Independent Auditor's Report

To the Plan Administrator of
Southwest National Bank 401(k) Profit Sharing Plan

Opinion

We have performed audits of the financial statements of Southwest National Bank 401(k) Profit Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Southwest National Bank 401(k) Profit Sharing Plan

Notes to the Financial Statements

1. Description of Plan

The following description of the Southwest National Bank 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the Plan administrator.

General - The Plan is a defined contribution plan established effective January 1, 1959, and restated July 1, 2022. The Plan is sponsored by Southwest National bank (the Company) for the benefit of its employees who are age 21 or older, excluding leased and union employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company's principal members of management (Management) are responsible for oversight of the Plan. Management determines the appropriateness of the Plan's investment offerings and monitors investment performance. Southwest National Bank is the trustee of the Plan.

Plan amendments - Effective January 1, 2024, the Plan was amended to remove the discretionary employer matching contribution provision and add a safe harbor matching contribution provision.

Contributions - Each year, participants may contribute up to 75 percent of pretax annual compensation, as defined in the plan document, up to the maximum limits of the Internal Revenue Code (IRC). Participants also may designate all or a portion of their deferral contributions as after-tax contributions into a Roth account. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover), as applicable. The Plan includes an automatic enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. There are no scheduled increases as of December 31, 2024.

For the year ended December 31, 2023, the Company elected to contribute a discretionary match of 50% of the first 4% of base compensation that a participant contributed to the Plan. Effective January 1, 2024, the Company contributes a fully vested safe harbor matching contribution of 100% of the first 5% of base compensation that a participant contributes to the Plan.

Southwest National Bank 401(k) Profit Sharing Plan

Notes to the Financial Statements

1. Description of Plan (continued)

The Company may make additional nonelective profit-sharing contributions which are discretionary and subject to vesting provisions. For the years ended December 31, 2024 and 2023, the Company made nonelective profit-sharing contributions of \$115,039 and \$261,743, respectively. Employer discretionary matching and non-elective profit-sharing contributions require eligible participants to have one year of service (1,000 hours of service). Contributions are subject to certain IRC limitations.

Participant investment account options - Participants may direct the investment of their voluntary contributions, discretionary employer matching contributions, and safe harbor matching contributions into various investment portfolio options that are grouped by specific investment objective and offered by the Plan. Participants may change the allocation of their contributions into the various portfolio options daily. Nonelective profit-sharing contributions are invested in a portfolio of investments as directed by the Plan sponsor. The plan holds 9 mutual funds, 2 exchange-traded funds, and a money market fund.

Participant accounts - Each participant's account is credited with the participant's contributions, employer discretionary matching contributions, employer safe harbor matching contributions, allocations of the Company's nonelective profit-sharing contributions and an allocation of the Plan's earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their voluntary contributions, employer discretionary matching contributions, safe harbor matching contributions, and amounts rolled over or transferred into the Plan, plus actual earnings thereon. Employer discretionary nonelective contributions vest according to the following schedule:

<u>Years of Service</u>	<u>Vested %</u>
Less than 2	0%
2	20%
3	40%
4	60%
5 or more	100%

Southwest National Bank 401(k) Profit Sharing Plan

Notes to the Financial Statements

1. Description of Plan (continued)

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. A participant can have one loan outstanding from the Plan at a time and the term of the note cannot exceed 5 years, unless the loan qualifies as a loan for the purchase of a principal residence. The loans are secured by the vested balance in the participant's account. The loan interest rate is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - Upon termination of service due to any reason, participants with a vested account balance of \$1,000 or less will receive a distribution form and they may elect a lump-sum cash distribution, a direct rollover distribution to an eligible retirement plan specified by the participant or designated by the Plan administrator, or a combination of a cash distribution and a rollover. If no election is made by the participant, the Plan administrator will issue a lump-sum payment with standard federal tax withholding.

