last 180 (or fewer) for which the average is the highest.

Applicable Interest Rate

The annual rate of interest as required under Code Section 417(e) determined as of the second calendar month preceding the first day of the Plan Year during which the annuity commencement date occurs.

Applicable Mortality Table

1994 Group Annuity Reserving Table, or such other mortality table specified by the Internal Revenue Service pursuant to Code Section 417(e)(3)(a)(ii)(I).

For annuity commencement date on or after January 1, 2008, the applicable mortality table specified under Code Section 417(e)(3)(b).

Interest Credits

Interest Credits on the balance of the participant's account shall be added to a participant's account beginning with the participant's date of termination, and shall continue to be added to the participant's account until the participant's annuity commencement

date. Interest Credits shall be based on an annual interest rate of the lesser of three percent (3%) or the Applicable Interest Rate.

Pension Equity Benefit Percentages

1% for each Year of Benefit of Service after January 1, 2003 while the participant is under age 50 or has fewer than 15 Years of Benefit Service; and

2% for each Year of Benefit Service after January 1, 2003 while the participant has attained age 50 and has at least 15 Years of Benefit Service.

Percentage is based on age and Benefit Service as of the end of the Plan Year and is granted only if the participant is eligible for pension equity benefit accruals.

Account Balance

As of any determination date, the Account Balance of a participant shall equal the lump sum that is the product of the sum of the Participant's Pension Equity Benefit Percentages, and the Participant's Average Compensation.

Frozen Accrued Benefit

Accrued benefit as of December 31, 2002 under the provisions then in effect.

Pension Equity Accrued Benefit

The product of (1) and (2), divided by (3) where:

(1) is the projected Account Balance at Normal Retirement Date (based on Average Compensation at determination date and assuming the participant continues to be an employee until Normal Retirement Date, if employee's benefit is not frozen; based on Average Compensation and benefit accruals ceasing at the freeze date, if employee's benefit is frozen)

(2) is a fraction, the numerator of which is the participant's number of Years of Benefit Service from January 1, 2003 to the participant's termination of employment and the denominator of which is the participant's number of Years of Benefit Service from January 1, 2003 to the participant's Normal Retirement Date; and

(3) is the single life annuity factor at Normal Retirement Date based on the Applicable Interest Rate and the Applicable Mortality Table.

Memorial Health Alliance Provisions

Plan Provisions

Effective date	January 1, 1968. Most recent amendment effective January 1, 2004.
Eligibility for Participation	The first day of the month coincident with or next following attainment of age 21 and completion of one year of service. Effective January 1, 1990, employees of Community Nursing Services and Burlington Geriatric Centers are eligible to participate in the plan. Effective January 1, 2003, benefits accrued under this formula were frozen. Effective January 1, 2004, HPAE union employees who had attained age 50 with 10 years of Benefit Service by December 31, 2003 and have so chosen, receive benefits under this formula retroactive to January 1, 2003.

Definitions

Plan year	Twelve-month period beginning on January 1.
Year of Service	A 12-consecutive-month period coincident with the Plan Year during which not less than 1,000 hours of service have been worked.
Credited Service	All service during Plan Years in which the Participant is credited with 1,000 or more hours of service with Partial Years of Service during the first and final Plan Years of employment for each calendar month in which the Participant completes one hour of service. Each such month shall count as 1/12 of a year. Credited service was frozen as of December 31, 2002, except for certain active HPAE union employees who attained both age 50 and 10 years of Benefit Service by December 31, 2003 and elected to receive benefits under this formula.
Vesting Service	All Years of Service for which the Participant is credited with 1,000 or more hours of service except those prior to the Plan Year during which the Participant attains age 18.

Preretirement spouse benefit

A benefit payable to the spouse of a deceased Participant who had completed five Years of Service prior to the death.

Benefits Paid Upon the Following Events

Normal retirement

A monthly benefit equal to the sum of:

1% of Average Final Compensation up to Covered Compensation amount multiplied by Credited Service, up to 35 years.

1.5% of Average Final Compensation over the Covered Compensation amount multiplied by Credited Service, up to 35 years.

1.5% of Average Final Compensation multiplied by Credited Service above 35 years, up to 5 additional years.

Early retirement

The accrued Normal Retirement Benefit reduced $\frac{1}{2}\%$ for each month by which the actual benefit commencement date precedes the Normal Retirement Date.

Postponed retirement

The benefit based on Average Final Compensation and Credited Service up to the date of actual retirement.

Vested termination

The accrued Normal Retirement Benefit commencing at age 65.

Reduced benefits may be paid as early as age 55. The reduction is $\frac{1}{2}\%$ for each month by which commencement precedes the Normal Retirement Date.

Social Security Make-up Benefit (ESP)

The benefit is payable on the first of the month following or coincident with the earlier of (i) age 65 or (ii) age 62 with five Years of Service. The amount of the benefit is the family Social Security benefit due to a one-year withdrawal from the Social Security system in 1983. The amount is reduced by 5/9% for each month that commencement of payments precedes the Participant's Normal Retirement Date.

Other Plan Provisions

Forms of payment	The normal form of benefit payment is a life annuity for single participants and an actuarially equivalent 50% joint and last survivor annuity for married participants. Optional forms are a three, five, ten or fifteen year certain and continuous annuity, a 50%, 66 2/3%, 75%, and 100% joint and last survivor annuity or lump sum.
Annuity Conversion Factors	The conversion factors for optional forms of payment are determined using the greater of WTW 1971 Unisex mortality table set back 3 years for participants and beneficiaries, and an interest rate of 8%, and the 417(e)(3) Applicable Mortality Table and interest rates.

Benefits Not Valued

All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with Virtua and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$5,000 in a single lump sum payment. Such lumps sums are not explicitly valued as such; rather such participants benefits are valued using the benefit choice assumptions described above.

Maximum on Benefits and Pay

All benefits and compensation for any calendar year may not exceed the maximum limitations for that year as defined in the Code. The plan provides for increasing the statutory maximum limits automatically.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum contributions. WTW is not aware of any future plan changes which are required to be reflected.

Changes in Plan Provisions Since Prior Year

Increases in the statutory limits on pay and benefits were reflected.

Other Plan Provisions

Forms of payment	The normal form of benefit payment is a life annuity for single participants and an actuarially equivalent 50% joint and last survivor annuity for married participants. Optional forms are a three, five, ten or fifteen year certain and continuous annuity, a 50%, 66 2/3%, 75%, and 100% joint and last survivor annuity or lump sum.
Annuity Conversion Factors	The conversion factors for optional forms of payment are determined using the greater of WTW 1971 Unisex mortality table set back 3 years for participants and beneficiaries, and an interest rate of 8%, and the 417(e)(3) Applicable Mortality Table and interest rates.

Benefits Not Valued

All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with Virtua and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$5,000 in a single lump sum payment. Such lumps sums are not explicitly valued as such; rather such participants benefits are valued using the benefit choice assumptions described above.

Maximum on Benefits and Pay

All benefits and compensation for any calendar year may not exceed the maximum limitations for that year as defined in the Code. The plan provides for increasing the statutory maximum limits automatically.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum contributions. WTW is not aware of any future plan changes which are required to be reflected.

Changes in Plan Provisions Since Prior Year

Increases in the statutory limits on pay and benefits were reflected.