A participant with a vested account balance of \$1,000 or more will receive a distribution form and they may elect a lump-sum cash distribution, a direct rollover distribution to an eligible retirement plan specified by the participant or designated by the Plan administrator, or a combination of a cash distribution and a rollover. If no election is made by the participant, the Plan administrator will transfer the participant's funds to an IRA. If the participant has reached retirement age, a lump-sum cash distribution will be issued with standard federal tax withholding. In addition, the Plan allows for hardship distributions if certain criteria are met.

Forfeited accounts - Forfeited nonvested accounts may be allocated to participants as an additional employer discretionary nonelective contribution. For the years ended December 31, 2024 and 2023, \$8,828 and \$7,435, respectively, were reallocated to participant accounts as nonelective employer discretionary contributions from forfeited nonvested accounts, in accordance with plan provisions. At December 31, 2024 and 2023, there were no balances in these forfeiture accounts.

Notes to the Financial Statements

2. Summary of Accounting Policies

Basis of accounting - The financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Use of estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrator determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees (if applicable) are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses has been recorded as of December 31, 2024 and 2023. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits - Benefits are recorded when paid. There were no benefits requested before year end that were not paid.

Southwest National Bank 401(k) Profit Sharing Plan

Notes to the Financial Statements

2. Summary of Accounting Policies (continued)

Administrative expenses and services - Certain administrative services and expenses of maintaining the Plan are provided and paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses related to third party investment brokers are included in net appreciation in fair value of investments.

Subsequent Events - The Plan has evaluated subsequent events through the date of this report, which is the date the financial statements were available to be issued. No significant items were noted during this evaluation that would require disclosure in the financial statements or accompanying footnotes.

Reclassifications - Certain accounts and disclosures in the prior year financial statements have been reclassified and updated for comparative purposes to conform with the presentation of current year financial statements. There were no changes in previously reported net assets available for benefits.

3. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation technique include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Southwest National Bank 401(k) Profit Sharing Plan

Notes to the Financial Statements

3. Fair Value Measurements (continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits. There have been no significant changes in the techniques used during the years ended December 31, 2024 and 2023.

Money market funds: Valued using the amortized cost method, the money market fund of the Plan invests in cash and cash equivalents and seeks to maintain a stable net asset value of \$1 per share (Level 1).

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1).

Exchange-traded funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end funds that are registered with the U.S Securities and Exchange Commission. These funds are not required to publish their daily NAV. The exchange-traded funds held by the Plan are deemed to be actively traded (Level 1).

Southwest National Bank 401(k) Profit Sharing Plan

Notes to the Financial Statements

3. Fair Value Measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis as of December 31, 2024 and 2023, respectively:

	Investments at Fair Value as of December 31, 2024

Benefits paid to participants	(165,883)	(29,797)
Ending balance	<u>\$ 4,458,668</u>	<u>\$ 3,950,716</u>

5. Related-Party and Party In Interest Transactions

The Plan invests in a money market account managed by Southwest National Bank, the Plan sponsor and trustee; therefore, these transactions qualify as party-in-interest transactions. Southwest National Bank does not receive any fees related to the management of this account.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer discretionary nonelective contributions.

Southwest National Bank 401(k) Profit Sharing Plan

Notes to the Financial Statements

7. Tax Status

The Plan adopted a pre-approved plan offered by Foulston Siefkin LLP. The pre-approved plan received an Internal Revenue Service (IRS) Opinion Letter dated June 30, 2020, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the IRS Opinion Letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and, therefore believes that the Plan is qualified, and the related trust is tax exempt as of the financial statement date.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress (2021 and after).

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Employer Contributions Receivable

Amounts were due from the Company for corrections on annual non-discrimination testing as allowed by the IRS and corrections to the nonelective profit-sharing contribution. For the year ended December 31, 2023, \$15,025 was included in the accompanying statements of net assets available for benefits as employer contributions receivable with a corresponding addition to employer contributions in the statements of changes in net assets available for benefits for the year ended December 31, 2023. The correction was made to the respective participants during 2024.
